SUMMARY

‘The Price of Unlawful Enforcement’

"Justice delayed is justice denied"—William E. Gladstone. This is a legal maxim. It means that if legal redress or equitable relief to an injured party is available but not forthcoming in a timely fashion, it is effectively the same as having no remedy at all.

NOTE: There are NO secrets in this book, just facts everyone knows, and nobody states So Boldly.

"A weak disposition in a strong position perceived as an advantage by the enemy is actually a loss (disadvantage)." – Marcia Anita Hobbs

A polygraph test - The FBI (Federal Bureau of Investigation) uses them upon employment application, and I have called for the test to be used regarding the Police VS Kurt Slaven statement for a decade now. SAPOL refuses resolution in any form, especially a lie detector test that I would pass as honest, and their paedophile would fail, proving his guilt.

It starts at Margaret Street in Mount Gambier, South Australia - after the SAPOL officer, a Mount Gambier district Criminal Investigation Branch (CIB) detective investigating the theft of my structurally written off VH Holden Commodore, sexually assaulted myself at a pine's location in approximately March of 2001. It ends exposing decades of police and governance corruption defined by a cover up of sex industry engagement including the use of children as sex workers by police forces of Australia, the public disclosure of an elusive looming spread of STD's, vile criminal negligence by police and government, and even a Freemason agenda to Gaslight the world and rewrite history like Nazis at times. All this criminal corruption is to cover up sexual criminality amongst the elites of society.

A book full of so many facts, the government and police heavily disrupted my manuscripts and tried to stop its printing. This book was revised numerous times to ensure accuracy, truth, and relevant details for a just resolution under the Public Information Disclosure (PID) Act. The book was registered as a publication with the National Library of Australia (NLA) in 2019, and the ambiguous manuscript was released to the Australian Associated Press (AAP), journalists across Australia, yet the cover-up continued for over half a decade. More than one print contract has been signed for this publication, the initial print a self-publication in Queensland, which was refunded (not entirely) due to, I quote, 'the government' not allowing print stated In-House Publishing self-publishers.

Former friends and family cast aspersions on my character. Damaging remarks and judgments coming about out of perception-based and fact-less aspersions

stemming from police, failed operations, false investigations, and all those low enough to seek benefit. Aspersions; always damaging, always defamatory. A character assassination, pursuing allegations, frivolously and cowardly sourced - supposed anonymous sources making aspersions completely untethered from reality. A character assassination of shoot first, without any evidence, and with no care for the people (or legal ramifications) harmed in the process. No one cared enough about engaging with defamation that was an attempt to damage my character to seed a platform to obstruct justice for myself and Australia's most vulnerable demographics - the disabled, and children.

Exposing the Elite STARForce team of the South Australian Police Force as an organised crime gang engaging in crimes as severe as crimes against humanity. Australian Federal Police in 2023 proved irrefutably to have been involved in actions of assisted suicide, trying to push persons, including myself, over the years (decades) to try and seek the refuge of suicide. Illegal activity comprising of offences listed under the Torture Act targeting whistleblowers, return service personnel, prostitutes, etc.

“You lose your Integrity when you are worse than the people you are chasing.” stated an Australian Human resource - expert interviewed for Australian ABC 4 Corners aired via free-to-view TV in 2023. Turning a Police Force into Criminals was as simple as implementing legislation violating human rights and constitutional rights. The association laws of South Australia are turning our Governance into Chaos and allowing paedophilia to thrive across Australia as the laws expand.

STARForce SAPOL should be charged with war crimes, by definition, governance declares such activities under a "War on Drugs".

'The "war on drugs" has become a popular catchphrase that gained popularity in the United States. The "war on drugs" refers to the government-led effort to combat drug use and drug-related crime through various means such as increased law enforcement and tougher penalties with doubtful results.

(The focus on law enforcement and punishment has contributed to a number of negative outcomes including increased rates of drug-related deaths and persistent racial and economic disparities in drug-related outcomes.

Instead, it is necessary to implement alternative strategies such as harm reduction and a more compassionate and evidence-based approach.)' -

O'Brien Criminal & Civil Solicitors, 2024.

Atrocities and offences committed against any civilian population, as part of a widespread attack, including:

Murder, extermination, enslavement, deportation, mass systematic rape and sexual enslavement in a time of war and other inhumane acts.

Not to mention, under section 12 of the act, it is an offence to conspire or agree to murder a person or to solicit, encourage, persuade, or try to persuade a person to murder another person. This is also punishable by a maximum of life imprisonment. In South Australia, conspiracy to commit murder is outlined in section 12 of the Criminal Law Consolidation Act 1935.

The **South Australia Police** - commonly known as **SAPOL**, is the police force of the **Australian state of South Australia**. It is an agency of the **Government of South Australia** within the **South Australian Department of Justice**. **ICAC SA - The Independent Commission Against Corruption (ICAC)** is a **South Australian integrity agency** associated with the **South Australian Office of Public Integrity**. ICAC (SA) was established by the Labor Government of South Australia in 2013 under the Independent Commissioner Against Corruption Act 2012. **The Australian Federal Police** is the **national and principal federal law enforcement agency of the Australian Government**, with the **unique role of investigating crime and protecting the national security of the Commonwealth of Australia**.

Every police force in Australia is rotten to the core. The price of unlawful enforcement was not only my life as I knew it, but the National Security of Australia, the governance of our people, Integrity, International Intelligence, and So Much more.

Criminal Negligence is rife in government. This book outlines SAPOL criminal negligence, which recklessly endangered my life, as well as other examples of severe negligence in governance.

The chain of causation is the events that make up causes and effects. The chain of causation is the links that bind cause and effect together. An action causes an effect; the chain is the unbroken link between action and effect. Think of every negligence case as a chain.

Criminal Negligence: flouting accountability involves
First and foremost the denial of fact...

- (1) The first denial is the “denial of fact”. This is the person’s refusal to acknowledge that an inappropriate act even occurred. He or she is likely to say such things as “it never happened, you’re wrong, your allegation is not true.” So the first level of acceptance is for the person to acknowledge that the problem is a real one.
- (2) The second denial is “denial of impact”. This is the attempt by the person you confront to minimize the importance of the event you are bringing to their attention. At this stage a person is likely to make statements such as “it’s no big deal”, “don’t be so sensitive”, “you’re making a mountain out of a molehill.” These are all examples of how a person may downplay the importance of the problem he or she caused. The second level of acceptance is for the person to admit that the problem or infraction not only exists but that it is serious.
- (3) The third denial is “denial of accountability”. This is an attempt to avoid responsibility for a misdeed through some sort of explanation that the circumstance was somehow out of the person’s control. “I was stressed out”, “I had too much to drink”, “I was in a bad mood” are all examples of attempts to deny responsibility for the problem. Sometimes the person will even try to say you brought the damage on yourself, i.e. “You made me hit you”. The third level of acceptance is for the person to assume full responsibility for the inappropriate action.
- (4) The last type of denial is what I call “denial of hope.” It takes the form of refusing to acknowledge the willingness to do the work to improve the situation. “That was in the past so there’s no point in bringing it up”, “that’s just the way I am”, “nobody’s perfect” are all examples of how a person can try to duck responsibility for making things better. The fourth

level of acceptance is for the person to actively demonstrate remorse and a desire to heal through words and actions.

To summarize, denial of fact says that the offense in question never happened, denial of impact trivializes the consequences of the inappropriate behavior, denial of responsibility attempts to justify or excuse the behavior, and denial of hope shows that the person is unwilling to take active steps to make things better. Put this all together and you are likely to hear some version of the following four denials from a person you confront: "It didn't happen like that, it's no big deal anyway, it wasn't even my fault and besides there's nothing that can be done about it."

[The Four Denials Of Responsibility](#)

[Submitted by Bill Herring on Sun, 02/07/2010](#)

Denial (aka Perjury) is what Australian Police Forces used for years to cover the most heinous of crimes. Obstructing justice – AUS Law; Section 319, provides a general offence of perverting the course of justice by doing any act or making any omission in order to pervert the course of justice. This is punishable by a maximum of fourteen years' imprisonment.

The SAPOL police predatorial monster in 2001, *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)*, assigned to investigate my white five-speed manual, four-cylinder VH Holden Commodore, spent decades denying and hiding his crimes against young women in Mount Gambier and surrounding areas.

The Commodore was stolen after an accident near my Aquatics Teaching employment premises. A sixteen-year-old Aquatics Teacher, government employed with police clearance, was raped under duress by a SAPOL Police Officer and a Detective of Mount Gambier Police Station CIB (Crime Investigation Branch). The officer was a predator who had no Real intentions of investigating the theft case of my vehicle, which was involved in an accident the day before the sex crime offence. My economically written-off vehicle, stolen overnight from my employer's private car parking, was the event that enabled *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) to commit the sex crime. The theft of the vehicle was linked to individuals known to Kurt Gavan Slaven (DOB 07 Nov 1958; SAPOL/ADF - Navy), a gang of boys, and the COA, which consisted of *persons unknown to me between 2001 and 2009*. Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS), Chad Rick Modra (DOB1981) – Modra brothers, Carl Andrew Brodie (DOB08FEB1984), Sean Irvine (DOB18AUG1981), Ricky Noonan (Mount Gambier District, South AUS 2013) amongst names associated with these police assisted felons. Some of these names are associated with a homicide case that occurred in 2013 in the states of South Australia and Victoria. One of these names ended up in witness protection, to which he communicated to family and friends; furthermore, he was never under threat during this period. A misappropriation of taxpayer funds occurred due to their involvement in police corruption, linked to *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy).

Authoring this Autobiography, after the homicide in 2013, it was evident that Kurt Gavan Slaven (DOB

07NOV1958; SAPOL/ADF - Navy) targeted me to commit this offence. *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* committed his hideous sexual crime and orchestrated a cover-up within a venal police force, leading to further sexual offending against me for years. Corruption and deceit that span decades, recklessly endangering my life.

SAPOL, a police force who used my person as quote “rape bait” numerous times over the years after *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* criminal offence. An irrefutable fact announced during a federally overseen homicide investigation by the state police department's human resources (aka informants). A seedy, procedure-embedded, rape culture exposed. SAPOL, predominantly STAR (Special Tactical and Response) Force, further compromised my life for years with a police certification which was initiated for me and cancelled for myself, being visible and visibly removed from government records recorded for many, many years.

Rape has been used as a weapon of war and oppression throughout history. It has been used to degrade women and their communities, for ethnic cleansing and genocide. Rape culture is pervasive. It's embedded in the way we think, speak, and move in the world. While the contexts may differ, rape culture is always rooted in patriarchal beliefs, power, and control.

“Boys will be boys.”; “She was drunk.”; “Women say “no” when they mean “yes.”

Rape culture is the social environment that allows sexual violence to be normalized and justified, fuelled by the persistent gender inequalities and attitudes about gender and sexuality. Naming it is the first step to dismantling

rape culture. Rape culture is held up by the absence or lack of enforcement of laws addressing violence against women and discriminatory laws on property ownership, marriage, divorce, and child custody. To end rape culture, perpetrators must be held accountable. By prosecuting sexual violence cases, we recognize these acts as crimes and send a strong message of zero-tolerance.

Wherever you see pushback against legal consequences for perpetrators, fight for justice and accountability. One in three women worldwide experience abuse. Violence against women is shockingly common, and we may become witness to non-consensual or violent behaviour. Intervening as an active bystander signal to the perpetrator that their behaviour is unacceptable and may help someone stay safe.

First, assess the situation to determine what kind of help, if any, might be appropriate. You may be able to support the target of sexual harassment by asking how they are or if they would like help, or by documenting the incident, creating distractions to diffuse the situation, or making a short and clear statement directly to the perpetrator such as; *"I'm uncomfortable with what you are doing."* – sourced from United Nations Women Organisation (org).

When *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* sexually assaulted me under duress in 2001, I was not yet seventeen years of age, and *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* knew this. Not only was it a record on my driver's licence, a precise relevant detail regarding a traffic offence, but a more important detail is that *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* asked me my age on the phone before picking me up regarding

a discussion of my stolen vehicle. The crime an intentional offence against a minor (South Australian law), more broadly in a federal context it is an offence for a person in a supervisory role to have sexual interactions with a person under their special care who is aged sixteen or seventeen years (Australian government Australian Institute of family studies - aifs.gov.au). This fact is proven and irrefutable, yet SAPOL - nor the AFP charged *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) for his sex offences over half a decade after SAPOL finally took the statement POLICE vs Kurt Slaven.

Nearly a decade later, the FBI, aware of this heinous crime linked to international organised crime, also visited Australia, yet failed to address the police covering up organised crime sex offending. This is when I lost respect for the FBI and their seemingly bullshit level of integrity – 2023. After years of Epstein investigations that have seen little political repercussions in the United States, I found it disheartening that the FBI's presence here seemed to help elites continue to flout the law more than anything else. Australia's law enforcement was so venal that the FBI's presence only taught the new generation of criminals the FBI's tricks for infiltrating organised crime - the police of Australia were the basis of organised crime at this time. Following in the CIA's footsteps from the early 2000's, where the Gypsy Jokers took hold of the Hells Angels South AUS with SAPOL. One of the briefly touched on relevant events linking USA and Australian law enforcement can be found in article regarding New Zealand Australian felon Benjamin William Ainsworth by Sydney Morning Herald published nineteen years ago: ...'arrested at a Hollywood hostel on Friday by members of the Los Angeles Regional Fugitive Task Force,

following an appeal for help from South Australian authorities.

He is accused of raping or attempting to rape three young women at knifepoint between July 2000 and October 2003 in Adelaide, according to US Marshals Service Chief Inspector John Clark, who heads the fugitive task force.'

SAPOL and US authorities' cooperation dates back decades, as does the plot of Australian law enforcement, similar to that of US law enforcement, to infiltrate governance through investigative methods, including organised crime. The competition between our countries has led to Australian authorities, both willingly and unwillingly, committing perjury at the expense of central intelligence, strategic partnerships, and national security. The free world relies on honesty between allies, as well as the ability to maintain privacy regarding sovereign territories.

I believed in the FBI after reading James Brien Comey Jr.'s (DOB: 14 DEC 1960) book in 2019. By 2023, after half a decade of leadership by Donald John Trump (born June 14, 1946) and following the appointment of Christopher Asher Wray (born December 17, 1966), I could not say I felt the same. I'm not saying I think Christopher Asher Wray (DOB: 17 Dec 1966) is a bad person. From his appearances on television in court hearings in 2023, he appears to be nervous, which shows humanity and sincerity, primarily with a genuine concern to be a good person. Yet, he is without a doubt invested in protecting the FBI's operations and interests in governing legislation (e.g., Foreign Intelligence Surveillance Act (FISA), an Act of government whistleblowing to be applied at the expense, not the service, of the taxpayer), which can be seen as a

conflicting line of leadership. The FBI is required to be non-political in its operations. Regardless of whether you blame the director or not, it is evident that the FBI, like the CIA, has flaws overall. When the help sides with the hindrance, intentionally or unintentionally, the game is somewhat lost to evil. You should never adopt the role of the devil as an investment to proclaim you are an angel. Kyle Seraphin (DOB1981), a former FBI whistleblower who details how the corrupt FBI is using illegal Foreign Intelligence Surveillance Act (FISA) searches to spy on unwitting Americans and describes the transition of FBI agents to intel analytics. From a real-life perspective, the overuse of analytics technology is precisely what has allowed organised crime and sex trafficking rackets to prosper. The use of invasive tools, which can be easily manipulated in real time, often unfolds over time. Sometimes, the manipulations of analytic tools become evident years after the setups, creating avenues for criminals to prosper for decades. Interviewed on Redacted (USA podcast), Kyle Seraphin (DOB1981) details why so many former FBI agents are now coming forward to blow the whistle on corruption and how the bureau uses dirty tactics to destroy these agents' lives.

The events described throughout this autobiography predominantly focus on a span of approximately thirty years. Twenty years of the lesser-known side of my once very private life. Sexual crimes and innuendo aired out for all to read was the ONLY way I could gain resolution regarding the POLICE vs *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) statement, as well as end being used and abused by SAPOL and the Australian Police Force without boundaries. Public Disclosure. Justice for the voiceless was gained by tearing my heart

out, enduring an obscene cover-up, and sharing my story with the American FBI. The motto, “Fidelity, Bravery, Integrity,” succinctly describes the motivating force behind the **men and women** of the FBI.

The exact date of *Kurt Gavan Slaven's* (DOB07NOV1958; SAPOL/ADF - Navy) offence, which was irrefutably covered up, is reflected in various organisational records (PIMS Reports, Vehicle Registration databases, health departments) and major life events that I and others can account for that cannot be altered by maladministration. The offence was committed between February 15, 2001, and April 24, 2001. POLICE VS *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) statement Original Report Number: 18/D48030; New System Report Number: SAP0010038174, initially reported in 2014 to the Police Ombudsman South AUS – unresolved by 2023 when this publication was a finalized manuscript for print, since revised again in 2025 to include ongoing torts and defamation stemming out of the lack of motivation SAPOL had to resolve their mistakes, choices and illegal operations. Revising taking place from 2019 to 2025 due to the extensive efforts carried out during the writing of this publication to fill the threat made against my parents while I was a teenager. The threat: to make my father’s children ‘drug addicts’ and myself a ‘prostitute’. A prophecy chased by police forces more than organised crime. One can only conclude that the threat was police force-driven through police informants and police members mainly — activity I have personally witnessed, suffered, and nearly lost my life due to during my adult years to date.

The events surrounding this sexual crime are an attempted sexual assault by four boys around my age, cruelty to animals, and stalking. There was also an attempt at sexual assault by a known predator masseuse in Mount Gambier District, Donald A Nunn. I believe this offence was committed at the location of Seven Renfrey Place, Mount Gambier. Tim Argent (DOB 1983, Mount Gambier District, South AUS) picked me up from the east end of Mount Gambier, South AUS in the year 2001. Masseuse Donald A Nunn was the first and only masseuse I have attended. Donald A Nunn asked me to remove all my clothing, and this is how he carried out his massage. During the massage, he inappropriately massaged the top of my thigh very close to my private region. At this point, he asked me if I wanted to return for him to perform an experimental massage in exchange for me cooking him an Indian dinner, to which I declined and felt uncomfortable. The massage session ended shortly after this, and Tim Argent (DOB 1983, Mount Gambier District, South Australia), who had dropped me off at the business, picked me up from the location. I immediately informed Tim Argent (DOB 1983, Mount Gambier District, SA) of what had occurred, and I never returned to this location.

These events occurred around and following *Kurt Gavan Slaven's* (DOB 07NOV1958; SAPOL/ADF - Navy) sexual attack on me, terrorising my life. My pets (two black lop-eared rabbits) were murdered in association with the crime to maintain *Kurt Gavan Slaven's* (DOB 07NOV1958; SAPOL/ADF - Navy) threat to me to be silent, I believe - a form of intimidation and associated with an ongoing chain of crimes. Only the person who killed my rabbits knows the purpose of this vulgar crime of cruelty to animals. The vulgar attacks not ending with

the death of my rabbits, the sexual assault attempt by boys in the described property; a chain of other assaults (violent and sexual), torts (harassment and incarceration), and illegal acquisition, abuse of prosecutorial discretion, all driven and/or linked to SAPOL chronicled in this autobiography. The actions of the Adelaide Police Prosecution, in conjunction with the Port Adelaide Police Station, Nuriootpa Police, and Elizabeth, South Australia, in 2024, demonstrate an abuse of prosecutorial discretion that is irrefutable. Prosecutorial discretion refers to the use of a prosecutor's power to decide whether or not to prosecute a case in a manner that is inconsistent with the law or ethical standards, or in a way that unfairly prejudices a defendant. This can include actions such as using the power to harass, retaliate, or pursue a case without sufficient evidence, or when a prosecutor's decisions are based on factors other than the law or the facts of the case. In 2025, the further pursuit of perjury and frivolous charges led Port Pirie Police Station down the same path, engaging in a false arrest and abusing power and process, while also paving another path of clogging the courts with a time-wasting charge at the taxpayer's expense. Commissioner Grant Stevens with no shame in the extent to which he was pushing a cover-up of police sex crimes using an innocent victim and tactics which can only be concluded as efforts to drive the refuge of suicide.

At the scene of the crime committed by *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) in 2001, a threat made after committing the sex offence on duty against myself - a minor, I was threatened "Don't tell anyone" – *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) talking about the rape.

The fact that after this vile crime and threat of silence, I was targeted by young, petty gang (COA, Mount Gambier - late 90's early 2000's) associates of *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) almost immediately after he offended against myself, not long after my car was stolen gives the impression those boys were aware of myself as a person. Of course, they would have been if any of them were part of the theft of my car, which, with the assistance of Kurt Slaven (SAPOL, Australian Defence Force – Navy), they had gotten away with.

Kurt Slaven (SAPOL & Australian Defence Force - Navy), a police officer who spent his career aligning himself with select criminals - bikers from the Gypsy Jokers, Comancheros/Bandidos, Triads, and Hells Angels, predominantly but not limited to. A police force, trying to dominate the sex industry of South Australia and Australia, allows the rape of minors, solicitation of minors, sex trafficking, and desperately hides the most heinous and hideous crimes. In the years that followed Kurt Slaven's (SAPOL & Australian Defence Force - Navy) sex crimes, SAPOL used me as real-life “rape bait” in a string of unconscious and conscious sex crimes directly associated with SAPOL. Malicious activity collated in the chain of causation, showing offenders and their links to the police force.

For me, the attacks, both psychological and physical, were Military warfare being imposed on a civilian - a little girl. For society, it was an endless undermining of civil rule. Not to mention those ‘crimes against humanity’.

For the most part, my life has been extraordinary, like very good, though my thirties have been thoroughly

washed over by a paedophilia cover-up. Which is what this book details, so if you want to read the brighter sides of life, I suggest you refer to my other publications – the ‘ANYTHING BUT ORDINARY Judgement and Perception have NO Value here’ Autobiographical series delves into the good stuff. A series of however many books I would like, the books are full of life truths, candid life experiences, and random facts, as with some of my poetic lines and comedic literature.

Focusing on the Ugly Heros side of life, this True Crime autobiographical research book is full of confronting facts and life events. I endured war style, Nazi type psychological attacks, endless gaslighting from police, freemasons, family members; even friends, boyfriends, and randoms alike. From walks down the street to social media, the agenda was bitter and relentless after years of support and praise. It was weird and made me lose respect for people as they lost their conviction—a bipolar social view of right and wrong. When dissecting my experience, I could only perceive that after years of Mount Gambier residents witnessing the no boundaries extent the government will go to cover up the Truth, that it was easier to find peace in ignorance than to continue to stand for what was right – the stakes too high and the rewards to turn a blind eye tempting I suppose. Finding ignorance more blissful than caring was a standard community census on the taboo subject of sex crimes – dehumanisation, a disgraceful standard of human interaction. A consistent, ignorant, and silent treatment psychological approach, characterized by shunning the truth, was the norm by 2020, two years after I began writing this book. Even the media pleaded ignorance and remained silent. Despite having much evidence of the venal state of police and government, plus a Public

Information Disclosure - The Story Behind the Brand BARBWIRE NOOSE (my Human Rights brand), published across the globe by 2023.

From a psychological perspective – the approach of government and SAPOL/STARForces in a character assassination to cover up crimes in government consisted of ambiguity based on falsified facts (aspersions and perjury), deception (operations with the agenda to confuse and conflate facts), psychological attacks, gaslighting, denial and feigned psychosis induced by psychological warfare activity perpetrated under police operations including AFP forces. Global studies show that government victims, whistleblowers, etc, are often the target of claims of mental instability (discussed in further reading) and are gaslighted.

"What form does power take in situations of retaliation against whistleblowers? In this article, we move away from dominant perspectives that see power as a resource. In place, we propose a theory of normative power and violence in whistleblower retaliation, drawing on an in-depth empirical study. This enables a deeper understanding of power as it circulates in complex processes of whistleblowing. We offer the following contributions. First, supported by empirical findings we propose a novel theoretical framing of whistleblower retaliation and the role of mental health, which draws upon poststructuralist psychoanalytic thinking. Specifically, we highlight how intra- and inter-psychic affective and ambivalent attachments to organizations influence the use of normative violence in cases of whistleblower retaliation. The second contribution is empirical and builds upon the existing literature on whistleblower retaliation by highlighting how organizations position whistleblower subjects as

mentally unstable and unreliable individuals, to undermine their claims. We conclude by highlighting the implications of normative power for the outcomes of whistleblower struggles." - *Kenny, K., Fotaki, M. & Sriver, S. J Bus Ethics (2018)*.

As summarized in this study on mental health related to whistleblowing. Mental Health instability is the token go-to accusation for claims against authorities, and the extent to which the Police were trying to grasp at regarding myself. Endless defamatory pursuits that are utterly beyond my realm of understanding as a victim of serious criminal conduct by police. The defamation generated at this time was severely damaging and had me targeted by many opportunists, as I call them, 'so-called' friends or fence sitters. Examples of this defamation can be sourced from publicans, persons friends with police or police officers involved – including the Department of Corrections employees naming specifically last name Maude employee of prisons South Australia and his defence force trade (NSW based industry trade) linked father (Matthew Maude ABN:40 959 798 278) who engaged in defamatory discussions and encouraged life effecting misogynist actions in 2025 – after many correlating and relevant facts had been publicly disclosed and publish via Austin Macauley Publication 'The Story Behind the Brand – BARBWIRE NOOSE' authored by founder of the clothing brand; me. People who would do anything for a dodgy leg up in life, fifteen seconds of fame; people even committing sexual crimes, all things, for petty benefits. Despicable behaviour by Anyone.

When the police force failed to convince enough of the population of my mental instability by 2023, SAPOL engaged incarceration torts (2024) initiated by VICPOL in 2022. Yes, you are reading facts, the facts show

SAPOL incarcerated myself based on police perjury involving the very predator that raped me at sixteen years old *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy). Clear abuse of prosecutorial discretion by countless SAPOL officers under the direction of the Commissioner of SAPOL, Grant Stevens. Read Autobiography: Political Prisoner #192703 *The Price of Unlawful Enforcement* (ISBN: ***-*****-***-*, paperback, hardcopy, e-book & 978-064578-609-5; E-Pub PDF) for the details and documents regarding this tort. Or flick to the Conclusion Chapter of this book for the basics of the jail experience. Punitive actions by police coupled with procedural irregularities, I suffered extensively during 2024, traumatised by this extraordinary, outrageous, illegal activity of the police ‘Boys Club’. After spending a decade on their cover-up, the next approach reflected the tired attitude I experienced in my hometown at the height of the police force cover-up announced as successful by a women’s safety employee - Stephanie Baker (2020) – silent treatment and ignorance, the tools of oppression. The oligarchy (‘olɪɡɑːki; noun - a small group of people having control of a country or organization) is often a last resort, characterized by ignorance and silencing the media.

My family has infamously tried the silent approach for years, which, as you can see, was very unsuccessful as an oppression tactic. I have had a much more successful, productive life, not living in the shadows of their lies, denial, greed, and ignorance. Ignorance, also known as the silent treatment, is strikingly similar to gaslighting, as both tactics flourish in exerting power and control. Some therapists call the silent treatment a form of gaslighting, used to cause personal uncertainty and a sense of doubt

when considering goals, self-views, and worldviews. I was certainly putting my views and truth to the world confidently, and I have no doubt this is what police ignorance was supposed to achieve in the latter years of public disclosure, in a cover-up. All failed miserably. The determination I saw to ignore the truth only inspired me to make the truth too big to ignore.

I have endured and survived some of the most extreme forms of private and public sector gaslighting on record. Furthermore, some of the technology and tactics I have witnessed are the most extreme gaslighting and psychological warfare the mind can endure. There were relentless and endless home invasions, starting with my two rabbits being murdered in the first rental property I resided in 2001, the gaslighting events occurring not long after *Kurt Gavan Slaven's (DOB 07NOV1958; SAPOL/ADF - Navy)* sexual offence. The death of my pets following a failed sexual assault attempt by four boys, an attack on my person associated with sex offender *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)*. These boys were not known to me in 2001, yet they were known to SAPOL and the Mount Gambier CIB. Known to SAPOL sex offender Kurt Slaven and said to be responsible for the theft of my VH Holden Commodore (UFK 895), which led to Kurt Slaven's (SAPOL & Australian Defence Force - Navy) predatory sex offence against me, a minor at the time. I have no doubt Kurt Slaven (SAPOL & Australian Defence Force - Navy), writing this Autobiography with many facts unveiled and irrefutable, that the cover-up of the vehicle theft was directly correlated with the attempted sexual assault, the start of the chain of causation. The boys said to be part of a youth gang called COA (COA = Constantly on Attack) associated with the

Gypsy Jokers, a Nazi aligned biker gang as well as American biker gang the Bandidos, Hells Angels counterparts Red Devils and Australian biker club the Comancheros. Links created and assisted by corrupt SAPOL police officers and operations. The COA youth gang was created by SAPOL officers recruiting seedy and criminal family members as human resources - informants. An expanding informant gang of relatives and friends directly linked to the police force, associating and recruiting young impressionable boys at this time in Mount Gambier, extending to Adelaide, the Capital City of South Australia. The COA was predominantly recruiting low-socioeconomic students predominantly from Grant High School and desperate to fit in Mount Gambier High School students as well as other schools in the regional area of South Australia at this time. This group of boys latching onto like-minded, impressionable young persons. Twenty years after this human resource sex offender gang, the COA, was developed these boys had spread across the Nation – throughout Australia, most of them drug addict, sex industry pimp wannabes recruited as human resources, spreading STD's (knowingly without disclosure to partners), aligning with the various gangs in Australia. This is how the bikers in Australia gained further power and control within Australia using their known avenues of extortion of venal married men, police, and politicians - anyone who wanted to hide crimes or infidelity. The definition of a biker in Australia was basically a human resource willing to rape sex industry workers - anyone who spoke out against police and corruption in government alike after seedy police and seedy informants joined gangs and spread the word on how to be a successful sex offender. 'Deny, Deny, Deny' is a key to offending, which is often

one person's word against another. This is where polygraph tests serve a real purpose in court. It is easy to ask the question “have you sexually engaged with persons underaged?”, etc – the offender doesn’t even need the victim mentioned to confirm their crime. Something police are unwilling to do, as sex offending is a systemic problem.

Operations recruiting known felons with more to hide than a drug dealer dobbling to police so they can continue to target children, women, and the vulnerable is disgusting. And disgustingly real. After decades of signing sex offender felons and related heavy drug users as informants and human resources, police co-operation with their criminal counterparts was not winning the war on drugs yet was winning the bikers' plight for power against law enforcement. The venal police force was so far gone when Australia entered the era of National Integrity backboneless against organised crime aligned sexual offences. Especially crimes against sex workers, one of the oldest professions in the world, whether we like it or not.

It can be argued that policing operations have difficulties, especially surrounding organised crime. Yet, it can’t be denied that police forces' heavy involvement in crime as opposed to society's safety is the dominating factor of this problem. Police be Police, Gangsters be gangsters – I say this a lot.

The twenty-four of February 2025, Natalie O’Brien journalist for ‘The Nightly’ print media published article reading: ***‘AFP bungle potentially leaves cops who***

infiltrated dangerous crime networks exposed to vengeful mobsters; *A group of undercover police officers who infiltrated some of the world's most dangerous crime networks only to be forced into hiding when their cover was potentially blown, have thrown themselves on the mercy of the Attorney General asking for protection.*

The agents are pleading for help saying their former employers, the Australian Federal Police, have bungled their case and failed to ensure their safety from mobsters who think nothing of killing suspected informers let alone undercover cops.

In a rare glimpse inside the world of undercover police operations, the former cops say they and their families were exposed after discovering their assumed identities may have been compromised and then being left with no "exit strategy" or story to give the crooks for suddenly vanishing from their entrenched positions.

"Deep infiltration by Australian undercovers on major organised crime targets in Australia should never have been considered in the first place without proper exit strategies, ensuring we were relocated overseas for an extended period of time," one agent said.

"It was a half-baked plan to deploy us with no real consideration of our real lives when it comes to the end," they said.

The Australian Federal Police Association (AFPA), acting for the agents, has written to the Federal Attorney-General, Mark Dreyfus, and the AFP Commissioner Reece Kershaw for help.

AFPA's President Alex Caruana has requested the undercover agents get the proper safety measures they deserve.

"Their service in high-risk and challenging conditions, along with their unwavering commitment to protecting our country and communities warrants this attention and intervention," Mr Caruana wrote.

The unprecedented situation has also sparked a number of professional standards investigations into four senior AFP police officers accused of misconduct in the way they handled a risk and threat assessment for the agents which found there was a "expected" or certain threat but then ordering a subsequent "body of works" assessment which downgraded the threat to just "possible".

In a letter to the AFP Commissioner, the AFPA stated said they had "been advised by a senior AFP member involved in the 'body of works' of the misconduct, malpractice and poor work standards that took place during its production."

The Attorney-General has previously been asked to investigate the treatment of undercover police operatives by the Parliamentary Joint Committee on Law Enforcement, because the committee did not have the power to investigate individual complaints or to review sensitive material. The undercover agents have taken action against the AFP under the Scheme for Compensation for Detriment caused by Defective Administration, to cover international relocation costs for them and their families, loss of wages, superannuation, and security costs.

The agents who had infiltrated more than one crime group at the highest levels — multiple times — for years

in various locations around the country now say Australia is no longer safe for them.

The agents argue the only thing the AFP has done is install security systems with a panic button in their homes, which does nothing to protect them if they have an encounter outside their homes or while out with their families.

Greens Justice spokesman, Senator David Shoebridge, said these agents had put their lives on the line and when they desperately need help have been abandoned.

“They are asking for new identities and to keep them their families safe and that involves a bit more than providing a panic button,” Senator Shoebridge said.

“What they are asking for will disrupt their lives but experienced officers only ask for something like this if it is really needed.”

Senator David Van who has drawn the case to the attention of Attorney-General Mark Dreyfus said “I believe all good-hearted Australians would be outraged at the treatment of these agents by the AFP, I certainly am.”

“The lack of care and action by the AFP can only be explained by an unwillingness to provide the funds to protect them - it’s fiscally driven,” Senator Van said.

“The security of these members has not been taken seriously and this is reason enough to suspend the undercover program.

“It is arguable that members should think long and hard before going undercover, potentially putting themselves in harm’s way.

“If the AFP is too heartless to remedy this situation, the Attorney-General must act urgently. If Minister Dreyfus fails to act then if any harm befalls these brave police the responsibility lands squarely on his shoulders.”

The agents say “above everything ...what we want is accountability and for the misconduct that has occurred to be uncovered and our safety addressed by the AG. Ultimately the AFP are not a mature enough organisation to run such a high risk endeavour.”

A classified review of the AFP undercover program in late 2023 by retired AFP assistant commissioner Frank Prendergast showed it had been compromised for years by systemic failures, outdated technology and inadequate security.

The AFP have since said the undercover program has since been overhauled.

An AFP spokeswoman said they assess threats and risks to current and former members of the undercover program and apply appropriate security mitigations.

“At present, the AFP have not identified any direct threat to these former members,” the spokeswoman said.

“Over the 22 years of the program, we have never had an undercover operative physically harmed through the course of their duties.”

The Attorney-General has been contacted for comment.’

This article reflects many of the concerns and content raised in this Autobiography. The Price of Unlawful Enforcement is heavy for both sides of the fence, police and the public both suffering from governing criminal negligence.

Australian politicians and the broadly compromised police force were so heavily involved and out of control when organised crime began to collude against the association laws in 2012. By 2023, illegal operations and activities exposed in the media on television shows like ABC 4corners and in television series narratives like *Underbelly* in Australia provided evidence of claims I had publicly disclosed against the police force for five years in writing. By 2025, it is irrefutable that the worst move the police and governance made was to implement strategic narcissism legislation - the association laws. Laws that in 2012 led to bikers across Australia meeting in Australia's tourist hub, Queensland (QLD). The brotherhoods binding together with one common goal, suing the government over this legislation, not fit for purpose, and in violation of Constitutional rights and Human Rights (Universal Declaration of Human Rights charter). It only took a short four years after 'the world's toughest anti-bikie laws' were introduced, before it was evident and time and time again proven that these breaches of Universal Human Rights, the Constitution, and Privacy laws were unlawful when applied. The association Laws allowing Police Brutality and gang-like violence, including sex crimes against minors; rape and murder driven activities, to escalate. Abuse of prosecutorial discretion violates Constitutional law. Engaged and encouraged by the Australian Police Force and Tactical Teams from Top to Bottom, state and nationally. These unlawful attacks on persons and premises are the sole reason behind the bikers in Australia aligning.

It was in May 2008 when the Labor Government of South Australia passed what Premier Mike Rann (DOB5JAN1953) proclaimed as 'the world's toughest

anti-bikie laws' (Rann 2008), with the introduction of the Serious and Organised Crime (Control) Act 2008, which came into effect on 4th September 2008. Mike Rann (DOB5JAN1953) is a paedophile and also the Premier at the time of my first experience reporting against government sector negligence. Reporting on behalf of disabled persons under Government care and Public Trustee funding at times, over the years 2003 – 2007.

It was also in 2008 when my house was invaded by police and the government under these laws. An innocent little girl sexually assaulted by a paedophile police officer as a minor in 2001, suddenly at twenty-four years of age, to become a targeted individual due to reporting against the Mike Rann (DOB5JAN1953) government. Two paedophiles working together targeting my person is not a coincidence. A whistleblower seen as a threat to the South Australian Labor government regarding my knowledge of Disability sector criminal negligence and more broadly negligence regarding the Mount Gambier, South Australia community, being one of the first people targeted by the unconstitutional association laws, is also not a coincidence. These laws have always been corruptly used; they assume criminality without judicial proceedings and have been criminally implemented for political gain from the start.

Having my Privacy stripped from me in cover-up upon cover-up, my bedroom door filmed nearly every day I owned my house on Penola Road in Mount Gambier until 2014 at the least. These laws, abused unlawfully since their implementation and for over fifteen years, have proven to not only escalate the violence and crime as Arthur Veno predicted but also compromise the nation's National Security.

Doctor Arthur Veno; expert Adjunct Professor of Criminology (Monash University). Professor Arthur Veno was born in the US (1945) and lived in Australia since 1974, passing away in 2019 (R.I.P). Quoting the criminology expert "It's a desperate mistake and one that makes the police seem as if they're doing something, but in every other country where it's been tried it has had no success."

Australia's Crimes Legislation Amendments (Serious and Organised Crime) Act 2010 was some of the worst breaches of Human Rights globally amongst developed societies. Allowing for large-scale corruption and global racketeering from our Country.

Premier Mike Rann (DOB5JAN1953) cited the following as highlights of the Act:

- gang members who engage in acts of violence that threaten and intimidate the public will be guilty of serious offences and will find it harder to get bail;
- police will be able to prohibit members of a bikie gang from attending a place, event or area where this would pose a serious threat to the public;
- the old law of consorting will be replaced with a new law of criminal association that prohibits telephone calls as well as meetings in the flesh;
- stalking a person with the intention of intimidating a victim, witness, court official, police officer or public servant will become a serious offence;
- it will be easier for police to secure orders to dismantle fortifications protecting gang clubrooms; and
- in addition, the legislation created new offences of violent disorder (maximum penalty of 2 years jail); riot

(7 years, 10 years where aggravated); affray (3 years, 5 years where aggravated) and stalking of public officials by OMCG members (7 years; Rann 2008).

By 2023, Arthur Veno's words were not only irrefutable but they were also evident. Australian Police Forces have been seeking the assistance of the FBI since at least 2021 regarding biker activity. Funnily enough, very little changed over the years regarding sexual exploitation, especially in the district of Mount Gambier, South Australia, harbouring Australia's ICE cooks and serious sex offenders. From 2021 to 2024, Australian newspapers endlessly reported on organised crime violence and its escalation, with much gangland war violence seen in the media, including biker presidents murdered and wars between gangs escalating.

All of Australia's organised crime policing units were compromised, not just from the top down, but also politically. Intelligence regarding organised crime was corrupt from the detective units involved in paedophilia right through to police commissioners, the police ministry, and even the courts in Australia. Our twenty-eight VIP (very important persons!!??) paedophiles are just the tip of the Iceberg of Australia's continent of Epstein's benefiting from their alliances with organised crime. At the same time, this unconstitutional, fallacious law targets innocent friends and bikers' children. The association laws do not serve the people; they serve power and overstep fundamental Human Rights.

The association fallacy: a formal fallacy that asserts that properties of one thing must also be properties of another thing if both things belong to the same group. For example, a fallacious arguer may claim that "bears are animals, and bears are dangerous; therefore, your dog,

which is also an animal, must be dangerous. It is proposed that when it is an attempt to win favour by exploiting the audience's preexisting spite or disdain for something else, it is called 'guilt' by association or an appeal to spite (Latin: *argumentum ad odium*). 'Guilt by association' is like *ad hominem* arguments, which attack the speaker rather than addressing the claims, but in this case, the ill feeling is not created by the argument; the spite/disdain already exists (for bikers, organised crime, prostitution).

This Autobiography captures my undoubtedly and undeniably abused side of life and how strategic narcissism only enables organised crime. The book proves irrefutably that SAPOL (police forces, including NSWPOL, VICPOL, NTPOL, and AFP – not limited to) has committed criminal negligence concerning the misuse and abuse of my person. The venal state of Australian governance and policing is exposed. A necessary public disclosure that shines a light on the integral necessity of Human Rights. I legally prove the detriment of cover ups (Perjury); results of floundering duty of care (negligence) in governance and show the association laws irrefutably are not fit for purpose, being used by police to cover up governance crimes applying the laws without legal address of breaches to Constitutional Rights (section 51(xxxi) acquisition of property on just terms, section 80 trial by jury, section 116 freedom of religion, section 117 state of residency) and Human Rights. Not fit for purpose legislation is abused to obtain feigned plausible deniability and Constructive ambiguity. Constructive ambiguity is a term generally credited to Henry Kissinger, said to be the

foremost exponent of the negotiating tactic it designates. It refers to the deliberate use of ambiguous language on a sensitive issue in order to advance some political purpose.

Simply put, the Association Laws of Australia are loosely framed legislation intentionally allowing tyranny. Legislated strategic narcissism, allowing constructive ambiguity and plausible deniability to be utilized to cover up governance sex crimes (including crimes against the disabled and minors). Deniability and ambiguity enable political advancement through the application of unconstitutional laws.

Personally, the most honest accounts of Strategic narcissism use and abuse I have researched are presented by Lt. Gen. H.R. McMaster (DOB 24 JUL 1962), former National Security Advisor during Donald J. Trump's (DOB 14 JUN 1946) administration, in a bold assessment of the most critical foreign policy and national security challenges of our age. For more information on this subject, I suggest searching for his work; he's a class act with an outstanding career and, more importantly, an invaluable scope of knowledge.

After witnessing strategic narcissism to no end, the act/practice of illegal government spy tactics, the use of spies to benefit governments (local and international) activity to discover the military and political secrets of other parties with opposing underlying governance agendas (e.g. Democratic; Autocratic; Republic; Commonwealth) I know too well strategic narcissism is of no long-term benefit to either party engaging the

strategy. Institutional and systematic compromises are playing out with both sides of the government using the police force to spy on each other's sexual misconduct for political gain.

Political means relating to the way power is achieved and used in a country or society.

If a person or place (party) **gain** something, such as an ability or quality, they gradually get more of it.

“Political gain has been allowed over time to become more important than making decisions in the public interest. That is in large part due to the growth of ministerial advisers,” - *Mr Redlich, a former head of the state's Independent Broad-based Anti-Corruption Commission, told The Australian Financial Review (2023).*

Both governments could be said to be aligned with all gangs in Australia, as the motorcycle clubs were against their own best interests cooperating with each other since 2012, with their plot against the association laws. Liberal more heavily aligned with the Gypsy Jokers via Antony “Tony” Pasin (DOB1OCT1977), the political party member for Barker (Mount Gambier and districts) Antony “Tony” Pasin (DOB1OCT1977) an old Mount Gambier lawyer with a cocaine/methamphetamine habit fed by the joker's biker gang entered politics in 2013 and was re-elected in 2019 – at the height of my whistleblowing Labor criminal negligence. Criminal politicians, rorts, and paedophilia are corrupting politics across Australia. William Richard Shorten (DOB12MAY1967), leader of the opposition and leader of the Australian Labor Party from 2013 to 2019, called out on a public free-to-view television show, ‘Parliament Time’ aired on ABC TV, regarding his affiliation with

the Hells Angels. Mark Butler (DOB8JUL1970), Federal Labor Government (Health and Aged Care Ministry) Minister, who was in a leadership role with the Liquor, Hospitality and Miscellaneous Union (LHMU). Unions of Australia are said to be involved in exploitation, extortion, bullying, and even physical assaults. The LHMU turned United Voice, an Australian trade union, from 1992 to 2019. LHMU merged with the National Union of Workers to form the United Workers Union; United Voice is part of the Labor Left faction of the Australian Labor Party. Ministers have been using the boys' clubs like unions to harvest political votes for decades and reward persons who will target individuals on their behalf.

Reading this true crime, real-life analysis/report, you will realise, as did I, that the bikers' association is a constitutional right and the undue focus on organised crime is a deflection from those who control and conspire to the lowest crimes within society (sex crimes, paedophilia, etc).

Accurate accounts of Australia's only two elected serving government's (Labor – red, and Liberal - blue) being heavily corrupted, with no real accountability in their out-of-control malfeasance, tyrannical/hyper legislation implementation, human rights violations, crimes including military crimes, and overall lack of integrity - which could be concluded as a form of espionage; a severe internal erosion of National Integrity compromising Australia's National Security while public accountability is eluded.

Monsters don't hide under your bed; they hide in law enforcement.

Make no mistake, these times reveal that the percentage of sex offenders in society can be equally matched in percentage to those who serve in law/military forces.

The endless illegal cover-ups, legally publicly disclosed in this book, are an example of the venal depths of government. The censorship attempts and desperation of all involved to dilute the truth, unveiled amidst the most corrupt climate in Australia's governance history, as the country headed into nationally legislated Integrity.

***"The Wrong Person in the Wrong Place = Regression.
The Wrong Person in the Right Place = Frustration.
The Right Person in the Wrong Place = Confusion.
The Right Person in the Right Place = Progression.
The Right People in the Right Places =
Multiplication." ~ John C. Maxwell***

INTRODUCTION

'A World Untold'

“Human Rights are the basis of Civil society, when these are lost so is a Humane Humanity.” - Princess Marcia (India/Australia), Freemason - *Le Droit Humain*, Initiated 2015 in Lodge 406 Adelaide, South Australia, AUSTRALIA.

“Do not nurse hatred in your heart for any of your relatives. Confront people directly so you will not be held guilty for their sin.” - Leviticus 19:17 (Bible interpretations). Love Thy Neighbour.

South Australian Police (SAPOL), Victoria Police (VICPOL), Northern Territory Police (NTPOL), New South Wales Police (NSWPOL), Western Australia Police (WAPOL), Tasmanian Police (TASPOL) Australian Federal Police (AFP) and the South Australian government of Mike Rann (DOB5JAN1953) are irrefutably guilty of in some way shape or form (of all or part as listed following) criminal negligence, Human Rights violations, crimes against the Crimes Act (including other acts – Security & Privacy, Torture Act, ongoing), Constitutional Rights/Writs violations, torts, entrapment, perjury, defamation leading to reckless endangerment, assault, and damages.

It's been a process of governance, a spy tactic of the digital age. Privacy breaches, listening devices, extortion, and blackmail; Sexpionage - the involvement of sexual activity, or the possibility of sexual activity, intimacy, romance, or seduction to conduct espionage. Sex or the possibility of sex can function as a distraction, incentive, cover story, or unintended part of any intelligence operation. Information that rewards the beholder in times when materialism is rife and payoffs are grandiose.

Tyranny occurs when legislation allows for these spy tactics – ‘privacy breaches’ to thrive in everyday society. Ambiguous language and laws are often used for political gain rather than in the public interest. In the times of invisible technology and microscopic recordings, the level of spy tactics is not necessarily about extortion. Law enforcement and governments across the world are guilty of waiting for secrets (including aspersions, gossip, grudges) to drop to get possible friends and family involved in gaining brownie points against your life. Whether for a leg up between friends, corporate motivations, or for political gain, your skeletons are of the most interest to the government when you are of interest to the government, and if you don't have any, they'll make something up, preferably based on a jealous relative's opinion. The CIA, if intelligence is accurate, holds one of the largest databases of information of its time. The old divide-and-conquer approach of government has taken a whole new level in our digital times. Gone are the days when the Roman vs. Christianity battle was won on numbers and

believers, or kings vs. kingdoms holding power with the most ruthless armies. The power is held in your hands; in the device you do not part with – your mobile phone. The everyday phone of anyone today who has one is a listening device, a camera, and a tracker. Nothing is sacred, yet nothing is lost if you know yourself, know your friends, and prioritise your Truth like a member of the Mafia. The only way to survive times where everyone is no one yet anyone can be someone, for a price, is to be yourself truly.

Life in a Tartarus zone – **Tartarus**, in Greek Mythology, is the deep abyss used as a dungeon of torment and suffering for the wicked and as a prison for the Titans. Mount Gambier, the Nazi gang of the Gypsy Jokers hub outside Western Australia, to some also known as the Fourth Reich bikers. Some Germans (Aryan race) and veterans never really left the war behind, for better or worse.

In 2001, amongst my peers of the same age, the height of the Gypsy Joker-riddled Comancheros was evident, as the police COA youth gang joined in Mount Gambier. Boys were summarised as terrorising young women in a gang aligned with the police force for decades, forcing prostitution, and a rapid spread of STDs. The year 2001 marked my first year away from the family home farm, officially signifying my departure from my parents' home. A quiet farm property thirty-eight kilometres from the city of Mount Gambier was my family home until I finished school in the year

2000. I then moved in with my boyfriend, who lived with his parents in a beach shack in the Cape Douglas area of South Australia, at the end of 2000, before Christmas. Young love, we thought we'd get married and spend the rest of our lives together, which was not the case. I was a quiet mess after *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) raped me, and our young love faded like my trust in the police.

The group of loser COA boys I didn't know at this time went to school with my first serious boyfriend. The group, consisting of many football players outside the school yard, recruits. Police, benefiting from broken young girls sexually, by allowing COA recruits to terrorise Mount Gambier and girls of around my age demographic for decades without addressing their crimes or making arrests if a crime was investigated, rarely was this group of boys heavily prosecuted, if prosecuted at all. Spreading the Sexually Transmitted Disease, Human Papilloma Virus (HPV), like the *Plague*, Larry Kramer so powerfully labelled human immunodeficiency virus (HIV) in his time, fighting the injustices of STDs. Over 80% of the population globally can be said to have been infected or in contact with possible infection (short-term and long-term infections) by the 2000s, with a disease that can lead to AIDS; HIV is very much a plague on society. Simple maths shows the spikes, falls, and that no region is immune to infection. This fact also makes it impossible to eradicate the Human Papillomavirus through immunization using Gardasil alone. Australia was one of the first countries to roll out a national cervical cancer immunisation

campaign using Gardasil, which had been tested and trialled for ten years before becoming available in Australia. I was one of the first people in Australia to receive the immunisation, which was a course of three immunisation injections over nine months, initiated for me approximately the end of 2005. The vaccination, a series of needles administered like a flu shot, was approximately AUD 500.00 each before it became part of the Pharmaceutical Benefits Scheme (PBS) and was Free to students during their teenage years. In 2006, the TGA approved Gardasil, making Australia the first country to roll out a national HPV vaccination program. The HPV vaccine Gardasil is provided free to both boys and girls aged 12 to 13 years through the National Immunisation Program (NIP). The NIP's HPV program was introduced for girls in 2007 and extended to boys in 2013.

The South Australia Police and the Federal government seemingly contributed to the cover-up of the STDs plaguing Australia, and within the region of the Limestone Coast, evidently so, I think, with how Gardasil was rolled out into Australia. The police force of Mount Gambier excused the spread, to run gangs, use prostitutes, and recruit young persons into gang violence and illegal industries. Many officers infected with HIV themselves, the seedy secrets of SAPOL spanning decades. Secrets kept in life-threatening ways - staged Domestic Violence, Sexual Assaults, and even Murders to cover up the police (and governance) associations with the Gypsy Jokers, Hells Angels, and other bikers' clubs. The threat of giving someone STDs was a regular

occurrence, one of the worst offenses imaginable, overlooked as an insurmountable issue. Conflate and confuse was the approach to the many elephants in the room, especially when paedophile crimes, the COA (Gypsy Jokers/Comancheros), prostitutes, or STDs came up. The cast aside insurmountable STD threat was exposed as an AIDS threat by the local Mount Gambier Newspaper, The Border Watch, in 2016. Yet, the Police Ombudsman's 2016 report still fell short in addressing institutional concerns related to accountability, failing to secure a Royal Commission into SAPOL. No Royal Commission into SAPOL was called in 2019, stemming from this report, nor out of a second detrimental report that was made against SAPOL, the Police department led by Commissioner Grantley John Stevens (SAPOL), commonly known as SAPOL Commissioner Grant Stevens. In 2025, Commissioner Grantley John Stevens (SAPOL) was under investigation for misconduct earlier in his career. I hoped that the reckless endangerment, torts, and criminal negligence I had presented would also be addressed. God knows that by 2025, ICAC SA had enough evidence to act against the abuse of power being exercised by the top cop. Being previously subject to investigation, Commissioner Grantley John Stevens (SAPOL) knew, as I do, that it is mainly police who investigate police. Police investigating police is a problem that the Greens Party of Australia has condemned for decades. This avenue, where the independent assessor delegates the investigation to persons working within the department being complained about, is not an independent assessment. With the assessing bodies (ICAC and Ombudsman)

gaining much of their information regarding reports and complaints from the problem, it cannot be denied that this is feigned public discourse via these police ombudsmen and ICAC reports on SAPOL. The reason why malfeasance flourishes and serious criminality knowingly goes overlooked is evident and known to the department and parliament; it is police investigating police that is the primary problem.

I have witnessed the intentional method of side-stepping a long-term SAPOL secret of STD threats against all walks of life, and the spread of infection, short and long-term. The reports, despite public awareness, have failed to secure a Royal Commission, with many instances of misconduct being covered up by the SAPOL police, who often, as stated, investigate their colleagues in the Special Investigation Unit. Misconduct reports examined by the offender's departments are a facade of independence, integrity, and transparency when it comes to reporting corruption and misconduct cases. The media easily conflates National Security with accountability and false investigations (e.g., abuse of unconstitutional association laws). Transparency alone is insufficient to ensure accountability in all cases. Especially when confused within national security, free information, and the exchange of vague facts in an era of information saturation. People with no desire for integrity often love ambiguity, whether it is legislated, media-driven, or deliberately created by police to confuse and conflate investigations.

The legislative Act - Public Interest Disclosure, when applied, does not allow for facts to be manipulated within the system as can currently occur via independent assessments.

A public disclosure is not subject to persecution. An individual is not subject to any civil, criminal, or administrative liability for making a public interest disclosure. Law and Media Reports - Information regarding your criminal case(s) is unlikely to be restricted to a formal record check. Any “disclosable court outcome” – including findings of guilt and outstanding criminal charges. Information likely to be disclosed in a National Police Check (NPC) or a Working with Children Check (WCC). Case names are typically listed on websites such as the online court registry, which are freely accessible. Many cases are also ‘reported’, which means the judgments are published in law reports as well as online.’

Furthermore, Public officials (disclosers) who suspect wrongdoing within the Commonwealth public sector can raise their concerns under the Public Interest Disclosure Act 2013 (PID Act).

Allegations made under the PID Act are public interest disclosures (PID).

All Australian Government agencies, Commonwealth companies, and public authorities have responsibilities under the PID Act to investigate suspected wrongdoing and take appropriate action.

Conduct which may be the subject of a PID includes, but is not limited to, *a contravention of the law, corruption, perverting the course of justice, maladministration, an abuse of public trust, falsifying scientific research, wastage of public money, or conduct that is a danger to health, safety, or the environment.* (Source: <https://www.ombudsman.gov.au>).

Anyone can disclose environmental and health information.

- However, to gain the protections provided under the PID Act, a person who discloses environmental and health information:

1. must believe on reasonable grounds that the information is true; or
2. not being in a position to form such a belief, believes on reasonable grounds that the information may be true and is of sufficient significance to justify its disclosure so that its truth may be investigated. (Source: Attorney-General's Department, SA Government).

All companies in Australia must comply with the whistleblower protections. – Australian Securities and Investments Commission (ASIC).

The media should have been publicly disclosing the disabilities, criminal negligence, and police criminal negligence, at the very least, in 2020. Demanding answers, but none of them did. Senator for the state Labor Marlene Smith (DOB30DEC1986), under the

term where Steven Marshall (Former Premier, SA Liberal) led South Australia, rallied for a Royal Commission into SAPOL at the end of 2019, yet achieved nothing. All offences to date had been reported or publicly disclosed as part of the chain of causation of police criminal negligence. The media have been like crickets for more than half a decade; journalists are hesitant to publish overly critical stories about politicians, fearing they will lose their press credentials - Graduate Certificate in Policy and Governance (Queensland University of Technology, QUT). Fear Is the Root of All Weakness®.

I made it clear in November 2023 that I had no desire to discuss a book that said it all with the media when the cowering was over. This book says it all and screams why and how accusations of association and sex work have gone this far. All in this book! My point that investigative journalism has aided and abetted this cover-up and is highly liable for defamation stemming from neglectful journalism is irrefutable. The media of Australia has irrefutably contributed to recklessly endangering my life. The press surrounding me certainly needed to focus on written facts and stay far away from me after years of the media stalking a victim based on malicious and intentional conduct engaged by SAPOL and criminal counterparts. Criminal negligence in investigative journalism has led to solicitation, defamation, and astronomical damages, as evident via Channel Seven's Frank Pangallo (DOB OCT 1954, Mile End South, AUS) engagement with SAPOL and me in 2012/2013. The journalist's next career move was into

politics after conversations about crime and corruption with myself. The events to me were déjà vu, as I had seen happen with Nick Xenophon (DOB: 29 Jan 1959) in years prior. The boys' club of society was utilizing the association laws for political avenues and gains. A decade of media disgraces, I focused on branding and marketing, a strategy against defamation, leading an honest and open life.

Writing, studying, and fashion design – my One Love Barbwire Noose® consuming 2025 at a rapid pace. Writing had consumed many years since the lockdowns of the COVID pandemic – a bittersweet experience. By 2025, the National Library of Australia had nine eBook PDF publications and more than this in total books authored by me (including paperback editions, etc.). A TVC with Channel 9 advertising my Human Rights clothing brand since 2024, plus a new marketing campaign featuring Barbwire Noose® in the Australian Rules South Australian-based league state magazine. Driving the brand forward has always driven me forward—a fresh look website launched with fresh threads and even some designs drawn during incarceration torts. I left the primary legal fight to my lawyers at Old Port Chambers; more than torts (redress/injuries compensation), all I could do was kill time, alone as much as possible, productively, until there was a stop to reckless endangerment, a form of resolution to the outrageous criminal negligence and injustice surrounding me. Decisions I made over the last decade were predominantly based on self-defence or reckless endangerment, or, furthermore, efforts of

entrapment, not my own will. Life had become rather exhausting, with a necessity to stay busy.

The eventuation of media highlighting such extraordinary life experiences (that I should never have had to share for justice!) I saw it as an inevitable result of the two countries' (ICE Border Force USA) torts that had become a part of my life. The extraordinary ongoings could not be ignored forever, and you'd think I would have been able to find hope and satisfaction in this. I did not. All I could think of was how a matter of criminal negligence over vulnerable disabled persons was being overlooked for surmounting defamation in a witch hunt surrounding me.

The sexual assault, attempted gang rape, and murder of my pets were all offences that occurred within a short three-month period of my first leaving parental care in 2001. Offences are being overlooked to pervert the course of justice regarding sex offenses by cops. Life had become overwhelming and too much in the years 2024 and 2025, as I delved deep into the darkest depths of thoughts about life.

Reading this book outlines all these offences spanning over twenty years, committed against me, that are linked to SAPOL. SAPOL was involved in every event in the chain of causation, proving criminal negligence leading to severe reckless endangerment and, at times, nearly the loss of my life. *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)*, offending against

myself, was followed by the four boys attempting sexual assault right through to the homicide and beyond. These are absolute truths. An absolute fact, or absolute truth, is something that is universally true, regardless of time, place, or context.

If you have any questions as you read, the details are likely to be in the chapters ahead. After this introductory overview, I hope you have enough reference points to understand any legalities described. I do my best to detail events and provide timely facts in this extraordinary true story. We begin by moving through the details you need to understand the gross perversion of justice SAPOL took for sex offending officers. We finish with a lengthy conclusion, acknowledging the loss of a life over greed, and nearly the loss of my own life due to the outrageous man-made suffering I have endured. I hope you are gripped, touched, moved, and uplifted by my soul-bearing Autobiography. Acknowledging the tragic loss of Mr Gordon Tearonui Hamm and the revelations of a long-term compromised Australian police force.

I was lucky; the boys of the STD carrying COA gang were unsuccessful in their attempt to exploit me when I was attacked sexually in 2001. Blessed with Luck, these teens terrorised many other girls in Mount Gambier into their early twenties, boys (even into their thirties and

beyond). These girls, some without fathers, did not have the privilege to indulge such luck, suffering at the hands of the vile standard of drug dealing and exploitation, assisted by police. The severe domestic violence offending, break and enter intimidation, and blackmail these girls suffered at the hands of this group of boys is inexcusable. The boys and this activity span at least twenty years, primarily due to the direct connection they had with SAPOL Police Detective Kurt Slaven and Detective Kym Modra (SAPOL). SAPOL Detective Kym Modra, a locally proclaimed relative of AFL Adelaide Crows Superstar player Tony (Anthony) Modra (DOB1MAR1969). The COA gang members who carried the Modra name would offer signed jerseys as bribes to silence persons reporting them for their criminal conduct before engaging in intimidation and gang violence. SAPOL Kurt Slaven and Detective Kym Modra (SAPOL) are among the central Detectives used to conflate and confuse investigations. Not only during their years in Mount Gambier, but also in later years, they maintained the paedophile cover-up via the Independent Commission Against Corruption SA (ICAC). Quoting the Official publicly released document Report 2023/01: Review of the investigation and prosecution of Mr John Hanlon “At 10:05 am on 24 September 2018, ICAC Senior Investigator Mr Kym Modra and ICAC Team Leader Mr Lyndon Miles executed a search warrant for the offices of Renewal SA and Mr Hanlon’s home.” Reading that criminal SAPOL officer Kym Modra was a Senior ICAC investigator in 2023, how this entire cover-up was holding up made sense to me. That stated, why a police force and a Police

Commissioner who had just lost his son to a tragedy – that sadly possibly could have been avoided if the Commissioner was as present in his personal life as he was in this cover-up- still evades explanation.

These SAPOL members and their associates' illegal activity relies heavily on plausible deniability tactics and psychological warfare. Many police officers stationed in Mount Gambier who worked with these detectives were taking bribes from numerous gangs and creating illegal and detrimental alliances. National Security Compromises. Here's how.

By 1999, the Gypsy Jokers, the Hells Angels, and the up-and-coming Comancheros/Bandidos, as well as the Triads, were all heavily involved with SAPOL, albeit illegally. You'll read more shortly about how deeply involved in the sex industry SAPOL is via a whistleblower's letter (2023) extract, which I have included in this publication. The bribes were so high during these decades that the police allowed the group of paedophile tendencies, rapist boys of the COA gang described earlier, to dominate Australia, as they were willing to cooperate with police to run the sex industry. Boys aged in their late thirties who had been spreading STDs and revenge porn across Australia for at least a decade.

Before putting some of the facts and platforms that circulated porn for and by these boys, here is the letter

regarding SAPOL's involvement in the sex industry of South Australia.

On 2/03/23, a Whistleblower Labels the SA Police Force As Toxic. You will now read extracts from this whistleblowing taken from

<https://southaustraliapolice.com/>

The article talks of the toxic leadership of SAPOL Commissioner Grant Stevens and of the internal take regarding SAPOL's hold over the sex industry of South Australia, these officers stem predominantly into VICPOL and NTPOL.

Whistleblower articles extract as follows: **SAPOL and the Sex Industry**

SAPOL also has an intimate (no pun intended) involvement with the prostitution industry, which has long been illegal in South Australia. Curiously, everyone in Adelaide knows where at least one brothel is located, because they are often situated on busy roads and everyone who passes by knows full well what kind of 'business' is conducted inside. Yet we are expected to believe the police, with all their detectives, informants, and so-called intel, are truly unaware of these establishments?

The police are well aware of these brothels, because they extort each and every one. Failure to pay the 'SAPOL tax' will result in raids, arrests and other forms of harassment that will ultimately force the business to close.

This is why, when calls to decriminalize prostitution intensified a few years back, SAPOL was the quickest and loudest to object. The reasoning given by Grant Stevens was that decriminalizing brothels would attract “organised criminals”.

But prostitution in South Australia is already under the control of an organised crime group: SAPOL.

The real reason behind SAPOL’s objection was that it was in no mood to lose a lucrative income stream. The officers involved in this racket were no doubt further upset at the possibility of losing the free sexual ‘perks’ involved (i.e. prostitutes forced to provide sexual services to these filthy officers).

So annoyed were SAPOL, they began harassing brothels in order to send a “back off” message. Sex Industry Network general manager Kat Morrison said the “heavy-handed” policing started after a sex work decriminalisation bill passed the Legislative Council in 2017.

“Potentially SAPOL are worried,” said Morrison. “They are potentially worried that the decriminalisation bill is going to pass through Parliament, and that they’re going to be stripped of some of the power that they currently have as gatekeepers of the sex industry.”

In Closing

The author of the anonymous letter is to be commended for taking some sort of stance, unlike most of his spineless colleagues. His primary concern, however,

seems to be the effect of SAPOL's deteriorating environment on officer morale and well-being.

In reality, the real victims are the unfortunate public whose taxes fund this disgrace of a police force. The public has had to suffer both increasing harassment, revenue-raising and disinterest in real crime – a situation that became visibly worse during the COVID-19 saga.

South Australia Police is a corrupt abomination, and always has been. However, there is no disputing SAPOL's disinterest in fighting real crime has intensified under the non-leadership of Grant Stevens, whose main concerns would appear to be suppressing criticism of SAPOL, enforcing COVID tyranny as de facto leader of South Australia, and helping implement the dystopian Smart Cities agenda.

That is why he has recently been rewarded with another 5 years as role of commissioner despite widespread dissatisfaction with his performance from within the force.

South Australians deserve better. Much better.

Evidently and broadly known is the fact that I am certainly not the only person to whistle-blow regarding SAPOL misconduct, criminality, and toxic culture. I am the first to publicly disclose such an irrefutably substantial criminal negligence case and the SAPOL-

linked chain of causation that devastated my life and has devastated many others over the years.

The fact that SAPOL resists a Royal Commission and refuses to operate at a standard that is law-abiding and in line with policy is a devastating reality for both the community and law-abiding officers in service alike. As you read, many issues are addressed in this article (whistle-blower letter) with many statements supporting my claims regarding SAPOL's significant involvement with organised crime, sex workers, and the sex industry. This sex industry has pushed minors into and around its operations for years. Decriminalisation, I thought, without addressing paedophilia within the sector, only allows paedophilia to multiply with a tag saying it's legal in some way, shape, or form. Until talking to imprisoned sex workers, I actually disagreed with the decriminalisation of sex work without proper addressing of law enforcement, government, and organised crime, and addressing the obsession in Australia to pimp out fourteen-year-olds. This letter advocating for decriminalisation, the facts show that decriminalisation would only help the industry, which thrives on drugs and violence currently, while illegal and in the shadows.

Extract from book Political Prisoner #192703 “Society finds a way to blame every female victim, condemning a victim for keeping their history of shameful rape a secret - this is the absolute shame of rape, victim blaming. I am both an innocent victim and a powerful woman - a survivor. When innocent women are raped, they will often be held liable for their misfortune.

Raped prostitutes are often held liable for their own misfortune, making them the most heroic victims. Brave for just continuing to live. Advocating the right to be recognised as a person under the law and decriminalisation where it benefits just justice is a privilege I take seriously. Like advocating on behalf of mute, non-cognitive disabled victims as their carer, their peer, their friend.” These women shared their stories with me, wanting change, and I will not stop advocating on their behalf until sex work is decriminalised in South Australia. Rape is degrading, dehumanising, and psychologically burdening – at the least. The fact that you were desirable and worth something enough to be raped is not the residue that this demonic crime leaves on its victim.

The sex industry is an adult industry and the age of persons involved in activities with adult consequences should be of an adult age when financial gain is the aim of sexual interaction. Twenty-one is the legal adult age in the USA for persons to consume alcohol, I believe this is the bar that the sex industry should be lifted to.

Now, what I know about these SAPOL (WAPOL) linked STD carrying boys and sexual exploits: Silicone Sundays was a mock clothing label and business located in Western Australia where these boys circulated porn, both illegal and legal – some of this porn produced in the USA by persons involved. Known drug dealers who

were ordering and dealing drugs via the dark web, Silk Road. They are directly linked to the Gypsy Jokers and Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS), who sold revenge porn of me (non-consensual private video) on the dark web's Silk Road, which led to me getting stalked by sex offenders, sex pests, and sex offending police officers. The worst of these facts is that this was all known to Australian and USA law enforcement after I assisted in the Federally overseen Homicide of Gordon Tearonui Hamm in 2013/2014. If it wasn't bad enough that in 2012, numerous biker gangs that should not have been sharing the same underwear were, due to the introduction of the association laws. It was worse as the police force had illegal dealings with all of them, including the sexual exploitation of minors and a cover-up/spread of STDs. Every second, said biker, also a human resource or linked to one in a chain of police protecting crimes within the sex industry and beyond. With me, a little girl used and abused for decades, stuck in the middle of the most insidious police corruption created at least twenty years before this autobiography, and spanning nationally and internationally.

Corruption and crimes committed by police exposed in a Homicide I was the key witness for – voluntarily (not as a human resource), literally my ONLY regret is helping the Australian police force with the tragic murder of Gordon Tearonui Hamm. Not regretting seeing an offender locked up, who would have surely killed again without a consequence, in this case. The Gypsy Jokers of Mount Gambier due to Mark 'Freddy'

Moreland (Mount Gambier District, South AUS 2013) excessive violence were not using him as a debt collector at this time, Timothy Stringer (Mount Gambier District, 2013) was the man behind utilising 'Freddy' as a debt collector at this time.

Facts are, I would not have been raped an outstanding number of times by people linked directly to police and police human resources if I had not assisted the police (SAPOL, VICPOL, and the AFP) with this homicide. Not to say that an STD agenda didn't already target me, I believe SAPOL drove the momentum of this prerogative after Kurt Slaven's (SAPOL, Australian Defence Force - Navy) sex crime. The offences linked to police-organised crime are more extensive than organised crime itself. Some bikers in Australia understand that if you do something stupid in public, you'll get caught, and continuing the behaviour makes it worse. Police heat is not good for business.

These crimes were very much SAPOL provoked before it became a sexual smorgasbord, which was still police force-driven. Sexual offenses committed on record with various police forces and even police personnel witnessing and, more devastatingly, allowing it to happen, even encouraging rape. The AFP at this time is amongst the worst of the sex offender protection racket, providing avenues for offenders to cross state borders with state police after committing sex crimes. Under police investigations with Federal Police oversight, these actions were allowed by police and even encouraged, as members of the police force solicited me

as a prostitute to people involved with sex workers. Every male that approached me since 2014 was a threat to my safety as a direct result of SAPOL, VICPOL, and the AFP.

Even migrants to Australia were willing to commit crimes against an Australian citizen in hopes of gaining citizenship. A severe National Security risk stemming directly from SAPOL to Chinese Military personnel—citizenship after preying on Australians. Criminal visa holders; Taohan Yang, Chinese military student in Australia, bisexual - 2021; Mandar Palekar, Indian in final year of citizen application – 2021; Tan Chunbai Chinese Student in Australia, bi-sexual - 2021, Thrupthi and Vasu Vasudevi, BP International Ltd - 2023, Linna Nui – husband Nui and Mina Nui, Chinese Immigration/Visa holders – 2023, not limited to these individuals. Note: the bisexual status of these men is mentioned as this activity is condemned in China, and these individuals highlighted this fact and the fact that their parents worked for the Chinese government – at least one of these two students was here on a scholarship (the individual with parents working in government-funded roles). Individuals seeking citizenship who lack the moral compass to not engage in bad dealings and criminal conduct as severe as stalking, assault, sexual harassment and theft. Let alone the fact that immigrants on working visas committing crimes in Australia were working with our most vulnerable citizens, our disabled. Migrants willing to commit crimes against Australian citizens, e.g., theft from NDIS clients, are furthermore encouraged to engage

negatively with Australian citizens by SAPOL. The National Disability Insurance Scheme (NDIS) is riddled with moral-less migrants accessing medical details on the most vulnerable in our society, a fact that makes me nauseous, knowing how deeply vulnerable the disabled are. This just another link in the chain of causation and adds to the sicko police proving that for over a decade that they were determined to cover up sex offending more than they were determined to address it and determined to cover up sex crimes at the expense of my life, as ongoing's proved – with Political Prisoner #192703 Autobiography (as discussed) detailing the severe incarceration torts of 2024 – little sister book to this Autobiography.

Government authorities are encouraging defamation and breaches of my privacy by community members, including immigrants who should be deported for committing crimes as bad dealings and perjury. The lows the government will stoop to when targeting an individual are low.

As a disabled rights advocate, I was disgusted to learn of the numerous NDIS providers run by foreigners who were engaging in criminal conduct. All this occurred as the NDIS under the Disability Royal Commission (2019 – 2023) was being called out for ripping off disabled persons who were never seeing their funding. For over a decade, I witnessed a police force with no boundaries or shame in their cover-up of sex crimes, at the expense of my life and Australia's National Security. In 2023, I witnessed this unsuccessful cover-up continuing to the

detriment of my disabled peers, something I despise. This gross abuse of power and miscarriage of justice instilled in me a ruthless determination to be heard on behalf of my peers. A decade of unfolding these venal atrocities and unveiling the Underbelly of Mount Gambier, South Australia, involving SAPOL to the point where it could no longer be ignored. By 2025, no matter how loose and how erratically the facts spilled and seeped through in a cover-up, the truth was a massive elephant in the room of South Australian policing, linked institutions, and politics.

I believe EVERY Life Matters. You are reading True accounts from a police family member about the consequences of corruption within the police force, unlike David Modra (SAPOL, retired 2015, 41-year Sgt Detective), who retired in 2015 and attempted to rewrite history.

David Modra (SAPOL retired 2015, 41-year Sgt Detective) retired conveniently after *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) was tipped off that I reported his sexual crimes. Serving in the police force for approximately forty-one years, David Modra (SAPOL, retired 2015, 41-year Sergeant Detective) joined the police force in 1974 and reached the rank of Detective Sergeant, leading teams of detectives covering all offences under various Criminal Acts and Non-Criminal Acts. Breaching numerous privacy laws

while investigating, David Modra (SAPOL, retired 2015, 41-year Sergeant Detective) concentrated on writing true-life crime stories in retirement, often glorifying investigations that the Royal Commission into SAPOL would later find to have involved significant illegal conduct and even police-constructed information. Bragging about his work with the U.S. Marshals Office, I found this self-proclamation authoring rather disturbing. At the same time, SAPOL fought to avoid Royal Commission investigations, yet attempted to allow persons to breach confidentiality in a race to mislead the public—actions, in my opinion, at the very least, designed to confuse the public.

Let me be clear: I have NEVER been part of a gang, I was NOT associated with any gangs or gang behaviour, yet through the police force, I was exploited for years through the law of association for political gain from a sex crimes cover-up. Learning on the 'Road to Resolution' - the Conclusion chapter of UGLY HEROS, that the Australian police force had been monitoring me, a little girl who was a rape victim of a police officer as a sixteen-year-old teenager, a minor, was beyond words, emotional distress. I endured years of gangs and police gang-associated sexual crimes being used as quote “rape bait” by the Australian Police Force on record. Sex crimes committed under police investigations and with the government's knowledge. Many are happy to indulge (police, family, and felons alike) in an attempt to have me seek the refuge of suicide in numerous

forms, most commonly by refusing to take statements against sex offenders, refusing housing, and other forms of destitution and financial disruption attempts, gaslighting, etc. Even an old lady with a fraudulent charity, which, on its trajectory, could never achieve its goal, jumped onto the disruption and defamation campaign. In 2023, the AFP and state police even engaged in disruption tactics against my mail (AUSPOST), which led me to believe that a business award I had nominated for, a new initiative award, was fraudulent. Nominating for the Phoenix award with a new business awards scene, only two years running - the Australian Ladies in Business Initiative (ALIBI). The cost of entry was sixty dollars, with tickets to the event costing a few hundred dollars to attend. At those prices, you're either legitimate or trying to make a quick buck. I followed up on the promised nomination package, ensuring that this newly developed award was not taking advantage of entrants, especially myself, who is vulnerable. The coffee in this package was out of date, and it also included a broken piece of paraphernalia (ALIBI branded mini torch). I could not help but question the long-term commitment being made by this award, though it was a police officer who disrupted the delivery of the nomination package. The Australian police force engages in illegalities and petty actions, which I write about, that are nothing short of a horror movie. My life on days dragged through the horror story of this governance cover-up in the irrefutable desperation of all involved to permeate lies (perjury).

The daughter of two professional parents who opened the Hungry Jack's Fast Foods Australia arm of American Burger King Fast Food Family Restaurants across Regional South Australia. I grew up in an upper-middle-class environment; some of my parents' friends were wealthy, high-achieving business personalities from South Australia and Nationally. Attending country schools with strict and isolated parenting on a farm(s), where I had emus, cattle, my own horse, dogs, and an ex-menagerie, developed my philanthropic passion and love for animal welfare. Having your life evolve from a privileged upbringing to resembling that of a gang-aligned junkie at times was a devastating experience to endure for ultimately a sex crime's cover-up. My story: accurate accounts of Strength in victimisation, an Inspired desire for justice in the face of injustices, and the truth about the dark side of the law.

Detailing the attack, four boys followed Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy), offending. It was a short boy with dark hair who was the primary sexual aggressor. This offender stipulated during this attack that my tongue ring was to suck cock. The dark-haired aggressor, coming at me, sitting on a flat chair at a white piano, the offender with his penis out. How WRONG the little dick with a big Ego was in his commentary. I vomited at the statement made by the dark-haired aggressor about sucking cock. I was seated on the white piano's playing stool and threw up on the floor. The driver of the boys was the owner of the White Holden Commodore vehicle, who drove us around that night, Joshua Mark Richardson (Mount Gambier

District, SAPOL human resources). Known to police, Josh is broadly known as a convicted felon and human resource in the limestone coast region, yet in 2001, he was the Only non-aggressor. Josh babied me to the toilet, where I continued to throw up at the insulting attempt at sexual assault, literally. Such a distressing experience, I was dropped off in the middle of my rental's property's street on Margaret Street (property located next to the Old Jail backpackers' accommodation) by the driver and the sexually abusive, yet unsuccessful, boys.

I had walked away from my friends and was outside the nightclub called Blueberries before getting into Joshua Mark Richardson's (Mount Gambier District, SAPOL human resources) aka 'Richo' car. I was escaping a boy trying to drag me into his car through the driver's side door in the car park, and I screamed. The four boys, the driver, Josh, started yelling at the guy who was attempting to drag me into the vehicle in the car park. The boys – Richo, upon first meeting, were actually saving me from a sexual assault attempt this night, which was why I trusted them to cruise around with and hang out for bongs at the respectably located home. The boys were my age; we liked the same music - a Nirvana poster on the bedroom wall, and they were polite to start with. Until the small-statured ringleader started pushing sexual activities I was not there for, and I vomited.

My tongue ring, a long-desired piece of jewellery, was something I spoke of in year ten at High School to my friends. My parents disapproved of the tongue piercing,

so I got the piercing as soon as I finished high school and moved out of parental care. I also wanted a top ear piercing during my High School years. I was allowed to get my ear pierced through the top cartilage of my ear – my parents were strict, but not overly so. It would have been odd if my parents didn't allow me to get the top of my ear pierced, considering my Mum had five earrings in each ear as an example when I was growing up, and my dad has his ears pierced too. Dad actually pierced my earlobes at home twice, two of my lobe ear piercings. My High School friend Sarah, then my Best Friend, and I got the in-vogue single high-top ear piercings together. My tongue piercing was also a shared experience. A Valentine's Day gift in 2001 from my boyfriend – we both got piercings we had wanted for years. I bought Tim Argent (DOB 1983, Mount Gambier District, South Australia) the eyebrow piercing he wanted, and he paid for my tongue piercing. Tim (DOB 1983, Mount Gambier District, South AUS) choosing the eyebrow he wanted to get pierced - choosing interestingly the side people usually acknowledged as a gay male (so I've been told – Maybe, and who cares really). Tim Argent (DOB 1983, Mount Gambier District, South AUS) lived outside of Mount Gambier city, like I did – on the coast near Port MacDonnell, not a farm like me. He attended Grant High School, not Allendale East Area School, despite being zoned to attend the small, rural school. Tim's parents owned a coastal property at Cape Douglas, nothing like my parents' farm or the luxurious homes I was used to. The toilet was outside like a couple of my dad's friends' dairy properties. I had started staying with

Tim Argent (DOB 1983, Mount Gambier District, South Australia) and his parents at the end of the 2000 school year. Tim's Mother, a frank, lovely lady, I would always find reading late at night, early hours of the morning, in the lounge room. Walking past her to use the outside toilet facility. Tim's Father drank a lot of beer. I often wondered if this drinking was why she was always in the lounge room at these times. Tim's Dad was always lovely from what I witnessed, despite the drinking, like Tim's Mum. I had told my friends for years at school that I liked and wanted a tongue ring - nothing sexual about it to myself, as the pin- dick creep claimed it was for. The truth is simple and should never have been a debate to cover up sex offenders. Yet, all these events and the facts have been imperatively necessary to disclose in a cover up as years passed showing police forces with my family would go to all ends to cover up using my persons as 'rape bait' and a sex industry riddled with children and wealthy, elite clients of organised crime trying to hide their sex offending. The reality of this piercing was a little love story, and it will always be my favourite piercing, bought with washboard abs - seriously, Tim Argent was sexy as fit! One of the few serious boyfriends, Tim Argent (DOB 1983, Mount Gambier District, South Australia) was my first Love. I was so excited that I was getting my tongue ring as soon as possible, not yet eighteen, which Tim Argent (DOB 1983, Mount Gambier District, South Australia) made a reality. An unforgettable event of the year 2001, just before *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy), sex offending. Like my learner's driver's licence

obtained on my sixteenth birthday (year 2000) - a Milestone event.

Tim Argent (DOB1983, Mount Gambier District, South AUS) is the person I moved out of home with and witnessed the murder of my rabbits. Residing next to the refurbished old jail, a well-known backpacker facility in Mount Gambier, known for holding some of the most Epic events to entertain the region, e.g., 'Red Hot Summer Tour', John Farnham, The Living End, etc. The backpacker facility, which is known as prostitute accommodation to SAPOL, is located along the same road as entry to the Mount Gambier police station carpark.

When this group of boys attempted sexual assault, Tim Argent (DOB1983, Mount Gambier District, South AUS) was frantic at our rental (Margaret Street, Mt Gambier South AUS), too scared to go out to clubs himself as he was bullied at school, and having no girlfriends, he had insecurities he hadn't moved past. I did blame Tim Argent (DOB 1983, Mount Gambier District, South Australia) a little, being a year older than me, for leaving me vulnerable and encouraging me to go out without him. My friends were out looking for me because I hadn't re-entered the nightclub after leaving, and I was not at home when they got back after midnight. Underaged, we had to leave the nightclub at this time. I was picked up by my friend Kristyn and her

then partner, Michael, on Margaret Street. Kristyn had been out at Blueberries nightclub with me as well as my then-best friend, Sarah. A country girl unfamiliar with city living dangers, I had made it home from two attempted sexual assaults this night, and I was not hurt.

These offences occurred during the first three months of renting the local sheriff's premises on Margaret Street at the beginning of 2001, my Birthday to turn seventeen years of age (2001), falling in the latter half of April. When we moved to Doughty Street from this first rental, it was when my two rabbits were murdered and killed overnight, in the empty Margaret Street property. It had only been approximately a twelve-to-sixteen-hour period since we left this residence where the rabbits were killed. The rental was accessed by key to kill the animals, no evident break and enter, as with every home invasion to my properties over twenty years, after Kurt Slaven raped me as a minor. Tim Argent (DOB1983, Mount Gambier District, South Australia) and I had slept at the new rental on Doughty Street overnight. I found one bunny stiff on the dustpan and the other lop-eared rabbit in the walkway on the final day, as we were moving out of the Margaret Street residence. This rental residence was adjacent to a business, a debit collection provider then known as 'Town and Country.' Our first home away from home, Town and Country, was the business of my boyfriend's (Tim's) relatives at the time. The home adjoining the lease's office had no electrical costs, which, after 3 months, was an agreement that the

landlord tried to renege on. As fresh out of home teens, we were only alone at night and on weekends, which was nice. Being hit with an unexpected electrical bill and being asked to move by your boyfriend's relative is not so nice. Tim Argent (DOB1983, Mount Gambier District, South Australia) and I were rather upset at the request to terminate the lease. I legally refuted the claim to electricity in writing, which was not part of the rental agreement, and the electricity supply cash grab was revoked. After all, my future as a budding lawyer was to commence the following year, as if I wasn't going to take the opportunity to apply my skills and current knowledge to life. My initial thinking was that the rabbits were poisoned by his relative, who owned the property.

Regarding my murdered pets, I initially accused the 'Town and Country' sheriff of murdering my pets and trespassing, to Tim Argent (DOB1983, Mount Gambier District, South Australia), who stated this did not make sense as he (the landlord, relative, sheriff) allowed us to keep the rabbits. They were no secret to the sheriff, a relative of Tim Argent (DOB 1983, Mount Gambier District, SA), who worked out of the adjoining office in front of our residence. The owner knew I brought the rabbits inside at night from outdoors. A disturbing and highly emotionally distressing experience for young people in love, to move out of home and have a home invasion that killed only their pets.

We had moved out of our homes together, planning our future, until Tim Argent (DOB1983, Mount Gambier

District, South Australia) used a prostitute about three-quarters through 2001. Talk of marriage, shit ain't that serious if you're fucking the same whore of three children as your old brother. Good move on the eighteen-year-old. Luckily, we were already broken as I'm absolutely in love with Love. True, Romantic Love. I was so in love with Tim Argent (DOB 1983, Mount Gambier District, South Australia) when we first moved out together, until his felon status actions and interactions with the illegal sex industry were of utmost importance to him. I was not his priority; he was his priority. So, I started seeing other people. Tim Argent (DOB 1983, Mount Gambier District, South Australia) and I shared a love for motorsports (automobiles), rock climbing, and a similar taste in music (Sevendust, Testeagles, etc.), as well as a passion for driving back then. Our commonalities were not enough. By September 2001, I had met my next long-term boyfriend, and by November 2001, I was no longer in a relationship with my first love, Tim Argent (born 1983, Mount Gambier District, South Australia).

I didn't realize it, but it changed me. What *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) did - the rape, the re-attempt, his threat, all that was orchestrated to follow. Only sixteen years of age, and I was a police force made victim of a hideous crime—a victim of SAPOL criminal negligence stemming from an investigation into my stolen vehicle. A little girl, scared with no idea what to do, and with no resolution

networks to confide in?! I suffered in Silence. Post-traumatic stress disorder (PTSD) is a condition in which distressing symptoms occur after one or more frightening incidents. For the most part, a person with this disorder must have either experienced the event themselves or witnessed it in person. That was me, a sixteen-year-old with PTSD. As a thirty-year-old with complex PTSD writing this book, I understand my emotions. At this time, I did not understand my anger as it was, just that I was upset, and things you can learn from Dr Phil about coping with pain and depression. Acting out was seen as a typical adolescent activity. And having fun is always on my agenda. Life diluted the offence, and cognitive dissociation did the rest. Dissociation is typically defined as the lack of standard integration of thoughts, feelings, and experiences into consciousness and memory. I literally ignored the contradiction in morality – ignored the paedophile offence committed against myself by the mid-thirties-year-old police predator, and his disgusting naked body, which I ran away from. His disgusting, podgy belly, elbow out, holding his head in his hand - A revolting version of Kate Winslet in the Movie *The Titanic*, something I cannot erase from my mind even after all this time. I dyed my hair blonde, became bulimic instead of borderline anorexia. The blonde hair allowed me to look at myself as if I were someone different from the brown-haired girl *Kurt Gavan Slaven (DOB 07 NOV 1958; SAPOL/ADF - Navy)* had offended against. Cognitive dissociation allowed me to bury the offense in my mind as something less significant than the trauma it was. My hair remained blonde until after I reported *Kurt*

Gavan Slaven (DOB: 07 Nov 1958; SAPOL/ADF - Navy) to SAPOL and the Police Ombudsman. After this, I began the long journey of dealing with the trauma, criminal negligence, and this cover-up all at once. I still hate my brown hair despite breaking the cycle of a need to dissociate to avoid spiralling depression (PTSD).

One year away from home, at our second home away from parental care (2001), a brown brick flats block on Doughty Street, Tim Argent (DOB 1983, Mount Gambier District, South Australia) was quick to get me a new floppy-eared bunny. A successful carpenter at the trade level, Tim Argent (DOB 1983, Mount Gambier District, South Australia) was developing into the successful builder he would establish himself as, evident at this young age – sadly, at the expense of some Mount Gambier clients' buildings, which were paid for yet remained unfinished. It was here at the second rental we leased as a couple, where predator *Kurt Gavan Slaven (DOB 07 NOV 1958; SAPOL/ADF - Navy)* contacted myself out of the blue via my first registered mobile phone number 0404 174 159 (service provider *Vodafone*) about the unresolved car theft, reattempting to put myself in a position to prey on myself again. Tim Argent (DOB 1983, Mount Gambier District, SA) and I would allow our friends to stay at our place in the spare bedroom at Doughty Street. Many people witnessed that I had access to drive numerous vehicles at any given time. The spare room was occupied by Tim's best friend Ben before he moved to Western Australia, my friend

Christina, who I met working at Hungry Jack's Restaurant, and my brother.

The reattempt at sexual assault initiated by *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) in 2001 was a plot to cover up his paedophile act of having sexual intercourse with a minor. This second encounter with the SAPOL police officer/Detective Kurt Slaven, was a man making a reattempt at rape. An attempt to lure me to a Conroe Heights area residence of Mount Gambier, unknowingly, for sex. This attempted sex offence in the latter half of 2001 was a failed attempt at sexual intercourse by a police predator. The experience was followed by my parents having a dismissive attitude towards me both at work and as their daughter. Leaving me even more vulnerable, having just moved out of home, having been preyed on and raped, my family's disregard for my safety further negatively escalated my emotional distress. Leaving me recklessly endangered by a police investigation conducted by a predator. All this before my eighteenth birthday. By the end of 2001, while working for my mother, I was dismissed from Hungry Jacks by my father, who had contacted me illegally as a Special Kitchen Hand with no Management authority at the time. He was no longer a Restaurant Manager at the store but instead helped my mother maintain the store. I was dismissed on behalf of my mother as I would not work on the final day of my lease. Moving out of the Doughty Street property after I broke up with Tim Argent (DOB1983, Mount Gambier District, South Australia). I had called in saying I could not work a Shift. Calling manager Adam. Adam had hit

on me, having conversations along the lines that were inappropriately trying to pick me up when dropping me off home from night shift one night at the restaurant, and I did not like him from that point on. By this stage, numerous employees at Hungry Jack's had hit on me even though I had a boyfriend. I was shown little respect on the job, possibly less than the known prostitutes employed by my dad at Hungry Jack's when he was a restaurant manager. I believe this disrespect stemmed from my mum's narcissistic attitude towards me. A manager propositioning an employee is unethical and in breach of employment law. Yet, my Mum kept Adam employed, and I was illegally dismissed. Note the motivation behind the dismissal, I believe, is still motivated by the character assassination of prostitute – slut being used in a defamatory manner, driven by a SAPOL/SA Labor government cover-up. At this young age, sixteen, I knew that the government was ignoring facts that Mount Gambier's water supply was causing an increase in disabled births in the area, and knowing what I know now, I believe that the SA Labor Government knew that I, a young teaching sector employee, knew this too. I will detail the government's long-term unannounced knowledge of contaminated water in further reading.

Kurt Gavan Slaven's (DOB 07NOV1958; SAPOL/ADF - Navy) sexual crime and reattempt occurred with many disruptive consequences. The year 2001 in my teenage eyes did not let up regarding inappropriate or illegal

sexual innuendos/activities, with the employer's sexual harassment adding to this momentous year.

Traumatised, estranged from my family and heartbroken after having dumped what I thought was the love of my life, the year broke me, and I was no longer able to study at university. Working for my parents at Hungry Jack's, I ended up jobless and was not allowed to move back to my parents' farm property (not that I wanted to) at the time. I had to move somewhere, though, due to an expired lease around November 2001.

These events made it impossible for me to pursue my studies in law at Flinders University.

Circumstances of rape, SAPOL-linked crimes, and a relationship come to an end, led me to seek refuge with an old high school bestie, Amanda, and her newborn baby girl from the end of 2001 until around January 2002.

A SAPOL officer predator, having just unimaginably tried to prey on me again – I was a victim AGAIN, fresh in my mind.

Another predator linked to SAPOL preyed on me at my friend's property located on Derrington Street, Mount Gambier South, AUS. Again, it was the year 2001, Ian Bald (paedophile and Fire Brigade Staff, Mount Gambier South, AUS) climbed into my bedroom via the bedroom window. The window was used to enter and exit the property after the spare key broke in the front door during my brief stay. Ian Bald (paedophile and Fire

Brigade Staff, Mount Gambier, South Australia, year 2002), a rock climber at my dad's rock-climbing gym and known methamphetamine user/dealer and friend of my brother, attempted digital sexual assault. I woke up to Ian Bald (paedophile and Fire Brigade Staff, Mount Gambier, South Australia), who had crawled into the bed, trying to put his hand down the front of my pants. I pushed him off me, to which he hit his head on the cupboard, spilling blue car wash liquid all over the floor. Ian Bald (paedophile and Fire Brigade Staff, Mount Gambier, South Australia) left the building as he entered it after my self-defence regarding the attack. Ian Bald (paedophile and Fire Brigade Staff, Mount Gambier South AUS) preyed on his stepdaughter (Chloe Blair, Mount Gambier South AUS, now known as a prostitute - a victim of paedophilia) in 2001 and possibly before this date. Something I don't like and refuse to be held to is victimisation. Something that happened when I wrote this book, and SAPOL knew this; they had me as a Victim for years, refusing to act on sexual offending committed against me.

Psychologically tortured for years, I was a victim of a police force, a police force that made me a victim. A victim of a police force hoping I would seek the refuge of suicide before they charged *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) and many others like him for their paedophile crimes against me and others.

After these events occurred in succession to me as a teenager, then to be made almost homeless just before I was due to study in Adelaide at University by my parents, I ended up telling my parents I hated them at

the end of the year 2001, and that "I don't need you". After they dismissed me from my employment with Hungry Jack's fast-food restaurant and left me without accommodation for not doing as I was told in my employment - an illegal reprisal – no written warnings, I was dismissed over the phone.

The statement I made to my dad, while driving around the Jubilee Highway – Penola Road roundabout, regarding not needing my parents, has constantly been proven to be true since I said it. I have survived the most challenging times of my life without my troubled, estranged family – I didn't need them. No one needs parents who use their children as a cushion for their crimes. Their contribution to my suffering is unforgivable. It was only decades later, after my parents had destroyed my life based on lies and their bad decisions, that I decided some things shouldn't be forgiven. Credit is due where credit is due, which is attributed mainly to my family life and upbringing while I resided at the family farm home. I had a very happy childhood, full of family holidays to the snow and the Grampians, love-filled Christmases, etc - much time spent with both my parents. This does not make the facts better that to save myself from the mess SAPOL and my family made of my life, I felt I had to move to the other side of the world to stop SAPOL and Australian sexual predators. I tried numerous times after SAPOL announced its cover-up in 2020. By 2023, I was happy to be anywhere but Australia - Epstein Island 0.2, holding a Consulate Green card to go to the United States with my brand. I had planned to follow up on an

application I made with the FBI. A decision which, after seeing the FBI's involvement in policing in Australia, I was reconsidering as an option. I refuse to use my mind to contribute to anything I don't believe in, and by the end of 2023, I was losing faith that the FBI was the good guys. By 2025, nearly everyone looked dodgy. The list of things my trust had deteriorated in was huge: police, my family, the courts, government, war, travel, health, covid. Nothing as huge in my mind as the fact that for over twenty years, people had gotten away with tarnishing my life by calling me a sex worker, a prostitute, and by the very police that used and abused my life.

I was not internally happy in 2001 and often had strong thoughts of suicide. My pentagram tattoo on my wrist covers a faint scar where I almost took my own life. Not that anyone knew how upset I was unless they were living with me. I am the Strong one, that rock friend you can rely on, that sensible voice in a crowd of fools. A hard expectation to live up to when you're being held as a victim for years, and in turmoil, but I managed. The Strong one is a nice and responsible position - the person people turned to with their problems or for salvation, a great place to be, I think, until you have a problem or need salvation.

My parents were Wrong with whatever they were thinking in 2001. I assume they wrote their seventeen-year-old daughter off as a prostitute after all these years. Since 2013, as the truth began to leak out of the cracks in SAPOL's cover-up, it became evident that my

parents were too vindictive and full of pride to tell me the truth about their deception. I have forgiven myself for trusting adults and my parents, as you do in a child-parent relationship, repeatedly. During my thirties, my parents repeated their consistent callous behaviour to their detriment. On record for all to know and see, my family's involvement in seeding life-threatening defamation is irrefutable and played out in front of and with police forces, particularly SAPOL, VICPOL, and the AFP.

I had only teenagers like myself to confide in after *Kurt Gavan Slaven's* (DOB 07NOV1958; SAPOL/ADF - Navy) sexual crime, and a broken family relationship at sixteen years of age, by 2023, when the truth was too big to hide – I had no one at my side.

Kurt Gavan Slaven's (DOB 07NOV1958; SAPOL/ADF - Navy) offence being played out as solicitation was confirmed to me in 2017 by Craig Spence (DOB14DEC, Australian Defence – Army, Olympian, Manpower, Big Brother contestant); yet to be introduced NSW located veteran who stated I had been accused of being a prostitute to *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) after Craig invited me to attend a government business awards presentation in NSW with him and his mother. A malicious accusation with no basis or facts that had no evidence or jurisdiction to be an allegation, from a person who did not know me personally, as a teenager, nor was I aware of myself knowing anyone who knew him. The Comancheros dealing morphine to their fellow

Army addicts and both Paul Aurthur Griffiths and *Kurt Gavan Slaven's* (DOB 07NOV1958; SAPOL/ADF - Navy) being defence force personnel and part of the defamation, I could only conclude this was the source of Craig's emotionally distressing and damaging comments – organised crime drug dealers and defence force personnel. An accusation which was some level of motivation regarding the sexual offence committed by Craig Spence (DOB14DEC, Australian Defence – Army, Olympian, Manpower, Big Brother contestant, Australian Veteran, and self-proclaimed morphine addict) in Dee Why, NSW. Reported to SAPOL and allocated to Matthew Jackson (NSWPOL, Northern Beaches Police Area Command, Plain clothes senior constable), who ran a neglectful investigation. Speaking to offenders and human resources involved in sex crimes cover-ups and perjury. Matthew Jackson (NSWPOL, Northern Beaches Police Area Command, Plain clothes senior constable) failed to obtain CCTV footage (event and taxi), a statement from the offenders mother present when I was passed out and carried up two flights of stairs – a woman who stayed in an adjoining bedroom and evidence of Craig Spence (DOB14DEC, Australian Defence – Army, Olympian, Manpower, Big Brother contestant, Australian Veteran and self-proclaimed morphine addict) obsession with myself which was discussed with fellow World Kindness Australia male representatives. The report against Craig Spence (DOB14DEC, Australian Defence – Army, Olympian, Manpower, Big Brother contestant, Australian Veteran, and self-proclaimed morphine addict) was taken approximately two years after the

offence, which had been publicly disclosed due to the malicious accusations made by this offender.

Matthew Jackson (NSWPOL, Northern Beaches Police Area Command, Plain clothes senior constable) investigation was not only neglectful but focused on myself sharing the truth via social media as per Adam Brown (SAPOL ID 79623) investigative angle to cover up *Kurt Gavan Slaven's* (DOB 07NOV1958; SAPOL/ADF - Navy) sex crime which I was reporting at this time. This sex offence is linked to SAPOL criminal negligence in a chain of causation stemming from malicious accusations and police force solicitation. The fact that police overlooked a victim speaking in court, opting for perjury and the like, committed by felons and associated parties of police forces, screams 'rape culture'. Decisions that are repetitive across all Australian police forces irrefutably show a substantial abuse of power and process within a broadly acknowledged Western society-level 'rape culture'. To maintain context regarding Matthew Jackson (NSWPOL, Northern Beaches Police Area Command, Plain clothes senior constable) investigation, here you can read the email dated 27 May 2020 regarding his actions and concerns surrounding this premeditated sex offence committed in Dee Why:

Good afternoon Marcia,

Just touching base to provide you with an update on the investigation.

I spoke with Jason CLARKE, Damien FERRARI, and William DICKSON. None of them are willing to assist with this investigation.

I spoke to both Detective Senior Constable GRAY and Detective Sergeant OLSSTON from Victoria Police. I also spoke with other senior officers involved in the matters reported in Victoria. They are unable to supply us with any material or assistance that will contribute to this investigation.

I spoke to Sergeant BEAUFORT from Mount Gambier Police Station who recorded your statement/affidavit. I also spoke with Detectives from Mount Gambier Police Station. They are unable to provide any material or assistance to this matter.

As a part of the investigation I was going through various social media platforms looking for witnesses. During this inquiry, I saw multiple social media accounts linked to your name. Posted in those accounts was your statement/affidavit. Posting that information in a public forum severely compromised this investigation, as it prevents us from using covert strategies to further this investigation. Please remove the statement/affidavit from your pages while this investigation is underway.

I need some further information.

Are you still 'Facebook' friends with Craig? Do you have 'mutual friends' that may have seen these posts with the statement/affidavit and forwarded them to him?

As it stands, we do not have any corroborative evidence to support your statement/affidavit. There is no other evidence in terms of witness' or forensic evidence. I will interview Craig in relation to this allegation. However, please be aware that the burden of proof in criminal matters is beyond reasonable doubt and relying solely on your statement/affidavit will not meet prima facie, let alone beyond reasonable doubt.

Please take note of the subject line. This is a sensitive law enforcement matter and therefore all our correspondence should remain confidential.

I will be in touch with further information when it is available.

Clear as day and night was the fact that police forces cared not about the sex crime committed against me and only wanted access to malicious allegations about me, regardless of the motivation behind such false statements.

The attitudes of police towards sex workers or drug addicts are vulgar, which was not what I expected when interacting with police forces, an interaction I was not familiar with and am still not comfortable with. Drug addicts are generally written off as 'their fault', regarding their death, making a user vulnerable to foul play, and sex workers with mainly police clients are dehumanised, both demographics reduced to the threat many warrant to animals.

Before continuing with my life experience as a privileged white woman who pissed off a few powerful

cops and a massive group of elite paedophile's, here's how plain-clothed police officers of NSWPOL like Mathew Jackson above treated a woman of a low socio-economic demographic in 2025; article via Sydney Criminal Lawyers, a legal firm referenced furthermore during this publication due to their outstanding factual articles and advice.

NSW Police Officers Plead Guilty After Brutalising and Degrading Mentally Ill Woman

by Emma Starr & Ugur Nedim

published on 12 Jul 2025

Two New South Wales police officers have pleaded guilty to criminal offences after their body worn cameras filmed them approaching a naked 48-year old woman who was clearly in the midst of a mental health episode, punching, kicking and stomping on the woman, spraying her genitals and face with capsicum spray, mocking her, bragging to one another that “we caved her in” and sending mobile phone footage of their conquest to a colleague.

The incident

28-year old senior constable Nathan Black and 30 year old constable Timothy John Trautsch were in plain clothes when they were called to make a welfare check on a 48-year old schizophrenic woman who was sitting naked under a tree at a cul-de-sac in Emu Plains, Western Sydney on 22 January 2023. An ambulance was already in attendance when the pair arrived.

The woman refused to get into the ambulance and, over subsequent minutes, the officers struggled to handcuff her as she lashed out with her arms and swore at the officers.

Video footage shows the officers throwing the woman to the ground, kicking her twice to the head, dragging her by her hair and punched. The officers also sprayed the woman six times with OC (capsicum) spray, including directly to her face and her genitals at close range. While being brutalised, the woman is heard pleading, "Please. I'm strong, God, but not without you, God", "God protect me" and "God, please. I'm sorry I didn't listen. I'm sorry, God".

After brutally assaulting the woman, laughing and demeaning her with phrases like "Wash your dirty stinky arse", one of the officers is heard to say, "that's enough, there could be cameras". The officers then continue to laugh at and mock the woman while she is handcuffed, restrained and groaning on the ground in distress.

After the incident, one of the officers is heard stating "we caved her in" and officer Black sends a 17-second video from his mobile phone to his colleague together with a caption stating, "She was fucked the whole body-worn is go good shows her being fucked".

Nurses in attendance made a formal complaint about the conduct of the officers, and their body worn camera footage was later accessed confirming their version of the events.

The woman died 18 months after the incident for reasons said to be unrelated to the assault.

Criminal charges

An investigation was launched into the incident and the officers were subsequently charged with a range of criminal offences.

The officers ultimately pleaded guilty to one count of assault occasioning actual bodily harm, three counts of common assault and one count of unauthorised use of a prohibited weapon (which relates to the illegal use of capsicum spray). Officer Black additionally pleaded to two counts of intentionally publishing protected information.

Video footage from the incident was played during sentencing proceedings in Penrith District Court on Thursday, 10 July 2025 and Crown Prosecutor Nicholas Marney commenced his submissions, highlighting the gross use of excessive force, the degrading conduct of the officers towards the woman despite being informed of her mental illness and their conduct after the incident, illegally sending a clip to a colleague and gloating of their treatment of the woman.

The sentencing hearing has been adjourned until 15 July 2025.

The defendants are no longer in the police force. They have been on bail throughout the course of the proceedings.

Excessive Force

Section 231 of the Law Enforcement (Powers and Responsibilities) Act 2002 states that police officers may only use 'such force as is reasonably necessary' to arrest a person. If a police officer breaches this law, the arrested person may be able to claim self-defence in section 418 of the NSW Crimes Act, which can combat the charge of 'resisting arrest' by an officer.

Section 418 states a person is not guilty of resisting arrest in the execution of a police officer's duty if:

They believed the conduct was necessary to defend themselves or another person, and

The conduct was reasonable as perceived by the person.

Any force beyond what is considered 'reasonably necessary' by the officer amounts to a criminal offence.

Given the horrendously brazen conduct of former officers Black and Trautsch, and the fact it only came to light due to complaints by attending nurses, one might wonder what other crimes the pair has perpetrated against vulnerable members of the community.

And considering former officer Black's confidence in sending video footage to a colleague, bragging of his 'manly conquest' of a middle-aged, naked, mentally ill woman, one wonders whether police rhetoric of protecting the public and combating violence against women is just that – rhetoric – when in reality the force is plagued by a culture of violence and criminality.

Disgusting hey. The disdain police have for some members of our society is vulgar, and this level of disregard the police have for sex crimes is why they are so prevalent. More than 1 in 5 women aged fifteen years and above have experienced sexual violence in Australia. – Source: Australian Bureau of Statistics (ABS); 2021 – 2022.

Back to the revelation that my parents had heard the damaging defamation of me as a prostitute as a teenager, and furthermore, that stemmed from this, it is Shocking to think that at sixteen years of age, my parents' solution to such an accusation was to leave me at the whim of such a lie. More shocking is that as a sexual assault survivor, my life was used, abused, and misconstrued for, and by sex offenders. Countless police sex offenders, nationally and globally, are involved in the oversight of sex offending against minors for the control of the sex industry. SO much damaging defamation by an affray (including aggravated affray offending) was revealed to me about myself after Gordon Tearonui Hamm was tragically murdered in 2013. I am sure that this malicious accusation with no facts or basis was what influenced the decision to dismiss my employment at Hungry Jack's, a seventeen-year-old. My parents never apologised for the dismissal of my position or for leaving me nearly homeless, and I know at the time I WAS NOT, NEVER have been, and NEVER would be a prostitute. I have never really forgiven them for

disregarding my life - how do you trust adults/parents that abandon you as a teenager? Especially after someone around their age raped me, and when I needed someone, they weren't there. A consistency with my parents is the silent treatment, ignorance, narcissism, and gaslighting. Studies of dictatorships state that the tools of oppression by definition are the silent treatment and ignorance. My parents, with biker friends all their lives, have never been accused of any of the atrocities I have. Work that out.

I knew my family was behind the prostitute rumours, as with the corrupt police officers using children as prostitutes by 2018, when they pushed me to live with an old VICPOL police officer, I rejected, so he drugged and raped me into a relationship. My family's actions were to cancel a lease I held with my brother after my home was illegally acquisitioned. This lease cancellation forced me to reside with a rapist, proclaiming to be a saviour, a powerful police officer, my only ally against SAPOL, a retiring old, dodgy VICPOL cop, which lasted for only a short time. The police purposely made up the prostitute lie to cover up *Kurt Gavan Slaven's* (DOB 07NOV1958; SAPOL/ADF - Navy) crime, seemingly, and fed it to my family. My family believed the malicious cover-up because they benefited from the lie. This is how malicious accusations, with no basis in facts or evidence, permeated. No one cared about the truth while they took payouts for the lies. Everyone around me, a venal scab with something to hide. For decades, my family never cared to ask for the truth; they just used the malicious

accusations as a negation tool to negate their criminal conduct. Used as a pawn in government cover-ups for decades. Felon Luke Hubert Scheidl (DOB 1981, Mount Gambier District, SA) stated in 2014 that it was a solicitation to Kurt Slaven (SAPOL, Australian Defence Force - Navy) as per Craig Spence (DOB 14DEC, Australian Defence – Army, Olympian, Manpower, Big Brother contestant, Australian Veteran and self-proclaimed morphine addict) allegation at Dee Why, NSW in 2017. Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South AUS) was referring to *Kurt Gavan Slaven's* (DOB 07NOV1958; SAPOL/ADF - Navy) maybe Andrew Cherry as SAPOL claim, attempt at sexual assault offence committed in the latter of 2001, which explained why a taxi was pushed on me to transport me to Conroe Heights, Mount Gambier, South Australia. The property I ran out of after seeing the whale, male Kate Winslet, on the bed naked.

SAPOL believing the second offender was a man named Andrew Cherry, with numerous other victims SAPOL is aware of. Colleagues admitted to mistaking the identities of these two men personally. This second attempt at sexual assault occurred when I was seventeen years old, in the late part of the year 2001. The incident is not as vivid or drawn out as the rape offence. I do not deny that the second offender's identity could be in question, where an attempt at sexual assault and a charge of indecent exposure, possibly solicitation to someone who was not a prostitute, could be laid. This is not the case with the first offence of rape, where the offender being *Kurt Gavan Slaven* (DOB 07NOV1958;

SAPOL/ADF - Navy) is irrefutable - an absolute truth in correlation with the statement given and corrected via SAPOL 2017/2018 – the offending occurred in 2001 before my seventeenth birthday when *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* was a detective in Mount Gambier Police Station.

The first offence, where the offender is irrefutably *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)*, is vivid. The offence occurred after some conversation over a length of time, approximately ten minutes, before he committed his crime in a secluded, isolated location. *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* has been further identified by persons associated with the car theft to which no charges were laid against the thieves as well as identified by myself in the company of people that knew of *Kurt Gavan Slaven's (DOB 07NOV1958; SAPOL/ADF - Navy)* identity after the offence to which he was seen driving the WRX Subaru vehicle which facilitated the on-duty crime.

The age of seventeen, when the second offence took place, is the legal age for sexual engagement in South Australia. Not that it is ever legal for a man twice your age to prey on you as a child. Not to mention a police officer, on or off duty. SAPOL stating that the man involved in the second offence is named Andrew Cherry – the second offender may be this individual. I ran away rather quickly and did not stare at the offender being dropped off at McDonald's near my residence at the time. Yet, SAPOL failed to charge both men for any

offences half a decade after concluding the crime as ‘misconduct’. The statement of the offences and further details of the saga case are pictured in the inclusions and furthermore detailed in Chapter 1.

The Epstein-like offense is unacceptable within modern society and inappropriate in the culture I grew up in. We were not living in the 1920s. *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* is a creepy old man who preyed on young girls, attempting to groom and force consent. This is how I reflect on the circumstances this predator created, very much like the creep Epstein and his crew. The first offence (beginning part of 2001) had no legal grounds to be dismissed as an underage sexual assault by SAPOL or ICAC. The second offence of attempted sexual assault (late 2001) and forced efforts of solicitation after police and human resources made claims of prostitution against me, clear criminal charges, leaving no grounds for my reports to be overlooked by the South Australian Independent Commissioner Against Corruption (ICAC), the South Australian Police Ombudsman, Politicians, or the AFP. Yet, in a cover-up acknowledged on record in 2020 by Women’s Safety Officer SA Stephanie Baker, this is precisely what all these governing bodies engaged in. Ignoring the truth and pursuing a cover-up of paedophilia, which spanned nearly half a decade after it was acknowledged as a cover-up.

In 2025, I had the pleasure of meeting Stephen Pallaras, KC, former SA Director of Public Prosecution, and his wife, Stacey. I asked some candid questions about the

association laws he helped implement and the independent assessor, ICAC SA, to which he rallied to legislate. On ICAC SA, I quote Stephen Pallaras, KC, former SA Director of Public Prosecution, saying, "The most inadequate legislation I've seen implemented". Other than the PID Act Inclusion, I agree with the legislation's floundering to hold the Commissioner of police to full account and legally involving him in the oversight of his department in matters of corruption, facts that show police misconduct investigations are far from independent.

The cover-up was furthermore conducted with the FBI present in South Australia and Queensland over the years 2021 - 2023, our media bragged as I saw it. I had struggled for years as a teenager to grasp why an old man would want to take advantage of a person who was the age of someone who could be his daughter. Utterly inexcusable behaviour from a police officer, let alone a decent human being. Yet the police force of South Australia, our Federal Police, all Australian police forces, and even the Prime Minister's (PM) Office excused this behaviour for over half a decade after the statement was recorded against SAPOL Kurt Slaven from 2017, finalised in 2018. *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* resigned because of my report against his paedophilia, yet he was never charged as the sex offender he is at the time of his resignation. Commissioner Grant Stevens (SAPOL) is very much responsible for covering up paedophile crimes while taking half a million in taxpayers' dollars to do it, as well as taking taxpayers' money to pay for

his son's funeral while he was still engaging in the paedophile cover-up. Sicko. Figure that out as not a misappropriation of taxpayers' funds. The Premier Peter Bryden Malinauskas (DOB14AUG1980) in 2024 was the police minister, involved in the cover-up of my criminal negligence reports and statements against police during the Labor Government's tenure over South Australia, which lasted from 2002 up to 2018. His political counterpart, Christopher James Picton (DOB 13 JAN 1983), when he was in the police minister's office, advised me in 2018 that it wasn't in my best interest to address the injustices that I was voicing from Mount Gambier, SA.

The boys club favours and back scratching continued for years, in my face, knowing who was involved with covering up what and when the simple facts of institutional harassment, oligarchy, and targeting an individual (me) were brighter than the first atom bomb viewing.

In 2024, Peter Bryden Malinauskas (DOB14AUG1980) graciously granted over one hundred thousand dollars for Commissioner Grant Stevens' (SAPOL) son's funeral. WTF is that shit if it's not a payoff for prioritizing the cover-up over his family!? As I see it, the Top Cop Commissioner Grant Stevens (SAPOL) was rewarded at the taxpayers' expense for being absent from his home life (for elite sex crimes cover-ups), which during this time saw his son pass away from a tragic car accident, where the driver unfortunately claimed Commissioner Grant Stevens's (SAPOL) son

walked out in front of the car. What a reality, as if you would not retire immediately after that. Some people seem to have no shame or conscience.

None of this is my fault. God knows, even writing this book was my only option to beat a well-funded government cover-up, assisted by felons motivated to cover up sex crimes, including their own, and other sadistic motives. That said, this book nearly wasn't enough. Everything I said was being weaponised for a cover-up. My first manuscript was ambiguous and at times difficult to follow, making it easy to manipulate—disruptions to manuscripts and publication, drawing out the proofing of this book.

In life, I literally had to adapt to mythos as self-defence at times and find ways to manipulate and control perception, at least enough to present my life in some form of real narrative. The goodwill of this book was tarnished by tragedy after tragedy.

The bottom line of the story of 2001 is the end of my legal practice career at this time of life, thanks predominantly to SAPOL allowing felons to steal my car and SAPOL member(s) sex crime(s). The offense had a profound impact on life at this age. I could not support myself to move to Adelaide (South AUS) for

university, and I had an unreliable white Volkswagen Beetle (2001) with absolutely fucked brakes, which were made worse, not fixed, when I returned the purchase to the automobile sales business on Commercial Street and Krummel Street (2001). The SAPOL-led circumstances saw me give up on my dream. I gave up on going to university because I no longer had parents to fund the move, nor a job to fund it myself (dismissed by my parents just before university commencing. I had been able to save little money, partying as a traumatised teenager with my friends and funding my boyfriend to build himself up to the carpenter he is today – I bought Tim Argent (DOB 1983, Mount Gambier District, South AUS) much of the tools he used for years when establishing himself as a carpenter from my Aquatics teacher wage. Lay-buying and paying off tools via accounts at Gasweld and other hardware stores, for what in the end was a ‘tool’ of a boyfriend. Generosity can be a downfall, yet not a regret. My dream of becoming a lawyer was shattered, even though I was enrolled at Flinders University in Adelaide, studying Justice and Society, and had planned to transfer into Barrister Studies. I re-enrolled in law studies in 2021 at Flinders University, to which I was granted entry to pursue my Juris Doctor, but my studies were halted due to police intervention. I had beaten the police in court proceedings too many times during this cover-up by 2021. The government and police forces were intimidated by my status as a student of law and the future possibilities regarding my ability to represent others. They were scared enough of me representing myself against the perjury, which was evident even to

my lawyers early in 2018. The police can only successfully prosecute me if aided by perjury, failure of prosecutorial discretion, fair trial, due process, and torts. Abuse of power, process, and throwing the justice system into disrepute, a cover-up agenda at the expense of the taxpayer.

My prospects of being a Successful Criminal Lawyer have been blocked at every attempt I have made in Australia. An 'A' Grade student with High Distinctions throughout my school studies, not attending University, shattered by a paedophile police force - truly tragic. I loved High School. My 'A' Grades were never good enough for my parents. The lecture I received when my parents received every report card focused on my talking in class, and they forgot that I was at the top of the class, reflecting their unreasonable and obscure attitudes. Admittedly, I spoke a lot in class. Sent out of class and assigned to pick up papers often during High School, I am Highly Academic and also Highly Rebellious, prone to not always doing as I am told. My English teacher, Mr. Fox, deserves credit for his encouragement and patience, which may have also contributed to refining my literary finesse and legal basics. As a superstar teacher, I would sit on the ground in front of the heater and hammer out my English studies. The separation of eye level actually made me talk less and more productive. Mr Fox was one of those extraordinary teachers who could teach any individual student and engage all personalities productively.

It was predominantly because I thought my parents were too mean, I had spent years at school telling all my friends I would move out of home as soon as I got my 'P' plates. The pressure at home to be perfect, because they were mean - a typical teenager attitude, amongst other reasons. Yelled at for years when my report card arrived for talking in class when I was a High Distinction student, as stated, I think it is ridiculous still to this day. Which I did, leaving home as soon as I finished year twelve, class of the year 2000. My parents, high achievers, wanted me to achieve highly also.

Growing up in what I saw as a very strict home environment with high expectations and isolation due to living on a regional farm - a half an hour drive from the city, no one was surprised when I moved out after obtaining my 'P' plates, let alone when I shunned my parents at this moment after moving out of home.

Highly sensitive, I wrote expressive poetry with my friends throughout much of High School. My academic, stage presence, and artistic flair – my potential- was recognised by many teachers. Mr Barton, the drama teacher, recognising my writing as lyrical, encouraged my outgoing character in acting and vocal ability, showcasing my shy vocal skills as the only solo vocalist at an assembly event. This teacher was well-liked amongst all my peers; he would be delighted that I have gone on to obtain an Arts Degree in Music Production—credit to all the Amazing Teachers out there. I like to think that, after over fifteen years of Aquatics Teaching, I made a slight difference in

individuals learning a skill for life. Teaching is one of the best jobs.

Working as an Aquatics Teacher since the age of fifteen. I left teaching briefly in 2001 to work full-time at Hungry Jack's. My mum was the restaurant manager, and I was also offered part-time work as a disability care officer with the government organisation, Intellectual Disability Services Council (IDSC).

Teaching aquatics was not a full-time job, and the plan was to save up some spending money for university. So, I declined the IDSC part-time role and began working at Hungry Jack's. The employment change was a good, smart decision, except that it involved family.

Following my being illegally dismissed from employment with my parents, it took nearly a year to gain full-time employment again in Mount Gambier (South Australia). Unemployed and single (end 2001), I applied for Government Subsidies and held a Housing Trust Bond for years until purchasing my first property on the sixth of April 2006, at twenty-one years old.

I was offered a full-time position working for the South Australian state Government in the Disabilities Sector, rather than the part-time position I was offered in 2001. I had volunteered at an aged care facility while unemployed in 2002. Happily, I took on the role of Disabled Care Officer, working with people with disabilities for years into my twenties. Moving on from the disability industry position after reporting neglect and criminal conduct in the sector, not entirely by choice, in 2007. Reprisal for reporting negligence was

to result in being pushed out of employment. I was back teaching aquatics from approximately 2005 until 2019, teaching consistently. During this period, I purchased my property (2006) and started a Real Estate career I hated in 2009. The industry full of seedy men and dishonest personalities, I was sexually harassed by my first employer in Real Estate, as a trainee on an apprenticeship to which Group Training Employment in Mount Gambier (South AUS) ignored the sexual advances of Herbert Real Estates David Herbert (Mount Gambier District South AUS) which led to the end of my career selling used homes. A lady called Julie, I believe, with a boy cut style and short blonde hair, was one of many females with an unsavoury attitude when a man offended against a woman. This activity should disgust a female, not have her reach for excuses to justify sexual abuses like I watched many females do, predominantly female cops, the Sickos. We go into the psychology behind women's motivation to dismiss the suffering of other women as you continue to read. I briefly sold new homes for G.J.Gardner Homes franchisee holder Jeff, after David Herbert (Mount Gambier District, South Australia) sexually harassed me. David Herbert (Mount Gambier South, AUS) is a relative of many persons involved with the Gypsy Jokers, and I witnessed him blackmail people for contracts. Leaving this initial job in Real Estate was a blessing. Jeff is one of the few male employers I have had who did not make sexual advances towards me during employment – the only other male employer I have had who did not sexually harass me was during 2022 in Alice Springs, Nth Territory, AUS, being

employed by the CEO at that time. My employment at G.J. Gardner Homes ended when I returned to work as an Aquatics Teacher in 2010. I still had Jeff as a reference on my resume for employment into my forties.

It wasn't until 2013 that I learned that many of my employers had been told that I was a prostitute being investigated by the police. A decade of life-threatening, damaging defamation with no police questioning, no charges, and certainly no evidence. Again, figure that out – how were police investigating nothing, and why were they trying for years to push me into prostitution with a malicious accusation and efforts to interfere with my employment and cause destitution?! How and why – because SAPOL had been highly compromised by the Gypsy Jokers bikers of South AUS (as with by other biker clubs) for years, and predator *Kurt Gavan Slaven's* (DOB 07NOV1958; SAPOL/ADF - Navy) had been actively covering up his paedophilia for years with anyone willing to help – evidently (IRREFUTABLY).

After separating from my first serious boyfriend, and my parents leaving me to fend for myself, I took the precaution of renting by myself, once with my brother also on the lease. My brother has had methamphetamine issues since around the age of seventeen. I did not continue to have his name on my rentals, aware of his problems. Having a joint rental with a boyfriend on the lease when I moved out of home was a contributing factor to the lease termination and the difficulties I faced getting another property without a partner at

seventeen years of age. Renting property with someone else's name on the lease has never ended well and has always pushed me into homelessness, irrefutably. SAPOL has been involved in the background regarding my rental issues for two decades, even until now, authoring this book in 2023. A rental application with only a female wage, significantly lower than a male's, was apparently not something landlords were willing to accept, and I was not qualified in a trade outside of Aquatics Teaching. I was lucky when I landed a rental, yet it was never too long before the landlord or agents started petty harassment towards me. Irrefutable harassment inspired by the police. Harassment I didn't receive for ten years whilst owning my home. By 2023, any excuse a landlord could find to disqualify me as a tenant or break the lease was overwhelmingly evident—a SAPOL (and governance) fuelled agenda in a cover-up of paedophilia. No matter what state I resided in, it was apparent that my rental crisis had nothing to do with me and everything to do with small-minded people, damaging defamation, illegal and deliberately neglectful investigations, as well as a paedophile police force that spanned the nation.

At seventeen, when I first applied for a rental alone, teaching aquatics in Mount Gambier (South Australia), my employment was only just full-time when including the administration and cleaning shifts I performed. Yet, with school holiday periods reducing employment hours at these times of the year, overall, I was sort of only in Part-Time work timewise. Financially, aquatic teaching was enough to survive, as my fellow teaching

colleagues did. I held rental properties for half a decade until purchasing my home. My employment, which included school holidays and reduced hours, allowed me to pursue other interests - studying. My lifestyle has always allowed me to study frequently while pursuing my beloved aquatics teaching career, although it's a challenging task to survive on just government subsidies or forty-eight weeks of employment. I am lucky to be of small stature, so I don't have a high grocery bill, saving a lot on food when necessary. Op-Shopping and antique furniture have always proved a place to save money, also. That said, to purchase a home, it took me five years after leaving parental care to save enough money and show that I could repay borrowed money to get a home loan. Borrowing the extra deposit money I needed from my boyfriend's parents, who have generally always been very kind to me, despite everything that became of my relationship with their son. The relationship was toxic in the end for both of us. Young love is not always forever, even if you want it to be.

Before the purchase, never homeless, I also resided in Flat and unit-type rentals for the first two years after moving out of home, before renting a house property on Wehl Street near Vansittart Park (approximately 2003–2006). Close to where I resided while revising and authoring a large part of this Autobiography, which was located at Hart Street, Mt Gambier (2019-2020). Keep in mind that 2020 is when SAPOL announced they were covering up their use of prostitutes, including children—public disclosure issues 101, a cover-up. The four residences where I resided from 2001 to 2006, as I

moved from my parents' farm to the city of Mount Gambier, are pictured in this Autobiography.

The tragic homicide of Gordon Tearonui Hamm (victim), which started to expose the cover-up agenda you're reading about, occurred at 4 am on July 17, 2013. The victim was ambushed on the Glenelg River bridge, Victoria, AUS. A homicide that many, including myself, would argue the CIB of Mount Gambier and STARForce SAPOL members were aware could be the result of allowing known criminal conduct to play out. A neglectful investigation, criminal negligence, and reckless endangerment events unfolded before me. I witnessed SAPOL blatantly disregarding lives, like mine, used and abused in operations. Dehumanisation of the culture of the police force, lives disregarded and disrespected by SAPOL and the Australian Police Force. I was the key witness in this case, although you may not have been aware of it from the court records, as I was not required to appear in court. Even so, every felon involved was aware that my communication with the police led to the charges laid in this case. Police convicted the felons during a neglectful investigation that recklessly endangered my life. The investigation put to the courts even contained falsified evidence to hide the police force's association with the crime. I was cast aside as a witness, the only honest witness the police force had that was not part of the gang activity that took Gordon Tearonui Hamm's life. Irrefutably, police forces did not want a truthful witness, the facts reveal.

I am speaking out – writing this book about the police forces' criminal offending, a vital necessity. Not just to reach for stolen justice and my Human Rights, but to seek resolution in a race to bury the truth. A race fuelled and funded on one side by the government. A race against an underlying rise of sex offenders. Deep-seated corruption within SAPOL and the Australian police force is irrefutable. The grasping at straws with defamatory allegations from labelling me in society as a prostitute to a police officer, then setting out to try and charge me with industry-related offences. This is irrefutable entrapment. The likelihood that community members would believe I was a police officer without access to police data and directives is minimal. Smoking marijuana, binge drinking, petty theft against criminal sex offenders, never holding a SAPOL uniform, never receiving a payment from SAPOL or any other law enforcement agency, (nor having sex with minors – which seems to be a requirement in law enforcement to excel) the only way community members could have believed any of this defamation was with the reiteration of a trusted authority, police officers and other trusted community members spreading the more often than not damaging defamation. At best, I've complied with some form of assistance in effecting the lawful arrest of a person committing or suspected of committing any offence. Debatable considering law enforcement has not formally charged one sex offender I have reported (including paedophiles) who has committed sex crimes against disabled, minors, myself, and others. As for people ever believing I was a prostitute, well, the non-drug-using demographic in Mount Gambier, SA, never

thought I was a prostitute, and the rest of the town, well, they knew that this was a made-up false truth (if they cared or heard it). The bottom line is that during this decade of defamation, where police witch-hunted a whistleblower, with certain government representatives, based on police and community perjury claims of a prostitute, part of organised crime, and claims regarding a SAPOL issued police certification, the police have been involved the entire time.

Because of the police certification attributed to my name in databases, coupled with malicious allegations with no basis or facts, plus the injection of the AFP overseen homicide investigation, my life was turned upside down. In 2014, I was left at the whim of boys who had been involved in gang rapes and illicit drug dealing since they were teenagers – COA gang members heavily associated with the Comancheros and Gypsy Jokers, but not limited to. Amateur gangsters are desperate to hide a hideous crime of murder involving numerous people.

I, at the height of building my brand, establishing my corporation from a sole trader for Barbwire Noose® Clothing, was held in a character assassination attack for over a decade. Malicious accusations with no basis or facts, which resulted in attempts of solicitation, multiple sex crimes committed against me, theft, perjury, assault, as well as many losses and damages. My person had been threatened before and during my assistance to the Victorian police regarding Gordon Tearonui Hamm's death, with much reported to the

criminally negligent SAPOL. Attempts to intimidate me into silence by felons involved with the homicide, Timothy Stringer (Mount Gambier District, 2013), a known to police ICE dealer and human resource, were ignored by SAPOL/STARForce. Timothy Stringer (Mount Gambier District, 2013) made a human resource from what I witnessed to feed the ICE/Methamphetamine addiction of STARForce member Simon Quinn (SAPOL, DOB10JUL1971). Timothy Stringer (Mount Gambier District, 2013) was guilty of conspiring, soliciting, encouraging, and persuading a person to murder another person before he had an axe placed outside of the view of my home surveillance. A camera system that views my front entry door and the highway car park. I knew who the axe belonged to and contacted Timothy Stringer (a Mount Gambier District resident since 2013) via my mobile phone number, which was then 0427 972 325 (Telstra service provider), about the axe that had been placed on my property. Timothy Stringer (Mount Gambier District, 2013, human resource to STARForce drug addict and seemingly handler Simon Quinn (SAPOL, DOB 10JUL1971), is the man directly responsible for ordering the murder of Gordon Tearonui Hamm, uncharged over a decade after the murder—a debt collection order with an expiry date that led to Gordon Tearonui Hamm's death. This is how corrupt SAPOL is and how complicit other police forces are – three forces, AFP overseen, VICPOL, and SAPOL, investigating the homicide. Yet, human resources and ICE/Methamphetamine dealer to police, Timothy Stringer (Mount Gambier District resident - 2013), has

not been charged for a single crime. Timothy Stringer (Mount Gambier District resident - 2013) threw his murder accomplice under the bus when he said his friend Mark 'Freddy' Moreland (Mount Gambier District, South Australia 2013) put the axe over my property's fence. The axe was stolen from a local hardware store (Bunnings or Masters) by David Newton Bradley (DOB: 1981, Mount Gambier District, South Australia) and subsequently given to Timothy Stringer in 2013, the year of the murder. I saw the axe at Timothy Stringer's (Mount Gambier District, 2013) new residential property, which he was building with his partner in 2013. The axe at Timothy Stringer's (Mount Gambier District, South Australia, 2013) property was in the new shed constructed there. David Newton Bradley (DOB 1981, Mount Gambier District, South AUS) was paying his ICE/Methamphetamine debt off to Timothy Stringer (Mount Gambier District, South AUS resident - 2013) by stealing goods and constructing the roofing at the property, as well as debt collecting.

NOTE: A SAPOL human resource, Bradley, stole property for a SAPOL human resource, Stringer, with neither of them charged in association with the murder of Hamm.

This drug dealing was a mess; these boys were inhaling as much as they were dealing, and shit was paranoid chaos from what David Newton Bradley (DOB 1981, Mount Gambier District, South AUS) described. Furthermore, a bloke had been shot and beaten to death over a drug debt created by the very people ordering the

hit. I knew enough to know that ICE addicts of years scared of jail and the results of their crimes were trouble – amateur, not what you read about in Mafia books, trouble. So, I reported this offence via my mobile phone to the Mount Gambier Police Station immediately after Timothy Stringer (Mount Gambier District resident - 2013) confessed the axe was linked to him (2013). SAPOL took no action. I later spoke to Aaron Roche (VICPOL ID 33388), a seemingly humane Victorian Detective who, though very smart, had a lot to learn about the Mount Gambier Underworld. Three men were jailed for the death of Gordon Tearonui Hamm. Three offenders who would never have been jailed if I had not assisted the police. In 2015, during the Gordon Tearonui Hamm based operation, I communicated with Aaron Roche (VICPOL ID 33388). Aaron Roche (VICPOL ID 33388) is making claims that a police officer who had been stalking me since meeting me in 2014 was involved in the ICE industry. Dave Kyriacou (SAPOL ID 40657 aka Constantinos David Kyriacou) was the police officer who was accused of being involved with organised crime, ICE dealing. Dave Kyriacou (SAPOL ID 40657) certainly was in strong communication with ICE, dealing with human resources and organised crime members, whom I witnessed personally. This could have possibly been true. In 2015, I was unsure and thought his actions were corrupt yet operational. After years of Dave Kyriacou's (SAPOL ID 40657) compliance in the most vulgar cover-up on record against SAPOL, one can only conclude that Aaron Roche's (VICPOL ID 33388) claims of corruption were valid. In 2017, I again had to contact

Aaron Roche (VICPOL ID 33388) regarding the life-threatening misconduct at the Mount Gambier Police Station. By 2020, it was evident that both men were corrupt police officers from SAPOL and VICPOL.

While assisting Aaron Roche (VICPOL ID 33388) in 2014, I reported Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) for sharing evidence with Graham Daniel Young (15MAR1975). Then I was asked to report *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) for his sex crimes committed in 2001 at the direction of the Police Ombudsman South Australia: relevant reference numbers: 2014/33756 & 2016/37043. After assisting with the homicide case, the institutional corruption that had crippled Mount Gambier with ICE addictions and home invasions was irrefutably evident.

Police, for years, have been recording me on documents as homeless, damaging defamation, reckless endangerment, and perjury at the least. I have never been homeless, as much as the Australian Police Forces have tried to make this so. Especially after the cover-up announcement in October 2020. SAPOL engaging methods of forced eviction "the permanent or temporary removal against their will of individuals, families and/or communities from the homes and/or land which they occupy, without the provision of, and access to, appropriate forms of legal or other protection".

That stated, the question of a real home has been debatable, with months of couch surfing and accommodation hopping while travelling, room rentals, and even an Airbnb stay have been posed as home since Dave Kyriacou (SAPOL ID 40657), a corrupt police officer and Freemason, was stationed at the Mount Gambier Police Station in South Australia. Dave Kyriacou (SAPOL ID 40657) is one of the main contributors to my being recklessly endangered by SAPOL police with SAPOL Commissioner Grant Stevens. Both should be charged with Reckless Endangerment and perjury, engaging in a cover-up. Dave Kyriacou's (SAPOL ID 40657) perjury and entrapment utilising his own SAPOL human resources (intervention) have been on record with South Australian courts since 2021. There is an outstanding number of witnesses in the police force (and in general) to Dave Kyriacou's (SAPOL ID 40657) perjury; his knowledge of police force sex industry interactions is clearly the basis of his employment, promotions, and how he extorts in his position to conduct such illegal activities.

'Courts may be more inclined to consider exclude evidence obtained as a consequence of entrapment if police either did not have proper authority to engage in a lawful "controlled operation" or if they did not have reasonable grounds to suspect a defendant was already engaging in the same type of criminal activity before they were induced by police into committing an offence.' – Legal Advice; Hugo Law Group Pty Ltd, ACN 650 380 019.

I do not mention disruptions to housing and property randomly in this reading. Not only is it easy to tempt a nosey new neighbour to hate the felon, namely the prostitute next door, but it is also easy to push people into crime and/or suicide when they are desperate, destitute, and vulnerable.

There is a complex relationship between homelessness and conflict. Homelessness is an urgent, shared, and solvable problem. Homelessness happens because people cannot access the housing and supports they need. Government bodies, police torts, and whistleblowing often leave you with little help or support from government agencies or government-funded services, which are usually the primary sources of assistance for homeless services. This is what police relied upon to push me to the refuge of suicide; unfortunately for them, I did not personally seek independent or government services for aid during this decade. The only services I ever spoke to contacted myself, at the direction of SAPOL and VICPOL during torts. Victoria Women's Services provides aid, as I've never really resided in Victoria after incarceration. At the direction of police forces, I used this resource to return to the Northern Territory, where my car and belongings were located.

Research states that living on the streets contributes to rapid health deterioration, increased hospitalization, and, in some cases, death. For vulnerable subgroups, such as street youth, people with mental illness, young women, and the elderly, the risk of mortality when

compared to the housed population can be exceptionally high.

It was a conscious and intentionally malicious agenda to try to push me into homelessness and in turn into the refuge of suicide after SAPOL (police forces and felons) turned my successful, highly respected life into being perceived as that of a drug addict prostitute to match Dave Kyriacou's (SAPOL ID 40657) false statement written in 2018 for Adam Brown (SAPOL ID 79623) of SAPOL Adelaide Special Investigations sent to me at this time by Commissioner Grant Stevens. The statement also claims substance abuse as a motivation and that the offence was made up despite investigations supporting the details of my report regarding sex offending police. The crime to cover up the sex crimes I reported against minors in the sex industry, by the police, and against the disabled. An unsuccessful impugned act.

The crux of Dave Kyriacou's (SAPOL ID 40657) false statement was not actually his damaging defamation, which led to aggravated affray offences, but the fact that he said I 'made up' the offence. The engagement of Dave Kyriacou's (SAPOL ID 40657) false statement and the fabricated date of 2002, plus the fabricated PIMS report (all perjury), led to SAPOL concluding Andrew Cherry guilty of numerous sex crimes, as they stated. SAPOL also tried to attach the offence committed against me in 2001 to this SAPOL sex offending police officer, saying the offense occurred in 2002. The year is an absolute truth of 2001, with age,

living arrangements, car ownership, and more differences between these two years in question. Dave Kyriacou (SAPOL ID 40657) perjury is irrefutable. The false statement analysed in a court setting has numerous charges stemming from perjury. Dave Kyriacou (SAPOL ID 40657), writing this false statement, shows SAPOL's efforts to cover up sex crimes were engaged well before they were announced in 2020 via Women's Safety Officer Stephanie Baker.

Dave Kyriacou (SAPOL ID 40657) perjury offending engaged intentionally in a cover up caused severe reckless endangerment, aggravated affray, grievous bodily harm, obstruction of justice, torts of malicious intent, etc all to cover up a sex offence against a minor committed by his friend *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* concludes his perjury offence is of a serious nature. And continued due to a personal vendetta regarding my knowledge of his corrupt conduct, and boys club allegiance. These facts should be considered in penalties.

My decision to independently rent, with my brother and I sharing one lease, is a Bay Road, Mount Gambier, South Australia, unit rental (year 2002), which is a form of self-defence for me. After the experience of near forced homelessness in 2001 with a breakup and unemployment, life events occurring at the same time, were, as you can imagine, overwhelming for a teenager and utterly devastating, to say the least, about it all. I ensured my premises' security and safety forthwith, until police forces were so determined to have me homeless

and commit suicide that they obstructed me from gaining a rental of my own in South Australia and numerous other locations in Australia. By November 2023, the obstructions and disruptions to my ability to have a safe place to reside outside of home ownership were irrefutable. Law enforcement was going to all ends possible to try to force me to seek the refuge of suicide by trying to push me onto the street. Activity which is undeniable and witnessed by Australian citizens, immigrants, and governing departments, e.g., South Australian Civil and Administrative Tribunal (SACAT). In 2024/2025, I entered a shared lease with a person I barely knew, who was familiar with SAPOL employees in the area and had an uncle in VICPOL, a compulsive liar I could not trust as a housemate, let alone as a partner. Despite my objections, he relentlessly pushed for a relationship, and in the end, I could only hope this arrangement lasted until resolution. Four children he doesn't see, talk to, nor does he finance all of them - I understand messy breakups, but I disagree with what I know, which I said countless times to his face. He worked away, and we got along as well as co-dependently rented 2025. A nice guy, unfortunately, I have zero tolerance for liars, and you can't come back from breaking the ceramic plate, even with gold.

Japanese repair broken pottery with gold is called Kintsugi (or Kintsukuroi). Using lacquer mixed with gold (or silver or platinum) to mend the pieces, highlighting the breakage rather than concealing it. This practice is rooted in the Wabi-sabi philosophy,

which finds beauty in imperfection and the acceptance of flaws as part of an object's history.

I used this metaphor to explain how once something is broken, like trust, it doesn't repair the same. Sometimes, it is more beautiful, often it is usable, but not as it was originally. Breaking my trust while we got to know each other, and his push for a relationship he seemingly wasn't 100% invested in is weird and is an irreparable circumstance when you fuck up before you've started really.

As a last resort, I would have resided with my parents at the home farm. Being without my purchased home left me irrefutably vulnerable, and due to police torts, without a doubt, people tried to take advantage of that vulnerability, succeeding at times.

When I owned my house, I went to great lengths to protect it, seeking legal advice on living arrangements if a partner were to stay with me. I paid my home loan; no one else contributed to this. I did not allow my boyfriend(s) to live with me in a permanent setting, stay over, sure – some clothes, toiletries, etc, sure. It can be said that the only property I would allow them to store at my house was clothing and necessities. I was scared to be nearly homeless again, rightfully so as it played out in 2016 when my property was illegally acquisitioned due to SAPOL claiming I was a prostitute. No evidence, no criminal trial, just allegations so damaging that they affected my housing stability for a decade. Make NO mistake, I made it very clear my house was never to be a joint venture. Not even in

marriage. A prenup for my house, Barbwire Noose, and children were clearly discussed with friends as no-go zones, no man taking control of these things, if I ever were to marry. I won't sign a prenup excluding myself, nor would I take someone else's property – judge that how you will, but I do not believe everyone's hearts are as honest as mine, which is why I maintained a separation in responsibilities in cohabitation and all my relationships. Everything that was mine is always mine, and the properties were my responsibility, whether owned or rented, until 2019/2020. No matter how serious the relationship became, if we were not seriously planning to get engaged and to be married, the relationship was not de facto – situationship, I think is the title of the times for this type of a hook up. You don't really know someone until you live with them, so how are you going to know if you want to marry them without them staying over?

No arranged marriages here.

Back to my illegallyquisitioned home, 69 Penola Road, I did not want my partner's property to fill my small one-bedroom home if these things were not going to be accommodated in the property in the long term. My property filled the little dwelling as it was.

Every boyfriend I have ever had, belongings remained with their parents, with their valuables and main belongings at their own residences. I stopped having relationships, stopped dating, and basically had little interest in men in my thirties after reporting *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy). I

knew I could trust a few, but no one around me. Money is honey for gold-diggers, no matter what your gender, and I knew the result of reporting such a vile crime committed against a minor by a police officer on duty was going to have a level of compensation attached to it. Something I was clearly happy to live without and certainly didn't know was an offense that warranted police engaging in a decades-long cover-up plot.

It's always been a concern of mine, gold-diggers. Greed seemed to have an air of prevalence, often in my upbringing, probably influenced by my father's side of the family. Holding a well enough paid government position prior to purchasing my home, I earned the most money in the household. So, I sought legal advice on de facto relationship law from a female Lawyer who climbed as a client at my dad's rock-climbing gym when I purchased my house in 2006. Marriage is the only joint venture I will bind myself to in a relationship. Travis Paul Enmon Jr (DOB 16 JAN 1989, Texas, USA) is the only man I have ever agreed to marry in 2019. He professed and confessed his love on and off since 2014, which initially I did not take seriously, beginning our long-distance affair in approximately 2010. Travis and I got engaged in 2021, after sharing a substantial part of our lives as friends. I became the power of attorney (POA) for Travis Paul Enmon Jr. (DOB: 16 Jan 1989, Texas, USA), my fiancé, in 2023. Yet I would never take his property nor assets, despite the POA joint responsibility of a legal nature (2023). By 2025, that property was no longer his; time consistently proving a person's motive, I remained there for Travis as his POA,

concerned for his welfare and just justice. Contrary to the negative comments, both Travis and I battled through as we communicated through thick and thin – no matter what. The Love is clear.

Travis Paul Enmon Jr (DOB16JAN1989, Texas, USA) is a great fuck up of a guy. I love him a lot. My history of responses to marriage proposals before writing this book was a solid “No” to every marriage proposal I had ever received. Except when Mr Enmon Jr (DOB16JAN1989, Texas, USA) asked, I’ve said “Yes” a few too many times to him – Love. That stated, I think Travis Paul Enmon Jr (DOB16JAN1989, Texas, USA) is a gold-digger.

2021, engaged to Travis Paul Enmon Jr (DOB16JAN1989, Texas, USA). I was sexually harassed and assaulted all year. I had a contract with the American fashion industry, launching the ‘Flying Solo’ opportunity for up-and-coming designers, and my brand was set for New York Fashion Week. All the sexual crimes/harassment and assaults I endured are directly linked to SAPOL.

Immigrants, as touched on earlier, Taohan Yang, (Chinese military student in Australia, bisexual - 2021), was guilty of sexual assault and theft. Taohan confessed to theft, bullying a Uyghur in Australia, and being gay with Tan Chunbai (Chinese Student in Australia, bisexual – 2021), stating he gave a car (Mercedes, Tan used daily as owner, I witnessed) to Tan to keep his homosexuality silent from his Chinese family. Taohan Yang (Chinese military student in Australia, bisexual -

2021) making claims China would engage in nuclear war over Taiwan and that the Chinese military personnel in Australia would be ready' to kill us upon invasion. Taohan Yang (Chinese military student in Australia, bisexual - 2021) had an illegal bow mounted on the wall, which he used outside in the backyard of the Marryatville (postcode 5068 South AUS) property, before sexually harassing me while I rented a room in the property, tailoring Barbwire Noose BN couture for NYFW2021.

This sexual harassment, an assault, and the sexual assault – rape that followed were all reported to SAPOL Norwood Police Station. A station that claimed Dave Kyriacou (SAPOL ID 40657) was corrupt. A station that also mistook me for someone, David Kyriacou (SAPOL ID 40657), took me as a date to a social event a few years prior.

Christopher Paul McRostie (Marion, South AUS, 2021; ABN 69 301 944 245), a name already exposed in my autobiography about my brand (The Story Behind the Brand BARBWIRE NOOSE), is guilty of sexual assault. A STARForce SAPOL sex offender, known as a sex offender to police. SAPOL considers this creatin as one of their own in their police gang (police gang of SAPOL/NTPOL, etc). Christopher Paul McRostie (Marion, South AUS, 2021; ABN 69 301 944 245) boasted of his brother, who worked with SAPOL regarding electrical work, etc. Statements insinuating SAPOL's approval of sexually and physically targeting myself. An attitude furthermore solidified when I

witnessed Michael William Prescott (SAPOL ID 14412) of the Norwood police station use boast body language when I spoke of SAPOL connection and condonation of this sexual crime when I reported the sex offender Christopher Paul McRostie (Marion, South AUS 2021, Ezyrend - ABN 69 301 944 245) to the Norwood police station, South AUS in 2021.

The significance of this STARForce, police association with organised crime, which Christopher Paul McRostie (Marion, South AUS 2021, Ezyrend - ABN 69 301 944 245), who had actual charges dropped regarding association, goes deep. This manuscript, modified by numerous publishers or marked up in odd ways since 2021.

In 2023, when I got a revised but not thoroughly proofed manuscript of mine back, it had such misconstrued and blatantly changed content that I could not remotely get justice, nor truthfully allow some of the modified contents to be published as an honest account of my life. Publicise in a Public Interest Disclosure sure, but certainly not publishable to be the book of truth I was writing this book to be. The manuscript was no longer a public interest disclosure; it was a police driven mash-up of fact and fiction. We're not talking little changes, we're talking meaningful, significant modifications, making a truthful book fiction like in parts. So heavily edited was the manuscript of UGLY

HEROS I received from Europe Books, that this name Christopher Paul McRostie (Marion, South AUS, 2021; ABN 69 301 944 245) had seemingly been removed from the manuscript amongst the many distortions. A book of over one thousand pages, you can imagine the work that was required to fix this assault on the truth. As painful and extraordinary as this was to deal with, my determination to ensure there would be no covering up of this criminal culture of sex offending by police outweighed the substantial amount of time and work it took to get this book to print. It was obvious to me that the police were trying to censor the public interest disclosure of their damning operations and criminal negligence.

Any names removed from the manuscript were not only put back into the Autobiography, but extra detail surrounding their offenses was added with much supporting evidence regarding these crimes. Persons who are directly involved with SAPOL - STARForce, the sex industry, domestic violence, assault, and severe sex crimes.

I purchased my property with a 'Single' relationship status. I established the brand Barbwire Noose as a sole trader, in supportive relationships for five of the fifteen years my brand has been in operation. I am pretty proud of this. I am not afraid of living alone, let alone being without a relationship.

I was thoroughly over the idea of relationships by 2021. If Travis Paul Enmon Jr (DOB 16 JAN 1989, Texas, USA) were not located in the USA, I probably would

have been over him, too. In 2025. Travis and I we're still discussing marriage and trying to exchange our countries' paperwork to formalise the relationship. Sadly, a relationship mattered not to me, but Travis mattered to me.

My main focus since 2005 has been my 'One Love' Barbwire Moose, my brand, an Australian-established Fashion label. An immortalized fashion icon, as featured in the publication 'The Story Behind the Brand - BARBWIRE MOOSE', came to life as a business in 2008. Not long before Travis Paul Enmon Jr. (DOB: January 16, 1989, Texas, USA) and I became friends via Facebook. His interesting scope of knowledge and charismatic personality have been a brief regular distraction from work since we started flirting.

Making a brand of significance and real change mattered to me from the beginning. Creating my clothing label, I had waited until all my trademarks were finally approved, after submitting applications to IP Australia in 2005. When I started my clothing label, I would take products to my family every Christmas for years, starting in 2008. The feedback was mixed, and there was an element of jealousy and negativity that I was unsure where the level of disdain sat, but it was weird. As years passed, my label was complimented and ignored at the same time. A clear indicator that even if my fashion was admired, my achieving personal goals was not.

By 2018, I stopped having Christmas with my family and no longer gave them Barbwire Moose products. The

damages from aspersions, malicious allegations with no basis or facts, plus jealousy from my female cousins over modelling opportunities, were just too much. They were unsupportive of my efforts to seek a resolution for the POLICE VS Kurt Gavan Slaven (DOB 07 NOV 1958; *SAPOL/ADF - Navy*) statement against the police force. They were unsupportive of me because they financially benefited from the lie, so I stopped talking to them with any respect. I only saw my family at Christmas time or when I made an effort anyway.

Estrangement from my direct family was not odd due to the events surrounding my employment at Hungry Jack's, etc. My brother was visited frequently by my parents after I purchased my home. My parents came to my property ten years ago, using the phrase 'around a dozen times' loosely, but demonstrating that their visits were minimal. My Mother was very supportive of my label at the beginning of its establishment for ten years and would purchase my products for my relatives as Christmas presents. It was disappointing and an invalid rejection of my honourable Human Rights brand. Especially with members of both sides of the family being slightly negative towards my business threads and successes from the beginning. Living a distance away from her family, my mother and her mother had a fragile relationship at times. I never understood my Indian family's negativity. Great Australian Indians contributing to a century of successful immigration. In 2017, when my cousin married the son of a seedy SAPOL police officer, I had learned through my now-deceased Nanna (bless her soul) that the family had

been discussing an old study application I filled out for a massage degree in 2002. A course I never undertook, as the paperwork was never posted by Tim Argent (DOB 1983, Mount Gambier District, South Australia). A course I applied to study for so I could give my boyfriend a professional massage instead of him ever needing a masseuse – mainly because I’m a jealous bitch!

Supported by the fact that my personal experience with massage services was seedy and questionable. A reflection of the Asian massage parlours across Australia offering a happy ending.

The defamatory claims of prostitution by the police were solidified within the family over time via gossip and segregation.

In 2017, I discovered that the most dishonest Auntie I have (Yvonne) had also been contributing to defamation that led to rape and assault against my person. Why family members who have seen me less than half a dozen times a year were discussing my life, I will never know! My parents warned me of the lies and domestic violence surrounding my youngest auntie's life, as I loved visiting her – I love my Auntie and was so hurt to hear my Nanna talk about her being uncomfortable changing her will, and then in later years discussing a malicious accusation with no basis or facts about me before she died. A greedy lady who conned her mother into giving her a higher financial percentage of the family home with another family member, as my Nanna’s health deteriorated, my poppa had already

passed on. For five years, I was aware of her involvement in the malicious accusations, which had no basis or facts, before I spoke to her in 2023. A brief conversation that ended with me hanging up on her after calling my parents fuckheads. My entire moral, less Indian side of the family, did not notify me of the death of my Nanna. I was livid at the situation. Especially after discovering that for years, my own family had engaged in malicious accusations that saw me raped multiple times to benefit from a cover-up. As if their greed in her death wasn't enough, when I spoke to my Aunt Yvonne, she had no remorse. No sympathy or apology, my family acted like sociopaths.

She was my favourite Aunt, no longer. I am no longer naïve to the money-grabbing agendas of my family. We had an excellent relationship until the venal SAPOL officer who married into the family spread damaging defamation like it was a game of Chinese whispers. Sarah, my high school bestie, and I stayed with Yvonne when we went nightclubbing at 'Heaven', now HQ in Adelaide. It was the year 2000, the end of the year, and I drove us to Adelaide. My friend and I attended the Flinders University Open Day after I received my offer to study at Flinders University in South Australia. Intending to check out all the nightlife, we planned to visit numerous venues, including American icon strip venue The Crazy Horse. We had a heap of fun in venue Heaven that night, so we didn't care to go anywhere else. We never made it to the strip club, yet my Aunt told the police we did defamation, as it apparently has gone. WTF and why on earth would you discuss

something you were not present for is beyond me!? Like Dave Kyriacou (SAPOL ID 40657), writing a false statement about a sex offence committed in 2001, for which he wasn't present. People committing perjury for paedophilia, making damaging aspersions about their own family, was surreal to experience.

Even though this cover-up didn't add up from whatever angle you looked at it, people, whether they knew me or not, added fuel to the defamatory fire being carried by the police and criminal counterparts. I have NEVER set foot in a strip joint. I was so disappointed to hear that my family was chasing prosperity out of my back, unsurprisingly, from some family personalities. Steve, the man who married my dishonest aunt, after a domestic violence relationship separated her family, was another massive disappointment regarding family. My Aunt is a beautiful woman who is easily manipulated and misled, especially when money is a token to believe anything. This is no excuse to engage in hate, lies, or endanger the lives of family for petty benefits, I will add. That stated, by 2023, when this cover-up was irrefutable, I was over venal, greedy shit at the expense of myself, child victims, and the disabled. My, for the most part, honest and honourable reputation had been ruined by SAPOL and family. After twenty years of false allegations for paedophiles, no one asked me if I had been a prostitute because they didn't care about the truth - just themselves. So, I decided that when it comes to family, I'm going to care about myself, too. Enough was enough. Whether a family member or not, the only way to gain resolution was to

put all the facts on the table. The public disclosure table. Steve, a member of my family by marriage, was employed by the government when I was reporting against neglect and sexual abuse as a nineteen-year-old. To me, he was just another government employee leech, like the cop who married into our family circle in 2017. Steve worked at IDSC when I did, and actually discredited my character when I reported sexual abuse and neglect in the disabilities sector. The facts of the cover-up show. This Uncle by marriage, in my teenage years, committed child abuse against me, hitting me in front of my mother over a poker card game. I can only imagine the abuse he engages in with disabled clients. I know he hit my cousin, his stepson. Uncle Steve working only night shifts at IDSC long-term, that I am aware of. His volatile temper showed a lack of self-control, which it's highly likely clients also suffered from. My Dad was livid as he found out Steve hit me, driving home to Mount Gambier from Adelaide on a family trip, my mum stopped Dad from backlashing against the piece of shit. Concerned about the background of the BMW riding Uncle, Dad chose not to react to the violence. A complicated family situation, there was a level of gratitude I felt in the disappointing mistreatment of myself by my family - a valid reason to sever ties with toxic people. Family has been more of a hindrance than a help throughout my life, and, rather dysfunctional at times, I have had to rely on myself, and I suppose this explains my profuse independence.

An extraordinary web of lies, the search for skeletons in the closet for bribery or character assassination in a cover-up is real, and really fucked up – an understatement you may be thinking at this point. Absolutely an understatement – this chapter is just the Introduction after a quick taste summary of a highly diluted and dragged-out paedophile cover-up. And this biography goes full steam ahead. We are about to start delving into my employment as a Disability Officer, the criminal negligence reported here as abhorrent as crimes committed against my persons.

Gaining work finally as a Disabilities Officer after not leaving for university and being dismissed from Hungry Jack's illegally was great. I, after volunteering in aged care, realised that the empathetic roles of the work were kind of healing. Kind of like how the company of pets heals people. My interactions with the elderly who posed no threat to me at this time stopped me from going numb from the trauma of sexual abuse. Working with the disabled in another human services type role, nursing-like, was basically a no-brainer after volunteering in the aged care environment.

The Government role of Disabilities officer is where I first acted on this snowball Human and Constitutional rights movement. What resulted was whistle-blowing neglect and sexual abuse in numerous government sectors. A submission to the Disability Royal Commission when the opportunity finally arose, over a decade after the reports, and the public interest

disclosure of the government's determination to cover up criminal negligence acts, unaddressed, yet reported to relevant departments. Whistleblowing the cover-up regarding the government's disabilities sector, going on to whistleblowing a cover up of police paedophilia, as it was announced in 2020. The cover-ups were evident to me in 2015, the character assassination having a significant impact on my life. Reporting negligence and criminal misconduct in the disabilities sector heavily during the period of 2003 – 2005 (but not limited to) regarding Sharley House, and 2006 – 2007 regarding general sector concerns, including criminal concerns of theft of finances by staff. It was a feeling of déjà vu in 2015, though I didn't know the extent of the character assassination. I did know negative vibes, off feelings, my intuition has never failed me, and life felt off after reporting criminal negligence in the Disability Sector, as it was when I started to report police corruption.

A silver lining can be seen in my experiences as a young adult, in that reporting serious and severe misconduct prepared me for whistleblowing at SAPOL. Prepared me for the task of writing UGLY HEROS, unknowingly. My life was endangered during most of the SAPOL investigations engaged around me, for over a decade. The police certification wasn't just a record with SA Health; I was recorded as police in numerous databases, including TAFE SA. Also issued with a Government Investigation Certification in 2016, the use and abuse of my life is real. I am certainly able to research and report; as for the certificate to be a police officer, I have no desire for that. Seeing value in the

Government Investigation Certification, I made recommendations. I wrote an Interim Report for the Royal Commission into SAPOL, adding police force officers involved in recklessly endangering my life as events unfolded to this book. You can read these basic recommendations, which accompany this public interest disclosure, in Chapter Nine.

No pity party, but if life had gone without suffering a sexual crime and decades of defamation, I would have accumulated from Criminal law practice earnings more than the average. SAPOL damages from criminal negligence regarding the disruption to my studies alone are over multi-millions of dollars. I have presented to the court a cover-up an unqualified defendant with and without representation for years. Overriding my counsel's misrepresentation at times and winning numerous cases against SAPOL, this is irrefutable – like this book. The trauma of 2001 mostly prevented me from taking on Legal Studies in 2002, a one-year deferral from Flinders University. I have not relied on my fickle parents since moving out of home. The damages stemming from *Kurt Gavan Slaven's (DOB 07NOV1958; SAPOL/ADF - Navy)* offence on duty and SAPOL criminal negligence are of an amount police can never compensate for a just and satisfactory outcome. The offending spans my adult life, not excluding this time as an author. It is severe trauma, torture, and negligence-based emotional distress, reputational,

physical, and life-endangering. Compensation sought against members of the Australian Police Force, SAPOL, VICPOL, NTPOL, NSWPOL, AFP, numerous government agencies, South Australian criminal lawyers Steven Ey and Craig Caldicott (South AUS practicing criminal law since 1979), Go-to-lawyers Australia, policing operations spanning internationally to the Central Intelligence Agency USA (CIA), property damage, perjury (perverting the course of justice), falsified statements plus punitive damages to myself and brand Barbwire Noose®. Compensation to me is inadequate; to say here's some money, even if it is hundreds of millions of dollars, into the billions of dollars mark, more needs to be done. A Royal Commission into SAPOL had to be called. The Autobiography irrefutably reveals the extent of manipulation the police force engaged in cover-up attempts. The police forces' application of the association laws against me, where I was not being tried for malicious accusations with no basis or facts, is Unconstitutional. Our constitutional rights are outlined, including fair trial of any offence against any law of the Commonwealth by jury; these intentionally malicious allegations that were being made in a cover-up were being presented to courtrooms. Even to court staff. For a decade!! A breach of legislative, constitutional, and Human Rights law. The police forces' activity brings the administration of justice into disrepute among right-thinking people in Australia. Furthermore, the inherent power of the courts and presiding judges is to prevent misuse of their procedure in a fair trial. Separations of powers are non-existent at times of constitutional debate

and even withheld from High Court hearing resolutions. A justice system in disrepute. Then, to add mud to already murky cover-up waters, SAPOL and ICAC South Australia, for the most part under Bruce Lander (an ex-Judge), manipulated justice in efforts to assist sex offending cover-ups run by SAPOL. For years, the independent integrity commission has been calling crimes anything from ethical and fanciful to excusing engagement with children as engagement with sex workers, not minors. These excuses are accepted as a standard regarding police sex offences under numerous police commissioners, police ombudsmen, and ICAC/IBAC - integrity commissions, as well as numerous government Police Ministers under both Labor and Liberal governments of South Australia, and furthermore, federal government ministries of both Labor and Liberal.

The acceptance of Human Rights violations and the oversight of child offences of the same nature stems into Federal government departments and law enforcement bodies. Our outrageous Human Rights violations as ‘the lucky country’ are called out globally by fellow country leadership and the United Nations.

Article 22 (ICCPR Article 22) states:

Everyone shall have the right to freedom of association with others, including the right to form and join trade unions for the protection of his interests.

No restrictions may be placed on the exercise of this right other than those which are prescribed by law and which are necessary in a democratic society in the interests of national security or public safety, public order (ordre public), the protection of public health or morals or the protection of the rights and freedoms of others. This article shall not prevent the imposition of lawful restrictions on members of the armed forces and of the police in their exercise of this right.

Nothing in this article shall authorize States Parties to the International Labour Organisation Convention of 1948 concerning Freedom of Association and Protection of the Right to Organize to take legislative measures which would prejudice, or to apply the law in such a manner as to prejudice, the guarantees provided for in that Convention.

The use and abuse of the association laws is a complex subject, yet the violations and illegal applications of these laws are clear. Clear Prejudice, irrefutably regarding myself. Especially when used to disrupt and target whistleblowers without any evidence or court proceedings processes regarding association, instead the label is being handed out by Attorney Generals, police commissioners, etc. A label in breach of constitutional law, not allowing police bail.

It is a fact that in 2019, the Australian Government (Liberal Federal government elected) website removed acknowledgement of some of our Human Rights from the government website after opposition Labor minister, who in 2023 became Attorney General Mark Dreyfus (DOB3OCT1956), spoke to me. His office in 2019 insinuated they were seeking legal advice regarding the breaches of my Constitutional and Human Rights to me via phone. Legal advice to try and sidestep the law based on malicious accusations with no basis, facts, or evidence. Mark Dreyfus (DOB3OCT1956) is irrefutably guilty of perjury to the High Courts regarding this matter, discussing myself in association with Organised Crime laws. Irrefutably ICAC/IBAC (Integrity bodies) are not independent state integrity commissions when police investigate police. Like, High Court judges are not independent when elected by the government. Our integrity bodies' actions in support of police forces and police associations' efforts across Australia to force or stop the decriminalization of prostitution before National Integrity caught the National Police Force and Every State Police Force hiding their sex crimes and the undercover police/informants (aka human resources) was a blatant agenda over the years, and whistleblowers suggest. The government department is guilty of the most heinous crimes, child sex trafficking, and abuse of power, allowing human resources to receive falsified acquittals. Small rewards and petty benefits against Australia's National security and peaceful society are a priority for the government. Handouts and malfeasance rife throughout the Australian justice system and governance, rewards for loyalty and maintaining the

criminal conduct of the venal police force, and more so for maintaining the VIP status of Australian elite paedophiles.

In my case, the Australian Police Force breached the Privacy Act, acting unconstitutionally, and obstructed my Human Right to Resolution for nearly a decade. The fact that a Human Right was removed from the Australian Government website after a phone call from Federal Labor MP Mark Dreyfus' (DOB3OCT1956) office regarding Human Rights violations by police says it all. As does the conclusion that there were no violations of Human Rights, the Australian government doesn't really care about Human Rights over Political Agendas. An extremely questionable move by the serving Liberal government in conjunction with opposition leaders in Labor.

The use of informants for entrapment, murder, domestic threats, or personal profits is highly illegal (no-brainer point), especially illegal against innocent and uninvolved persons. Yet, this is exactly what corrupt police do. The use of criminals to harass people reporting police crimes – police paedophilia, abuse, sexual violence was something that, after a decade of witnessing this activity, really pissed me off. To see the proclaimed tough guys selling out to each other from opposite sides of the fence – police and criminals so tight-knit was seriously disturbing as a victim of these demographics. And seemingly against both groups'

codes, which, when targeting weaker demographics, is definitely lame.

They say knowledge is power, and I certainly had the knowledge of the corruption going on within South Australian governance and policing. I researched everything I witnessed and followed all relevant publicised media. Myself being labelled by the government and SAPOL as a police officer for half a decade, then suddenly being painted up as a criminal by the police, is enough to piss anyone off, let alone all the rest you're reading. I wanted to absolutely squash this cover-up practice of plausible deniability and constructive ambiguity – conflate and confuse as a practice. Living nearly my entire thirties recklessly endangered while police manipulated my life. I also wanted the practice of felons negotiating leniency where there is a victim(s) of serious crime eliminated. Having made recommendations on informant procedures which were broadly public by 2020, I got my opportunity to prove the current practice not fit for purpose in 2023, and I did – in Australia, expanding to the USA. Forced to defend myself again against the stalking of Dave Kyriacou (SAPOL ID 40657), who used immigrants and ex police officers to stalk me between July and September 2023, conclusively. Dave Kyriacou (SAPOL ID 40657) with an extensive list of felons on his human resource list. Felons with a history of threatening my life, domestic violence, engaging in efforts of

entrapment, and/or serious organised crime involvement. The practice of using informants in such an ad hoc, unaccountable, criminal manner is not only irrefutably unreliable for police but also unredeemable for some human resources. Undeniably, as the story talking to human resources aired on 4 Corners, ABC.

I researched my experiences extensively, discussing the use of informants by police forces with police and informants alike. Damian H Ferrari (DOB 1966, Beaufort, Victoria, AUS - VICPOL) states that they don't use informants, a lie. Yet, his statement that the percentage of investigations compromised with the use of informants is almost one hundred percent correct. The fact that police KNOW this yet engage in the practice on such a substantial scale is recklessly endangering our society. Witnessing an affray of criminality to cover up sex crimes over ten years from 2013 to 2023, to me, this practice was conclusively out of date, not fit for purpose, criminal, and an engagement of terrorism against Australians at times. Facts that, after I heard it, had me ponder for years, how the fuck this practice was still going on an ongoing basis. I focused on false, unsubstantiated evidence provided to the police. Covert Recordings. Covert recording is a recording when one or more people being recorded are unaware that the recording is taking place.

I wanted evidence of breaches of the Privacy and Security Act being used against me to cover up governance crime, which SAPOL human resources told me were in play. I knew of recorded evidence used to

perjure the courts, police, and the public (felons) had used. I knew that felons and authorities were using video-based perjury against me, and felons had copies of this. I knew that my phone was off and that many of my calls were being redirected. The redirected phone calls and calls to government departments that also record calls, I found, were the best records for me to utilise.

I was up against a character assassination of feigned drug instabilities regarding recreational drug use, falsified evidence including plotting and solicit my persons out to persons know with involvement in the sex industry and labeling this activity prostitution – under law this a plot of clear and indefensible entrapment (not that I have ever engaged prostitution despite offers and attempts to force the industry upon myself) which led to grievous bodily harm.

These are the various reasons why I or someone might want to record audio or visual content, including to gather incriminating evidence against another person. The fact that Informants exchange false intel to avoid the consequences of serious crimes, and criminals are hoping for a free ride after committing crimes, because this has occurred so much within policing, is beyond wrong as a practice.

I also began to record my interactions with the police; some recordings declared, some were just literally necessary to stop the cover-up. I had previously enjoyed

bringing the reality to informants, hoping to get away with serious crimes by misconstruing ad hoc evidence that it is generally against the law to record a phone call without the other person's consent. I admittedly enjoyed telling wannabe human resources that the only thing they were achieving was a defence avenue in court for the person they were setting up in hopes of getting away with murder - me. In fact, 'covertly' (secretly) using a listening device such as a mobile phone or digital recorder and publishing or otherwise distributing that material can amount to a criminal offence - public disclosure exempt. Something I witnessed firsthand was people trying to audio record conversations in desperation to cover up their involvement in the sex industry and drug trafficking. Remember, it is an offence to wilfully tell an untruth or make a misrepresentation under oath, and defamation to misrepresent someone out of context. Make sure that if you're repeating something, it is first and foremost true, necessary to repeat, and in context. Numerous illegal recordings were taken during the Gordon Tearonui Hamm investigation by felons desperate for concessions and immunity in their crimes, the NACC should access this.

I was requested by Aaron Roche (VICPOL ID 33388) to provide something more solid as evidence than my mobile phone texts from Timothy Stringer (Mount Gambier District resident - 2013) where I argue with him regarding David Newton Bradley (DOB1981, Mount Gambier District South AUS), rhetoric surrounding my knowledge of the debt collecting

relevant to the homicide case of 2013. Victoria Police was leading the Gordon Tearonui Hamm investigation even though SAPOL and VICPOL were in a dick war over the power in this operation. Initially, by 2025, the state police forces were two peas in a pod regarding corruption, criminal negligence, and reckless endangerment surrounding my life. The ego between the state forces was undeniable. The illegal activities are irrefutable. I recorded a conversation in my lounge room. This recorded evidence resulted in three persons incarcerated in Victoria, plus associated arrests and incarcerations in South Australia. Legal, keeping in mind that the use of said footage must be in context and non-sexual, among other possible legal requirements. I was also, for better or worse, on record as a SAPOL police officer. Facts that disappointed many wannabe human resources of the lower-level police forces attempting to develop and run gangs.

I had been surrounded by informants for years – not that I knew it. Petty felons and drug addicts in Mount Gambier (South Australia) were not out of the ordinary, and I am not the most social person or a criminal, so how was I to know or care? A country girl, not overly worldly, moving out of her farm home, my innocence and naivety showed at times. After a decade of exposure to individuals from low socio-demographic backgrounds, I certainly have a greater understanding of people from all walks of life. Good, bad, rich, poor, qualified, and unqualified – we all spend the same dime, and that's what every social demographic has in common: financial highs and lows. And it is usually the

first-place people who compromise for petty benefits, go low, for money.

Petty drug addict Jason Scott Parker (DOB14MAY1981) was the first to jump on board to engage in the malicious accusation of prostitution, history shows. A thorn in my side, quoting David Newton Bradley (DOB1981, Mount Gambier District, South Australia), he nicknamed Jason Scott Parker (DOB14MAY1981) 'Thorny'. Here's why. David Newton Bradley (DOB1981, Mount Gambier District, South AUS) and Luke Hubert Scheidl (DOB1981, Mount Gambier District, South AUS) claimed that Jason Scott Parker (DOB14MAY1981) had been a human resource with SAPOL for years. All three boys involved with the COA gang in Mount Gambier were revealed.

We haven't yet really touched much on the second love of my life, guitarist-bass player with a bit of vocal talent and fellow heavy metal and motorsports fan, Jason. Here goes: It was 2002 when we moved in together as a couple, after my gap year (2001), deferring University studies for a year to have a break from school when I met Jason Scott Parker (DOB 14 MAY 1981). He was the boyfriend who followed my heartbreak break-up with Tim Argent (DOB1983, Mount Gambier District, South Australia) in 2001. A year hanging with my friends and boyfriend until *Kurt Gavan Slaven's* (DOB 07NOV1958; SAPOL/ADF - Navy) reattempt at rape turned life sour. The residence I obtained as a rental by myself was located at Lake Terrace West, Mount

Gambier, South Australia. This is when I confided in my then-boyfriend, Jason Scott Parker (DOB 14MAY1981), regarding *Kurt Gavan Slaven's* (DOB 07NOV1958; SAPOL/ADF - Navy) sexual assault offending. Jason Scott Parker (DOB 14MAY1981) was the second person I confided in regarding the old detective policeman *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) being a rapist, on duty against me, at the time when I was a minor. Concerned about being warned – threatened by *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) not to tell anyone about his sexual crime against me, I was actually scared as a teenager into not talking about the rape. Not that you want to shout from the rooftops about it as a victim – I assure you, as a victim, you certainly don't want to pour your heart out on a thousand pages naming and shaming sex offenders in a cover-up for resolution either. It was this fear of reporting a powerful sex offender - Kurt Slaven (SAPOL & Australian Defence Force - Navy) that led me to create the statement slogan 'Fear Is the Root of All Weakness' well before it was trademarked as my brand's slogan.

We didn't talk about it much - the rape, Jason Scott Parker (DOB 14MAY1981), and me. Just enough to know from Jason Scott Parker (DOB 14MAY1981) and his friends; including Grant Andrew Lindroth Moreland (DOB 1JUL1983 Mount Gambier District, South AUS 2013) brother of one of the convicted murderers in the homicide of Gordon Tearonui Hamm, knew sex offender *Kurt Gavan Slaven* (DOB 07NOV1958;

SAPOL/ADF - Navy) was not a good police officer and that he was the offender against myself. It was after speaking out to these peers that I never forgot my offender's name - Kurt Slaven. I was alerted in 2002 by many people in town, including social circles, gangs, and bikers, that *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* spoke to. A Mechanic, drug addict, and drug dealer for the Gypsy Jokers, nicknamed Dick (Richard Upton, Mount Gambier District) and *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)*, did business, illegal business, as proved by a 2002 cover-up of a grand theft auto offence. Dick dealt methamphetamine to Jason Scott Parker (DOB14MAY1981) and his friends from what is referred to as the east end of Mount Gambier, South Australia, for Tojo (Former president Gypsy Jokers, deceased). Jason Scott Parker (DOB14MAY1981) in 2002 was warned by my dad not to take hard drugs with me. Which Jason Scott Parker (DOB 14 MAY 1981) never did. I learned of my dad's warning years later in an argument with Jason Scott Parker (DOB 14 MAY 1981). The revelation occurred during one of the numerous and endless times we broke up. Jason Scott Parker (DOB14MAY1981), during our relationship, was a domestic violence (DV) offender. I, who suffered from severe PTSD after being raped as a minor, tolerated the DV offending for years as I had trauma bonded with Jason Scott Parker (DOB14MAY1981).

Another relevant soul in this story is the deceased Former president of the Gypsy Jokers, Tojo. R.I.P. The President of the Gypsy Jokers (2002) and a human resource who was put into witness protection by SAPOL. After SAPOL was involved in the threats to his life. How do I know this? Well, most people in Mount Gambier, SA know this, but more from my perspective, it goes: I recalled my parents knowing a man who lived on the highway before Mount Gambier - the Melbourne, Victoria side of town. This man, Tojo (Former president Gypsy Jokers, deceased), on the Highway had a mechanic, a mechanic named Dick. Tojo (Former president Gypsy Jokers, deceased) was a Gypsy Joker, the President of the Gypsy Jokers in the 1990s and Early 2000s. The mechanic, nicknamed Dick, was the Gypsy Jokers mechanic and SAPOL human resources who was printed in The Border Watch for good deeds once upon a time. I don't know Richard Upton (Dick) personally; he is my dad's friend and was Jason Scott Parker's (DOB 14 MAY 1981) drug dealer, but from all this, I knew enough. The police officer that raped me was corrupt with the bikers that run the town, this is when I knew I could Not report *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* to just Any police officer (2002) and could not tell everyone about the sexual crime and attacks stemming from this assault at this time. A police officer linked to terrible people - the biker gang, the Gypsy Jokers. My thoughts were distressed regarding the offence as a young teenager. "What do I do?" "Who can I report this to?!". I did not know what to do, attacked at sixteen years of age by a predatory police officer and pursued again by the creep

getting paid taxpayers' dollars to protect me – protect society, yet instead he's taking advantage of his position and young women in Australia. Like many police officers in Australia and globally. I had talked about the sexual assault by 2002, though scared, and learning all of this about the police and the bikers. A year after the offence in 2002, I was ready to report the sex crime *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) committed and the attempted further assault, but also knew he was a dangerous cop. Now what? How was I going to report a police officer, especially such a corrupt one?! Where was I supposed to go - to his friends at the police station!!? A teenager with no one, at a time when I had just been living with a friend, as my parents would not let me move home, I gave up on the hope of justice. Other than the necessary police check documentation that I had to obtain to teach swimming, including police members' children, I kept as far away from the police as possible. Until Gordon Tearonui Hamm died (2013), I assisted VICPOL police in 2014, which again I almost regret.

My life as a teenager had been instantly tarnished by the criminal actions of persons in power, *Kurt Gavan Slaven's* (DOB 07NOV1958; SAPOL/ADF - Navy) sexual crimes. Furthermore, by governing departments in change-making positions doing nothing about serious Human Rights concerns of our most vulnerable members in society, people with disabilities. A bitter-sweet taste of fate that moulded me as I grew into the Human Rights Activist I am today. Twenty years after *Kurt Gavan Slaven's* (DOB 07NOV1958; SAPOL/ADF -

Navy) sexual crime, I was inadvertently thrust into the status of the ‘infamously’ controversial whistleblower of the era by the government's long-term investment in these cover-ups. The character assassination against myself certainly worked in deterring the media interest in what should have been a journalist's commitment to print, a public disclosure of public interest concerning a cover-up of sector sex crimes, neglectfully investigated, deliberately under investigated, and unaddressed regarding adequate public forum surrounding government neglect incidents in the Disability Royal Commission (2019 – 2023). No matter what criminal negligence you looked at, mine or Sharley House Disability clients, an intentional misappropriation of funds was being used to pervert the course of justice, and not justly address criminal negligence reports. Personally, targeted by both the Only governments to have served Australia, I am lucky to survive the lies of a compromised police force and government corruption cover-ups carried out at any cost. Thanks to the few in law enforcement who carried the truth as it unfolded to this point of irrefutability.

Until reporting Police Force corruption, it was not common knowledge that years ago (nearly two decades before authoring this book), I reported, ongoing to whistle blowing, the severest mistreatments of mute and noncognitive persons in government disabled facilities. Less commonly known are the reports I have made

regarding breaches of Australian Standard Safety Regulation by a construction organisation contracted to the Health Department of South Australia, as well as child abuse under the Education Department as an Aquatics Teacher. An aquatics sex offender who went on to work in the disabilities sector in Mount Gambier, South Australia, as SAPOL pursued a character assassination, the city of Mount Gambier and every creep in it thought they were going to get away with it. I have whistleblown in four government sectors since 2016. And although the government has pleaded ignorance, I am proud of my efforts to change these illegal, damaging, criminal, and dehumanising practices, which compromise and even kill vulnerable community members.

Whistleblower protection laws in South Australia and governance legal protections kind of failed me during my reporting periods, though they were more than valid in the situation. I've been pushed out of employment in each sector in which I have whistleblown. The truth in 2018 was publicised by me, after VICPOL, SAPOL, and the AFP teamed up in the cover-up of police using prostitutes, including children. Just before a new Australian Federal Police Commissioner, Reece Kershaw (DOB1966; AFP ID 4742), was appointed to the position. I publicly disclosed my experiences not only in self-defence during reckless endangerment caused by criminal negligence and defamation, but also for the resolution of a cover-up of criminal misconduct. Public disclosure is my only option, having exhausted

every avenue of reporting to the highest accountability in the states of South Australia and Victoria, Australia.

In 2020, I wrote to then-serving Prime Minister Scott Morrison (DOB 13 MAY 1968), often referred to as ‘Scumo’ by me in this autobiography and on my social media. A member of the Evangelical church, our First Prime Minister of this church, chose to be professionally known as ‘ScoMo’. The unprofessional combo being obtained from his first and last name, a gimmick to make a stuffy, questionable individual with no real idea about real life relatable. Genuine Christianity is something I very much respect and follow; falsehoods I do not. Evidently, with years under his belt, feigning interest in National Integrity Scumo proved to be Nothing more than a man glorified in Faith but without Jesus. The Liberal government of Scumo, under his leadership, allowed George Pell to be released back into society. A much-publicised Catholic priest famous for hiding paedophilia and being tried for his paedophile offences. As if you let that back out into Australian society after the Vatican allowed him to be persecuted. Scumo used Christianity as a cover for many inhumane and immoral shortcomings, as I witnessed it, including allowing *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) and the SAPOL police force to go unaddressed regarding a Royal Commission into SAPOL. I received a letter from Scumo acknowledging my concerns regarding the necessity for a Royal Commission into SAPOL. A letter from the PM (included in this publication) that acknowledges the government was aware I was a police

force made rape victim and the Australian Police Force was heavily gang compromised. Law Enforcement is heavily compromised by its human resources, venal state of operations, greed, and criminality. A venal state of law enforcement that complemented the venal governments that led, cooperated, and partook in the seedy sex industry, including children in its operations in Australia. My efforts under the Liberal Government of Scott Morrison (DOB13MAY1968) to change the state of Integrity within the Australian government regarding governance of sex offences were to no avail. It was easier for the government and police to focus on me for years and look for non-existent skeletons before the truth was too conclusive to ignore. And that's precisely what governance did, focused on me, until plausible deniability was no longer an option because I did not stop telling the truth.

'It does not matter how slowly you go as long as you do not stop.' - Confucius.

As defined by the Oxford Dictionary.

Altruism / *'altroʊz(ə)m/* noun

Definition: *disinterested and selfless concern for the well-being of others.*

Use: *"Some may choose to work with vulnerable elderly people out of altruism."*

Before delving deeper into this story of Altruism, Non-Conformity, and going too far into this autobiography, please let me outline a little more about my upbringing and the Beautiful city of Mount Gambier, located in regional South Australia. A location full of natural tourist attractions, Mount Gambier is full of wonders to visit - volcanoes, caves, and lakes aplenty—an area of stunning scenery and natural beauty.

My family moved to this Wonderful regional area in 1990, when I was six years old. I grew up in properties paid for by Hungry Jack's (Burger King) Corporation until my family purchased a farming property thirty-eight kilometres from the city of Mount Gambier towards the beach. Hungry Jack's continued to pay numerous expenses while my dad was the restaurant manager of the fast-food chain. My dad's position as a valued employee gave my parents the financial freedom to spoil us kids and enjoy life as I grew up.

My family is, for the most part, private people, White Collar - Professional Managers involved in many community events and sporting clubs. The area is a big sporting district, with many sporting facilities and a thriving Australian Rules Football participation. My Father was dedicated to football coaching for the majority of my upbringing. Dad, also a state-level boxer, practised martial arts, was an entrepreneur, and was known generally as a gentleman outside of Hungry Jack's. My mother is a garden lover, a quiet Buddha enthusiast, and to most, a humble lady. Both my parents with extracurricular interests in Rock Climbing, Diving,

Shooting, Fishing, Motorbikes, Snowboarding, and travel. Young parents, they had two children, my brother and me by around twenty years old. A love for outdoor activity was the vibe of the family, and an Absolute *Love* for a live Music gig! Led Zeppelin, AC/DC, Black Sabbath, The Angels, Pink Floyd, and Metallica were our yearly snow trip motorhome tunes. Through Victoria (AUS) to New South Wales (AUS), Rock and Roll all the way. As a family, as soon as my brother and I were both teenagers, we would attend large Music concerts together. Seeing some Epic Rock and Roll live growing up, such as The Rolling Stones, Metallica, and Silverchair concerts to name a few. Mount Gambier is conveniently located between Adelaide (AUS) and Melbourne (AUS), making travel times short and easy to see live music.

I attended mainly rural schools growing up. Four Primary Schools total in Mount Gambier (South Australia), and the small regional high school outside Mount Gambier. Located in a district called Allendale, Allendale High School was my most permanent school. It is an area facility, well equipped for the Port MacDonnell/Allendale area, and includes a Primary and High School.

Admittedly, my brother and I were spoiled children to professional parents in an upper-middle-class family lifestyle. I had the biggest bedroom at my parent's property with a built-in wardrobe, the in vogue blow up furniture, two Speaker CD player Stereo in my room (like most families had in the lounge), CD's galore,

Magazines, Religious practising alter, study desk with lamp, posters from Dolly and Smash Hits Magazines covered my walls - Devon Sawa (Casper 1995) and East 17 mainly—a pretty pink room with a soft peach (basically Pink) carpet. My parents made my room their own after I left home.

Oh, if only we stayed children forever. The joys, the possibilities, the simplicity.

Mount Gambier (South Australia) is not abnormal or bad. It shares the same demographic concerns as any other district and embodies both the benefits and drawbacks of governance, like any other location in the country. Criminal trends are global, and demographical issues are universal. As you read the beginnings of the Police made Mount Gambier Underworld, though complex, it is easy to conclude that many Police Commissioners of various states, Organised crime taskforces (highlighting STARForce, RAPTOR and VIPER squads), the AFP, Military personnel, and governing agencies are involved in the rise of organised crime in Australia. These actors are directly involved in the National Security risks Australia faces today. The government and government departments implemented criminal negligence to maintain the decades-long plot to cover up VIP paedophiles in Australia. How do you get to the point in a Nation where VIP and paedophile are used in the same sentence – Australia's SHAME, a global display of ignorance to a changing world combating paedophilia. The engagement of criminals in a character assassination, persons with no credibility

and serious criminal records, used in reporting/statements against a whistleblower, is not a mistake. It is irrefutably intentional and of the upmost criminal conduct by all involved. I have suffered not only physically and financially, but also at every legal avenue I have pursued for justice. If I weren't legally minded, and an outstanding legal prospect at that, the breaches to Attorney-Client privilege and Attorney work product protections, police engaging with my lawyers would have seen me locked up before the Truth was publicly disclosed, considering most lawyers refused to represent me when I engaged them for trial.

Acknowledgment to John Kyrimis, Mount Gambier, and Old Port Chambers, Adelaide, Lawyers for engaging in trials in my defence.

The South Australian Police Force was allowed to unjustifiably sabotage my life to hide the most serious crimes in front of and with the AFP for years. SAPOL's actions completely compromised and deteriorated the justice system's integrity and our national security for decades, feeding falsified data to the AFP and CIA.

STARForce, aware of the most heinous of crimes committed against me, and countless victims in South Australia, offences recorded and witnessed via visual and audio tactical means.

I sincerely thought a Royal Commission into SAPOL would resolve my life being used and abused. I thought public disclosure would not allow the truth to be hidden, as SAPOL had hoped for years. I was wrong as a decade

passed after the homicide, and no one wanted to call the Royal Commission. Not the Judges who acknowledged institutional harassment, nor the Premiers of both serving government parties. Closer to a dozen than half a dozen Judges Nationally had heard my name in connection with false allegations never made against me in court. A few judges in Victoria, New South Wales magistrates, Northern Territory courts, and over half a dozen South Australian judges make the list of witnesses to institutional harassment, constitutional rights breaches, and perjury in a cover-up of sex crimes, including against disabled and minors. Endless fabricated investigations and falsified Freedom of Information (FOI). FOI withheld from me by the police force due to concerns about a defamation lawsuit. Without releasing my FOI to myself, I have sufficient evidence to sue for defamation and write this factual book. My OnlyFans account, opened at the end of 2022 after I was degraded and dragged across two countries in the most humiliating and illegal circumstances, proves irrefutably the damages caused by Australian and American police forces combined to cover up law enforcement sex crimes across the countries. Furthermore, the defamation that stemmed from OnlyFans when I have never been a prostitute, yet police and others circulated this damaging falsehood, is absolute. OnlyFans, allowing explicit pictures to be screenshotted, adds to the over ten years during which an affray of boys circulated pictures of me without copyright or consent. Questions of solicitation via direct messages are not the only residue from the ongoing events of 2012 - 2025.

Year after year, the damage police forces had caused in 2014 – 2016, the AFP overseen homicide flowed on and was obvious.

Irrefutable facts, data, legal records, lawyers, and evidence of damages and entrapment with courts, politicians, law societies, and legal firms showing Institutional harassment. You'd think lawyers would be chasing a case with so much evidence, but no, as David McBride (DOB15DEC1963) found when he initiated a legal defence, many lawyers refuse to take on substantial cases involving or challenging the government. Scared to lose legal aid benefits, as well as other police driven and political influences.

A justice system in disrepute.

Aussie Lawyers, located in NSW, Australia, was one of the legal representations to say yes to pursuing justice regarding torts, and I engaged them for a personal injuries claim against VICPOL (2022/2023). VICPOL refused Aussie Lawyers access to my FOI on 31 October 2023, Reference Number: 80759/22: JS. This refusal to release the FOI information was received after my legal representation had waited almost a year for VICPOL's response. Meanwhile, VICPOL spread life-threatening malicious accusations with no basis or facts in an out-of-control manner with the AFP, NTPOL, SAPOL, NSWPOL, TASPOL, and WAPOL during this period, which led to further sexual crimes and other criminal activity being committed against my person

while police were investigating my OnlyFans activities. God knows why, I shared everything I knew the police and others had been circulating for years first. Boring.

Irrefutable evidence against paedophiles, in writing – with victims yet taxpayers’ dollars were being used on a witch-hunt expedition to target a whistleblower with entrapment tactics, further life-threatening defamation, and no real grounds or jurisdiction of investigation – OnlyFans being a USA platform. Intentionally malicious accusations made by police and community members after my release from false incarceration that included claims that I was a Hells Angels prostitute (repeated defamation spread throughout communities I resided in, spanning over a decade), before OnlyFans existed. Claims that I am a police human resource, a cop, that I was incarcerated due to my publication about my brand Barbwire Noose®, etc.

The rumour mill was deja vu for me. Felons and police had spread this defamation for decades in South Australia and a decade across states, nationally, recklessly endangering my life and extending to International reputational damage.

If a false statement is made to bring about a conviction or acquittal, as I have witnessed, the maximum penalty for perjury offences can extend from fourteen years to life. The list of those with false statements to the police, some of which I have a personal copy of for defamation lawsuits, is long.

Decades of unjust laws and practices in Australia shamefully define policing and government cultures towards sexual crimes. The more I endured, the more I learnt, the more I researched, the more repetitive the answer to what the roadblock to justice was. Powerful institutions such as Church bodies, schools, and governments not being held accountable for the heinous sex and other crimes committed against children and disabled persons need to stop somewhere. But where do you turn when everyone turns a blind eye?! You turn to anyone who will listen; if no one will listen, you make it public. A subject of public disclosure, that's precisely what I did. Police men and women, allowing myself to be raped and enjoying my suffering! SAPOL police, which included members of my family and childhood friends, were fighting to hide how they had illegally used and manipulated my life to the point where offences of assault and rape were committed against me on record. Conclusive guilt regarding criminal negligence, neglectful investigations, reckless endangerment, governing malfeasance, entrapment, and perjury.

Now, let's quickly delve into the theory behind why even women were engaging and turning a blind eye to misconduct.

The female law enforcement officers who overlooked this sexual violence in psychological theory allowed this

behaviour, essentially based on three main reasons:
women are nasty to other women:

1. Because they project their unwanted parts onto the other women, especially their fear, envy, jealousy, suspicion, resentment, rage, anxiety, or lack of self-esteem and confidence.
2. Because they can get away with it — as a sport, fun, panacea to boredom, delight in spite, or because their lack of curiosity/tolerance of difference suggests they probably don't like people anyway.
3. Because they don't have the interpersonal and intrapersonal communication skills to recognize or alter their behaviour.

The reality of how, why, and who we are delving into outlines the cultural extent to which the criminal negligence of SAPOL and all involved police forces entails, irrefutably providing evidence of why these activities of the police force led to sex crimes festering and their prevalence escalating. This book gives factual examples of what's wrong in law enforcement, research on the cultural drive and incentives behind the overlooking of such hideous violence, and what needs to change surrounding sex crimes offending and offenders. It stops with cops, and when the cops don't stop it, they are the most significant problem. Especially when aiding and abetting is a cultural practice. I am a beautiful, little girl with DD cup boobs and A LOT to offer, used as 'rape bait' and left at the whim of

criminals. As if you do engage in such toxic, criminal conduct, let alone for a vulgar cover-up, a lot for women to be envious of. My strength in character is highly intimidating to the ego of man. The outstandingly low levels of discussions police have had about me and this chain of violence make this research regarding this culture not only irrefutable but irrefutably in the spotlight of a public disclosure.

Knowing all this, reporting ALL this, and then having your life used, abused, targeted, and worse. Honestly, there aren't many places to turn. So, I turned to America. The sex trafficking was international, and the intel creating severe liabilities and avenues for paedophilia that had been spread internationally by police and criminals alike was an international issue. I knew the Central Intelligence Agency (CIA) was involved due to the presence of military technology in my home in Mount Gambier in 2014, and because Travis Paul Enmon Jr (DOB 16 JAN 1989, Texas, USA) told me so. Yes, apparently, my smart-ass little self was quite a big deal this year of my life (ongoing), and from experience, those guys in some forms were already in the same mess of information that I was. I'll go into the forms of American technological presence I experienced as we delve into the details throughout this book. Alternatively, refer to my Autobiography 'The Story Behind the Brand BARBWIRE NOOSE'.

Taking the long shot overseas after reading an American Federal Bureau of Investigation (FBI) law enforcement member's autobiography and sending my book to the FBI, asking them to help me regarding the international organised crime links, sexual violence, and government attacks on and surrounding my life and asking for ex-FBI director James Brien Comey Jr (DOB14DEC1960) to read my manuscript as some of the details of his autobiography aligned with my life experiences since being a pageant queen, a target of government-assisted organised crime, sex traffickers, and freemasonry cult criminal conduct. You had to be one smart cookie to get this mess of a cover-up and to understand a very distorted yet well-documented manuscript, while it was ambiguous – now not so much. Credit to all those who bore with the saga, the truth is the same whether it is obvious or not so much.

I had witnessed what felt like an unfathomable amount of corruption by 2025 within the federal government and the governance of South Australia. Sex workers are the centrepiece of sexual crimes and the venal state of Australian policing. The disabilities sector across the country during the Disability Royal Commission expressed many of the concerns I reported in 2004 – 2007. It was emotionally distressing for me to see these

issues being addressed nearly two decades after I reported them, and from what I experienced in the disability royal commission meeting, the Real issues of government criminal negligence were passing through royal commissions without acknowledgement. I was so disappointed. Funnily enough, the sex crimes and cover-ups in both sectors meshed. With the cover-up seeing many prostitutes are placed into employment in areas within the disabilities sector. A sex trade that had top-level police personnel retiring like pimps for decades, and a disabilities sector with vulnerable clients subjected to a care level where their medication was now being stolen by persons serving drug lords and methamphetamine cooks. The issues combined gave an avenue for the police and the government together to reward those who remain silent or compliant in the cover-up agenda.

I tried so hard to stop what I was witnessing by continuing to use my voice, report, speak to politicians, being out there in the public, and continuing to be the outspoken figure I am.

This autobiography was submitted as a report by state Labor Senator Marlene Smith (DOB 30 DEC 1986), calling for a Royal Commission into SAPOL under the Liberal government of Steven Marshall in 2019. The book had been heavily disrupted in efforts to stop its printing. That stated, reading between the lines, the cover-up and sex crimes outlined were irrefutable. Irrefutably ignored by the government, police, and media, also. The Liberal government of 2019 and the

Labor government of 2023, described repeatedly in my autobiographies, continued to try to cover up severe criminal negligence. The South Australian Police Association, which should be dissolved and charged with organised crime and torts, strongly opposes a Royal Commission into SAPOL. A Royal Commission has never been conducted regarding the overall operations of SAPOL, although a few SAPOL stations have been subject to a Royal Commission. No wonder the police were a culture of criminals and had no accountability. By 2023, after the Labor Government had been in power for quite some time, they also had not called a Royal Commission into SAPOL – even though they feigned support for one in 2019 on a state level, not nationally. Both governments are equally compliant in a cover-up of elite paedophile sex crimes, organised crime sex crimes, and criminal negligence, which allowed the rape and even murder of victims. Reading Chapter Nine of UGLY HEROS, you not only view my recommendations regarding staff, but you can also read operational recommendations made to the Policing Sector outlining issues and needed changes to redirect the dehumanisation, militarisation, and venal state of our current police force to one of integrity.

Acknowledgements at times have been made towards the humane officers of the force, known and unknown, who stood up for me, gave a little help, and showed consideration to me when they could - my legacy is your legacy. No credit to the low-life lying opportunists saying they were good or friendly people, trying to scab benefits out of a sex offender cover-up. The Ugly

Heroes of this book will never outshine YOU - the good police officers within the Australian Police force and beyond - those few and far between. The Real Heroes are mostly unnamed; amongst these Ugly Heroes are the ones who deserve the most credit.

Autobiography 'The Story Behind the Brand BARBWIRE NOOSE' delves pretty deeply into the Disabilities sector reporting turned whistleblowing saga. Here, in this introduction, you get the basics and gist of the basis of this South AUS Labor government cover-up. Working as a Disabled Care Officer between approximately 2003 and 2007, in 2019, I whistleblew the SA Government's disabilities sector via the Disability Royal Commission. Reporting incidents of neglect and sexual assault at the high dependency Sharley house facility (Mount Gambier, South Australia). As with reporting turned whistleblowing in the policing sector, I continued to report misconduct, neglect, and abuse for years with no resolution. A right to a safe place, privacy, or a fair trial were rights that the non-cognitive, mute, disabled did not have.

The details surrounding non-cognitive, mute, disabled persons stripped of their rights for political gain are heartbreaking. Everyone I was in contact with in the Mount Gambier IDSC office was aware of the abuse and neglect I reported – Managers, administration, as well as many employees like myself. I wrote numerous

letters through the Management chain until reaching the top of the sector's governance - Disability Minister Jay Weatherill (DOB 3 APR 1964). I personally followed up with Management on the reports I made when it was obvious that they were not being taken that seriously, as I could see little to no action in the workplace. The neglect was SO severe regarding the clients of the Government organisation then named IDSC, that in resolution, the government rebranded the organisation to Disability SA. One of the many steps taken by the Labor government of South Australia in an attempt to hide the ongoing issues within the sector's organisation. The next step, after basically a decade, was to introduce independent organisations and an insurance scheme for disabled people, allowing disabled people's safety to be further compromised. Negligence under independent operators leads to disgraceful levels of care and even loss of life within the disability sector. Vital services for the public should never be subject to private sector profit, e.g., Prisons, Health, including disability services, first responders - law enforcement, military, critical infrastructure (electricity, gas, water), etc.

Most of the clients I reported on behalf of could not speak, write, sign, mime, nor had the cognitive ability to report that they were not being fed, medicated, rolled over in bed to avoid bed sores, or washed; no abilities to report being sexually assaulted, etc, for themselves. I had spent a year fighting for the voiceless in the house before formally reporting all incidents I witnessed to Management and then the government. Trying to be a good example of a good carer, I also picked up those

duties that were being neglected and ensured the clients were not suffering, as best I could. When I was on shift at the house, I followed up with all clients present, ensuring they were not going without medication or uncomfortable. I could not just be a good example to stop the sexual abuse, though. I felt helpless and knew those clients felt so much worse suffering at the hands of criminal negligence. The serving state Government is a Labor government of Mike Rann (DOB 5 JAN 1953).

Taking all appropriate steps of action and reporting the criminal and neglectful conduct. I did not back down regarding the need to address the concerns I raised. At twenty years of age, I pushed the government to have the sector looked at by the disability minister effectively. Writing to local and state Managers through to the Government Disabilities office, where I addressed Disability Minister Jay Weatherill (DOB 3 APR 1964). Under Jay Weatherill's (DOB 3 APR 1964) leadership, the sexual offences reported were met with No Charges. They seemingly were not investigated by SAPOL, with no rape kit tests conducted for these reports made by me on behalf of non-cognitive, non-verbal clients. Clients who could NOT communicate the sexual abuse and neglect they were suffering for themselves. This state Labor government is satisfied with achieving a disgustingly unsatisfactory address/redress of the issues reported. My first experience with a Government Sector lacking Integrity to the point of criminal conduct, and I was a shattered nineteen-year-old, emotionally distressed by the lack of action taken by the government regarding serious concerns of neglect and vile criminal

offending under their responsibility. Misconduct extending to sexual abuse - the rape of clients, disregarded by the governing sector minister entirely. The same disregard I, myself, was met with reporting government police department employees for sexual crimes - rapes in 2014, ongoing authoring this book.

The Government's rebranding of the organisation's name from IDSC to Disabilities SA was evidently the most costly significant action taken to address many significant shortfalls reported within the sector—the government, investing primarily in the cover-up campaign of a new name, a new face fix. Jay Weatherill's (DOB 3 APR 1964) office put me on six months paid leave as opposed to removing sexually offending employees from the house to which I raised neglect and sexual assault concerns. No fundamental changes were made to the offending employees at Sharley House (Mount Gambier, South Australia) except to remove the person reporting criminality - me. Upper management in Mount Gambier (South Australia) was replaced with a new regional manager. A bully Asian lady who pushed me out of my employment, ensuring the sex offender was not dismissed. To add fuel to the fire upon appointment of new management the government also transferred a perved creep who had offended against clients in Adelaide to Mount Gambier. The happy snapper of clients' private regions, a sexual exploitation which was exposed by the local ***The Border Watch*** newspaper. An utterly disgraceful outcome from many serious reports and even recommendations regarding employment in

the sector, and referencing policies and procedures that could be changed, I had suggested to improve that sector. The job of Integrity and sector reform was half done for the then Disabilities Minister Jay Weatherill (DOB 3 APR 1964) by the time the issue had reached his address. Yet all he achieved was a whitewash of the incidents, renaming the organisation – a cover-up. The appointment of the new Asian Mount Gambier South AUS branch manager, who made it her mission to have me leave my employment within the government sector, was likely a reprisal, I am sure, encouraged by the government.

Before the targeting of my Disabilities Officer position, after reporting and speaking out against the Government Department's actions, the minister's office promised me they would be spending the time I was put on paid leave to change things. I was met with lots of thanks for my reporting and many promises for my return to my position. Naive and young, I always look for the good in everyone. Something I still do today, though good in some people, has been entirely absent, I have found. I had high hopes that things would change, and the clients abused and neglected would have a better quality of life. Dismayed and suffering from a high level of emotional distress after six months of paid leave, upon the realisation that my reports were made in vain. The results of reporting government sector crimes resulted only in criminal negligence ongoing and large-scale efforts to hide the truth.

I spent my paid leave time beginning to study childcare and registering my Trademarks 'Barbwire Noose' and 'Fear Is the Root of All Weakness'. I discussed my ambitions for politics - my ambition to do a better job than Jay Weatherill (DOB3APR1964) with my friends in the privacy of my Wehl Street rental. Returning to the position after paid leave, I saw the same neglectful employees still employed at Sharley House. Nothing had changed, and this was SO heartbreaking for me after all the effort I had made to rectify rape and neglect; it seemed nobody else really cared like I did. I could not find anyone like me, willing to speak out and possibly throw away the money they were paid, their job for Humanity. Finally, when the time came for reprisal, the department pushed me out of my position of employment, the new manager aligned my Disabilities Officer position hours to clash with my Aquatics Teaching commitments, and told me to choose between the two jobs. This bullying tactic is the next step for the government disability organisation to target the whistleblower, as the department had already changed my employment status from Full-time to part-time. This, my first experience as a government sector whistleblower, whistleblowing on serious neglect and sex crimes - a cover-up process. A cover-up process I witnessed unfolding, which revealed the venal state of governing and government processes in South Australia to me at nineteen years of age. A process I have never forgotten.

Proud of starting a cultural change within the Disabilities sector at only nineteen. Regardless of the

government's lack of action and accountability. The Story Behind the Brand BARBWIRE NOOSE has a chapter dedicated to the truth and justice of these non-cognitive, mute persons of Sharley House, Mount Gambier, South Australia. Here's to justice for all.

INTERLUDE: *Justice for All is the fourth studio album by American heavy metal band Metallica, released on August 25, 1988, by Elektra Records.*

Good Album. Now, back to the business of police corruption.

Blessed, or cursed with some half-baked Government Investigation certification (TafeSA, South Australia), I liked the idea of, in later years, whistleblowing after the homicide case in 2013. Which, due to its process of appointment (as with SAPOL police Certifications issued and removed), I figured I COULD hold onto it by my teeth to gain justice in the unjust and highly illegal cover-up. In 2025, I studied my Graduate Certificate in Policy and Governance. A certification that says I know what I'm doing, so to speak, regarding policy and integrity. Undeniably, I am one of the most experienced persons in Australia regarding government cover-ups, a witness to such vulgar processes as a teenager. The backlash was much worse from the policing sector than within disability sector when reporting serious criminal misconduct. The games of inhumane governing and efforts to character assassinate me will astonish you (more) as you read in this Autobiography. The Story is a

factual eye opener to the most desperate and corrupt levels of governing; PERJURY - the cover-ups. Whistleblowing the government in Australia without an Office of Public Integrity that can demand government National Integrity by law was hard. The National Integrity Commission was established and running by 2023, initially a waste of taxpayers' money. By the time National Integrity legislation was established and implemented by the Office of Public Integrity, it was toothless and useless, failing to act adequately against AFP police torts and government criminal negligence, which was the first report action (NACC reference: 202382921220-6741) I made to the NACC in 2023. The newly established NACC didn't even want emails regarding these National injustices and corrupt cover-ups. Never mind, calling them out and the AFP commissioner in this book seems to have done the trick (at this time, December 2023). I certainly had the police and government's attention during 2024.

Endless and irrefutable evidence of cover-ups within Australian governance recorded with records of the AFP's involvement in torture, breaches of the Privacy Acts, organised crime, and sex trafficking – yet the NACC tried to say there's nothing to see here. A result that proved Reece Kershaw (DOB1966; AFP ID 4742) was on a path to cover up criminal negligence and sex crimes with his subordinate state counterparts. I was not going to let that happen without a fight. Reece Kershaw (DOB1966; AFP ID 4742) was in a position to make a change, and I was making damn sure he had all the information he needed to make it. Or to make the poor

decision of siding with a cover-up – either way, Reece Kershaw (DOB1966; AFP ID 4742) was going to have no excuse, nor anyone else to blame for these sexual crimes cover-ups if he sided with these corrupt and unlawful governing activities. I have years of experience reporting on government sectors, regarding both illegal and unethical conduct, leading to reporting with Royal Commissions. Australia, for years, almost seamlessly ran Royal Commissions, making recommendations to nowhere. The possibility of revolutionary outcomes led to floundering governance accountability, resulting in no one being held accountable at times when serious reform should have been concluded. The bleak reality and accurate assessment of what Royal Commissions had become.

In my thirties, it was easy to recognize the déjà vu-like actions of character assassination and accountability avoidance around myself when I whistleblow SAPOL, leading to whistleblowing other state police forces, including the AFP. A heavy-handed game to break a girl and push her into the refuge of suicide before changes and accountability was the government's only option. Which they took before accountability. For context, I am a little girl, just over five feet tall, average fifty kilograms, and a child victim of SAPOL, harassed by petty, bigoted police in power and left at the whim of government-rewarded sex offenders.

Highlighting character assassinations, which were deliberate and designed not only to discredit me but to lead to criminal offenses being committed against me. For years, subjected to the defamation spread by police to cover up an operation that almost had me murdered, calling me an informant (so not true!!). And, conclusively, the sex work defamation led to reported assaults, aggravated affray activities, and a formidable rape agenda. Police investigations led to no charges against their human resources in hopes that the psychological trauma would assist in my suicide. Police were intentionally trying to assist my suicide by engaging in actions and encouraging offending against myself, which almost spiralled me into the refuge of suicide, a police force-assisted suicide. All these personal efforts by police and community members to cover up the undeniable link between Australian Police Forces and organized crime operations within Australia, including sex crimes/paedophilia in governance, compromising National Security with the venal state of government, and police force cohesion.

The attacks on my person stemming from *Kurt Gavan Slaven's* (DOB 07NOV1958; SAPOL/ADF - Navy) sexual offense in 2001, upon reflection, were clearly aiming to cause me emotional distress – murdering my rabbits, assaults, home invasions, false investigations,

causing destitution and reputational damages. Knowing what I know now, I assume the aim was to make myself so unsettled that I would turn to heavy drugs time and time again or suicide. The character assassination, malicious mythos/perception, and efforts of psychological warfare to induce suicide, giving seedy police a way out of using children (minors) as prostitutes - a way out of the paedophile crime if there is no witness, no report, no one speaking out – up; consumed by drugs.

It is shocking how some of the details of these crimes committed against my person have come out. On police record, via phone taps (off phones), and from boyfriends. Police and organized crime associated rape of my person, which I was unaware of, leaked out over the years from 2013. So many people were involved in crime, around me, with an agenda to discredit me, a victim of police, and to target me in a government sector cover-up.

I was told by Luke Hubert Scheidl (DOB 1981 Mount Gambier District, South Australia) in 2014 that the house where an attempted sexual assault was committed, surrounding my tongue ring (2001), was the house of the Driscoll family—a family who regularly left the property and travelled during the early 2000s. Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia) stated that the white piano,

rooms, and residence location I described was a home he had been in with the COA gang, saying the boys would hang out in the house often when the owners were away.

More details about the assault committed in 2004 by my brother's girlfriend, her sister, and an accomplice - Kylie, also mentioned by Luke in 2014.

Detailing what happened, this malicious and intentional attack on my person by the daughter of a sex worker associated with the police in Mount Gambier attacked me due to underlying allegations of prostitution. There were allegations I was not aware of, but my brother was. This is not the last assault due to allegations of prostitution in a sex offender's cover-up agenda, and police recklessly endangering my life via unlawful law enforcement.

I was seriously assaulted for nothing other than asking my brother to move his car. I was unaware of the prostitution allegations until long after the attack. It wasn't until Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia) told me ten years after the incident. It was a piss weak group assault; two of the three attackers were convicted of assault. The incident on record, I rang '000' to report being assaulted at the Wehl Street property. Gypsy Joker relatives/prostitutes – one an ex-girlfriend of my brother, one a young indigenous prostitute (underaged – fifteen), and the niece of a patched Gypsy Joker member

attacking my person. The paedophile bikers' and police associate prostitute, drug addicts' efforts were in vain as I reported the offenders and was compensated, awarded intervention orders, and not disfigured. Two of the three girls were convicted, and I looked fine the next day despite their genuine efforts to fuck up my face. SAPOL spent A lot of time – three years trying to get their prostitutes from being convicted for the assault, and successfully covered up one of the known to police offenders – Kylie, the offender, and Gypsy Jokers' relative, who at this time got away with her involvement in the affray assault.

SAPOL police have been unable to execute their responsibilities often, where sex workers are involved, and have shown an irrefutable involvement with underage sex crimes decade after decade. The physical assault I thought at this time was random and linked to my methamphetamine addict brother, Cheyne Michael Hobbs (DOB9MAY1985). The girls were known to my brother but not to me.

Time revealing there was numerous influences behind the assault, namely SAPOL and their prostitute defamation, including government private investigation due to my reporting disabled negligence, Mike Rann sex offender ring linked paedophiles like Church Pastor Greg Phillips (Mount Gambier District, South AUS 2001) whose stepdaughter and victim I was friends with, persons involved with *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) and the Gypsy Jokers peddling filth around the district. I was evidently

assaulted conveniently for the government at the time, as I was reporting neglect and sexual violence against non-cognitive disabled persons, so the claim of prostitution was clearly circulating during 2004/2005. Makes it more piss weak really, the underlying drive for such a damaging defamation is the damage that it is known to do. The fact that the same activities occurred in the Northern Territory due to the same police driven defamation shows this is a practice by police to have persons assaulted twice, fifteen odd years apart, with the same rhetoric and police actions leading to assault is not a coincidence.

Before being placed on paid leave at IDSC, away from my disabilities government position until issues were resolved, which they never were. Being assaulted during the period to which I was most heavily whistleblowing in the government's disabilities sector was emotionally devastating. To find out in later years that the attack was not so random and that the assault was influenced by claims of prostitution that were circulating at this time (2004/2005), claims my family heard and evidently believed. Myself oblivious to the bullshit for another ten years.

Further detailing being assaulted by three girls, all with direct links to the illegal sex industry, paedophilia, SAPOL corruption, and gang alliances. Two of the girls were completely unknown to me; I had met my brother Cheyne Michael Hobbs' (DOB09MAY1985) girlfriend, and there were no issues between us. This girlfriend of Cheyne Michael Hobbs (DOB09MAY1985), turned

offender, knew my then boyfriend, Jason Scott Parker (DOB14MAY1981), from when he lived in the low sociodemographic area (Wireless Road East/Gladigau Road) of Mount Gambier prior to us meeting.

Cheyne Michael Hobbs (DOB09MAY1985), my brother, at the time was heavily involved with methamphetamines associated with the Gypsy Jokers sex workers of the district. I literally had to tell a sex worker he had invited to my Wehl Street North property (Mount Gambier, South Australia) when he was residing there to fuck off. I am not sure if this was before or after my brother committed property damage at the rental, breaking into the property via the front door as he lost his key to get inside. I was working a night shift in the Disabilities sector, where I would sleep on shift at the property overnight. I came home to my property open and exposed to the public, luckily nothing was stolen, and I fixed the door immediately while my brother slept off his drug bender and a said assault by Ricky Noonan (Mount Gambier District/Adelaide 2003), whom my brother desperately at this time continued to associate with due to his drug habit.

Jason Scott Parker (DOB14MAY1981) from a middle-class family had resided in an area known in Mount Gambier as housing heroin addicts before we met in NOV 2001. An area said to be frequented by the female offenders involved in the assault on my person in 2004. I never saw Jason Scott Parker (DOB14MAY1981) consume heroin, yet numerous persons stated his

sleeping habits when we became a couple matched those of a heroin addict.

The two indigenous girl offenders/prostitutes had followed in the footsteps of their prostitute mother - a fact to which I barely knew in 2004. After three years of the Mount Gambier police station harassing myself and stating I was the aggressor in this attack upon myself, the offenders were charged.

The aggressive accusation about myself was false; malicious accusations with no basis or facts were made up for the two daughters of a First Nations (Aboriginal) prostitute used by police, with the police seeking sexual services from these young girls, not just their mother. The offenders against me were taken to court and charged because I pursued victims of crime resolution. Gaining a charge despite their prostitute mother offering bribes, the police paedophiles sexually used and abused the offenders, and the police pursued me as volatile when I was clearly the victim of an assault. Police activity these days is truly preposterous. Numerous SAPOL police attended the scene and witnessed my blood all over me from my nose bleeding. Of the three offenders, the relative of the Gypsy Jokers MC member named Kylie, the most aggressive offender, received no charge for the offense, showing how heavily compromised SAPOL is by the Gypsy Jokers MC. All three girls are known to SAPOL police, yet it took three years for me to achieve justice on two of the three offenders, and I was falsely accused of aggression when I did not strike once. Both females charged were

involved in the sex industry, the third and the worst of the aggressors, who SAPOL police have the name of is yet to be charged after two decades. Kylie, the niece of the Gypsy Jokers MC, not being charged, is another irrefutable cog of the SAPOL criminal negligence chain of causation beneficiaries. Persistence with the truth was how I won in court and was compensated for dental injuries I received during the attack, with lifetime intervention orders issued to felons Sarah and Miriam Maddison (Indigenous, Mount Gambier District, South Australia). When this book was released in 2025, Miriam Maddison (Indigenous, Mount Gambier District, South Australia) tried to capitalize on the moment and breached her intervention order with some hateful slander. Pathetic and reported to SAPOL police, who did not act or make any genuine attempts to do so. The assault matter in which both sisters were found guilty was handled by Solicitor Mathew Mitchell of Adelaide, South Australia, who successfully represented myself as a Victim of Crime for the most part. His representation failed to gain compensation for the disruption to my child-care studies, which ended the studies. A certification that would have significantly improved my financial position at this time, and beyond.

TIMELY FACTS: I advocate for First Nations rights, Human Rights, and my bestest friends in life are Aboriginal. My family tree has indigenous branches, and I wish every day for equality.

Kylie, uncharged, was a name provided to myself as the third offender by the police linked to the family. The

self-proclaimed niece of a Gypsy Joker who threatened me after the assault, saying that her uncle from the Gypsy Jokers would rape me. A threat that was reported to SAPOL, whose despicable level of operations and floundering duty of care resulted in criminal negligence by SAPOL as the threat unfolded. A threat that played out in 2005, and police further allowed it to play out in 2006. Myself drugged and raped by drug addicts and members of the Gypsy Jokers. Offending confirmed also by Luke.

A gang rape assault, which Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) described during the Gordon Tearonui Hamm investigation in 2014, was overseen by the AFP and recorded by police. Because I was drugged for these offences, until confirmation in 2014, I had only suspicions regarding being drugged and showered by Brett Hannigan (Mount Gambier District, Gypsy Jokers). Brett, a musician I met in the usual way you meet a budding muso – at the pub (2006). He played at local pubs, was well-liked, a good-looking, fit, talented guy with gorgeous dark hair and bright eyes. Unfortunately, he wasn't just a musician, I found out during the rebound fling. He was the brother of a Gypsy Joker member's wife and a marijuana cultivator (hydroponics) with methamphetamine issues. I didn't know of Brett's association when we met, and clearly did not have a long-term relationship with this person. A two-month rebound thing that ended after I suspected I had been drugged and showered at the least. Brett, when I questioned him, made no admissions as to why I had

been showered and naked on a night when many male persons were present. The offence occurred after Mother's Day 2006, when Brett attended my family's celebration held at my dad's friend's property at Donovan's (Glenelg River). I believe SAPOL/STARForce and many other persons in Mount Gambier, South Australia, were aware of this sex offense well before Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) told me it occurred during the homicide investigation of 2014. SAPOL had been using me as rape bait with my family's knowledge for nearly a decade before I was aware of sex worker defamation. The already engaged cover-up of *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) paedophile offending continued in conjunction with the AFP for another decade, before Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS) announced how SAPOL spoke about me at the police station and within the community, and stated that SAPOL was using me as quote 'Rape Bait'.

Myself being drugged and raped in 2005 I was aware occurred the offender was a skinny, long-haired, short-statured roadie to the Australian band 'Magic Dirt'. He lived in brown flats on Jubilee Highway between Wehl Street North and Doughty Street with his car under a cover at the end of the straight driveway. At this stage, police were targeting myself with accusations stemming from the assault (2004), which deterred me from

reporting this sex crime. Writing the sex offence off in my mind, as many females do to be a drugged rape committed on a night out drinking with your friends. SAPOL, at this time, if I had reported the crime would have engaged more torts, psychological warfare, and possibly incited more crimes to be committed against my person. I think now, due to my credibility was being clearly tarnished. In hindsight, it is irrefutable that reporting this crime would have led to further abuses of my life, a young lady already fragile in emotions, raped by a police officer as a minor, at this time reporting sex crimes in the Disabilities Sector.

The assault with a threat of rape leading to rape, and SAPOL failing to charge the person with the threat to my life and assault is a deplorable result by SAPOL, and intentional criminal negligence. Kylie's behaviour towards a random chick she didn't know, and the threat of rape, is a disgusting, low, and monstrous thing to hear from Anyone - let alone from a female. Even more disgusting was to learn the police allowed the rape threat to take place during a period during which they claimed to be running an investigation into the serious assault.

Irrefutably, SAPOL were really just calling me a prostitute for years and trying to set me up as one to cover up a sex crime committed by paedophile *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)*. A damaging, defamatory lie to which the government took advantage. With police actors, political actors, and community actors, this is not a

well-hidden lie about vile crimes. The bikers are clearly also helping the Mike Rann (DOB5JAN1953) SA Government cover up their criminal negligence and sex crimes – paedophilia. A lot of this paedophilia that Mike Rann (DOB5JAN1953) is guilty of is against young boys, with known paedophile Bevan Spencer von Einem (DOB29MAY1946). An interesting fact to put here is that it was *Kurt Gavan Slaven* (DOB 07NOV1958; *SAPOL/ADF - Navy*) in 2001 who told me of the contaminated water findings the government had caused an increase in disability births in Mount Gambier (before offense). It is an absolute truth that this detective was in some type of communication with top government officials at this time.

STARForce was aware of Gypsy Jokers' niece Kylie's full name, and with statements giving a clear description of this offender, it should have led to a conviction, yet Kylie carried out her pregnancy and remained uncharged for assault. Kylie (2004) was allowed to threaten that a gang would rape a person and assault someone (me). During the assault, both Sara and Kylie claimed they were pregnant – this is why I did not strike either girl in defence.

A courtesy I would not give to an offender again. Hit me and I'll hit you (self-defense is a thing), unless I'm clearly incapacitated, which makes you one weak piece of shit - her name is Melissa Mary-Ann Hutton (DOB20AUG1967), this is the other assault solely

based on defamatory and false statements calling me a prostitute.

This assault also occurred at the height of whistleblowing, this time in the policing sector.

Mellisa Mary-Ann Hutton aka 'Liz' (DOB20AUG1967), located in Alice Springs, Nth Territory, AUS in 2021. A local old felon, methamphetamines/ICE dealer, wannabe biker hag with a history of attacking small, younger, more attractive women than her - not hard, the woman is a disgusting specimen of a female, attacked me. She clearly licks someone from NTPOL's dick (metaphor - maybe) as she got away with assaulting me and calling me a whore with just a good behaviour bond, even though the offense was filmed and utterly disgusting to watch. Her sex offender buddy Luke Horsfall (known to Reece Kershaw, DOB1966, AFP ID 4742) was setting the assault up, as I had reported Luke Horsfall for attempted sexual assault multiple times, to which NTPOL failed to act at all. Evidence of my distress after self-defence and escaping sexual assault was recorded on a car Taxi camera. Sex offender Luke Horsfall claims his father was associated with the CIA at Pine Gap facility located in Alice Springs, Nth Territory, Australia.

You can read about Luke Horsfall by googling Reece Kershaw (DOB1966 AFP ID 4742), quoting - 'Reece Kershaw, the Northern Territory's Police Commissioner and soon-to-be federal police chief, has admitted some of his officers inappropriately accessed the private medical records of a public servant.' Upon finding the

article you will proceed to read, written by the ABC Alice Springs, namely Steven Schubert, posted Thu 8 Aug 2019, where this vile felon (creepy, sexual assault, sex pest) kind of cries wolf over an offence committed by NTPOL, which he had committed against others himself, he confessed to me, as well as confessions of hacking and numerous other forms of low-life illegal activities. Later, after numerous attempts of sexual assault against my person and the assault, this felon wrote me a message via Facebook Messenger stating he had been compensated regarding Reece Kershaw's (DOB1966, AFP ID 4742) apology.

Whistleblowing in the policing sector was when I discovered many people did not see justice when reporting serious crimes to not only SAPOL, but police forces across Australia, with numerous victims of police criminal negligence ending up dead. These not fit for purpose laws (particularly organised crime and association) and police criminal alliances (Human resources/felons) and compromises to our human rights and constitutional laws are why.

The fact that Kylie was an offender the police could easily identify from details provided, even if Kylie was not known to the police, is irrefutable evidence of the venal state of SAPOL police where organised crime, bikers, particularly the Gypsy Jokers, are concerned. Locals are calling it 'owning' the Mount Gambier police

station, a reference broadly used across Australia when referring to venal police. The Mount Gambier Police and the CIB stated they could not identify Kylie to take her to court to face charges. SAPOL is on record for perverting the course of justice for organised crime, as with NTPOL in 2021. I identified Kylie repeatedly as she would stalk the Wehl Street property I rented after the incident. I identified Melissa Mary-Ann Hutton (aka 'Liz' DOB20AUG, located Alice Springs, Nth Territory, AUS) clearly also, with the incident recorded via CCTV footage, yet was not asked to be a witness in court, which would have seen the old hag incarcerated.

An intentional abuse of prosecutorial discretion to help an ICE-dealing whore by NTPOL and the prosecution unit. The defamation due to NTPOL's half-baked job led to the prostitution defamation floating around my place of employment (Casino) while I stayed in the Northern Territory (end 2021/2022), stuck in floods, which washed away the road back to South Australia. Reckless endangerment is a practice of law enforcement, who, in Australia, think they are the judge and jury. After years of fighting for justice regarding the assault on my person in South Australia, with a connection to the illegal prostitution industry.

In the end, I was happy to see the Maddison sisters convicted and at this time carried on with life - or so I thought, the little life I have that is truly my own. No point dwelling on shitty people of poor character; nobody can help them but them.

I proceeded on with life in the same manner after NTPOL neglectful investigations into the assault committed by Melissa Mary-Ann Hutton (aka 'Liz' DOB20AUG located Alice Springs, Nth Territory, AUS) where NTPOL prosecution did not even present myself - a willing victim into the court room, with malicious accusations with no facts or basis flying around is no coincidence.

The chain of causation is irrefutable; SAPOL is responsible for these malicious accusations, which spread across a nation in efforts for governance to cover up sex crimes for two decades. Irrefutable and irrefutably known to Reece Kershaw (DOB1966, AFP ID 4742) by 2023. I eagerly awaited to see the Australian Federal Police commissioner move forward to charge Kurt Slaven (SAPOL and Australian Defence - Navy) or, evidently, continue the malicious activity to cover up vile sex crimes at the expense of our constitution, persons he was sworn to protect - our civil society, and me. By mid-2024, I was incarcerated with Kurt Slaven's name on the paperwork, never charged in association with his allegation(s). I suffered imprisonment, and for that, I have no mercy, stating all that needs to be publicly disclosed for resolution. Prison could have killed me or seriously hurt me; a gloves-off approach seemed to be the only option. By March 2025, Political Prisoner #192703 was published in Australia, nearly physically published globally, and the corruption was unoppressible.

This SAPOL/Gypsy Joker affiliation really did allow for an ownership over Mount Gambier policing that's lasted for over twenty years until the death of Gordon Tearonui Hamm brought the heat and corruption of the AFP. This severely neglectful homicide investigation of 2013 – 2016, coupled with this Autobiography, made the alliances of the police forces with sex offender bikers too Big to hide. Too big to Ignore. A police force made gang of so-called Hells Angels led by a Nazi originating Gypsy Jokers biker organisation terrorising the City of Mount Gambier and state of South Australia to the point where a sex offender cover-up plagued biker groups across our nation concludes why Australia purchased, (reports suggested at this time) the most live paedophile pornography in the world over the years people were locked in their houses for the coronavirus (COVID-19). Fucking disgusting.

'Law enforcement and non-government organisations have indicated that CSA live streaming is increasing (Interpol 2020; Netclean 2019; WPGA 2021) and is often facilitated by third-party traffickers (WPGA 2021).' - Australian Institute of Criminology; Trends & issues in crime and criminal justice.

"There is no such thing as a 'VIP paedophile' - this is just people excusing hideous crimes to cover up their own skeletons." - Marcia Anita Hobbs

The cover-up, bigger than me; this document with a Royal Commission into SAPOL creates a pivotal point for positive and effective changes to law enforcement.

The Australian police forces are compromised by gangsters Australia-wide. High demand for child pornography in the country at this time has resulted in significant arrests by the AFP and Border Forces regarding child pornography. Jointly with international counterparts, this has been a great achievement. Yet, a fragile National Security situation where venal politicians, defence, and law enforcement are concerned still thrives. Both locally in Australia and internationally.

Myself, learning after years of friendship with Travis Paul Enmon Jr (DOB16JAN1989, Texas, USA) that the practice of conflating and confusing investigation with police involvement, especially where elite sex offenders are concerned, was everywhere. Travis Paul Enmon Jr (DOB16JAN1989, Texas, USA) and I had discussed the disgraceful police cultures of our countries for years. As we had discussed the ongoing issues during these years of cover-ups and other random topics. The evidence against police forces' association with sex industry organised crime was everywhere. Yet, many persons in government, defence, and law enforcement were invested heavily in hiding it.

I knew I could beat this cover-up and all the sex offenders and bikers covering for sex offender crimes as an avid legal student. God knows I could even beat the Gypsy Jokers' favourite lawyer in court, Craig Caldicott (South AUS practising criminal law since 1979). The problem was surviving the destitution and mental anguish circumstances maintained for over a decade by police forces, governance, and criminals alike. Destitution, while the government owed me an excessive amount of redress. Destitution assisted by law enforcement and what I think are scum human beings across Australia. To tort a little girl is one thing; to be involved in the interference of justice regarding our most vulnerable in society, the disabled, is utterly diabolical.

I had borne witness to a lot of the cover-ups and knew a lot of the history of the upcoming Gypsy Jokers scum. I went to school with the Gypsy Joker Sergeant-at-Arms sons who were not in my classes or year level, and we didn't converse much. Shannon Howell (Nicknamed Bubba Mount Gambier District, South AUS, Allendale East Area School year 1998) known sex offender who raped a person known to me, and his younger brother Matt Howell (DOB1DEC1989, Mount Gambier District, South AUS, Allendale East Area School year

1998), are felons. Both boys younger than myself would run around Mount Gambier saying the Gypsy Jokers own the Mount Gambier Police Station since High School. I always thought that it was rubbish - like WTF!? A Nazi affiliated, rapist paedophile biker group owning the Police Station of Mount Gambier – you can't be serious!? As a teen, I thought a little more simply, like criminals owning cops is bullshit. The city of the Famous Blue Lake of South Australia. No Way. Moving out of home and whistleblowing at the Mount Gambier Police station (SAPOL, state and national police forces) in my thirties, it was irrefutable that this was the case. Nearing half a dozen head of station changes, yet no one could act adequately against the Gypsy Jokers. In 2014, Shannon Howell (Nicknamed Bubba, Mount Gambier District, South Australia, Allendale East Area School, year 1998), under the AFP, oversaw a homicide Investigation, and was allowed to harass me at times – go figure. Losers. Simply telling him to get fucked and blocking communication as we had never seen each other around Mount Gambier, South Australia (I don't hang with scum) was enough to stop his messages, but not the petty harassment. Shannon Howell (Nicknamed Bubba Mount Gambier District, South AUS, Allendale East Area School year 1998) is a rapist, the Sergeant at Arms' son, raping a daughter of a patched member, as well as friends of other members from the club that I conclusively know of, and so does SAPOL. This sex offender's younger brother, Matt Howell (Mount Gambier District, South Australia year 2000), who married the girl his brother raped, messaged myself when I attended Eco Fashion

Week Australia (EFA) in 2018, threatening me to take 'his' Gypsy Joker name out of my book. 'Go fuck yourself,' is my general response to the bully. I reported the threat made in writing by Matt Howell (DOB 1DEC1989, Mount Gambier District, South AUS, Allendale East Area School year 1998) to Crime Stoppers in 2018 from Fremantle, West AUS. Very little stemmed from the report other than the loser not messaging again and seemingly getting over himself.

Overall, from the mechanic (Dick) linked to the Gypsy Jokers doing business with the rapist police officer, to charges not being laid by SAPOL to the fact that it was always years long fights in court to charge the Nazi affiliated, sex offending critters and SAPOL creating defences for their criminals instead of prosecution, denial isn't an option for police regarding their involvement illegally with organised crime; a publicly disclosed cover up.

The Gypsy Joker and SAPOL correlation in incidents surrounding me is irrefutable. A venal police force is definitely the reason for the delay in charging serious criminal offenders and sex offenders. Police compromises so severe that as I encountered the corruption reporting *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) in 2014, it became evident that the police ombudsman and ICAC had been poisoned by these gang alliances, paedophile crimes and cover up agendas as the governing integrity bodies

failed to act - failing to charge police and government sector sex crimes.

I literally witnessed for years the internal investigations unit of SAPOL and Integrity bodies in South Australia maintaining a sex crimes cover-up. An acceptable culture within police forces to turn a blind eye to serious crimes compromising lives and National Security. Engaging and creating illegal investigative outcomes of accepting sex worker interaction (including offending against minors) as an ethical issue.

ICAC, and Internal/Special Investigations Units of SAPOL department, concluding *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) sex offence against a minor as an 'ethical' issue in writing (email) numerous times 2021 - 2023, concluding to an irrefutable level intentional and malicious corruption, deeply seated in police investigating police and the integrity sector itself.

Mitch Daily (SAPOL prosecution services 2021 – 2023) and Dave Kyriacou (SAPOL ID 40657) are irrefutably guilty of upholding the illegal standards of SAPOL regarding charges against Kurt Slaven (SAPOL & Australian Defence Force - Navy). Caused by an ongoing cover-up of the heavy use of the illegal prostitution industry by police personnel, including the police association branch of SAPOL employees, coupled with the greed and power of gang alliances, allowing the peddling of kids as sex toys.

For me to be raped with police investigations running at the same time, multiple times since 2014, assisting the police is no coincidence. Police officer after police officer, state and federal police forces intentionally ignored or allowed malicious audio and investigation errors (neglectful investigations), as well as using mocked text messages by human resources and social media posts to excuse affray activity of the vilest kind.

Affray law as follows:

A person commits the offence of affray if they use, or threaten to use, unlawful violence towards another and their conduct would cause a person of reasonable firmness present at the scene to fear for their personal safety.

Affray may be committed by one person acting alone, however, if two or more persons are involved it is their conduct taken together that will be considered in determining its effect on a person. Further, the offence will be an aggravated offence when committed in company.

The maximum penalty for a basic offence is 3 years imprisonment.

The maximum penalty for an aggravated offence is 5 years imprisonment.

An offence is aggravated if you:

deliberately and systematically inflicted severe pain on the victim;

used, or threatened to use, an offensive weapon;

committed the offence against a police or prison officer;

tried to dissuade a victim from participating in legal proceedings;

knew the victim was under 12 years of age;

knew the victim was over 60 years of age;

committed the offence against a former spouse/partner;

committed the offence against your child or a child of your former spouse/partner;

committed the offence in company with another person;

abused a position of trust or authority;

committed the offence against a disabled person;

committed the offence against a person who was vulnerable because of their employment; or

committed the offence in contravention of a court order (e.g., a bail agreement or restraining order).

The prosecution must prove that:

you used violence, or threatened to use violence, against a person;

you intended to use violence or threaten violence, or you were aware that your conduct may be violent or threatening violence;

your conduct was voluntary;

the violence used or threatened to be used was unlawful;

the conduct was such that it would have caused a person of reasonable firmness present at the scene to fear for their personal safety.

The use of the affray charges regarding the circulation or revenge porn, false statements with courts and/or police, threats, and offences is enough, without the Association Laws. In South Australia, we have both laws, so why does SAPOL constantly fail to adequately apply these charges for public safety? I think it is because SAPOL takes a fear-based approach to public safety, not a peaceful approach. They also need scapegoats and minions to do their dirty work to cover up their dirty crimes. Why else would you think being a gangster solves gangster problems as cops?

Australia-wide or within Mount Gambier, with the aid of police and so-called bikers and desperate felons, SAPOL investigations for years have allowed offenders to set up scapegoats for their criminal counterparts.

When I say Australia-wide, I mean it. I tested every Law enforcement integrity commission relevant to reporting this police sex offender cover-up, plus reporting inadequate domestic violence investigations, overlooked serious assault offences, and other concerns prior to the implementation of the NACC in 2023.

Here is the response I received from the Australian Commission of Law Enforcement Integrity on the 16DEC2022, acknowledging misconduct. This National body, prior to NACC establishment, is where reports against the AFP are made, and I was advised via phone to report here. Sending UGLY HEROS Everywhere seeking resolution, despite alterations made to my manuscripts at times, even to the National body before the NACC,

Hear you read irrefutable evidence that the National Integrity body overlooked what they acknowledged as a *broader term of misconduct* regarding the AFP, state police, and governance being actively involved in covering up sex crimes in Australia via the illegal application of Organised Crime/Association Laws.

Good morning Ms BNoose,

Thank you for your email dated 11 December 2022.

ACLEI supports the Integrity Commissioner's investigations of corrupt conduct by staff members of a number of Australian Commonwealth Government law enforcement agencies which fall within her jurisdiction.

Further information about ACLEI, including a list of the agencies in jurisdiction and a link to the latest version of the Law Enforcement Integrity Commissioner Act 2006 (LEIC Act), can be found at

<https://www.aclei.gov.au/>

It is important to note that we are not a complaints handling or review agency and do not have the legal ability to overturn decisions made by other agencies.

The allegations you have raised do not relate to corrupt conduct as described in section 6 of the LEIC Act, but rather would come under the broader term of misconduct. Accordingly, ACLEI is unable to investigate or otherwise assist with regard to the matters you have raised.

If you are dissatisfied about an interaction with the AFP or ACT Policing or suspect misconduct, you may like to lodge a complaint to AFP Professional Standards (PRS). More information can be found at <https://www.police.act.gov.au/.../complaints-and-compliments>.

Sincerely,

Intake and Assessments Team.

You would think this commission would be obliged to pass the misconduct concerns they acknowledged on to the relevant state integrity body. Considering I was not notified of this misconduct being addressed, one can assume this process acceptably allowed this acknowledged misconduct to intentionally sidestep addressing. And so, the saga continued.

I had no options but to publicly disclose this atrocious cover-up before it actually killed me. In 2023, I was sexually assaulted in a high-risk environment – no water, no mobile phone range, no food – deprived of my liberties in the middle of Australian desert terrain where a felon had trespassed onto indigenous property. I am lucky to be alive today. The drug fucked felon, having a history of selling anything to anyone, including children, confessed after many persons had vouched for his character. Bryan Porker, born Darren Nixon, a felon known to SAPOL, NTPOL, and the AFP, yet was unknown to me until he targeted me in the Northern Territory to befriend me until such time as he was convinced I was an informant.

A friend of fellow violent offender Daniel Lowe (NSW and Nth Territory), and drug dealer Pistol Pete, as he is known, who takes advantage of young indigenous women and is a racist, plus a DV offender. Pete, also a pimp to some NTPOL police, via his pals, was allowed by the police to be a threat to my life and well-being for the better part of the beginning of 2023.

The sexual assault was committed in South Australia, so I had to report it to SAPOL. SAPOL refused to take a statement against the sex offending felon at the Hindley Street Police Station (South Australia) in August of 2023. I left my detailed written statement with the loser female police officer who should have a job as a cleaner, not a cop – she'd possibly fail at that qualification-less role also. My level of respect for TafeSA Certification three police nonexistent by 2023.

A dead dog could get into SAPOL staffing – the media have numerous times acknowledged the paedophiles the force had employed!! (Seriously, how and WFT!?). Is this true?? – YES, again, use Google – I'm not here to convince you. The police forces' shortcomings are pretty plain to see if you're looking.

Back briefly to Bryan, in 2025, Alice Springs, Northern Territory, Australia, when the Fink Motorsport event was scheduled, he was arrested and imprisoned for some time regarding a drug-related offence.

Being called an informant, not new, the narc comment from my Mum, and a few paranoid randoms throwing it out there, this defamation was damaging too.

As you are starting to understand, resolution is imperative regarding the allegations of sex work, this police certification/informant utilisation. I'm getting assaulted left, right, and centre because people think it's for sale, that I like it, want it, or whatever the fuck freaks think. I certainly would never behave in such a way. I needed a hero, so I became that with this book, a few good people, and legal representation. I'd give police credit here too, but they are paid to do a job, and unfortunately, they showed that saving me from all the mistakes of years of policing and an unravelling of illegal and corrupt operations, the heroic task was only for the brave few. Myself standing up for myself mainly.

Giving credit where credit is due and adding detail to a name you will hear again throughout this book, one of the first SAPOL police officers who came to my rescue was named Darryl Peter Wright (SAPOL, African Army - International, AF). Unfortunately, he thought he was saving a prostitute. A married International ex-service man turned SAPOL cop with children, and a friend of my cousin who was part of the SAPOL police force at this time. The South African ex-army SAPOL cop, not bad looking, and also not bright enough to be around me. Deviate.

I'm not interested in married men, nor old men, despite him being a fit old man. He gained my trust in policing interactions (2015) because of SAPOL hacking (or something like that) Travis Paul Enmon Jr (DOB16JAN1989, Texas USA) social media and myself mistaking Darryl Peter Wright (SAPOL, African Army - International, AF) as my American Guy – which no body in SAPOL nor VICPOL corrected for half a decade as they stalked and pursued me sexually.

Apparently, I am great in bed, the evidence of years of privacy breaches and numerous obsessed police officers proves - proving nothing else. Bitter-sweet compliment - if that's what you can call it! After Darryl Peter Wright (SAPOL, African Army - International, AF) transferred numerous police guilty of harassing myself from the Mount Gambier police station, these results built a trusting genuine rapport with myself and Darryl Peter Wright (SAPOL, African Army - International, AF) until he allowed Andrew David Lock (ID 48985) to

assault my persons. When it was apparent, I was of no benefit to him as I was not a prostitute. This clearly bitter venal police officer Darryl Peter Wright (SAPOL, African Army - International, AF) ended up illegally filming me, outraged at the institutional harassment I was receiving, after five years of torts. Darryl Peter Wright (SAPOL, African Army - International, AF) filmed me on his personal phone (approximately end 2017). Darryl Peter Wright (SAPOL, African Army - International, AF) was in a plot to attack my personal character at this point, as I was outing his infidelity inadvertently, as he was using illegal prostitutes and desperately trying to resolve the extraordinary and malicious circumstances of prostitution defamation. I was told of the defamation created by this video of Darryl Peter Wright (SAPOL, African Army - International, AF) at my aquatics teaching role. This is when I was made aware that SAPOL police were running a character assassination campaign. This occurred at the same time I was formalising the statement POLICE vs Kurt Slaven (SAPOL and Australian Defence – Navy) 2017/2018.

Need I say more? We've all seen the movies, watched police brutality on the news, and seen cop corruption in podcasts. The city of Mount Gambier, located near the Victoria state border, allows the Portland Police Station VICPOL, and SAPOL to work together. Personally, I saw the colluding to pervert the course of justice in the cover-up defamation campaign and covered much

ground in the year 2017, trying to solidify myself as a prostitute I had never been. Defamation has resulted in grievous bodily harm against me for years.

Myself raped numerous times due to Darryl Peter Wright (SAPOL, African Army - International, AF) – not limited him too defamation.

Generally, both these police stations allow their on-the-books felons to traffick ICE across the border.

The solicitation started heavily when Darryl Peter Wright (SAPOL, African Army - International, AF) started floating around my house in Mount Gambier, SA.

Solicitation of myself by police into sex industry circles occurring at this time, prostitutes involved with the police force tried literally to recruit me into working as a prostitute. Not like slaves, because they thought I was a pro too. Looking out for me, they said ‘Kitten’ was a bit of a hellhole.

Bandidos run ‘Kitten’ strip club, which in 2019 was found to be a paedophile hub as VICPOL call young teenagers sex workers to the media. For shame.

The prostitute defamation never saw the Hells Angels try and get me to work at Crazy Horse of South Australia, never crossing this line, despite me being a South Australian resident and numerous sex workers from the establishment outing *Kurt Gavan Slaven's* (DOB 07NOV1958; SAPOL/ADF - Navy) activities

there. Nor did the Gypsy Jokers figure that out, wise guys, maybe.

Numerous Integrity and formal reports to and about police remain unaddressed despite the list of names I have put forward regarding their involvement in serious criminal conduct or paedophilia. I waited approximately five years after reporting *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* to SAPOL to publicly disclose the insidious culture and criminalities I had been exposed to.

The police forces of Australia worked together to cover up paedophilia. Darryl Peter Wright (SAPOL, African Army - International, AF) clearly has oral sex sexual compulsions that led to him stalking me. A police officer driven in his line of work by the sex industry, as many in the Australian police force state, and nationally were. The lack of integrity at this time in Australia, the Federal Police without National Integrity, was moving with no haste towards many forms of serious criminal offending. No matter how many reports I made or how much I publicly disclosed, the police wanted to hide the misconduct as they, for the most part, had actually become the criminals they were paid to protect society from.

Power, Greed, Drugs, Sex, and a Bitter STD gang war, insidious throughout the hierarchy of the Australian Police Force.

Darryl Peter Wright (SAPOL, African Army - International, AF), Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy), and Dave Kyriacou (SAPOL ID 40657) are some of the leading players amongst the many SAPOL personnel to blame for compromising my safety to the point of severe reckless endangerment.

Before compromising my life in the Gordon Tearonui Hamm murder investigation of 2014, Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) and I were actually friends – or so I thought.

Literally, just friends, Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) has featured in my brand Barbwire Noose's advertising shoot with my brother, Cheyne Michael Hobbs (DOB 09 MAY 1985). This was before Paul compromised my life with a bestiality, child porn peddling creep in the homicide case. Many of my friends have modelled for my brand, as have professional models, local residents, family members, and I. Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy), a highway patrol police officer (2014), had been the Only police officer I had built a trusting rapport with since *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) raped me. I had avoided police officers in public or

personal settings my entire adult life until Gordon Tearonui Hamm was murdered. Not trusting Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) enough to report *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) as a rapist - I knew SAPOL Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) would know *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) and was scared he would protect the sex offender just because he was a cop – I was right.

When the time came that I did report *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) for his crime, it was revealed that Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) was a venal police officer willing to compromise my safety, my life.

Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) engaged in perjury with the sex offender *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) to cover up his own sexual indiscretions.

Not trusting Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) proved to be a good choice - evidently, in 2014, when he encouraged boys, he was criminally aligned with them to attack myself, causing attempts of grievous bodily harm, reckless endangerment, sexual harassment, and sexual assault.

Overall, I personally had limited trust in a police force that had raped me. Furthermore, a police force that made me their own personal rape victim for years.

When Gordon Tearonui Hamm was murdered, was when I met the Victorian Homicide police officer Aaron Roche (VICPOL ID 33388), who displayed humanity, and I confided in him regarding my concerns about SAPOL Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) being a dodgy police officer. I trusted Aaron Roche (VICPOL ID 33388) initially more than any SAPOL officers, as his demeanour was not like the SAPOL officers from Mount Gambier Police Station (South Australia).

I expressed to Aaron Roche (VICPOL ID 33388) during the homicide investigation that I did not trust SAPOL Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) and had concerns about his police conduct. Aaron Roche (VICPOL ID 33388) was the officer I was trusting the most, until 2018, when I knew that he was aligned with the Victorian sex industry. A Bandidos-run sex industry riddled with paedophilia.

Trusting any police officer in Australia was a mistake in the end, as no one really wanted to stop sex offending if they were benefitting from the sex industry, it seemed.

This is why this book needed to be publicly disclosed. Australian police forces had literally implemented policies, procedures, standards, and practices, in

conjunction with laws and governance where applicable, to cover up sex offenders and offending. A cover-up practice involving all, and even those up and coming in the police force, got involved with criminal misconduct, and the ignorance of this behaviour was highly maintained right through Integrity Commissions into the courts.

After years of police assisted sex offending, I cared not about pathetic, petty criminals and their bullshit. Death wasn't an obstacle; it was an option I had made clear to police forces that was the only way they were going to cover up for *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* and every other piece of shit sex offender. I meant every word I said, and I made sure that if someone thought that was their option that they knew they'd spend life in jail just for trying.

Tagging law enforcement in Australia and overseas in my posts about the crime sprees - the criminal negligence, and abuses of power assisting an internationally linked paedophile ring in an elite offenders cover up, I was determined to stop.

Bikers had known it for years, how corrupt police could be. I am not a biker.

The Gypsy Jokers for two decades outed every President they had that tried to clean up paedophilia,

first Tojo (Former president Gypsy Jokers, deceased) in the early 2000's then Steven Williams (DOB1967), president of the Gypsy Jokers Motorcycle Club who was last seen at the Gepps Cross Hotel in Adelaide on the 14th of June 2005, then at a transportation lot where theories claim the Fink MC abducted him and later killed him. In confidence, in 2021, it was said to me that there was SAPOL involvement surrounding the disappearance of Steven Williams (DOB1967). Persons from two different states, South Australia and the Northern Territory, associated with the Gypsy Jokers, swore he was placed in witness protection. The South Australian source from Yatla Men's Prison described the playing cards with Steven Williams' (DOB 1967) missing person details on it, which I witnessed in AWP, 2024, as well as expressing other intimate information about the Gypsy Joker's.

Twenty years later, he's either dead or the police hid him well – I am certainly not willing to make up that he was tortured and killed like The Advertiser newspaper, with no physical evidence of this whatsoever (July 2025). Whatever the truth, it is clear that if you weren't protecting the paedophiles, you weren't really getting protection from the bikers in South Australia at this time. Or the Finks really like paedophilia and it's money like the Bandidos. Bikers established initially during the seventies/eighties (and after the Nazi war as veterans) and hating paedophiles, were protecting them in droves, early 90's – 2000's here in Australia. Underlying the motivation to 'off' Williams if he were dead would be

his literature on paedophilia, which is said to include the name Mike Rann (DOB5JAN1953).

I was so over the Gypsy Jokers, their sex offenders, the petty benefits from their gang's cock sucking (metaphor - maybe) paedophile police, and them targeting my family for years.

The fuckheads had drugged and raped me, which wasn't okay when I didn't know it. Yet I didn't know, so I could not do anything about it. With confirmation from Luke Hubert Scheidl (DOB 1981, Mount Gambier District), that was it for me - this offending was not something I was going to let go of in a hurry. Let go of it at all until I saw justice.

Attacks on my person and my dad spanning two decades with SAPOL doing nothing because they were too blackmailed, bashed by bikers or paedophiles themselves was not fucking good enough.

Before we skydive into the chapter, giving you more details and hopefully answering any questions you may have thus far, let's review some key points I've already mentioned with some extra juice and get you used to this reading groove.

On April 6, 2006, as the purchase contract states, was when my house on the hill of Penola Road, Mount Gambier, officially became mine.

I rented the property while the contract was finalised through long-term and locally established agency Malseed Real Estate, and purchased it through the same agent. Jason Scott Parker (DOB 14MAY1981) and I were in an on-and-off relationship for years after I trauma-bonded with the bloke. Jason Scott Parker (DOB 14MAY1981) and I grew very close throughout 2002 to 2004, confiding in him that I was a rape victim of *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy). It was always a difficult breakup between me and Jason, as we saw the bonds as love. His parents provided me with the extra money for my deposit, which I paid back over a set period.

I was then drugged and gang raped by the Gypsy Jokers in 2006, no more than a few months after this purchase, and still within the investigation period of the 2004 assault on me. I say this because the court had not commenced with this matter, and the police were still investigating, as I was informed by a police officer at Mount Gambier Police Station who called regarding the investigation. I specifically remember the call as I was being accused of throwing the first punch, which is untrue.

This is when the threat made by Kylie that the ‘gypsy jokers would rape me’ played out - possibly for the second time if the long-haired Spider-Bait Roady was related! SAPOL, allowing me to be raped – rape bait. Personally, I am unsure as to who Kylie’s ‘uncle’ is to this day, but the men involved in 2006 were indeed

involved with the police assisted (SAPOL/VICPOL) motorcycle club, the Gypsy Jokers. Luke Hubert Scheidl (DOB1981, Mount Gambier District) confirming this. The offenders known to him and the incident had been discussed in front of Luke.

The sex offence committed at a residence, Brett Hannigan (Mount Gambier District, Gypsy Jokers) shared with two others known to police; Dion aka Diesel and Jordy aka Jordz Irving, both of Mount Gambier South AUS District; not my house, was the location where the gang rape took place. Why did I stay there with Brett Hannigan (Mount Gambier District, Gypsy Jokers), the rebound boyfriend? We had been in a relationship for about a month. (Brett, the muso introduced earlier).

I started to stay over at his place because my Domestic Violence ex-partner, Jason Scott Parker (DOB14MAY1981), wouldn't get out of my house even though we were broken up, and I had a new boyfriend, albeit not serious, which I suppose was obvious to Jason.

Jason Scott Parker's (DOB14MAY1981), a DV offender at this time, who nearly killed me in his car in 2004 and constantly threatened to kill himself – literally stabbing himself in the guts in front of me in 2002. The bloke was more volatile than these blokes whom I didn't really know, even though they are creepy male gross.

Drugged rapes are as common as dying from a DV offence in Australia. An exaggeration, but the fatal DV rates are high. I didn't know I was raped until basically ten years later, I certainly would have known if I was dying from Jason Scott Parker's (DOB14MAY1981) hissy fit gone criminal.

More about life in my little home on the hill.

69 Penola Road, Mount Gambier.

I settled into my new home with my kelpie cross puppy called 'Kuta'. I built fencing immediately for another dog to keep Kuta company. Once settlement for the property purchase was through, I picked a boisterous personality German Shepherd who I spoiled for nearly fourteen years before he departed into doggy heaven in 2020. Rossi, my German Shepherd, was from a litter given away. His brother or sister was luckily saved by the amazing proprietor and vet, then known as Blacks Veterinarian, which was located near the Mount Gambier police station on Bay Road. The unfortunate puppy (not Rossi) was found in a plastic bag full of water in a public bin - the puppy survived. What kind of a low-life human does that!? Puts a dog in a bag full of water into a bin to drown, Sicko. Benjamin Black, BSc, BVMS (Hons), Grad Diploma Animal Chiro, Veterinarian (Mount Gambier District, South Australia) was my vet. Ben recognised Rossi, and we discussed the rescue and heart-warming outcome.

In 2009, my sixty-nine Penola Road property made the local Border Watch newspaper (article pictured). The property located on a main highway in Mount Gambier was crashed into by my neighbour's car, which was struck by another vehicle from behind, crashing through the building/window. The accident nearly killed me. The only direct neighbour to this property, jolted in the rear, steered her vehicle to miss the white Ute parked in front of the lounge room and was pushed through the front lounge room window. The entire front of the luckily small vehicle was literally in my lounge. Everyone was okay, besides my endless waterworks. The incident resulted in a year-plus of renovations, with the replacements of items also tedious.

My first insurance claim, twenty-five years old and single, what an experience! The Insurance assessor arrived approximately twenty hours after the accident. My property and I were left unsecured until around three in the afternoon the following day. This is when wooden boards were fixed to the exterior of the building, which was a half-arsed security fix to me, but was way better than flapping plastic. For months, wooden boards blocked the massive hole left by the vehicle. To make matters worse, the insurance assessor wanted me to choose his mate to do a cheap, dodgy job to fix my residence. The assessor, not knowing my ex was a builder, I sought a quote from Argent Construction, and there was a significant difference in pricing for repairs. I later learned that, like the insurance assessor was trying to play the work to the favour of his friend, my father had intervened and tried to play the

quote to favour me via Argent Construction. My dad clearly thinking of me, not being intentionally malicious. The insurance assessor was malicious in intent, trying to have my repairs conducted substandardly with his friend. I know this as I heard the mention of second-grade limestone bricks for the repair. The insurance assessor, whom I would describe as a dodgy liar with his agenda, dragged out the building repairs and upset me. Neither the Insurer's friend nor Argent Construction was awarded the work because I became upset during the negotiations, which, to my benefit or not, were at my expense, regarding repair times. I opted to be paid out for the building damages, a total of ten thousand dollars, and assigned the work myself.

The idea of New for Old to replace contents is great until it involves heirlooms or things you don't remember well that you want back. The whole experience was so emotionally distressing for me. Some of my belongings had been thrown away in the rubble. The insurance assessor instructed me to make up what I thought was missing, such a heartless experience. It was like he didn't care about your belongings at all, the casualness making life easy, I suppose, yet the lack of empathy was disheartening. I had never dealt with an insurance company before. My insurer was Allianz, the company not misbehaving at this time, just the dodgy insurance assessor. That stated, my god, I was quite put off by the experience. An openly emotional person, my once Queen Elizabeth antique furnishings, acquired at

Estate clearances and antique shops, were replaced with cheap imported substitutes.

It was this year that I was heavily focused on establishing my brand 'Barbwire Noose' (2009). The online platform for the brand's clothing sales, with no accessories included in my collections, which were streetwear/casual apparel. The original website was created in 2008, and was operational to sell products from the online store immediately.

At the end of 2009, Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) came on the scene. His sleeve tattoo stood out, and it was unfinished. So, an opportunity presented itself for me to get a tattoo. The seemingly controversial tongue piercing was not the only alternative body art I desired. Nor the only saga to come from SAPOL-aligned bikers owning tattoo bars and body piercing shops. The two pentagram tattoos I discussed at school for years were also must-have asap body art for me. My dad would not let me get a tattoo until I was twenty-four years of age, so even though I wanted my pentagrams as soon as possible, they were an asap with a time frame. At twenty-five years old (year 2009), the tattoo milestone moment finally played out. I was tattooed in Portland, Victoria, AUS at the Gypsy Joker tattoo bar - not my choice of tattoo bar, Luke wanted more ink on his upper arm sleeve. Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) paid for my first tattoos as part of his ink session. My pentagrams cost him fifty dollars. In 2014, it was revealed that this milestone moment was

also to be tarnished by gang activity. The Gypsy Jokers had tried to give me an STD during this tattooing session. Booked by Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia), the tattooist deliberately did not change the needle and tattooed between Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia), and me with the same needle, blood present, unchanged. I was lucky, this time, lucky not to contract an STD from the experience.

Off the Gypsy Jokers as a focus, yet still details surrounding my life, including Luke Hubert Scheidl (DOB 1981 Mount Gambier District, South Australia), family, how I was put into government databases as a cop, and further humble events of significance that went down on Penola Road. This is family-ish-based, rather complex, and this is just a taste of what's to come. Here goes:

Governments are known to practice breaking the family unit to disrupt families and their progress in life.

Breaking my family apart wasn't hard. Jealousy, the silent treatment, and deceit are the basis of everyone's relationships with each other. I am the black sheep. It was when we stayed for the first time as a family in the Barossa Region for Christmas 2008, paid for by my Uncle Gregory Hobbs (DOB 1956, South Australia), that I noticed his support for my business was initially

reluctant. Imagine a man linked to SAPOL not supporting my brand. The same year, audio and video equipment were apparently placed in my house, which is no coincidence.

No surprise in hindsight, he clearly thought I was a prostitute - the moron. The decision that Gregory Hobbs (DOB 1956, South Australia) made to book accommodation guaranteed that SAPOL knew my location, which was quite a distance from home. My dad confirmed during the Gordon Tearonui Hamm investigation that Gregory Hobbs (DOB 1956, South AUS) was reluctant regarding my business due to an accusation of prostitution and association - my uncle's small-mindedness never surprises me. My uncle Gregory Hobbs (DOB 1956, South AUS) is an ex SAPOL STARForce officer. This activity, which saw SAPOL illegally breach my privacy based on malicious accusations with no basis or facts, was initially conducted under SAPOL Police Commissioner Malcolm Hyde. My life has had numerous police certifications stemming from this event in 2008. I first became aware that police had placed me in databases as a SAPOL police officer in 2010. Figure that out, what started as a prostitute investigation under the not fit for purpose and in breach of the constitutional rights, Association laws, turned into me being called a cop. I'd never be a prostitute, yet I'm not a fan of SAPOL, so I can't say either false reality was great. Filming years of evidence proving I have never been a prostitute, the police filmed me walking in my underwear, as well as other things, for years. I didn't own PJs and never really

wore pants at home, so learning of this privacy breach was not only emotionally distressing but highly invasive. If I weren't modelling for my brand like known clothing labels 'Unit' and 'Hurley' – half dressed, finding this out could have pushed me to the refuge of suicide as a victim of *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) sex offence. Sexual exploitation and nonconsensual activities trigger my CPTSD, especially as I found out about these privacy breaches as police forces were physically and psychologically attacking me.

Facts are SAPOL not only has evidence I have never been a prostitute, but they also have a domestic violence offence, threat to life, and strangulation committed by Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) on record due to this privacy invasion (illegal application of the association laws for political gain).

Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) was strangling me and threatening my life in my bedroom doorway. Exactly where a SAPOL camera was aimed, as I was exposed to the privacy invasion in 2014 – filmed in 2009!? Yet after over a decade since the offence, Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) hadn't been charged. And this video evidence had not been used to stop the malicious accusations of prostitution leading to countless rapes!! WTF. I spent the majority of 2012 trying to end a relationship with a bloke filmed on camera strangling me, and SAPOL did

nothing but use me, calling me a prostitute and a police officer at the same time. This shit is so true and so fucked.

Gregory Hobbs (DOB 1956, South AUS) irrefutably 'paid for' the accommodation to ensure I was not present in Mount Gambier or my property on Christmas or Boxing Day, December 2008, for SAPOL. SAPOL, who have spent as much time surrounding my life with criminal negligence and rape as they have doing whatever the fuck with some dumb police certificate they treat as a game. It's a joke, and not a good one.

What was I doing in my little house?

I was studying my Certificate IV in Small Business in 2009 and completing the Study with the New Enterprise program initiated by the Federal Government - New Enterprise Incentive Scheme (NEIS). Barbwire Moose® transformed from an approved trademark to a fully operational business and brand by the year 2008. This is mainly what SAPOL filmed. A little girl walking around in her underwear, playing on a laptop, building a brand - my fashion label. Barbwire Moose® transformed from an approved trademark to a fully operational business and brand by the year 2009. Completing the Certificate IV in Small Business as part of the NEIS Government program and launching Brand Barbwire Moose® officially in 2010 with a private party in Mount Gambier, South Australia. The local brand launch was more of a thank you to all those who had contributed to

the steps towards my brand's success in its first two years of establishment, when most businesses fail. I was very grateful at this time to those people who seemed to be in support of the brand succeeding, held at the well-known Commodore on the Park, located on the corner of Jubilee Highway and Penola Road, Mount Gambier, South Australia. My label, two years after apparently proving I was not a prostitute unbeknownst to me via audio and visual recording, launched with my uncle's support. His vineyard provided Free 'Hobbs of Barossa' high-end Red Wine worth one hundred dollars (AUS) a bottle, as well as countless other bottles from his winery, which were at a cost of no less than fifty dollars (AUS) per bottle. My Mother, Father, and Brother were in attendance at this exclusive and private function.

I launched products and wore my prototypes from 2008 - ongoing. Manufacturing a basic male line, which consisted of a few T-shirts with my trademark printed on them. For ladies, I was trialling basic Sleepwear - a basic singlet, panty/underpants. The print was substandard and basic, just my logo and/or brand name vinyl and DTG prints. These products and even the standard of 2008 did not see customers, nor did they catch the eyes of those outside of the family, as I was not happy enough with the quality to promote the products to a viable stage in 2008. To begin with, I thought the quality standard was the reason for the rocky support I received from family. As if I was going to believe it was because of prostitute defamation – I'd never been a prostitute and the sex industry was far from fashion retailing, I thought. Trialling my first

brand, Barbwire Noose® products, they were available, but luckily, I had no real traffic to my unknown brand to sell the items, as I really was not yet happy with the production or products. Little did I know, this Christmas was the beginning of the end regarding family as I knew it. Personally, so focused on building my business, creating clothes, and branding with an online sales platform, I was too busy for petty stuff. Holding my personal Australian Business Number (ABN) since November 2008, I studied relevant information and trade skills while experimenting with manufacturing trials and designs. Even by the end of 2009, I was not suspicious of my uncle, Gregory Hobbs (DOB1956, South AUS), interest or lack of in my clothing label or the paid accommodation, though it was an odd occurrence as he's in my eyes quite greedy. Irrefutably greedy, holding ownership of my inherited Qantas shares since they were gifted to me. The lowest thing a person can do to disrespect the dead is to ignore their wishes. I refuse to chase things that I never had, especially when it's an inheritance stolen by family, which has happened three times leading up to this book's publication. Their greed is creating their own karma from the grave, I believe. Never disrespect the dead, our energy is forever existent in the universe – that's how I feel about things. My uncle still manages my shares without permission from me (2025) after nearing two decades or some shit.

An uncle who makes the poorest decisions surrounding my life claims my Qantas shares for himself, evidently quite telling of his character – a character I should have

been suspicious of, knowing how immoral he can be. He technically commits tax fraud every year by using my shares as his assets. My parents have followed suit with my inheritance of money, which I have never pursued via my relatives' wills in court. I have not seen one cent of inheritance ever because my parents take my money, and I couldn't care less about greed, which makes me a much better person than those surrounding me. Irrefutably.

When I say I was too busy for petty stuff, I mean it. Two dogs plus other pets (scorpions, fish, yabbies, ferrets), employment, study, a relationship, and building the brand Barbwire Moose®. Plus my recreational interests of music, festivals/events, walking the blue lake, walking my dogs, reading, travel, capital city shopping, and smoking weed, watching documentaries – often at a mate's house. Admittedly, I don't need heaps of sleep, but everyone needs some!

Brand Barbwire Moose® officially extending to a global platform by 2010. During this period of establishment of Barbwire Moose, I worked my short yet prosperous career in the Real Estate industry. New home sales were my only absolute joy within this field.

The sexual harassment I received about my chest (breasts) led to my move from established real estate to new home sales. The position I was sexually harassed in was a salary position - vehicle and home ownership were a discriminatory must for this employer - Herbert Real Estate (Mount Gambier, South Australia) (discussed earlier).

Little did I know I was being plunged further into the illlusiveness of the prostitution industry via defamation, my apprenticeship working for a creep exposing many persons selling sex for real estate contracts and rental contracts, also with illegal benefits. Slutty activities and the underlying spread of STDs in Mount Gambier, South Australia, was something I avoided further with this short-term career because of a sex pest, a bitter-sweet fact. Leaving this industry in 2010 was a good decision, although it was a financial setback.

Aquatics Teaching was my rock.

A role that I was always able to return to until 2018, when VICPOL and SAPOL actively engaged in so much defamation that a sex offender was overlooked when he was reported at the end of 2018, into the beginning of 2019. The actions of police forces were so severe that their character assassination was prioritized over children, as a paedophile cover-up does.

This ICE addict, sex offender, whose family aligned with Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy), then entered the disabilities sector with his sister, both lazy teachers who displayed psychological narcissism to students in the pool. The employment amongst our most vulnerable came about as a well-respected public-school teacher reported him for what she viewed as sexual indiscretions as an aquatics teacher, so he left the industry. For what he said was easier money, lazy. The

brother and sister pair, as aquatics teachers, received many complaints against their conduct, which were overlooked due to staff shortages and an inexperienced proprietor running the indoor aquatics facility at this time. Staffing issues are keeping sex offenders in the disabilities sector, policing sector, and education departments sectors - irrefutably. As if you do – for shame on these employers.

The actions engaged by police not only aided and abetted sex offending in a vulgar cover-up, but they also nearly ruined my teaching career entirely. A job of basically two decades, during which I am highly rated as an aquatics teacher, and have trained swimmers of squad (State/National, Olympic standards) levels. Aquatic's teaching for a long time was a significant part of my World – those children were my world. I love teaching; it's an enriching role, and aquatics is so much fun! I always keep myself in the Aquatics Teaching field. I have been awarded my ten-year Teaching Qualification certification from AUSTSWIM as a licensed teacher. My only time away from the exceptional children of Mount Gambier, I had the pleasure of meeting and teaching, was really for Barbwire Noose to flourish, and due to police forces covering up paedophilia.

Luke is both a good and a bad taste of life. A boyfriend whose actions both nearly killed and saved my life.

I met Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) at the end of 2009 when I was considering getting back together with my ex (William), after such a traumatic brush with death – the car going through my house in September of 2009. My ex and I were still going to the gym together for a boxing class workout. Then I met Luke.

Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) at this time was not a gangster, so to speak, just a Big Boy who ran his father's mill out of town. We had spoken once, years before our relationship, and I remembered nothing of it. Luke, recalling that a local chick had asked me to get his number for her. Upon asking Luke, he said "No" and asked for my number, to which I replied 'No" and walked away. Years later, we were an unexpected item. After a drunken night on the town and a few hours talking, Luke, managing his dad's timber mill for a few years, and I, developing my dream Barbwire Noose®, the old – where do you work questions were some of the conversation as we sobered up. Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) refused to leave my house. I didn't want to 'score' him (sexually engage); he then hung around, and we started hanging out. Soon enough, Luke was the new boyfriend, six feet, fit at the time, and very strong. Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) would pick me up with one arm and hold me above his head easily and endearingly – this amused me. Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) had been Muay Thai training

in Adelaide a few years before our relationship. Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia), leaving Mount Gambier in his early twenties, after he had committed a Fast and the Furious auto theft type offence. As a young adult committing this crime, Luke's Mother moved him away from the city of Mount Gambier after Craig Caldicott (South AUS practicing criminal law since 1979) representation allowed him to get away with the crime without charges. A badge from the stolen car, during a home invasion, was nailed to an accomplice's wall to set him up and deflect blame from Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia), he told me. Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) had been back in Mount Gambier for a few years before our relationship, which started to dissolve in 2011. Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia) had a Personal Trainer (PT) who worked from the basketball stadium, the ICEHOUSE. Outside of working, this was the only interest Luke seemed to have when we met. Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) had taken a few friends to train with when he went to his PT prior to our relationship. Paying for his friends to attend, he did the same for me in our relationship. I, as his partner, replaced the friends he took to PT. Luke and I both trained regularly with Duncan Kirk (Kirk Health Solutions, 2010 – 2012, Mount Gambier District, South AUS), a man who later attempted to put me in the presence of a felon and wannabe biker - Former Hells Angels bikie Graham Daniel Young (15MAR1975).

Luke, three years older than I, shared many general interests with me, including fashion. Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) had expressed that he had an interest in developing a clothing brand himself, yet had no idea how to, as he put it.

Getting to know Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia), who was working for his dad, Hans Scheidl (H & L Scheidl Pty Ltd, Compton, South Australia, AUS). Eventuated in myself being told that Luke's Dad was a retired biker. Witnessing Luke's Dad, in general, I saw a businessman who was heavily involved in a successful sporting club locally, East Gambier. A football club backed up to a hotel known for its sex industry facilitation – better there than on the street. When I met Luke's Dad, I felt I recognised the house Luke's Dad resided in. It was in a familiar area, the house my family visited when we first moved to Mount Gambier from Port Augusta. I started to wonder about the facts of Luke's Father. Through town gossip, I had heard many things about Luke's Dad. In my experience, he came across as rough but professional and was always respectful to my face. I was brought up not to judge others. Especially not by what they look like, and I don't judge books by their covers to this day.

Three months into this relationship, I broke up with Luke after he tried to catch up with his ex-partner behind my back. Clearly trying to seek a grandma head job from the now gummy chick who had just had her

teeth removed – the romp was either brief or completely stopped by me dumping him. I drove to my parents crying at Christmas time. I recall my father saying I'm "looking for a prince that doesn't exist". The relationship wasn't discouraged, but reconciliation was. I should have known better, especially when my own Dad accused me of looking like a prostitute in 2010 while dating Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia). Both Luke Hubert Scheidl's (DOB1981 Mount Gambier District, South AUS) dad and my dad were seemingly happy about Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS) and me being in a relationship, which, in hindsight, should have also been a red flag. If I knew what SAPOL had been up to for basically a decade, it would have been.

In the year ahead, this boyfriend's Dad would threaten to cut off an employee's hand and not pay his own son, plus other employees, for their hard labour. An employer of ex-felons and work cover commitments, his employees were at times a challenge. Hence, the good I saw in this businessman's stern nature in a town with a jail that houses serious offenders (sex offenders/paedophiles) and varied challenging demographics requiring employment. I spent time working at the mill with Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) and found his dad happy and personable to work with regarding work ethic.

A clear front to an underlying agenda, like my dad. Both men seemingly relished in our union, for their reasons, to begin with.

My relationship over in my mind with me too busy to fuss over Luke Hubert Scheidl's (DOB 1981 Mount Gambier District, South AUS) and feign heartbreak, I focused on a direction of incorporation. Flirting with other persons (males mainly online, around my age and of a music background) from this point is how I met Travis Paul Enmon Jr (DOB 16 JAN 1989, Texas, USA)—my Sexy American, long-hair, stocky, and filled with life.

Barbwire Noose® was positively received whenever I mentioned it, with much interest from the Australian metal industry and abroad. The brand with a 'BRUTAL' feature highlighting Australian metal, via social media, is also how I became friends with Tim Young (VICPOL, former drummer of metal band ABREACT Bendigo, Victoria, AUS). Before his employment at VICPOL, he was just a sexy drummer profile from Victoria, AUS. I accepted the friend request from Tim after sharing his band ABREACT (Bendigo, Victoria, AUS). I had connected with some cool up-and-coming talent promoting the brand as I promoted their Music. The partnerships and connections my brand made initially were excellent for networking, improved my professionalism in business, and assisted the brand's advancement as its global presence gained momentum. Fresh to entrepreneurship, I had great people skills

when entering the fashion industry. Grateful for a big glass window allowing parents to watch their child's lesson from an overview angle in aquatics teaching, like acting, the job taken seriously could groom your communication and presentation. 'The Observation Room, ' it was called, and you were definitely being observed. My overbearing boss, bless her soul, who was constantly hawking your work from the side of the pool, helped to.

I was not used to dealing with obnoxious men, and I quickly learned how to demand respect in the face of disrespect. Having some big international sponsorship deal discussions with my heavy metal connections and American metal stud crush – Travis Paul Enmon Jr (DOB: 16 JAN 1989, Texas, USA). Travis wanted to set the brand up to market with snowboarder personality The Dingo R.I.P. (Luke "the Dingo" Trembath, January 9, 1986 - February 2025) and had a few other friends and ideas he was floating my way while flirting. The guy was sexy, and I loved his ideas, so we kept talking shit and serious stuff and never quit that. Little did we know how much we needed each other at this time, the friendship, the messages, the LUV – Living the Universe's Vision, our reality. My online business blooming and prospective interactions was more than a distraction from Luke Hubert Scheidl's (DOB 1981 Mount Gambier District, South AUS) activities in life as I focused with my business – building my brand Barbwire Noose® and a little fraternising with a bloke I thought could not really cause much harm being in the USA, Travis Paul Enmon Jr (DOB 16 JAN 1989, Texas

USA). Little did I know about what Travis Paul Enmon Jr (DOB16JAN1989, Texas, USA) was up to, let alone capable of.

Travis Paul Enmon Jr (DOB 16 JAN 1989, Texas, USA) is guilty of making malicious accusations with no basis or facts due to his criminal loyalties. One of the many reasons I refuse to marry the guy in the end is because of his desire to play biker. Each to their own, but that life is not for me.

Highlighting that Barbwire Noose® was being received exceptionally well, it was in 2011 that I started to plan to take on investors and incorporate.

As it went, Luke Hubert Scheidl's (DOB1981 Mount Gambier District, South Australia) behaviour negatively escalated as SAPOL's manipulation of my life did. In April 2011, when I was given an ANZ bank card to keep for my mum, which she asked me to do for safekeeping, I thought nothing of it and put it in my top drawer, where my make-up and other things like that lived. My dad, at this time, was drinking heavily, and my mum used his behaviour as an excuse to place the card in my safekeeping. My dad does not go into my mum's handbag; he never has. Like my uncle paying for our family's accommodation, I should have known this was suspicious activity. Police influenced actions.

Before I knew it, this year, shit got more suspicious. I was still naïve to the agenda that SAPOL was using my life in a battle with organised crime. I had a doctor's

appointment in the nurse's area, I believe it was this year, also. There were lots of people waiting in the waiting area who could have overheard this conversation. Mount Gambier, a city with much to offer, is also a tight-knit small-town-like community, as I described. People gossip, for better and for worse. A place full of friendly faces and everyone kind of knows everyone - if you're a local, and we all talk to each other. Look out for one another. The public announcement that I had been recorded as a police officer in government systems was a significant moment in time. The foyer area of the Hawkins Clinic was filled with our regular nursing locals doing a super important job, as well as clients, community members, and other staff. I, as usual, checked in for my appointment, and it was then that the nurse congratulated me on becoming a police officer. My cousin at this time was a police officer, and my uncle an ex SAPOL, STARForce Officer, so I brushed the qualification off as family-related and carried on with the appointment and life. I proceeded home to tell my then partner, Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia), about this significant revelation during my day - the compliment on a policing status. Luke Hubert Scheidl (DOB 1981 Mount Gambier District, South Australia) and I discussed the police certification and my family members being police officers. It was at this moment, the significant revelation made earlier at my doctor's appointment of a police officer status, that was to eventuate to be the best and worst decision made over my life by SAPOL and more broadly Australian Police Forces.

Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS) assaulted me in 2012, and confessed the crime to Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy); his threat to my life, property damage, and strangulation, directly after the offence. Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS) claims Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) was in uniform at the time and that this conversation was captured on CCTV at the service station on Penola Road as you enter the city from Adelaide, South AUS direction. Admitting his offense not just to a police officer but to family and friends, without police acting against him for a decade. SAPOL never acted on a threat to my life, which I was not obligated to report, as Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) confessed to a police officer regarding the offending; instead, they pursued me for years to report against this dangerous felon. Why? Because Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) position was that of a heavily compromised and venal police officer with more than just involvement with prostitutes to hide. An irrefutable chain of causation regarding SAPOL criminal negligence, evident in 2012, not just to me but to many felons involved with SAPOL and Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia). The offence was committed basically a year after his brother had offered moral support to myself in the breakup (November 2011). I spent 2012 trying to encourage Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) to accept we

were over, while I focused on incorporating Barbwire Noose, still too busy to correlate events in a chain of causation, while SAPOL allowed and encouraged the situation to escalate to a life-threatening level of dangerous criminal negligence. We had loved each other during our relationship, Luke and I. As much as it was never really going to result in marriage, we enjoyed each other's company, the sex was good between us, and we tried with each other as you do when there is fondness and you are living together and around each other a lot. I have loved every boyfriend I have closely lived with and a few guys I've never touched. That stated, after 2012, enough was enough.

The fun was over. By 2012, Travis Paul Enmon Jr (DOB 16 JAN 1989, Texas, USA) and I were no longer flirting on a part-time basis; we were developing a long-distance union. There was no room for Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) in my life by mid-2012, and I was no longer in a positive place about Luke and me. Not even to tolerate his presence as I had been, let alone after he nearly killed me.

Luke Hubert Scheidl's (DOB1981 Mount Gambier District, South Australia) brother, on a drive back from Portland after a court hearing for himself at the end of 2011, had offered to kick Luke out of my house. The offer of intervention into the relationship came before Luke seriously assaulting me, threatening my life, and my tyre being slashed. Our relationship was no longer

working out, and Luke was starting to be narcissistic and mean to me - nasty and dismissive verbally.

A sudden onslaught of domestic violence, which was activity which repeated itself in later years by two police officers, one of VICPOL Damian Ferrari (DOB 1966, Beaufort, Victoria AUS) and one of NTPOL John Mills (New Zealand dismissed unethical police officer hired by Australian police forces despite his record in NZ) both men pursued me with concerning agendas.

I refused Luke's brother's help at this time, thinking I would be able to handle the breakup and not need intervention. I was wrong, Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia) wasn't a youth felon on a path to change, he was just a piece of shit that played on his big dumbo look like Carl Williams (DOB 13 OCT 1970 – 19 APR 2010, Victorian Underbelly Underworld figure).

Mid-year 2012, when my family was actively involved with reporting the life-threatening assault on my dad, was the straw that broke the camel's back of my tolerance, being held in this half-baked relationship. Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia) had shown numerous red flags, and the fact that he had been heavily involved with Bianca Rayner, who now lived up the road. I didn't know Bianca was the mother of children to wannabe biker and Former Hells Angels bikie Graham Daniel Young (DOB 15 MAR 1975). When I did not feel I had Luke's support in what was a life-threatening situation

associated with a gang, I became concerned about it - rightfully so. Luke Hubert Scheidl (DOB 1981 Mount Gambier District, South Australia) was in communication with Gypsy Joker's and Former Hells Angels bikie Graham Daniel Young (DOB 15 MAR 1975), unbeknownst to me. I did know Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia) had been heavily involved with Bianca Rayner - Bianca is the mother of wannabe biker, Former Hells Angels bikie Graham Daniel Young (DOB 15 MAR 1975) prior to our relationship. The prostitute mother of scum Graham Daniel Young's (DOB 15 MAR 1975), children - poor kids, conveniently moved to a flat located literally on a street adjoining my property. Our relationship deterioration was escalating due to Luke's work involvement with the Von Stanke's (Carpenters Rocks, South AUS) at a business called Southeast Conveyors Pty Ltd (ABN 64 094 152 897). Southeast Conveyer employees produced illegal silencers for the 22-calibre guns at Southeast Conveyors Pty Ltd (ABN 64 094 152 897) business location, which, in 2012, the STARForce squad was aware of, yet did not act on the business.

Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia) confessed to me regarding his reporting himself to SAPOL Paul Arthur Griffiths (SAPOL 38683 & Australian Defence Force - Navy), his mother, and friend Dycer of Dycer Construction (ABN/ACN 91 088 214 466). Dycer is a witness to the property damage and is responsible for fixing the damage Luke Hubert Scheidl (DOB 1981 Mount

Gambier District, South Australia) caused to the door. The exact offences committed during this attack are strangulation, threat to life, domestic violence (resulting in a lifetime intervention order), property damage, and affray. Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy), nephew, gained employment at the service station after the incident was captured on CCTV footage, which Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia) implied was to have the footage tampered with. Luke Hubert Scheidl (DOB 1981 Mount Gambier District, South Australia) explained how he had physically assaulted me and threatened my life, as well as committing property damage to numerous persons overall.

I contacted the Mount Gambier Police Station (South AUS) after I was safely able to report Luke Hubert Scheidl (DOB 1981 Mount Gambier District, South AUS), as Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) personally did not act against the gang-aligned offender. A venal police officer who used local prostitutes such as known to police and Mount Gambier as sex workers Chloe Blair and Bianca Rayner. Bianca (mother of wannabe biker, Former Hells Angels bikie Graham Daniel Young (DOB 15MAR1975), children), who has been stealing medication from Disabled persons since entering the industry during this police cover-up. The media, The Advertiser (owned by News Limited) newspaper, promoted the achievements of this extortionist and thief, Bianca Rayner, across South Australia in an article

published on 18 July 2023. The extent SAPOL and these disgusting human beings have gone in this sex crimes cover-up makes me utterly beyond words sick. Rupert Murdoch's (Keith Rupert Murdoch, DOB11MAR1931) News Corporation bought The Advertiser in 1987, Australia's most dodgy media mogul – I'll elaborate on this questionable business owner with other people's opinions, like Malcom Bligh Turnbull's (DOB24OCT1954, Liberal MP) and Kevin Michael Rudd's (DOB21SEP1957, Labor MP), both former serving Prime Ministers of Australia, shortly in this introduction.

I am not alone in thinking Rupert Murdoch (Keith Rupert Murdoch, DOB11MAR1931) is a disgrace to Australia's media integrity. Here's an extract from a movement in Australia rallying for a Murdoch Royal Commission.

'Australians for a Murdoch Royal Commission operates across this vast continent, all of which is unceded Aboriginal land. We acknowledge the sovereignty of Aboriginal nations and that the Aboriginal connection to the land we live and work on can never be extinguished.

Aboriginal people have been disproportionately targeted and subjected to harmful, racist reporting across Australia's news media, and have led the way in powerful campaigns taking on the press, which we learn from and draw inspiration from. Australians for a Murdoch Royal Commission stands for truth and accountability and stands with Aboriginal and Torres Strait Islander nations in their call for truth-telling.

Australia's media market is the most concentrated out of every democracy in the world.

Our politicians let that happen because they've been too scared to challenge Rupert Murdoch.

Strong, independent, and diverse news media made up of journalists who investigate fearlessly and report truthfully are essential to any functioning democracy and fair society.

But here in Australia, vast swathes of our news media have been bought up by American billionaire Rupert Murdoch and his heir-apparent son Lachlan. Their company, News Corp, saturates the market, controlling so much of what the public sees and hears as their news.

Truths that are inconvenient to the Murdoch agenda are silenced. Hardworking, professional journalists working for the News Corp, their industry's largest employer, are forced to conform to Murdoch's editorial ideology or pushed out for loyal commentators who toe the Murdoch line.' - Extract from the official Australians for a Murdoch Royal Commission website.

Donald John Trump (DOB 14 JUN 1946), a global political name unhappy with the media mogul in 2025, also, though I do feel Trump's beef is somewhat invalid.

Back to the criminal negligence surrounding Luke Hubert Scheidl (DOB 1981 Mount Gambier District, South Australia) offending. The Mount Gambier Stations Sandra Mary Stokes (SAPOL ID 53080) was

not willing to make any appropriate charges regarding my report, instead twisting the truth. Playing games with a victim of SAPOL who trusted no one in SAPOL at this stage was a very irresponsible approach to a life-threatening situation by this overweight and clearly over the job SAPOL police officer. The police force, instead of chasing just a Domestic Violence Intervention order, which I requested, and acting on the confession made to a SAPOL officer, completely ignored the violent threat to life, engaging a level of Criminal Negligence that has continued to escalate. Many SAPOL officers throughout many departments, including STARForce, the Police Commissioners, and ICAC SA Commissioner, are entirely responsible for this outcome, as I reported Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) numerous times over the years for intentionally recklessly endangering my life. With many SAPOL, ICAC SA, VICPOL, TASPOL, and other police force staff also contributing to this life-threatening criminal negligence, ignoring a serious threat, and furthermore escalating the underlying circulation of revenge porn by Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS) via DVD and on the dark web Silk Road. Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) was profiting from selling illegal footage of me and solicitation, even though I was never technically solicited anywhere – he tried, which stemmed internationally for over a decade. Revenge porn police forces were more than aware of and had excessively viewed to the point where I was stalked, pursued, and obsessed over by law enforcement in Australia and

internationally. Fuck knows why, the footage wasn't even that good. Nothing that's been put out there regarding me is that noteworthy, I don't think. An old Nokia filmed a head-job session and a few mocked-up videos of fuck all getting so much attention made me wonder how sex deprived certain persons in the world were. I'd hate to think what would have happened if I were filmed daily in the bedroom during these decades of privacy invasions and crime sprees. This amateur at best revenge porn was allowed to circulate internationally and throughout law enforcement, as if it were their own personal pornography to indulge in. Yes, Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS) and ALL involved are a joke – such low-life, spiteful, piece of shit criminals who ride through life on the momentary virtues of being human resources. Where Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS) is concerned, he confessed to being a paedophile in 2014, so clearly the only reason why he was ever trusted by police other than extortion due to his links to organised crime was this irrefutable cover up of Kurt Slaven (SAPOL & Australian Defence Force - Navy) sex offending. I have suffered for years because of wilful endangerment of my life, and I have suffered for years because of intentional reckless endangerment by the police forces across Australia.

Luke Hubert Scheidl's (DOB1981 Mount Gambier District, South AUS) Domestic Violence-like behaviour in the drawn-out break-up was eventually proven to be more serious than just an assault and threat to my life;

the activity was irrefutably influenced by members of the Gypsy Joker bikers of Mount Gambier, South AUS.

VICPOL, who were investigating Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia) in 2013 for his offences in Portland, Victoria, Australia, also could not manage to make charges against Luke, who was by this stage, a career criminal. Why? Because Hans Scheidl (H & L Scheidl Pty Ltd, Compton, South Australia, AUS) was heavily involved in the Portland sex industry, which the VICPOL Portland police station was heavily corrupted by, like SAPOL Mount Gambier police.

VICPOL paralyzed to act on charges against Luke for over half a decade, I even called out the VICPOL officer who claimed to ‘want me to move in with him with my German Shepard’. Tim Young (VICPOL, former drummer of metal band ABREACT Bendigo, Victoria, AUS), uncle in the Sprint car circles, was aware of the circulating footage. Tim Young (VICPOL, former drummer of metal band ABREACT Bendigo, Victoria, AUS) as a VICPOL cop with knowledge regarding Luke the freak-creep and his circulating revenge porn. Tim Young (VICPOL, former drummer of metal band ABREACT Bendigo, Victoria, AUS), having confessed he was aware of the revenge porn (illegal video) that Luke Hubert Scheidl (DOB 1981 Mount Gambier District, South AUS) had circulated. I called out Tim Young (VICPOL, former drummer of metal band ABREACT Bendigo, Victoria, AUS) in 2019 to pursue charging Luke for the circulation of

revenge porn, leading to extensive sexual violence being committed against me. Evidence of revenge porn in VICPOL and SAPOL's possession, possibly even with the AFP after 2015 (undoubtedly with the AFP, I believe). Yet, over a decade later, and all this law enforcement juggling of illegal porn, Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS) was not charged for the affray activity, revenge porn, threat to life, solicitation, trafficking, property damage, or any other crime he committed—informant Perks. And seemingly so the police force could gain petty dick tickles out of their job watching me suck dick in a low-quality, short video filmed from the view of an ex-partner. Words do not explain how I feel being exploited in the most vulnerable of ways, being used as rape bait and porn by rapists, paedophiles, and low-life creeps. This book comprises of over a thousand pages in full; much defamation, mainly against myself, was created by police (national and internationally), modifying the manuscript(s) before print. This lengthy proofing process contributes to the book's length, not detracting from the fact that this book is extensively long and at times repetitive, necessitating context. I still don't believe you, as the reader, understand how the fuck it feels to be this exploited as an innocent little girl who doesn't watch porn or even go to strip clubs. And you should be glad you don't understand. By the end of this reading, you indeed might. I would not wish this experience on an enemy. Death wishes on an enemy, sure, this outrageous chain of events is horrifically, overwhelmingly gross. Like a child exploited sexually by a parent, I think – something a decade ago I would

have said I don't quite understand how you feel, too. Now, the twisted, contorted, dirty abuse I have suffered has a bar of comparison.

Everything in my life had been upside down since the homicide case. Everything went wrong after I reported Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) and Kurt Slaven (SAPOL & Australian Defence Force - Navy) to the police ombudsman. I wondered heavily why the police were failing to protect me, especially with an unrequested police status in the shadows. Initially, I was warned that police needed to act quickly regarding my report against SAPOL police, warned by Aaron Roche (VICPOL ID 33388). So, my first thought when this mess occurred was simple - Did all the police know that I had reported *Kurt Gavan Slaven's* (DOB 07NOV1958; SAPOL/ADF - Navy) sex crimes - did Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) know I had reported him for his associations with Former Hells Angels bikie Graham Daniel Young (DOB15MAR1975) that compromised my life in the homicide investigation as well!? The answer to my wondering was Yes, the police force was aware I had reported Kurt Slavens' paedophilia and SAPOL Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy), compromising the homicide investigation by mishandling the USB, crucial evidence.

That stated, the reports against the police were not the biggest issue. The government's determination to cover

up sex crimes against children and the disabled with offences involving police members was the real issue.

How these police were told so quickly that they were reported to the ombudsman matters, notified of misconduct reports via privacy breaches (phone taps, surveillance technology, etc), plaguing my life due to the STARForce presence in my property, as well as because police investigate police. SAPOL police commissioners, and this operation, I was born into it seems, where police created and played out gang vendettas for personal and political gain.

The operations utilising my life escalated as time went on, which is when and why I reached out to the FBI in 2019. I, still living quite obviously trapped in an agenda of police and criminal manipulations compromising my safety, a police force-driven cover-up of hideous sex crimes that compromised Australia's National Security. Compromises to my life and persons which endangered not only my life but my family's. My dad and I both being assaulted by Gypsy Joker-related crimes is not random. 2012 = a Super dramatic year you just got briefed about.

A few other events from 2012 are, at the start of this year, a third party accessed my human services account (Centrelink). I was studying full-time, gaining qualifications to incorporate my brand and demonstrate my financial management skills to prospective

investors. A Queensland call centre employee, I was told, was to blame for the privacy act offence. I was upset this person was not dismissed for such a serious breach of privacy in a government organisation, and I still am, especially after accessing taxation, wealth and assets, and other sensitive information. I spent a lot of time following up on the incident. No one was dismissed nor charged for a reported serious breach of confidentiality and privacy, a seriously questionable outcome for a government investigation into a government (Labor) privacy breach. The start of a national Labor Government agenda to smear my character before Mike Rann's (DOB5JAN1953) and Jay Weatherill's (DOB3APR1964) governments' role was exposed in the disabilities neglect and sex crimes cover-up. Exposed irrefutably by the successes of brand Barbwire Noose, and The Story behind its establishment publication, Edition One, published with Austin Macauley Publishers, 2023.

The assault on my dad in 2012 occurred after this privacy breach of my AUStudy payment. A bigger deal in my life than this privacy breach, my dad could have been more seriously injured had I not jumped in my car and confronted the offender the next day. It was March 14th (this is the day after the assault occurred, I believe – dates on record with SAPOL) 2012, I boldly confronted an offender guilty of a serious assault, Josh Cachia (DOB28JAN1992) at Carpenters Rocks, South Australia. A Methamphetamine/ICE addict and dealer

for the Gypsy Jokers at this time, involved in motocross racing, nearly killed my dad, and should have faced attempted manslaughter charges for his offense in a gang attack on a fifty-odd-year-old man with his back turned to the group of Gypsy Joker criminals. An assault on my dad that resulted in an attack on myself by way of slashing my business car tyre. I was not going to be bullied like that, and it was clear that my parents did not want me to go to the police. My mum delivered the fucked-up news that dad was assaulted, in person, the day after my dad could have died from a savagely piss weak attack from behind. My tyre was slashed during the night preceding the attack. Which cost me nothing to fix at Beaurepaires Truck facility (Jubilee Hwy, West Mount Gambier, South Australia) - the place to go, as an old school friend/boyfriend, conveniently repaired my tyre being the serviceman/mechanic on shift first thing this morning, Glenn.

A new name, not to public court records or police, is the person who slashed my car tyre - Darcy Ryan (felon known to SAPOL, Mount Gambier District, South AUS). His mother lived next door, he was my neighbour, and he is a convicted felon who had been jailed for drug and gun running for the Gypsy Jokers. The person guilty of slashing my tyre for his ICE dealers in the affray of Von Stanke (Carpenters Rocks, South AUS), offenders and Josh Cachia (DOB28JAN1992) in association with the Gypsy Jokers involved in the attack, I was told by numerous SAPOL

human resources including Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS). Three feral Gen Z-Y Von Stankes boys (Carpenters Rocks, South AUS) – google the name to see the string of charges attached to this family including murder, serious assault, drug dealing; and deals with dodgy government (why else would it not be ‘in my best interests’ to call there bullshit out – dodgy deals with government is a lowkey city opinion not an media article), after the attack, with SAPOL’s help rebranding to the Hells Angels for the Gypsy Jokers to remove the heat and focus from their gang for the offence.

One of the offenders against my father, named here in this extract from ***The Border Watch*** headline ‘Addiction leads to bail breach’ dated 31/10/2019 – “Codey Bryce Von Stanke, 28, appeared at the Mount Gambier District Court on Thursday for an application of enforcement of a breached bond.

The defendant’s defence counsel said Von Stanke entered an 18-month good behaviour bond on April 11, 2018.

The court heard Von Stanke failed to comply with correction service officers, reportedly not attending reports several times this year including April 17, May 1, June 19, July 17, 24 and 25.

The defence counsel argued Von Stanke had, in a sense, served 12 months of an 18-month sentence.

“Von Stanke developed a meth addiction six to seven months ago when last year’s fishing season ended,” he said.

“This is a new problem and he was not receiving any drug treatment as it was not previously an issue.”

The court heard the addiction was spurred on by a tradesperson who was undergoing maintenance on Von Stanke’s property in Carpenter Rocks.”

Codey Bryce Von Stanke, one of the offenders who was a known methamphetamine/ICE addict and dealer in 2012 (contradictory to claims made 2018 of this as a ‘new problem’), Josh Cachia (DOB28JAN1992) the motorcross racing offender, and two other Von Stanke boys – four offenders in total involved in the severe attack on a middle-aged man (50+) with his back turned using a hammer as a weapon on the 13th of March 2012 were irrefutably part of an affray with the Gypsy Jokers. SAPOL are aware of this, yet they never pursued affray charges, seemingly. I’ve never heard of them chasing affray charges where the Gypsy Jokers were concerned in Mount Gambier. SAPOL, furthermore, with willing witnesses and irrefutable intelligence regarding the assault with STARForce, failed to incarcerate anyone for the life-threatening crime. The involvement of Darcy Ryan (Gypsy Jokers' petty felon known to SAPOL, Mount Gambier District, South Australia), who is the son of my only direct neighbour, in attacking myself via my property, which was in direct correlation with the

assault on my Dad, was eventually reported to SAPOL. No statement was taken, and Darcy Ryan (felon known to SAPOL, Mount Gambier District, South Australia) never faced charges of property damage or affray either. An assault that involved trespass and serious assault causing grievous bodily harm, committed by boys in direct association with the President of the Gypsy Jokers Phildo, known to police, an Affray.

The offenders against my dad were driven to my family farm, where they trespassed to commit the offence in a Ute driven by the daughter of the President of the Gypsy Joker's boyfriend, Brett Menzies (Kongorong, AUS 1994, Mount Gambier District, South AUS 2012). The offense is in direct association with this sex offender-infested biker clique. Yet, SAPOL did not act at all regarding Darcy Ryan (felon known to SAPOL, Mount Gambier District, South Australia), who slashed my Black VX Holden Commodore mag wheel tyres. Nor did SAPOL act adequately regarding anyone involved in the assault – my dad claimed SAPOL fucked up the paperwork. Fucked it up on purpose if that's the case. I wanted the outcome to be appealed; my dad did not seem to pursue this option at this stage. A premeditated gang attack after trespassing and intimidation, involving Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS), who was in direct contact with the Von Stanke's (Carpenters Rocks, South AUS) at this time. A last-minute alibi was created for Luke surrounding the event he had clearly discussed and possibly even provoked. The alibi I was present for was Luke having dinner with his daughter for her birthday,

which, if my dad had not been attacked, would not have occurred. The circumstances organising this dinner were odd and ad hoc, I distinctly remember. Daniella, a prostitute, Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) stated. Also, the mum of Luke's child was directed by Hans Scheidl (H & L Scheidl Pty Ltd, Compton, South Australia, AUS) to have Luke's daughter, Tayla, attend dinner.

Alternatively, Luke, who at this time was working with the family of the attackers, would have been in direct contact with the offenders and/or persons linked to them on the same day my dad was attacked. Luke was not really surprised by the attack and was the person who saw my car tyre slashed before the vehicle moved. The extent of involvement Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) has had with organised crime Gypsy Jokers and Comancheros, an extensive history of his own admission revealed, under the AFP homicide investigation involving Comancheros Victoria, Australia. A person jailed around the time of the homicide, nicknamed 'Leechy' – Australian Army veteran and said president of the Comancheros Geelong, Victoria, AUS, leaves no doubt in my mind that the offending is connected to criminal negligence.

The offenders, Josh Cachia (DOB28JAN1992) - disgraced motocross rider and Von Stanke relatives (Carpenters Rocks, South AUS), known felons, made numerous verbal admissions regarding the attack on my dad at the local Carpenters Rocks Tavern directly after the life-threatening assault. The Mount Gambier police station, investigating the case, never sought to speak to

me to address the property damage to my vehicle. SAPOL, I believe intentionally engaging neglectful investigations to gain an unsatisfactory outcome to this assault for the Gypsy Jokers. Evidently and irrefutably so as time played out. So much evidence against four offenders who left a middle-aged man for dead, and no one was jailed. The court determined no jail time was to be served after police prosecution presented a poor case full of deliberate mistakes based on an intentionally neglectful investigation. It was an impossible outcome of injustice passed down by our justice system. As a daughter, I was extremely emotionally distressed, and as a budding lawyer, I was furious. Irrefutable evidence of assault and, now to me, evidence of institutional corruption and criminal negligence, negligence that stemmed from another decade. A cover-up that thrived until whistleblowing the entire policing sector, ICAC, and *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* protege Darryl Peter Wright (SAPOL, African Army - International, AF) negotiating with felons to cover up sex crimes and every other Monster protecting the Monsters.

The assault in 2012 led me to approach the media about the attack on my dad and, furthermore, about this sadistic police corruption. Encouraged by my Uncle Gregory Hobbs (DOB 1956, South Australia) to speak to the media via my mum. My mum talking to my SAPOL Hobbs family, years later, happily calling me a narc – how ironic and, as I see it, disgusting considering

I never have and never would be an informant. I conversed with Frank Pangallo (DOBOCT1954, Mile End South, AUS), then a reporter on Australian Channel Seven's Today Tonight news program. Frank showed a significant interest in police corruption, yet no interest in really reforming justice, despite some of his achievements. The vulnerable in our society suffering constantly for political gain was something I had witnessed by 2012 regarding Nick Xenophon (DOB 29 JAN 1959), and I was furious at these fake justice seekers going into politics despite some of their efforts to look just. It was like exchanging an apple you like for an apple you don't like to me – you didn't lose anything, but you do, settling for less in the exchange, my point being the "close enough is good enough" attitude in turn lowers your integrity. I used Luke Hubert Scheidl's (DOB 1981, Mount Gambier District, South Australia) email to write my initial communications with Luke's permission via his Gmail account. Then I continued to communicate via my own email address to shed light on the mishandled serious assault. Frank Pangallo (DOBOCT1954, Mile End South, AUS), a very venal investigative journalist, never reported the public interest case. Instead, it seems he joined the most detrimental character assassination campaign of defamation possible against me, aiding and abetting SAPOL and, in turn, Australian police forces in a deep-seated cover-up of organised crime and paedophilia. Imagine running a defamation campaign on a victim of an affray assault that reached out to you for help to gain a political position amongst the venal government – that sums up Frank Pangallo

(DOBOCT1954, Mile End South AUS). You get to read how low this man will go for personal and political gain in detail to come, or alternatively, you can read a much shorter book regarding this venal man and his political desperation in *The Story Behind the Brand - Barbwire Noose*, FREE to download via the National Library of Australia. Spelled with an 'e' in Pangallo initially until updated - Frank 'Pangello' Pangallo (DOBOCT1954, Mile End South AUS) actions sealing his part in a cover-up. The man was insignificant to me after interacting with him, and proved to be useless against corrupt police, so I didn't care about the spelling. Not that I actually care too much about spelling - that's spell-checking and the publishers' responsibility; I was a digital age teen and was the first person in my high school grade with a home computer, I couldn't care less about spelling or grammar, or petty individual's egos in cover-ups, I'll add. No point taking it to a little man who can't even be honest about our communication, which was in writing. Frank Pangallo (DOBOCT1954, Mile End South, AUS) ruined his own credibility, which he had little to begin with, around me, seemingly. I communicated with the media Channel Seven, but the communication suddenly dissolved. Frank Pangallo (DOBOCT1954, Mile End South AUS) and his media investigators, before his short-lived political career, seemingly ran an illegal investigation into SAPOL and myself – illegal as they did not report on matters that seemingly only resulted in blackmail, which led to Frank Pangallo (DOBOCT1954, Mile End South AUS) in politics. Not a coincidence considering Nick Xenophon (DOB 29 JAN 1959) in years prior was also

promoted into politics after communication with me. Both men were elevated into politics during the periods of Mike Rann (DOB 5 JAN 1953) and Jay Weatherill (DOB 3 APR 1964), South Australian Labor Governments. Both Premiers embody a cover-up of sexual crimes. Frank Pangallo's (DOBOCT1954, Mile End South, AUS) investigation resulted in a loss of justice and years of defamation, which in turn led to numerous criminal offenses against me, including criminal negligence. The media and government have an undeniably venal hand-in-pocket relationship in Australia.

Frank Pangallo (DOBOCT1954, Mile End South AUS), an Australian journalist and politician from Mile End, South AUS, whose family immigrated from Southern Italy. He has been an SA Best member of the South Australian Legislative Council since the 2018 state election. Frank Pangallo (DOBOCT1954, Mile End South, AUS) worked for the News in Adelaide, becoming editor in 1989, and from 1995 was a television reporter on Today Tonight. In 2017, he became a media advisor to Nick Xenophon (DOB 29 JAN 1959). He was second on the SA Best ticket at the 2018 state election. In December 2023, Frank Pangallo (DOBOCT1954, Mile End South, AUS) left the SA-Best party.

Here's where we get back to media and political influence interactions and the uses of media moguls for political gain. Malcolm Bligh Turnbull (DOB 24 Oct 1954), also in his best-selling political autobiography 'A

Bigger Picture’ published in 2020, speaks of the media's control in politics.

A Former Prime Minister, Malcolm Bligh Turnbull (DOB 24 Oct 1954), is privy to the ins and outs of political manipulation and media-driven politics. A commendable and respectable former Prime Minister deserving of much praise for his frank honesty in his book and his efforts to maintain the Great Australian Project - our Legacy created by, and fought at war for/by, our ancestors. The monopoly and bullying within the media and its ability to silence the truth and aid injustice and corruption in Australia were out of control under the Federal Liberal Government (2019 – 2021), and by 2023, seemingly, the Federal Labor Government also.

Personally, I had witnessed the power plays of the media in politics when Frank Pangallo (DOBOCT1954, Mile End South, AUS) was conveniently given a political position by Nick Xenophon (DOB29JAN1959). Journalist Frank Pangallo (DOBOCT1954, Mile End South, AUS) entered politics via Nick Xenophon (DOB29JAN1959). Nick Xenophon (DOB 29 JAN 1959), in 2011, before Jay Weatherill’s (DOB 3 APR 1964) election, was a politician I conversed with via email regarding the Disability Sector reform movement I made in 2003. A legal report of crime and neglect in the disability sector, turned into a Human Rights movement, then into a whistleblowing submission to the Royal Commission into Disabilities in

2019 - 2022 in the form of an Autobiography, The Story Behind the Brand - BARBWIRE NOOSE.

Nearly a decade passed where Nick Xenophon (DOB 29 JAN 1959) was made aware of my Disabilities reports of neglect, etc, and my strong opposition to Jay Weatherill (DOB 3 APR 1964) standing for Premier of South Australia. Nick Xenophon (DOB 29 JAN 1959) failing to expose Jay Weatherill (DOB 3 APR 1964)'s shortfalls before his election and his decision to make friends with Jay Weatherill (DOB 3 APR 1964) for political gain at the expense of non-cognitive, mute, including spastic disabled clients shows these men in leadership's poor character, lack of ethics, and a profound dishonesty. A demonstration that these men are unfit for politics, lacking integrity, and duly unable to safely and productively perform assigned duties without limitations resulting from the use of, or potential impairment from, vast malfeasance, criminal conduct, and the use of legislation and law enforcement for political gain. As if you do. Justice for these poor, disabled people of South Australia arrived way too late, after an institutional cover-up within the South Australian governing sector permeated before the Royal Commission was announced. The much-needed Royal Commission into Disabilities was obtained by The Australian Greens Party, Jordon Steele-John, in 2019, over a decade after severe neglect and abuse were reported in the state of South Australia by me. A disabled politician, Jordon Steele-John, with passion and strong advocacy, was an outstanding voice in government for people with disabilities in Australia.

From my perspective, Frank Pangallo (DOBOCT1954, Mile End South AUS) was following in Nick Xenophon's (DOB29JAN1959) opportunist footsteps, after I had shared a heart-wrenching, life-threatening story, and my concerns about SAPOL with the journalist; he ceased communication, just like Nick Xenophon suddenly did when discussing disability negligence.

I was confused about why Frank Pangallo (DOBOCT1954, Mile End South AUS) ceased communication, which led to emotional distress, as I felt let down by this behaviour – let down by both the media and politicians alike. These venal interactions created a distrust within me about the medium of news in Australia – rightfully so, for Frank Pangallo (DOBOCT1954, Mile End South AUS) to team up with the other politician, Nick Xenophon (DOB29JAN1959), who chose to profit from malfeasance for political gain. Overlooking criminal negligence - valuable reports of government sector criminal conduct and corruption that I reported were outrageous in my eyes, and the final straw for me trusting Australian media and politicians. I had witnessed years of cover-ups. By 2015, when Frank Pangallo's (DOBOCT1954, Mile End South, AUS) defamation was brought to my attention, there was no way I was going to allow a cover-up plot to be successful. No person lacking integrity or engaging in defamation to cover up police corruption or sex crimes was going to be successful if I were alive. Telling

SAPOL and police forces in 2015, I would write a book about their crimes – I've written a few to be precise. I especially felt this way about the malicious accusations with no basis or facts I was subject to for a cover-up, knowing what records SAPOL illegally held that proved I was not a prostitute. These immoral and highly unethical choices witnessed by me time and time again in Australian governance, persons feigning that they were whistleblowers to benefit from government department crimes, is bullshit. I may not be a qualified lawyer, but I am a very competent legal information advocate who has won numerous cases in court, with and without legal representation, and I am indeed entitled to defend myself. Cover-ups = Public Disclosure - nothing more, Nothing Less. Persons who represented the community within government, constantly whitewashing the communities to hide crimes committed in government sectors, are engaged in an abuse of power and process, not to mention perjury. Something seriously had to give after two decades covering up government sector sex crimes; evidently, it wasn't going to be the paedophile protecting police forces of Australia or Governments who were irrefutably in combat with a little girl whistleblower. They thought they had the win of a cover-up in the bag. A criminal negligence situation, beginning with SAPOL, my life spiralling into a deep chain of causation, furthermore complicated by the murder of Gordon Tearonui Hamm, both sides of government adding fuel to the cover-up fire when VICPOL and the AFP entered the mix. The use of media monopoly by the government manifested further as a result of my

assisting the police investigation of the assault of my dad in 2012 and communication with Frank Pangallo (DOBOCT1954, Mile End South, AUS), irrefutably.

The height of reporting turned whistleblowing regarding corruption began for me in 2016, with SAPOL so corrupt that the South Australian Police Association rejected the Police Ombudsman independent report this year and my property was illegally acquisitioned – my Human Rights violated and my constitutional rights non-existent so police forces could cover up paedophilia. Again, assisted by the defamation of Frank Pangallo (DOBOCT1954, Mile End South, AUS) and an irrefutable level of intentionally neglectful investigations.

A breach of Many fundamental Freedoms that are guaranteed by international human rights law and our constitution. Freedoms that were stripped from me in 2014 by a severely corrupt police force. Constitutional and Human Rights, I've lived as many years with as without. International Human Rights law includes the protection of freedoms of expression, movement, and choice of residence, peaceful assembly and association, and the freedom to manifest one's religion or Belief. All human rights and fundamental freedoms are subject to the general rule that no one has the right to 'engage in any activity or perform any act aimed at the destruction of any of the rights and freedoms' recognised elsewhere.

International Law that for basically two decades I witnessed both sides of Government breach and act against for political gain, and at times at the expense of the National Security of Australia.

Staying with the corruption in South AUS governance, and where this all went, where rewards for engaging in defamation are concerned. I'll start with the 2022 newly elected state Premier, Peter Bryden Malinauskas (DOB 14 AUG 1980), and demonstrate how money talks in politics to the point where even an Elder of a Christian Brethren community will engage in criminal negligence and defamation.

Peter Bryden Malinauskas (DOB 14 AUG 1980), a key political figure for the South Australian Labor party from Cabinet of South Australia in the Jay Weatherill (DOB 3 APR 1964) Ministry between January 2016 and March 2018, holding, at various times, ministerial portfolios with responsibility for police (2016–2017), correctional services (2016–2017), emergency services (2016–2017), road safety (2016–2017), health (2017–2018) with much to hide. In numerous sectors his responsibility had allowed criminal negligence proving he is an unfit leader, unfit for politics in his lack of integrity, an inability to safely and productively perform assigned duties without limitations resulting from the use of, or potential impairment due to his vast

history of malfeasance, criminal conduct and the use of legislation and law enforcement for political gain.

Peter Bryden Malinauskas (DOB14AUG1980), overlooking malfeasance of the most inexcusable of low levels – criminal negligence, sex crimes, as the police minister, and even lacking Australian standards in the Health Ministry regarding STUFORM Pty Ltd (South AUS) Corporation; owner David Wright – Elder/Brethren Christian community South Australia, production of Fire doors.

The new hospital of Adelaide in 2017 installed Fire Doors with rotten cores that would not withstand a fire to any Fire Door standard. Doors produced by David Wright (STUFORM Pty Ltd, creator of the Aluminium Kwikloc Ceiling Grid system) and his son, Jason, were intentionally and willingly made. A cover-up of production that amounted to criminal negligence began when I reported the doors manufactured by David Wright (STUFORM Pty Ltd, creator of the Aluminium Kwikloc Ceiling Grid system) and his son, Jason, personally. David Wright (STUFORM Pty Ltd, creator of the Aluminium Kwikloc Ceiling Grid system) stated to me.

I was employed in the office as Operations Manager at this time. I was not responsible for the physical production of any doors during my employment; I drafted paperwork and communicated with clients. I refused to mislead clients in communication about the manufacturing of these doors, which ended my employment with the company. Another job lost to

reporting/whistleblowing – this time reporting against a breach of government contract.

David Wright's (STUDFORM Pty Ltd, creator of the Aluminium Kwikloc Ceiling Grid system) son, Jason, was entirely responsible for the Production Management – the manufacturing in the factory for these fire doors. The STUDFORM Pty Ltd (South AUS) obtained this build seemingly with the favour of the state Labor government, which it was stated awarded the contract to the company. A company with many political links to corrupt, paedophile protecting, prostitute using knowledge, including association with venal police officer Darryl Peter Wright (SAPOL, African Army - International, AF), and an outstanding number of employees linked to Former Hells Angels bikie Graham Daniel Young (DOB15MAR1975). It gets better in blatant, unethical, and criminal conduct here. After being involved in three sector criminal negligence cover-ups, Peter Bryden Malinauskas (DOB 14 AUG 1980) was chosen as the state Labor Premier candidate. Even though this was all public knowledge, a horde of cover-up supporters - police, freemasons, sex offending Christians, government grant holders under previous Labor governments, etc, evidently would be found amongst votes supporting him. We have the freedom to vote for who we like, yes, but not for political gains made through cover-ups. A politician should reform government sector malfeasance and corruption, especially when it is of a criminal nature. Political leaders and public figures (first responders) like the many police officers surrounding me for years were in a

position of power to achieve great things. Yet, they made conscious and wilful decisions to do Nothing. To do the bare minimum or to overstep to the point where human interaction is all but lost, choosing to maliciously and intentionally engage in decades-long misappropriations of tax funds invested in cover-ups of the most heinous crimes instead. Appalling government sector activities are an abomination.

It was under a Federal Liberal Government that the state Labor government of South Australia was overturned in 2018, with Frank Pangallo (DOBOCT1954, Mile End South AUS) taking a very questionable career change from journalist to politician during this period. Reiterating the ousted from Federal Liberal politics, Malcom Bligh Turnbull (DOB24OCT1954) on mass media corruption in politics. Kerry Stokes (DOB 13 SEP 1940), in control of Channel Seven at this time, owned by Seven West Media through his majority investment in Seven Group, also having some mining interests. Mining is a politically entwined industry that receives much favouritism from the government, similar to the construction industry. STUDFORM Pty Ltd (South AUS) is a building company linked to its brethren community counterparts in construction.

Skimming over media, money, and politics in Australia, Bruce Gordon (DOB4FEB1929) was WIN's biggest

shareholder at this time in Australia. Mining magnate Gina Hope Rinehart (DOB 9 FEB 1954) sold Fairfax shares in 2015. Rupert Murdoch (Keith Rupert Murdoch, DOB 11 MAR 1931), in March 2023, during an FOI disclosure, was exposed as taking investments from controversial Chinese companies operating out of the Cayman Islands. Murdoch Media, son Lachlan, Australia's right-wing media train, is irrefutably part of the political cover-up of sex crimes, failing to disclose the matter of public interest for political and personal gain, as most media in Australia were guilty of. Between my being falsely investigated, Channel Seven's defamation, and the failure of all Australian journalists in 2019 to pick up on the story published with the Australian Associated Press (AAP). It is also worth noting that Rupert Murdoch (Keith Rupert Murdoch, DOB 11 MAR 1931) conveniently threatened and almost shut down AAP completely in 2020. There is a distinct form of corporate media control and corruption within politics. Tyranny against the people due to Human Rights and Constitutional rights of Freedom of Speech, not fit for purpose, active legislation – the Association Laws. As members of the public, we have a right to know the truth through the media. Corporate control and greed have no place in politics, let alone undermining transparency and freedom of speech with corporate conglomerate control over media assets.

‘All Information collected in the name of the public should be made public (in a duly accountable time).’

The media of Australia were well aware for years that I was subject to Police Commissioner Grant Stevens' (SAPOL torts) cover-up agenda.

Reading of Disabled and myself, subject to sex crimes without justice for years. He can't expect me to like nor respect him. Commissioner Grant Stevens (SAPOL) is, to me, the most disgusting, disgraceful Commissioner, hopefully to exist in SAPOL History. I was subject to countless sexual crimes under his leadership. Yet because the police announced a successful cover-up of some of the worst criminality, Peter Bryden Malinauskas (DOB14AUG1980), the other sex crimes cover-up king still in SA politics – now Premier, appointed the paedophile protecting Commissioner for another five years in 2023. This man is constantly using the media to hide police corruption, criminal DOB 3, and build a personal profile to conceal his heavy involvement in SAPOL's corruption, being paid half a million taxpayer dollars to do it!! *Eat shit, community of South Australia. Yours sincerely, the police commissioner, Grant Stevens (satire clearly).*

My Autobiographies, public for years before his reappointment; it was only a matter of time until the truth was too big to hide, yet this guy tried – for paedophiles. No Shame. I'd rather be seen naked than protect paedophiles.

A paramount level of exposure can be laid on Scumo's alliance with News Corp, and it's called out for what it is by Malcom Bligh Turnbull's (DOB24OCT1954)

admirable truths in 'A Bigger Picture' - I seem like an advert for the man. Seriously, the book is a page turner.

Australian Associated Press (AAP) proved to be the only media interested in honesty in 2019, an agenda exhausted by 2020. Boldly accommodating the media release of this autobiography within this hostile and corrupt governing media climate. A heavily hacked and tainted manuscript that needed revision countless times, with police forces, including international law enforcement, engaged in covering up sex crimes. The media giants of this time were often referred to by another leader, serving as the USA President Donald John Trump (DOB14JUN1946), as 'Fake News'. The media's honesty and dishonesty are at a gridlock within corporate greed and mounting government red tape.

Julian Paul Assange (DOB 3 July 1971), Australian editor, publisher, and activist who founded [WikiLeaks](https://wikileaks.org) in 2006, is a prime example of our times, the questionable use of National Security by definition, and the apparent threats to Freedom of Speech and Justice For All.

Like the mining and construction industries influence politics, as with the media, so does the police. Especially as they know all the dirty, illegal political skeletons, SAPOL Commissioner Grant Stevens is leading this toxic culture, and being paid big bucks to do it. Over half a million dollars to silence a victim of

SAPOL, and boy did he try, tried to push me to the brink of suicide – unlucky him, I’m still alive! Clearly, more determined to hold him accountable than to bow out in his cesspool of sex offending, god knows how else I had the drive to survive all this. Many police officers over these years were trying to rally politicians to legalise their crime of involvement in running the illegal sex industry (the selling of minors for sexual benefit) by decriminalising the industry. An exchange in a mutual cover-up of sex crimes. Efforts were made to enable their illegal actions to become a social norm before their heavy use of the industry, including children, was exposed. An ambiguous approach, as I see it, to create a foundation and a more socially acceptable notion of sex workers. This slow release of sex work out of the Crimes Act into decriminalisation allows an acceptance of the industry, overlooking the sex crimes that thrive within it, giving an avenue for police forces to state the action was ‘ethical’, not ‘criminal’, and also increases the polices control over the sex industry.

The police use gangs to control the industry (said human resources), including overseas sex crimes associates aligned with the Bandidos (America), Comancheros (Australia), Gypsy Jokers (Germany/America), and triads (China), predominantly in Australia is broadly known. Personally, I was subject to sex crimes directly aligned with SAPOL STARForce linked to The Crips (America). Yes, you understood that correctly, venal sex offenders police recruit persons

internationally, who are linked internationally to commit sex crimes when trying to cover up their criminality due to their involvement with the sex industry. Peter Ottens (Felon AUS, USA, UK - DMT Institute International) directly linked to SAPOL STARForce is the example of this were about to get to, a sex offender who not only bragged about his offending but also like other felons legally called out in this book thought he was so in with police, freemasons and elite businessmen like Donald John Trump (DOB14JUN1946) that he was going to get away with it. SAPOL irrefutably allowed Peter Ottens (Felon AUS, USA, UK - DMT Institute International) with international convictions to engage in sex under duress - rape me and other women across Australia after sex offending in the USA, in efforts to push me at least into the police run sex industry and beyond—solicitation by police, forcing you to work under their banner, as a SAPOL whistleblower put it. In my case, where I was not a prostitute, I could not conform to this demanded lifestyle, so I was pushed out of my rental home.

What I cannot express enough is that SAPOL and Australian police forces see the rape of sex workers as acceptable, even though they take money to use and protect the industry. That's pretty fucked up. These sex offenders, allowed under police investigations to feign intimate relationships to cover up rape and serious assaults as domestic violence, are rewarded with financial incentives like business grants and other prospects aligned with police forces, freemasonry (I witnessed as a freemason), and the government. Some

are just literally allowed to rape women and relocate to benefit police officers and the government in Australia. Might as well be the Catholic Church paying to get away with raping kids for centuries, everyone knowing these elites have been covering up sex crimes since the beginning of time by stating victims are mentally ill or pushing them into the refuge, aka assisted suicide.

The plots of Ugly Heroes are UGLY. Research states that Sexual violence is likely to occur more commonly in cultures that foster beliefs of perceived male superiority and social and cultural inferiority of women.

Toxic masculinity is a major underlying factor in Australian police forces that allows DV and sexual crimes to flourish. Furthermore, research into sexual violence against women as a culture, as in the police forces, states that interpersonal violence, including Sexual violence against children and women, brings with it long-term sequelae effects, both psychiatrically and socially. Apart from sexual gratification itself, sexual violence against women is often a result of unequal power equations, both real and perceived, between men and women, and is also strongly influenced by cultural factors and values. Within sociocentric and ego-centric cultures – law enforcement and military environments predominantly male, the roles and representations of genders, and attitudes toward sexual violence differ. Differ from the standards

regarding clear legislation that makes this activity a crime. I have no doubt these sexual crimes allowed to be committed against me were due to toxic masculinity and a distinct agenda to push me to the brink of suicide. Sexual violence is a profoundly negative and traumatic life event with widespread psychological and sociological effects on the victim, irrespective of their gender. It often gives rise to a wide range of negative emotions, embarrassment, and existential questions such as “Why me?” It increases feelings of helplessness and powerlessness in the victim, affecting their self-esteem and producing feelings that suggest they may be vulnerable to further violence. It is likely that the fear of sexual violence in women will restrict their freedom and occupational opportunities and affect their long-term psychological well-being.

The policing department of South Australia continuing to operate with the many issues called out by the independent assessor without address, refuted by the police association as they did regarding the following ICAC SA report against SAPOL, is another contributing factor to the drawn-out criminality of this cover-up. Mark Carroll (beginning his policing career in 1985), President and CEO of Police Association of SA since 2008, served from 2014 to 2021 as President of Police Federation of Australia. Mark Carroll (beginning his policing career in 1985) has held his position of President of the police association for over a decade, as

I authored this book. He's the biggest problem in South Australia protecting crooked and criminal police conduct, worse than ICAC SA. ICAC SA has been walking a fine line between integrity and a lack thereof for years, which they often blamed on the legislation drafted for the act. Legislation drafted to protect dodgy criminal police and crime within the police ministry, including obstructing charges against police ministers. I am well up to date with the original legislation of ICAC SA drafted by Bruce Thomas Lander KC (DOB 13 NOV 1946), the first Independent Commissioner Against Corruption in South Australia. Legislation (2012) that deliberately evaded the responsibilities of the police minister in Integrity. Legislation under which I was granted Government Investigation certification.

Without a Royal Commission, SAPOL presents no chance of a significant cultural change back to legal operations, proven by a decade of dedicated malicious and intentional illegalities for a cover-up – a cover-up including paedophilia. Irrefutably, in 2023, this lord of obstructing integrity, Mark Carroll (beginning his policing career in 1985), wrote an article stating as follows:

Critics of SA Police "secrecy" ignore the risks of the job - A push to reveal the identities of SA Police officers who are the subject of disciplinary procedures could lead to increased safety risks for officers and their families, writes Police Association president Mark Carroll.' - InDaily by Mark Carroll / Police Association of South Australia Monday, 22 October 2023.

Reducing police officers to the necessities and capabilities of a general civilian undermines the influential impact of the force as well as the taxpayer-funded training given to serve and protect the public, who are known to the public. The bloke is a joke and a serious risk to the Integrity of SAPOL. He certainly should not have been leading the Police Association, announcing his retirement in 2025. The decisions made by the then-in-power state Labor Government to continue running SAPOL as it was, knowing the excessive level of corruption within the department, were so grossly negligent. The insidious corruption was so grand that it ate at SAPOL's reputation and brought ICAC SA to the ground with the hideous cover-up you read of in this autobiography. Instead of ICAC SA having Ethics and Integrity regarding political and police operations, for a decade, you know it! = *I was subject to a police cover-up op and a fight to expose the lack of accountability for criminal conduct within the Australian government.*

Acknowledged by ICAC SA in 2023 quoting article reference a statement by Ann Vanstone KC (Australian lawyer) Commissioner Against Corruption of South Australia since 2020 "Politicians set up ICACs and then as soon as the ICACs get a bit close to them, they want to dismantle them," she said – Article title 'Could South Australia's 'toothless' anti-corruption tiger get back some of its teeth?'

Written by state political reporter Rory McClaren;
Posted Fri 25 Aug 2023 at 9:48 pm; updated Sun 27

Aug 2023 at 12:40 am ABCTV. Spot On Ann Vanstone KC (Australian lawyer)!! With police assistance, South AUS politicians have avoided jail for paedophilia and accountability for decades. Regarding Human Rights violations due to SAPOL's lack of Integrity, well, they only matter when on Television, apparently.

Human Rights - All Lives Matter. Our rights should be legislated in a bill of rights, similar to Victims' Rights, rather than relying solely on policy or procedure.

SAPOL irrefutably under Commissioner Grant Stevens, perverting the course of justice to protect numerous police sex offenders. With the assistance of ICAC SA, SAPOL retired sex offender *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) left the force in 2018 due to my statement against his sex offences. Though that's as far as it went at this time, even with myself persistently seeking a resolution for years. SAPOL ignoring the directive of South AUS Magistrate Paul Foley in 2020 who instructed SAPOL to act on the Police VS *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) statement - Contempt of court, often referred to simply as "contempt", is the crime of being disobedient to or disrespectful toward a court of law and its officers in the form of behaviour that opposes or defies the authority, justice, and dignity of the court. *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) – sex offender in retirement, tried to start to build himself a public profile assisted by the media, a plot short-lived as I screamed the truth from

the rooftops, stopping a sex offender cover-up, though years passed without charges laid. A straightforward narcissistic plot to hide that he sexually offended against minors. A cover-up with the government's mates at News Corp Media. News Corp Media, the media corporation that silenced the truth with police corruption involving political members and media bias for years, for SAPOL, VICPOL, AFP, and other governing bodies of Australia. All the way to the Prime Minister (PM) Scott Morrison (DOB 13 MAY 1968)'s Office, I witnessed when I wrote to the PM calling for a Royal Commission into SAPOL. The treatment of myself by Australia's Prime Minister Scott Morrison (DOB 13 MAY 1968) and many political members of parliament, state and nationally, since 2014 is nothing short of mockery and contempt.

The fact that for years an ex-police officer, a sexual predator, did not make headlines for anything other than his Presidency at Woodville West Torrens Football Club is irrefutable evidence of the extensive wilful deception and severe efforts being made to pervert the course of justice with media cooperation – whether the media was bullshitted to by police or not. As if you don't publicly disclose a government official sex offender being called out by their victim, who's being further victimised due to police not acting to charge *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy). Offending, which had been public, was Free to download as an eBook PDF via the National Library of

Australia as a public disclosure, facts undisputed legally for over a decade. The media is complicit and responsible for their part in assisting this cover-up, not just via Frank Pangallo (DOBOCT1954, Mile End South, AUS), Channel Seven.

In 2020, with this autobiography in its first, aborted self-publication stages, sex offender *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) also resigned from the Board, where he was pursuing a position on the SANFL Commission. This media cover-up and these announcements exposing the desperate and sly steps taken by a guilty man who was out of time in a cover-up, claiming to be stepping back from the club, a frivolous excuse to save face. The tainted and criminal police officer's irrefutable organised crime activity, including sex offending, exposed a level of corruption within media transparency in Australia, which was also aiding and abetting illegal police and government conduct.

So many facts disclosed in this book were irrefutable by 2018, let alone by 2025. The Monster protector Darryl Peter Wright (SAPOL, African Army - International, AF) and Commissioner Grant Steven's of SAPOL were proven beyond doubt that they had perverted the course of justice to cover up *Kurt Gavan Slaven's* (DOB 07NOV1958; SAPOL/ADF - Navy) sex crimes with perjury involving a false statement written by Dave Kyriacou (SAPOL ID 40657). SAPOL is going as far as updating the entire computer system in 2017 in an effort to cover up criminal negligence. Perverting the course

of justice is an offence consisting of any conduct done to prevent justice being served upon the offender or upon another person. As we have discussed, this criminal offence carries a long-term jail sentence.

Every decision SAPOL was making recklessly endangered my life. From each request for intervention I have made since the AFP overseen homicide has resulted in no intervention order being put in place, or police forces refusing to act against persons committing crimes against me altogether, including sexual criminality, as discussed. Dave Kyriacou (SAPOL 40657) implemented one necessary intervention order in 2014, being the only action SAPOL has taken to seriously protect my welfare concerning known felons I have reported to police due to the 2012 activity that compromised both my life and my dad's. Before the AFP's involvement in the homicide case of 2013, numerous intervention orders, except the one required against Luke Hubert Scheidl (DOB 1981 Mount Gambier District, South Australia), had been implemented.

Darryl Peter Wright (SAPOL, African Army - International, AF), heavily involved in the sex industry, liking to cheat on his wife, as with many of SAPOL's male personnel, was the instigator of the severest actions in the plot to cover up the police forces' involvement in the illegal industry. His involvement with my Hobbs side of the family and SAPOL not only created circumstances where a man heavily engaged

with the sex industry pursued me as a prostitute, but also led to severe reckless endangerment. Hence, my Monster referencing, which more than explains itself throughout this autobiography. Surviving a police force agenda of police pimps trying to be pimps for power and political gain is not something you come out of proud about. I have been severely traumatised by this cover-up and these malicious and intentional pursuits to label, engage, and push me into prostitution. The Australian Police Force rapidly grew ever fond of the illegal sex industry's bribes, which I watched play out over a decade (2013 – 2023). The Australian Police Force, detectives' unit across Australia, had formed a clique of bitter, guilt-driven men - guilty of infidelity or serious criminal misconduct, ganging together to protect criminals who would protect them. Cops in the pockets of bikers and bikers in the pockets of cops, increasing the ever increasing fucked up sex trade by the day. Criminality of the world's worst nature.

To think I was actually used to Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) being kind to me and police giving me warnings, as I only had traffic offence records until the homicide, by 2025, was unfathomable.

In 2023, outside of SAPOL and NTPOL, I did have positive and less tort like interactions with law enforcement, which was a nice, short-lived change after a decade of blatant reckless endangerment and endless harassment.

Having little to do with police until 2012, when Dave Kyriacou (SAPOL ID 40657) arrived in Mount Gambier, South Australia. Around this time is when SAPOL police torts started to become obvious.

Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) being the only police officer in Mount Gambier who really spoke to me. Doing the old run through - wear your seatbelt, remember your car registration, etc, generally with a warning and no fine. Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force – Navy), in approximately 2004, told me during a traffic stop, which the passenger in my vehicle heard, that the police in town had it in for me. A comment so odd that I have never forgotten it. Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy), in 2012, again told me that some police officers in town had it in for me - again. Following this warning, a male officer, friends with Dave Kyriacou (SAPOL ID 40657) while he was stationed in Mount Gambier, South Australia, called Dale Fox (SAPOL ID 37976), a long-term Mount Gambier Senior Sergeant police officer tailed me down the Highway on my way to the then VideoEzy DVD rental store on Commercial Street West. The police officer followed me down the highway, only to pull me over and conduct a random targeted check of my vehicle – a tort of harassment. I had an expiration of my licence, an oversight which I rectified promptly once alerted. Instead of a standard warning, I was made to attend the station and produce the receipt to this officer once I renewed it. Before producing the receipt to the officer at the station this

evening, Dale Fox (SAPOL ID 37976) visited my home to harass and intimidate me. Dale Fox (SAPOL ID 37976) attended my residence, yelling excessively loudly, banging, and bashing on my 69 Penola Road property's front door. I was scared of this out-of-control conduct - stalking. Out of control conduct like rapist *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) and asked Luke Hubert Scheidl (DOB 1981 Mount Gambier District, South AUS) to answer this unwarranted visit. Dale Fox (SAPOL ID 37976) was yelling and bashing the door in such an aggressive and excessive manner when he trespassed to harass me on my property, that I was very scared when visiting the Mount Gambier Police station later with the receipt proof of licence renewal. I tried to be nice, smiling politely and presented the rectified issue to the furious policeman. Lots of police officers are using ICE/methamphetamine in the Mount Gambier Police Station at this time. Dale Fox (SAPOL ID 37976) had gambling issues, unbeknownst to me at this time. He could have been angry because of drugs or just lost a lot of money and couldn't tell his wife, like he didn't tell her he cheats on her with local prostitutes. I had heard everything he bellowed unnecessarily at my home, and was very scared of him. Officer Dale Fox (SAPOL ID 37976), known in Mount Gambier to engage with the illegal sex industry, targeted me after SAPOL Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) warned me of torts. The following accusations from my dad, stemming over two years, saying I was dressed like a prostitute, which has never been an accurate interpretation of Jo Mercer Shoes,

boots, or fashion. I do not believe that, after years of desperation by my family to solidify their perjury to cover up their crimes, SAPOL's activity and these malicious accusations with no basis or facts circulating at this time are a coincidence. Especially after discovering I had suffered surveillance by STARForce for almost a decade under the unconstitutional association laws of the venal Mike Rann Government (DOB5JAN1953), the 44th Premier of 2002 – 2011, a sex offender.

I hid in the bathroom (toilet) this day until Dale Fox (SAPOL ID 37976) left – he had no right – legal grounds to be harassing me. The law allowing twenty-four hours to produce a licence to police in South Australia, I should not have even needed to take my paperwork to him. None of the excessive and aggressive actions taken by Dale Fox (SAPOL ID 37976) this day were warranted, or his job - engaging torts against my person. A cop I barely knew, I no longer trusted him. This targeting I experienced was exactly what Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) meant by some police having it in for me. But why? At this time, all I knew was that I was currently recorded in the system as police personnel and wasn't a prostitute like Dad called me. What was going on, I wondered. Paying it no more thought, as with the policing status recorded on many government databases, I carried on living, or so I thought.

The criminal conduct by police continued to flood my life after Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia, paedophile and SAPOL Human Resource) was not charged in 2012 for Domestic Violence, drug dealing, methamphetamine and morphine, and threatening my life. I started to wonder what was going on! I had witnessed Luke grabbing his daughter's crotch inappropriately during our relationship, and him inappropriately sleeping in the same bed with the young girl. Having to tell him those actions were inappropriate and wrong when he knew these things was very distressing for me as I tried numerous times to end our relationship. Ending this relationship severely threatened my life and was very much escalated by SAPOL's torts and the paedophile tendencies they needed to hide, which Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) knew of and facilitated as a teenager with COA gang members. These details are pretty fucked up and things I hoped his daughter couldn't really remember, though she was around five years old at this time. Details that are fucked to have to publicly disclose to see him convicted of numerous crimes in a cover-up. I knew when Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) expressed, he had got away with grooming a young girl in his early twenties upon moving to Adelaide as a felon who stole a car from a car yard, that Luke was a paedophile. I knew this was why his dad did not welcome him to stay at his house with his dad's daughter from another wife.

A repetitive, simple fact in this disgraceful chain of events is that none of these police officers could act, as they were so heavily involved in criminal conduct. Some police officers had even encouraged Luke's criminal and intentionally malicious behaviour towards myself. The self-made gangland criminal by 2014, Gypsy Joker's son, had most police officers hiding in embarrassment as he knew of the infidelity, paedophilia, and overall, the low standards of these men, and he was not hiding it in negotiations via his legal defence. This activity, after years of police forces failing to act against the criminal, is very evident and very illegal, an extortion-type use of police misconduct in legal negotiation. A police force hiding from their own crimes, while I was victimised for years. Felon turned human resource when convenient for himself and the police forces. Luke Hubert Scheidl (DOB 1981 Mount Gambier District, South AUS) had been encouraged by Jarrod Anderson of VICPOL, Portland police station bordering Mount Gambier South AUS, and Darryl Peter Wright (SAPOL, African Army - International, AF), who were officers illegally involved in running the sex industry and ICE trade to engage dangerously surrounding my life.

I was concerned about Luke's dodgy informant's trajectory, knowing that his father, for years, imported men to teach people how to cook methamphetamine and to commit violent crimes; this union was a National Security risk.

Let alone the fact that police are allowing felons who have committed crimes against victims to negotiate leniency due to the police forces' venal state, which was not only a National Security risk for officials to be blackmailed by international organised crime, but also life-threatening, reckless endangerment. Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia), was involved with the international dark web Silk Road trade and literally selling myself on it at this time. VICPOL negotiated, and engagement with him is an outrageous form of criminal negligence. One of the most dangerous forms of solicitation passed off in a cover-up of police and governance paedophilia, negotiated with a paedophile. SAPOL is engaging in negotiations after VICPOL successfully used Luke in their cover-up plot in 2014/2015.

Informants and police under the association laws provide misleading information to law enforcement, which is also provided to the courts; offenses and activities that are never tried or tested via court proceedings are used to sway judicial outcomes. SAPOL intentionally and maliciously engages in these activities to disadvantage victims and protect the offenders with whom they are involved.

To me, you would only accept this person as an informant to try to buy his silence. I watched the police force and Luke Hubert Scheidl (DOB 1981 Mount Gambier District, South Australia) manipulate the police system for years. This manipulation allowed gangs to gain a heavy advantage over an already heavily

compromised police force. Gypsy Joker Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia), aligned with high school friends and COA gang members who went on to join the Comancheros (Australia), at this time clearly owned by their USA Bandido counterparts, got away with nearly ending my life. Boys in their youth who were heavily involved in the peddling of bestiality and allowed to terrorise the state of South Australia and Victoria. Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS), a shadow of the man I had a meaningless relationship with upon his return to Mount Gambier, South AUS, from Portland in 2014. Police forces allowing him to wheel and deal for them and his gang friends, as well as taking heavy drugs and relying heavily on his Gypsy Joker heritage – activities engaged to his own, police forces, mine, and Australia's National Integrity's detriment.

Understanding the crime of Solicitation and the laws surrounding the circulation of revenge porn:

Definitions · solicitation /səˌlɪsɪˈteɪʃn/ noun

1. the act of asking for or trying to obtain something from someone.
2. the act of accosting someone and offering one's or someone else's services as a prostitute.

These crimes, which Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia) engaged in (amongst other crimes), are established. Proscribed under law SECTION 474.17A CRIMINAL CODE ACT 1995 as follows:

(1) A person who conspires with another person to commit an offence punishable by imprisonment for more than 12 months

Section 334 of the Criminal Code 2002 - CRIMINAL CODE 2002 - SECT 334 Conspiracy to defraud;

(1) A person commits an offence if the person conspires with someone else with the intention of dishonestly obtaining a gain from a third person. Maximum penalty: 1000 penalty units, imprisonment for 10 years, or both.

Using a Carriage Service to Menace, Harass or Cause Offence is a crime under Section 474.17 of the Criminal Code Act 1995.

Section 474.17A Criminal Code Act 1995. Aggravated Use of Carriage Service to Menace, Harass or Offend is a crime under Section 474.17A of the Criminal Code Act 1995, which carries a maximum penalty of 5 years in prison.

To establish the offence, the prosecution must prove beyond reasonable doubt that:

1. You used a carriage service

2. You did so in a way that a reasonable person would regard as menacing, harassing or offensive
3. The use involved transmitting, making available, publishing, distributing, advertising or promoting material, and
4. The material was private sexual material

A 'carriage service' is defined as:

'a service for carrying communications by means of guided and/or unguided electromagnetic energy' which includes telephone calls, text messages and internet transmissions, such as emails and the use of social media sites.

The use is 'menacing' if it includes:

An express or implied threat of detrimental or unpleasant conduct which is likely to cause the other person to act unwillingly.

The use is 'offensive' if a reasonable person would regard it as being so the matters to be considered when deciding whether the use is offensive include:

1. the standards of morality, decency and propriety generally accepted by reasonable adults
2. Any literary, artistic or educational merit of the material, and
3. The general character of the material, including whether it is of a medical, legal, or scientific character

Harass can be concluded as ‘to disturb, bother or pester repeatedly’.

‘Private sexual material’ is that which depicts:

An adult engaged in a sexual pose or sexual activity, or

An adult’s sexual organ or anal region, or the breasts of a female, where a reasonable person would expect the material to be private.

Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) is guilty of countless crimes surrounding solicitation via the international Silk Road (dark web). Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia), with a history of solicitation and the circulation of pornography, has no legal defence regarding these crimes.

Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS), in 2014, after threatening my life in 2012, saved my life from police human resource David Newton Bradley (DOB1981, Mount Gambier District, South AUS). A short-lived heroic feat made to avoid jail time, it seems. Police are allowing this feigned concern to overlook him as a threat to my life, even though the strangulation and threat to life from 2012 were confessed to the police and are on record. Such a fucked period in time for me, surrounded by heavy drugs and drug users, making efforts to compromise and conserve my life. The police forces of

Australia failed to intervene because they were that venal.

I floated through it and survived despite the breaches of privacy being fed to felons, shit cops, dodgy defence personnel, and others in a plot to cause me physical and psychological harm.

David Newton Bradley (DOB1981, Mount Gambier District, South Australia), the police informant COA/Comanchero, who had attempted to cause harm to both Luke's life and my own on the same day. Two separate knives, the most volatile being his mother's kitchen knife. A premeditated act. Intervening during this attack is the opportunity Luke took to be a momentary hero—an attempt at our lives which seemed to be allowed by some police officers at the least.

Yes, life has been hectic since 2012. This incident I am about to detail is another true crime jaw-dropper scrape with near severe injury or death.

SAPOL conveniently, for the police force aligned, pimp wannabe minion David Newton Bradley (DOB1981, Mount Gambier District, South Australia) wrote the offence up as Domestic Violence when it was clearly attempted manslaughter. David Newton Bradley (DOB1981, Mount Gambier District South AUS) in 2014, after I had assisted police in the homicide investigation against David and his drug dealer Timothy Stringer (Mount Gambier District resident - 2013) grabbing a kitchen knife from his mum's kitchen which she was aware he had when she brought him to my

property to conduct the stabbing was irrefutably attempted manslaughter, with his mother an accessory to the crime. The fitting charge was the charge appealed or submitted with new evidence, which amounts to attempted manslaughter with two accounts of threat to life and two offenders involved in the crime. It was surreal to watch such corruption unfold as SAPOL pushed through the court the Domestic Violence without witnesses/victims needing to attend the court. I was highly emotionally distressed at this time, provided with no support, and not in a good place after being psychologically attacked by police forces during the investigations into the homicide (2013).

The charge choices were highly questionable, and odd commentary by police followed the incident. Dave Kyriacou (SAPOL ID 40657) claimed, “I got him away from you!” referring to David Newton Bradley (DOB1981, Mount Gambier District, South Australia) and this night. A night where SAPOL completely ignored the attempt on Luke Hubert Scheidl's (DOB1981 Mount Gambier District, South Australia) life. After he boldly invited himself into my property with “Can I come in?” he asked at the front door. The maturity of my mind held the silent reply, “You can cum wherever you like.” By this stage, I liked Dave Kyriacou (SAPOL ID 40657). His brash approach was intriguing, but his manner after grabbing his SAPOL chest camera this day and filming my cleavage was not so impressive.

It would have to be one of the most ambiguous years of my life, 2014. As you read the detailed accounts that led to me being almost seriously hurt or killed by wannabe organised crime and numerous threats, the Australian Police Force was aware of. I played whatever role I needed to survive; tough talk became the new way of communicating my way through a STARForce-made mess. Life in the shadows of the elite STARForce team of the South Australian Police Force. A police force that recklessly endangered my life so much that I could have died at the hands of known felons countless times, let alone the numerous sex offences.

Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia), who had gotten himself involved with felon Sean Irvine (DOB 18 AUG 1981) during and after our breakup in 2012, unknowingly to me, literally saved me this one time from a war he created.

His efforts to save me, further detailed, were carried out by him holding the front door from being hip and shoulder-opened by David Newton Bradley (DOB 1981, Mount Gambier District, South Australia), who was trying to stab us with his mum's kitchen knife. Luke Hubert Scheidl (DOB 1981 Mount Gambier District, South Australia), engaging in heroism, was more of an effort to save himself from what he had done to me with his friends than anything else. His intervention in the plot to stab me was because he was more scared of the repercussions of hurting me than his petty gangster mates. Except wannabe Former Hells Angels bikie

Graham Daniel Young (DOB15MAR1975), Luke was shit scared of Gypsy Jokers bitch former Hells Angels bikie Graham Daniel Young (DOB15MAR1975).

NOTE: At this time, I did not know there was a plot to hurt myself.

This organised crime attack was directly related to the attack on my person and property in 2012. My tyre that was slashed when my dad was attacked, my AUSTudy violated, being sold on the dark web via revenge porn, all organised crime and police force facilitated. The police aligned criminals that had been manipulating Luke in 2012, which led to him attacking me for the first time, tangled up behind the crimes. I was wary in my interactions with Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) in 2014. Evidently, he was heavily on ICE, and he could not be trusted in any capacity with my life, regardless of his heroic moment.

Dave Kyriacou (SAPOL ID 40657) transferred his position from Mount Gambier to Adelaide in approximately 2016. Dave Kyriacou (SAPOL ID 40657) and his knowledge of David Newton Bradley (DOB1981, Mount Gambier District, South Australia) breaching his Intervention Order and coming within one hundred metres of me numerous times, on a constant basis in 2015, which Dave Kyriacou (SAPOL ID 40657) allowed was warning enough that Dave Kyriacou (SAPOL ID 40657) was corrupt as fuck. The

odd transfer out occurred after a discussion between him and me via his SAPOL-issued sergeant Nokia regarding Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy). Dave Kyriacou (SAPOL ID 40657) stated that it was above his pay packet to see Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) dismissed for his misconduct.

By 2019, it was more than apparent that the ongoing surrounding me were not just the bikers' backlash, but rather a collaboration between the government, the bikers, and the police. Witnessing government contracts awarded to offenders, business opportunities, and tax exemptions, grants, criminal concessions, even bids for citizenship as rewards for harassment, sexual assault, and assisting police torts in the character assassination, aligned with Dave Kyriacou (SAPOL ID 40657), the contents of his false statement.

Torts, which in 2022 astronomically escalated to the point where I could have been murdered by felons while falsely incarcerated – keeping in mind, some felons believed I was an informant while being absolutely screwed by police. WTF. Luckily, I was seen as the biggest psycho in media protection at Dame Phyllis Frost Centre (DPFC) by fellow felons. Admittedly, I was surprised by this – what did the screws spread about me, or maybe the accusation of stalking police was enough to think I was a nut. Either way, I was falsely incarcerated for three weeks after years of law enforcement breaching the Crimes Act, torture acts,

police disciplinary acts, and numerous other attempts to push me to the refuge of suicide failed.

When I endured the most substantial tort the police could engage in – false incarceration. Torts which, as stipulated, were repeated by SAPOL 2024, stealing basically half a year of my life, hoping I'd languish and learn to suffer in silence, seemingly, no such luck for these Ugly Heroes.

“It is difficult to imagine, for a person who is otherwise generally a law-abiding citizen, a more humiliating experience, or a greater shock to one's equilibrium than being forcefully deprived of one's liberty for even a relatively short period of time in entirely unjustified circumstances. This is all the more so where that curtailment of liberty is accompanied, as in the present case, by the detained person being handcuffed and marched through a crowd of onlookers and then incarcerated in a police paddy wagon, locked in a cell at the police station, and fingerprinted and photographed as a criminal. Not surprisingly, the whole experience must have been both humiliating and highly embarrassing.” - Quote regarding incarceration torts.

Anyone who knows me knows I've NEVER been a prostitute. I have held a National Police Clearance since the age of sixteen. Numerous government positions and countless significant life events have made this an irrefutable fact. Yet in 2022, after assisting police with some of the most gnarly incidents in Mount Gambier districts, South Australia, and reporting some of the most vile and corrupt police in SAPOL and VICPOL

police forces, I was incarcerated illegally by VICPOL, assisted by NSWPOL and the AFP.

Torts of life-threatening malicious intent that police under AFP Commissioner Reece Kershaw (DOB 1966, AFP ID 4742), SAPOL Commissioner Grant Stevens, VICPOL Commissioner Shane Patton, and NSW Police Commissioner Karen Leanne Webb (NSWPOL May 1987), successor of 22nd NSWPOL Commissioner Mick Fuller, were clearly approving of on some level if not entirely.

A coordinated operation by police targeting me, a whistleblower who had irrefutably proven police involvement with ICE dealing, paedophilia, and a government cover-up of crimes against disabled persons. I was detained for nearly a month across two countries (Australia and the USA).

Three days in the vulgar conditions of USA detention, I was given a tuberculous vaccination without prior checks to my medical records – a severe health risk had I recently received this vaccination.

Myself, a 'protester', the Victorian judge acknowledged that I should not have been incarcerated over text messages which overlooked contents detailing corruption (malpractice and maladministration) stemming from the nature of sex offences by police, domestic violence offending, and other serious misconduct.

This is the stuff I don't believe authorities can keep oppressed from media interest in the end. What an Epic

effort to use aspersion, perception, and defamation to character assassinate an activist, victim, entrepreneur, truth teller.

Back to the revenge porn circulated on the dark web, which has been seen by countless felons, police, CIA, FBI, and all gangs associated with Silk Road, and more of what went down surrounding that shit show ordeal involving these two countries.

First, here's a small, timely fact about the gang environment of the USA. In the USA, the Crips, the 'blue' gang in America, and their enemy gang, called the Bloods, are 'red'.

I witnessed these international gang activities and alliances first-hand in 2014 and 2019. Exposing the level of illegal activity and enormous desperation from the police to the New York FBI, while the Crips affiliated and STARForce sent rapist named Peter Ottens (Felon AUS, USA, UK - DMT Institute International), terrorised my life. Peter Ottens (Felon AUS, USA, UK - DMT Institute International) had sex offended in America and got away with it, he confessed to me. Stupid thing to say, really, but he was bragging as criminals do, especially predators. Sex pests encouraged by police thinking STARForce had damaged my credibility, so much so that he was going to get away with his targeted sexual onslaught. Like most of these creeps did. Dave Kyriacou's (SAPOL ID

40657) false statement was written to assist the cover-up of Kurt Gavan Slaven's (DOB 07NOV1958; SAPOL/ADF - Navy) sex offending, the influence of this agenda that directly led to rape and much sexual violence.

My interest in joining the FBI began in 2019, after reading former director James Brien Comey Jr.'s (DOB 14 DEC 1960) autobiographies.

Travis Paul Enmon Jr (DOB16JAN1989, Texas USA) proposing this year (2019) as with in many years to follow, without SAPOL and police forces agenda to cover up their involvement with the sex industry and paedophilia I would be an American citizen - fashion designer/founder Barbwire Noose® living in America finishing this Autobiography, married to Travis by 2022—a bitter-sweet reality.

In 2023, I was granted a Consulate Green Card for 2024 to reside in the USA, a possibly lifesaving gesture that may have arrived too late. I had little faith in American law enforcement at this stage, just as I had in Australian law enforcement. My life was a game for these people, a game that I was not willing to play, and everyone involved seemed fickle regarding saving me. I would have been better off murdering one of these men. A murder sentence was a shorter assignment than a decade-long endurance of sex offences. This is precisely where my head was at as I planned to leave for New York, USA. Only god knew how this was going to pan out as a resolution.

My brand is my One Love. My life revolves around what Barbwire Moose® requires to succeed. A little more on my gem, Barbwire Moose®, it was incorporated in 2012. This criminal activity heavily disrupted my brand's growth, which is precisely what the SA Labor government wanted. The success of Barbwire Moose® made it impossible for them to bury the criminal negligence of the disabilities sector, which they were so desperate to hide. Especially considering Jay Weatherill (DOB 3 APR 1964) was sure to see his career end prematurely if it did, as with others in his cabinet and successors. Barbwire Moose® was gaining popularity fast, the streetwear production with supply chains stemming from the USA. The brand produced clothes with minimal investment and required little financial resources. I was left with little manufacturing responsibility to manage, unless I wanted to engage in-house manufacturing, which was usually for myself at this stage. By 2021, little input from me to manufacture goods was required, after years of heavy disruptions from governance, sex offending gangs, and law enforcement, sales were basically non-existent – nothing to brag about, and all profits were invested into the ‘A Better World’ initiative.

As Lead Designer for streetwear production, I would only be responsible for approving designs and creating signature prints for the collection - a small commitment. I wanted to focus on the High Fashion elements of the

label. Designing for fashion runways with professional tailors, leaving room for me to study law and develop external interests in acting, Music, and politics, etc. Incorporating my brand was set to free up a lot of my time. I have always worked and studied, often with two jobs, so I knew I could handle my hands in both my brand, external interests, and law enforcement.

I am sure by now you realize the plot of the Disabilities Sector administrative corruption was to cover up the NON-EXISTENCE of a police investigation of the raped spastic woman and other mute, non-cognitive victims that could not communicate the criminal offending committed against them, could not speak of their pain and suffering. Under Government care in the Sharley House facility under state Labor Mike Rann (DOB5JAN1953 MP Labor) Government, no rape kit tests were ever conducted, which was one of the many disgraces that emerged from the compromised and neglectful investigations of Australian Police Forces during the federally overseen homicide debacle (2013 - 2016). Such unruly attacks on my life unveil the underlying agenda of political gain through association and loosely framed legislation. *The misuse and abuse of association laws for police and political gain. Strategic narcissism policies and strategies created based on perception rather than on what the situation regarding biker clubs demanded. The assumptions that underpinned these policies and strategies often going*

unchallenged provided deceptive rational for foley for over a decade.

Foley I was the bearer of at the hand of my family, a government that wanted to cover up ignoring serious crimes against disabled persons and a police force that wanted to cover up a prostitution industry it was heavily involved in which was made up majority in part of thirteen to eighteen-year-old children, many ten to thirteen-year-olds spoken of by sex industry workers. Outrageous Facts, this autobiography lays the Ugly truth out boldly, bluntly, and does not withhold the disgusting details that all walks of life overlooked for petty benefits. Never in life is there a time when Human Rights don't matter.

Australian law enforcement used a range of torture techniques against myself. Governments have isolated and demonised me; flatly rejected evidence of ill-treatment; refused to respond to specific allegations; and divested themselves of any responsibility. Criminal negligence everywhere.

Australia is a party to seven core international human rights treaties. The prohibition on torture and cruel, inhuman, or degrading treatment or punishment is contained in article 7 of the International Covenant on Civil and Political Rights (ICCPR) and articles 1, 2, 3, 13, 14, 15 and 16 of the Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment (CAT).

Accordingly, no legislation, policy, or program should permit the infliction of torture or cruel, inhuman, or degrading treatment or punishment.

Torture is criminalised in Australian law, and acts of cruel, inhuman or degrading treatment are covered by a range of offences in existing Commonwealth, state and territory legislation. The victims of torture must have the right to complain to competent authorities and to obtain redress. Evidence obtained as a result of torture must not be admissible in criminal proceedings.

The prohibition on torture is an absolute right. This means it cannot be limited or qualified under any circumstance.

Article 7; ICCPR states Freedom from torture and other cruel, inhuman or degrading treatment or punishment.

Article 11; ICCPR Freedom from imprisonment for inability to fulfil a contractual obligation; Article 15 ICCPR Prohibition against the retrospective operation of criminal laws; Article 16 ICCPR Right to recognition before the law. International human rights law recognises that few rights are absolute and reasonable limits may be placed on most rights and freedoms. Absolute rights cannot be limited for any reason. No circumstance justifies a qualification or limitation of absolute rights. Absolute rights cannot be suspended or restricted, even during a declared state of emergency.

Quoting the 35th president of the United States, John F. Kennedy — 'The rights of every man are diminished when the rights of one man are threatened.'

The Universal Declaration of Human Rights (UDHR) is a milestone document in the history of human rights. Drafted by representatives with different legal and cultural backgrounds from all regions of the world, the Declaration was proclaimed by the United Nations General Assembly in Paris on 10 December 1948 (General Assembly resolution 217 A) as a common standard of achievements for all peoples and all nations. It sets out, for the first time, fundamental human rights to be universally protected, and it has been translated into over five hundred languages.

Australia boasts of its commitment to human rights with this charter, yet Australia, in my opinion, showed few signs of Human Rights standards, with many countries watching our low standards.

The conduct you read about throughout this autobiography is Truly Abhorrent. Evidently illegal, explicit at times, and Impossible to have occurred without the will of the government (AUS and International). A state Labor government is hiding its floundering actions from my reports of neglect and serious criminal conduct in the Disabilities Sector, which has a profound influence on the angle the police force took to cover up criminal conduct in the policing sector.

Both Liberal and Labor governments, at both the federal and state levels, governed the serving police forces

while I reported police corruption. The Right and Left wings belong to the same bird when it comes to elite crimes, I learnt first-hand. A member of an elite, socially prestigious family myself, I was not willing to be discarded as a woman by powerful men. Have my life enslaved to victimisation for heinous sex crimes. Government or Police, I did not care. I was not going to be ignored while whistleblowing in the policing sector, like the disability sector has managed to achieve for years. The policing sector, despite many police officers being aware of the severe state of compromise, and misconduct being whistle-blowen for over a decade, did not let up on covering up malfeasance in a hurry. The fighting for justice and resolution - hardcore, badass, brutal. A character assassination campaign so intensely actioned, aimed to avoid any credibility to my person, which at the expense of the public was achieved in the small-minded media circles of Australia, at least. The discrediting of my word was constant for years as I was not only revealing the years of policing compromises to my life, but the Mike Rann (DOB5JAN1953) government's extensive criminal conduct in governance. Everyone's heard of the Mullighan report, right?! If not, get on trusty Google and clue yourself up.

The Mullighan Inquiry/Report; a \$13.5 million inquiry that considered hundreds of allegations of widespread child abuse within government and non-government institutions, spanning forty years. Mike Rann (DOB5JAN1953), aligned with paedophilia in the South Australian Government, agreed to apologise to victims, and set aside more than 2.2 million AUD to prosecute

child abuse cases arising from the inquiry, but stopped short of establishing a special compensation fund for victims.

Reading article: Mullighan report reveals shocking child abuse; journalist - Nance Haxton; posted 1 April 2008, updated 1 April 2008. '...Defenceless and powerless, the children were put in care as far back as the 1930s, and as recently as 2004.

Commissioner Ted Mullighan's report was handed down in South Australia's Parliament today.

NANCE HAXTON: The South Australian Government has committed itself to a formal apology to victims, and to an extra \$2.2-million dollars to prosecute cases arising from the Mullighan Inquiry.

The Premier Mike Rann (DOB5JAN1953) today commended Mr Mullighan for his report and said the Government would respond to each of his fifty-four recommendations by June 19th.

MIKE RANN (DOB5JAN1953): Child sexual abuse, paedophile behaviour, **the rape of children not only robbed these people of their innocence, but also stole from them their past, their present and their future.'**

It made me physically nauseous to read of the psychological trauma this sex offending ex-state Premier happily inflicted on victims, at least associated with his own crimes, by depriving these survivors of the special financial compensation fund at this time. After witnessing the vile cover-up of sex offending in

government disability care facilities, also uncompensated and unacknowledged, I was determined to stop elite interference with justice.

The illegal operations, administrative cover-ups of criminal offending, and criminal negligence against clients of the Disabilities Sector needed redress. So did Mike Rann's (DOB5JAN1953 MP Labor) association with notorious Adelaide paedophile Bevan Spencer von Einem (DOB29MAY1946). A friendship, I believe, that would have also indulged in the psychological trauma caused to uncompensated victims. Don Dunstan (MP Labor DOB21SEP1926 – 6FEB1999) was one of the desperate and vile sex offenders who, for their lifetime, suppressed names as they indulged in elite paedophile parties scouring for boys around gay bars, male toilets, and like-minded known hangouts.

Forced to seek my own resolution in such a compromised police climate. I ran my own personal investigation, diary recording events to begin with, as I did whistleblowing in the Disabilities Sector. This is how I discovered Mike Rann (DOB5JAN1953) was a paedophile, via a victim of Bevan Spencer von Einem (DOB29MAY1946). A victim who participated in a Flinders University research project held at Yatala Labour Prison (YLP), South Australia's metropolitan induction and reception prison. It accommodates male high to medium security prisoners, including

accommodating Mike Rann (DOB5JAN1953), a broadly known associate of Bevan Spencer von Einem (DOB29MAY1946). Ugly Heros (this book) documenting the corruption that has stemmed from homosexual grooming rings linked to government and police - predominantly married men hiding homosexual tendency, malfeasance leading to criminal negligence, paedophilia in general, and a cover-up conducted at all costs while I and disabled victims sort resolution for sex crimes.

The truth so badly needed to be public in 2019 when it was, let alone in 2025. How is it that the Police Forces of Australia were aware, but no one told me who was attacking me or that my life was being seriously threatened and abused by police and criminals in a cat-and-mouse game?

Without Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS) saving my life and telling myself that the police had allowed the Gypsy Jokers to drug and rape myself as well as exploited my life for years as bait - the entire police force, including Federal Police would have ALL perverted the course of justice and continued to commit unlawful and grossly negligent acts against my persons without bounds. I'd be dead right now if I didn't know my life was being played as a game, and more importantly, if I were not partaking in the game (necessarily not willingly) to get myself out of

it. I was shocked to hear the extent to which the Australian Police Force had used me. Evermore, shocking was to hear how illegally and utterly disgustingly the Australian Police Force runs investigations and allows police officers to listen to and enable persons to be raped with no intentions of charging the offenders. The Endless admissions of my life being used and compromised by SAPOL that caused grievous bodily harm and could have killed me in 2012 - 2023 are astonishing.

Multiple police personnel were criminal offenders against me by 2020. Dozens of police officers were facing Criminal Charges, including Duty of Care - Gross Negligence, Negligent Investigations, Obstruction of Justice charges, Stalking, Defamation, Assault, and perverting the course of justice if SAPOL were to front a Royal Commission with the entire Australian police force involved in their illegal and unethical dramas.

The need for National Integrity Commission scrutiny, now implemented over Australian Governance, was vital to address out-of-control, unruly governance. Extensive, incontrovertible proof of unconstitutional conduct regarding the severe misuse of my life by SAPOL and the Australian Police Force has been published. The vast and Irrefutable evidence also of the Australian Police Force being riddled with bribery-taking gang compromises, a National Security risk which public scrutiny and exposure could resolve.

The Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia) who saved my life was the Only Luke I really knew, a protective big boy, not knowing Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia) personally before our relationship, hearing mixed gossip regarding his nature during our relationship. I never judge a person based on gossip, salt dressed as sugar; much of the time, it is the opinion of others.

Uncle Gregory Hobbs (DOB 1956, South Australia) always said opinions are like assholes, everyone has got one.

As a result of giving Luke a go, Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia) displayed a heroic moment that ended up helping the police with the Gordon Tearonui Hamm Homicide.

He was visibly scared to start with to be speaking to some police of SAPOL, until after a while, he got away with increasingly more violent crimes, and with police encouragement, he engaged in perjury to obstruct justice. Personally, I recognised this. The police were not so witty, despite my written and verbal outcries.

Each police officer I trusted, the very few I wasted my time with, proved to have vested interests in the illegal industry, predominantly the sex trades. Trusting both the SAPOL officers displaying a weird obsession with me to begin with, until a forced relationship with Damian H Ferrari (DOB 1966, Beaufort, Victoria AUS - VICPOL) told me not to. Damian H Ferrari (DOB 1966,

Beaufort, Victoria AUS - VICPOL) called Dave Kyriacou (SAPOL ID 40657) ‘lyrical’, referring to his Bluetooth and digital manipulation of song lyrics – psychological warfare—my devices, heavily used and abused for illegal psychological warfare spanning a decade. I live with no Real Privacy. Darryl Peter Wright (SAPOL, African Army - International, AF), Damian H Ferrari (DOB1966, Beaufort, Victoria AUS - VICPOL) informed me, was the most corrupt and damaging SAPOL police officer I trusted. Quoting Damian H Ferrari (DOB1966, Beaufort, Victoria, AUS - VICPOL), who stated that Darryl Peter Wright (SAPOL, African Army International, AF) was “setting myself up with my family”. A comment I did not understand when it was first made. Damian H Ferrari (DOB1966, Beaufort, Victoria AUS - VICPOL) was right, I proved in 2019, Darryl Peter Wright (SAPOL, African Army - International, AF) had been trying to set me up as a prostitute, claims made by my uncle Gregory Hobbs (DOB1956, South AUS). I had trusted the right level cop - an ICAC permitted police officer, though Darryl Peter Wright (SAPOL, African Army - International, AF) proved to be one of the most spiteful, destructive, venal police officers I encountered over this decade of institutional abuse by police forces. The claims of Darryl Peter Wright’s (SAPOL, African Army - International, AF) involvement in the sex industry as a client emerged initially in 2015 and were conclusive by 2018. Darryl Peter Wright’s (SAPOL, African Army - International, AF) use of prostitutes, at the least, one of the reasons he was protecting the sex industry, and felons like David Newton Bradley (DOB1981, Mount

Gambier District South AUS), Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS) and paedophile Luke Ryan (Mount Gambier South AUS District, known Catholic Family). Darryl's involvement with the illegal industry and pimp policing ambitions were irrefutable by 2019: Four years after Darryl Peter Wright (SAPOL, African Army - International, AF) stated his famous last words, "I'll look after you" to me. Words I'm sure he meant from his level of comprehension at the time when involved in a swab test illegally conducted by the illegal operations of Detective Gary Wayne Sporten (SAPOL ID 56173) in my Penola Road property. An apparent 'test for marijuana' nearly a week after years of torts and countless rumours that my dad wasn't my dad as well as claims, I had SID'S. In 2007, I was tested for STDs after I thought I contracted the Papilloma virus from Jason Scott Parker (DOB14MAY1981) - no STDs were detected. After years of being used as rape bait and drug into a relationship with a sex offending VICPOL police officer, in 2019, I had two STD tests at two separate doctor clinics in my hometown of Mount Gambier South AUS - these tests were also negative - NO STD's.

Darryl Peter Wright (SAPOL, African Army - International, AF) had a desperation to cover up his involvement in the illegal industry and gang alliances, leading to the officer being involved in serious torts of a life-threatening nature with the police. My owl was stolen from my residence. It was returned just before the police announced their cover-up. The stolen property was taken via trespass, but the SAPOL refused to

fingerprint it or take it as a report at this time. The Owl, a porcelain ornament, in the later part of 2019, represents the actions of a police officer engaging in petty theft in corrupt desperation. I had been wondering about the ICAC South Australia officer's intentions and integrity since 2016; by 2019, I asked no more. Darryl Peter Wright (SAPOL, African Army - International, AF) is irrefutably corrupt and targeting me. ICAC SA was irrefutably involved in covering up police sex offences stemming from these investigations after years of reporting with no commendable outcomes.

By 2020, I had assisted in every investigation thrown my way. Including a sexual assault with a sawn-off shot-gun offence reported to Mount Gambier police who failed to lay charges regarding the offence against a young female victim when they had the offenders name and locations numerous times, only to see these serious criminal charges go nowhere, my outrage at the Mount Gambier police station was absolute and at a level of unbeatable determination. A young woman was raped with a gun present. Bravely reported in 2019 was another sexual assault investigation getting nowhere because of the Mount Gambier CIB venal state. The Mount Gambier CIB pretends to be the Hells Angels, Gypsy Jokers, Comancheros, and anything else in between to gain power in the small community. Trying to elevate wannabe Former Hells Angels bikie Graham Daniel Young (DOB15MAR1975) - a Gypsy Jokers mix breed crim, at any cost – lies and criminal alliances

at the expense of vulnerable community members, and I did not like it.

I had no rights, no rights like a normal citizen, as my life was literally being used and abused by SAPOL and police forces with no accountability. A fact unbeknownst to me until Gordon Tearonui Hamm was brutally murdered. My help to VICPOL officer Aaron Roche (VICPOL ID 33388) in the 2014 Gordon Tearonui Hamm tragedy was a very telling blessing and a curse.

It is an evidence-based fact and irrefutably established that SAPOL, VICPOL, NSWPOL, and the AFP were corrupt as fuck by 2016 when my property was illegally acquisitioned. 2016 was the year I started to trust no one, and have trusted no one basically since then. I always err on the side of caution with people these days. The only person I've seen with no 'price' to be bought, so to speak, is me. To me, that's a conclusive fact enough that money talks and few arses walk from that, except my asshole at times. I Bow for NO Man.

Investigating personally what was going on in my life and this sudden influx of prostitution stuff, which had Nothing to do with me, until I had enough answers that it was making sense. The sense is a circulation of malicious accusations with no basis, facts, or evidence in efforts to character assassinate a victim, a whistleblower in a cover-up of criminal negligence and sex crimes. I had been utilised as a 'crown witness' by VICPOL, a dangerous role that I was not asked to undertake. Witnessing illegal conduct everywhere, I

made many reports against crimes. I collated much information about all the ongoing activities surrounding me, using numerous officers, including Dave Kyriacou (SAPOL ID 40657), who no longer worked at the Mount Gambier police station. By 2019, it was concluded that the only adequate resolution was the Royal Commission into SAPOL, the Liberal government of South Australia, and Scott Morrison (DOB 13MAY1968), the Prime Minister's office, refusing to announce the Royal Commission in due time publicly—a decision seemingly deliberate to allow police to intimidate and further cover up the corruption. Power - do as I say, not as I do, and a lack of accountability, the evident legacy of Scumo's reign.

During 2019 and 2020, this autobiography was evidence in court. The police tried to misconstrue every word as I wrote it desperately. Writing for justice in a torturous moment - spilling endless truths until a Royal Commission into SAPOL was declared publicly. The *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) offence and the chain of offences committed by Gypsy Joker Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia) could not be overlooked, and I refused to stop pursuing a resolution. Darryl Peter Wright (SAPOL, African Army - International, AF), in sexual relations with women seemingly around his own daughter's age, is clearly part of the bribe scenario. The prostitute obsessed police officer blocking the intervention order applications I

made against Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) and members of my family, it seems. Legitimate intervention orders, which were well overdue by 2020, would have stopped ALL rapes against my person from occurring. Darryl Peter Wright (SAPOL, African Army - International, AF) and ICAC SA constantly perverted the course of justice, knowing I was not a prostitute, according to David Newton Bradley (DOB1981, Mount Gambier District, South AUS), who was questioned during the year 2015 by SAPOL.

The details are overwhelming, aren't they – imagine living through this cover-up. In 2015, I knew the police were trying to mock a case against me. I had been told they had my Compaq laptop. This Compaq laptop contained documents and letters regarding my reporting in the disabilities sector under the SA Labor government, and evidence against Kurt Slaven. How the fuck a laptop, hocked to a pawn shop, was in SAPOL's possession before me reporting Kurt Gavan Slaven's (DOB 07NOV1958; SAPOL/ADF - Navy) offence against me was downright weird, and if dad hadn't been the one to tell me, I would have thought the fact to be unbelievable.

Odd as fuck that the police force had my first laptop, let alone it containing the beginning of a book describing the murder of my rabbits going into the story of *Kurt Gavan Slaven's* (DOB 07NOV1958; SAPOL/ADF - Navy) sex offence. Let alone the fact that the police had knowledge of this offence and did not act on it. Plus,

knowledge of the criminal negligence in the disability sector, still no action.

I had bought the laptop from Harvey Norman with a GO Mastercard. It was a silver Compaq laptop, on which I began writing an autobiography at nineteen years of age, writing about *Kurt Gavan Slaven's (DOB 07NOV1958; SAPOL/ADF - Navy)* offence. The autobiography, starting kind of like this autobiography, was the original base manuscript for my first published book, 'The Story Behind the Brand' - Barbwire Noose. SAPOL not giving me my laptop back or asking about its contents made me suspicious, especially with contents about criminal negligence in the disabilities sector and Kurt Slaven (SAPOL & Australian Defence Force - Navy). SAPOL, I found had used my laptop to run some of the cover up campaign for the state Labor government of Jay Weatherill (DOB3APR1964), recreating documents I had written reporting on behalf of the criminally neglected disabled clients.

The fact that someone had my old laptop for years was not the worst revelation surrounding this evidence of criminal negligence. Facts are as I vigilantly proofed this book in 2023, sending it to ICAC SA and others as I corrected the many changes and mistakes made throughout My Autobiography. I found that the crucial facts about the laptop used to report disabled negligence were removed from this book, after Europe Books had read and proofed for print. The cover-up was so deep that even though I was contracted with an international publisher, someone had changed vital, conclusive, and

imperative details against the state Labor Government of South Australia, not just names associated with STARForce/SAPOL. Someone who was involved with my book's printing was an actor for the paedophile protectors. Taking out the facts that this laptop was used to report, altering the facts in such a manner could only have been done for one reason. To FURTHER cover up criminal negligence and obstruction of justice, not only defamatory but also Perjury. Perjury committed by a three-generation paedophile South AUS state Labor government. THAT'S UGLY. I wanted everyone to be as outraged as I was at this atrocious chaos. I wanted the politicians, the people, and everyone to be outraged. Criminal conduct so corrupt it was corroding governance and justice itself, the catastrophic peak of this colossal cover-up heading Australia towards a dangerous lack of integrity during the rise of the sex industry globally, overtaking the firearms and weapons trade, according to the CIA.

I don't really know how I endured it all until the resolution, other than sheer determination. Never understanding why, I had to endure these crimes for petty felons, serious sex offenders, and a politically driven cover-up. Serious criminal offences engaging a vendetta, between Freemasons and the Gypsy Jokers, police and government, plus the rest, that had NOTHING to do with me. Pain and suffering I live with every day, for the rest of my life.

What cannot be stressed enough is that these actions were conducted by elite, trusted, affluent, yet petty men trying to destroy a little girl- a police force made rape victim due to a police force gang, and many police badges with A LOT to hide. Darryl Peter Wright (SAPOL, African Army - International, AF), from 2016 to 2020, ignoring all my cries for resolution after claiming he would look after me, proved how venal this man was. It also proved, alongside many other internationally recruited police, that our intake of foreign workers into the police force can easily turn into a National Security risk and requires thorough scrutiny and more rigorous entry assessments, evidently regarding African, New Zealand, Indian, Chinese, Japanese, and Filipino law enforcement recruits.

Many Indian recruits in South AUS that I interacted with were venal, not surprising when bribes are rife in law enforcement in India, something I knew since basically birth as an Australian/Indian. My Nanna, full of stories about her trips to India, always brought back bindis for us all. My parents told me all about their experience riding the 'Palace on Wheels' to indulge my mum's heritage. A lovely train to travel on, yet when my parents embarked on their own, going to Nepal, they were lucky they had taken ample finances, it seems. They needed to buy their way with the authorities despite the progress being made in India to become a greater global leader.

New Zealand police forces are paid less than in Australia; the incentive for them to immigrate more

often than not is financially based. This amounts to the recruitment of people focused on money, not humanitarian issues, in a humanitarian role, which is self-evident – you create a venal problem. A problem that needs no explanation.

Chinese immigration in South Australia is rife with a military invasion and triads.

Darryl Peter Wright (SAPOL, African Army - International, AF) and some of his white, African friends were racist due to the volatility and violence towards the white race by black Africans in Africa. An issue brought up by Donald John Trump (born June 14, 1946) when meeting with the president of Liberia, Joseph Boakai, in 2025. Understandable, but not acceptable.

The facts of poor recruitment into vital services are endlessly flawed. I do not doubt that a Royal Commission conducted correctly or an NACC assessment of Law Enforcement would find ample evidence of national security risks via recruitment in the policing sector. Publicly disclosing all I have endured, exposed, and been exposed to in an international race to hide the truth. At the same time as I sought resolution in a governing national climate, desperately trying to silence the whistleblower.

Continuing to report all the criminals offending to the police despite their venal state and intentionally malicious ignorance. With and without a record of a

police status public, to many persons before myself. I continued to profusely request intervention orders and charges against persons who had committed crimes and serious sexual crimes against me. 2018/2019, irrefutably revealing Darryl Peter Wright (SAPOL, African Army - International, AF) was one of the Monsters protecting the Monster. Darryl Peter Wright (SAPOL, African Army - International, AF), protecting Kurt Slaven (SAPOL, Australian Defence Force - Navy) via defamation and aspersions made by my estranged family. Losers, all of them.

My family and their venal state of life, plus Dave Kyriacou's (SAPOL ID 40657) perjury, are also key factors assisting paedophiles to get away with and engage in sex crimes. Many police personnel were aware of the domestic violence (DV) avenue being used to mask gang violence, threats, etc. The extent to which Darryl Peter Wright (SAPOL, African Army - International, AF) orchestrated this detrimental, reckless endangerment with false investigations and defamation should result in charges, dismissal, and deportation from Australia. We have reasonable and fair deportation laws in this country, despite debates that can be had. 'Bad dealings' legislation and other safeguards regarding persons not born in Australia truly protect our great country if implemented.

Darryl Peter Wright (SAPOL, African Army - International, AF) and all involved, including the actions of budding immigrants, are almost unfathomable; words fail to convey the criminal and

low character of these people. Events, I, and all involved, had to digest. I, myself, driving the accountability, I also had to deal with the lack thereof in the most extraordinarily overwhelming manner.

Dealing with a paedophile agenda that persons involved hoped would kill me: the disgustingly UGLY Truths and Gross Negligence of a seriously compromised police force.

Furthermore, it was extraordinary that I had to seek an intervention order against Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia) after a recorded discussion about my self-defence and the strangulation offense with Dave Kyriacou (SAPOL ID 40657). At the time, a Senior Sergeant, Dave Kyriacou (SAPOL ID 40657) and I discussed Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia), as well as the Von Stanke (Carpenters Rocks, South Australia) and Josh Cachia (DOB 28 JAN 1992) serious assaults.

Rewarded with a promotion to the rank of Chief Inspector by 2025 for his part in the Mount Gambier Police Station's actions to protect their human resource drug dealers, pimp felons, false statements, involvement with Methamphetamine/ICE, and whatever else.

Dave Kyriacou (SAPOL ID 40657) by 2015 was well aware of threats that had been made against me as well as my desperate self-defence actions, which spanned over a decade since the murder of Gordon Tearonui Hamm. I distinctly recall conversations I had on the

phone with Dave Kyriacou (SAPOL ID 40657) before he transferred his position to Adelaide, South Australia, and I am willing to discuss this matter in court.

I am willing to discuss ALL matters in court.

Raped for years, countless sexual crimes committed as police forces desperately tried to justify not protecting me, by claiming the actions I took to defend myself, by breaking an inanimate object, were volatile. All this at a time when SAPOL, VICPOL, and the AFP worked towards putting volatile felons in witness protection. These frivolous grasps at petty charges thrown at me for over a decade in efforts to align me with gang behaviour in a cover-up. Because recklessly endangering my life, recording me in databases as a police officer, and watching and listening to me being raped wasn't enough. The truth was twisted at every angle in law enforcement's desperation to discredit a whistleblower from go to whoa.

The only reason I had to defend myself was because SAPOL was using and abusing my life in the background and had not taken the appropriate action regarding Luke Hubert Scheidl's (DOB1981 Mount Gambier District, South Australia) offending in 2012. Dave Kyriacou (SAPOL ID 40657) knew this and acknowledged my actions were self-defence. What did I do in self-defence, as we have not detailed that yet? Simply put, I drove to Portland, Victoria, AUS, and proceeded to tell Luke Hubert Scheidl (DOB1981

Mount Gambier District, South AUS) he was driving unlicensed and was unwelcome to return to my property, which I had said countless times over months. I demonstrated that I would defend myself if he returned to continue his gang-driven domestic violence by slightly damaging his vehicle, which he witnessed and cost him nothing to fix. Keep in mind, Luke had damaged my property in my house and strangled me, and was not charged for this, even though he had confessed to a uniformed police officer. My actions were not even close to volatile; they were clear actions in self-defence due to SAPOL's criminal negligence. All this went down while I was recorded within government databases as a SAPOL officer.

For over a decade, the police force failed to act on threats to my life, protecting Gypsy Joker Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia), whose defamation, revenge porn, and attacks on my person with his organised crime connections were helping law enforcement and government cover up paedophilia.

Two decades of my life had been out of control because the Australian Police Force was under the delusion that they ran gangs. And my person was being utilised by police as a cop, criminal – seemingly for whatever the fuck they wanted. The delusion that they completely controlled and spied on the gangs, giving the illusion to many officers that they were going to stop gang threats from playing out, as well as providing law enforcement an avenue to carry out gang violence themselves. A

disaster of law enforcement practices and procedures which saw Gordon Tearonui Hamm's life taken, Mick Dermody (aka to me '*uncle mick*'), and I'm sure many others, RIP y'all.

The obsessions led to myself being stalked and pursued by law enforcement, the police aligned sex industry, freemasons, and countless others in contact with these circles globally. Actions that seemingly made investigating the sex industry easy, yet outing the industry with so many police involved, it was not law enforcement's agenda to end the illegalities in the sex trade. So many police officers within SAPOL and nationally involved in insidious misconduct, so many officers wanted to cover it up; the female police officer's suspicions and envy were easily exploited, so they did nothing, and I, as a victim of a police predator, found this extremely hard to witness. The gruelling experiences I endured for justice, contained within this autobiography, and the gripping details of my desperate self-defence on an inanimate object - Luke's vehicle- are contained within Chapters Five and Nine, with Chapter Nine listing numerous police officers and their misconduct.

Chapter Nine also contains my recommendations for Royal Commissions to stop police turning into rapists who stalk the victims of sexual crimes after viewing sexually explicit photos and footage they are privileged to investigate. This obsession is a risk in policing, especially in this digital age, to which gangs are playing

into due to a lack of integrity and an unethical respect towards the community, the policing culture has in Australia and beyond. Dehumanisation tendencies, superiority complexes, misogyny, venal and criminal employment avenues, plus the insidious lunchroom gossip mentality of law enforcement, allow the most hideous crimes in society to flourish.

Police officer or not, I certainly have enough experience and research to have an opinion.

Stipulated bluntly throughout this autobiography, you are left wondering, how the Fuck was my life being violated with no formal contract to SAPOL? Never being paid a cent from SAPOL while recorded as a police officer, and never being paid as an informant (which I am on record refusing to be) - SAPOL had literally just used and abused my life in a gangland war they are involved in, and I am not. Basically, all my life. How these officers were allowed to collect intel and run investigations leading to grievous bodily harm, or worse, as in Gordon Tearonui Hamm's case, death. This is highly illegal and absolutely mind-blowing in terms of governing criminality.

No Duty of Care, gross criminal negligence, no legalities - unconstitutional, and then the lack of outrage regarding paedophilia, violent crimes, and all these concerns in writing – Australian law enforcement governance is corrupt to the core. Over a decade

fighting for my constitutional and human rights, I couldn't believe what was happening.

There is no doubt this cover-up was a goal supported nationally by government officials, judges/magistrates, many of the seedy old men Commissioners and Police, ICAC/IBAC investigators - all involved in the cover-up of police heavily using and abusing prostitutes. Without outing this activity, undeniably, this corruption eroding the justice system and policing itself would have continued. I was forced to dedicate myself to every case abandoned by substandard police during this period. As the cases were resolved, my life was severely endangered. I felt overwhelming frustration and emotional distress completing operations for the police that were supposed to protect me and had a duty of care regarding my life. It was like living the Song 'Passive' by Band TOOL. The song line 'You disappoint me, maybe you're better off this way,' exactly how I felt about the corrupt, creepy police. Never forgetting We the People, I soldiered on. The police were not better this way, corrupt and rotten from the unconstitutional powers of the association laws.

The police certification I was cursed with is legal, yet a controversial move by the then Police Commissioner. Malcom Hyde, then Police Commissioner and a friend of my Uncle Gregory Hobbs (DOB1956, South AUS). Malcolm Hyde's background was with Victoria state's police force, becoming South Australia's Police Commissioner from 1997 until 2012. Clearly, there is a

conflict of interest regarding SAPOL police operations to employ an ex-VICPOL police member at the top of their ranks. VICPOL police operations were evidently on a different operations trajectory as the homicide case of 2013 revealed. Issues with undercover operations span across decades in both the Victorian Police and the South Australian police forces. Intel shared via the association laws used for political gain, which irrefutably reveals that National Security threats can be posed by law enforcement working on both sides of the fence. VICPOL police were concerned three years before the murder of Gordon Tearonui Hamm regarding the venal state of their undercover operations. Here's a good example of why police should really stay on their side of the fence. Because they are human, and humans make mistakes. That stated, mistakes with knowledge in policing can cost lives.

Article extract titled - *Two Vic cops caught up in drug probe* By Greg Roberts on November 4, 2010, at 3.36 pm states as follows: Two Victorian police officers, who were involved in a relationship and became heroin addicts, are being investigated and may face criminal charges.

The man and woman had both worked as deep undercover operatives for Victoria Police.

The senior constables were arrested and suspended in August, while the male officer has since resigned.

The pair are accused of committing credit card fraud to fund their heroin use but neither has been charged yet.

The case has raised fears the pair's addiction may have put other undercover officers' lives at risk and compromised investigations into criminal gangs.

The leaks and links law enforcement have to compromised investigations and fumbled operations are real.

Now let's finish off the ins and outs of this Certificate three in policing databases, which I was 'gifted'. To validate myself, holding a police certification issued illegally until I had recognition of the process, you could legally apply prior recognition to study components. The police certification, a Certificate III, was well below my intellectual capacity; I was well overqualified intellectually for the role.

As for conflicts of interest, well, that's debatable. An upstanding citizen who did not break the law, flung amongst non-law-abiding police personnel and gangsters, severely lacks duty of care at the least. Yet shows my capacity for integrity in such a venal policing environment. There is seemingly a greater conflict of interest in disregarding a credible victim and witness, considering felons are used as human resources and then placed into witness protection.

I believe I have acted in self-defence and the best interests of the police and the community regarding the certification's validation despite my distrust and disdain for some in the force.

The quick debate of Physical fitness in the policing role is simply a petite build between 48 - 52 kg and fit since youth. I qualified in 2014 as fit enough to pass Australian Federal Policing fitness testing. I read it on the Facebook recruiting page and could easily achieve the sit-ups, push-ups, and beep test requirements. In high school, I qualified for Army enrolment.

Downloading and printing the entirety of the Australian Army website and the training schedule. I tested myself for military entry and was physically fit enough to enter the defence force, also as a teen. My fitness level has never floundered, and only gets better with age. As for my skills using a weapon, well, I'm better than a lot of blokes I know with guns, bows, compound, and crossbows. I can drive any automobile, small trucks, farm machinery, and ride motorbikes.

The TAFESA Police Certification, which I was clearly issued unbeknownst to me in 2010, let alone again in 2014 and 2016, is real. I have records personally, screenshots, and publicised enrolment documentation (included in this book), which proves beyond doubt the level of operations that have been conducted out of my back. I completed the police initial enrolment with high academic ability achievement. Yes, that is an admission that I actively participated in this police certification by SAPOL during the homicide investigation. A bitter-sweet decision considering the criminals involved with SAPOL and their severe criminal negligence surrounding the accreditation: my aptitude test results also screenshot evidence of the ongoing circumstances surrounding my rightless, righteous life. Numerous

frontline personnel have also been exposed to the police certification records in government databases intermittently for years. It surprised me how Police Commissioners, Uncle Gregory Hobbs (DOB1956, South AUS) and Darryl Peter Wright (SAPOL, African Army - International, AF), all aware of this action, denied the initiative for years.

Records that fluctuated before and after I assisted with the homicide case of 2013. Details and indecisive authority decisions which flipped my life upside down for a decade, recklessly endangered myself, and in turn nearly killed me, receiving NO explanation or objective justification. Even after these activities were reported to ICAC and the National Integrity, the NACC in 2023 received the significantly modified perjury–defamatory and inaccurate proof of this book, which I was sent via my international publisher. It was very Evident to Everyone around me and locals of Mount Gambier, so this activity showed that there was much more to all this than I was aware of.

Yet in 2023, I was still left to fend for myself - Recklessly Endangered by each police officer that was told to investigate myself and my reports, harassed by policing torts. Law enforcement across the nation was making intentional mistakes (perjury), engaging in neglectful investigations, or had something to hide – venal/criminal.

STARForce - Special Task and Rescue, who were presumably supposed to save me, a team with my childhood cousin, Todd Williams (SAPOL), on it, even

abandoning investigations because the corrupt commissioners said so to save their own arses in their operational criminal malfeasance. Misconduct I refused to support. Never mind myself, the recklessly endangered little girl - how heroic of these highly trained policemen.

For years, I had no choice but to play the role I was being manipulated into, undercover cop - a role you live, not play—a role I refuse to be held to or defined by. I have been my case detective without the ability of a police officer, nor the desire to be one, which everyone is entitled to be, and I have a substantial number of documents, court records, and legal representative encounters to support my claims.

I have been at the whim of the Police Commissioner and Gregory Hobbs (DOB1956, South AUS), poor decisions, strategic narcissism, and a police force determined to cover up their use of children as prostitutes, a desire to run the sex industries, and the spreading of STDs, not to disclose this abomination for resolution publicly.

Not once did I act like a cop, just as me with the added aspect of documentation and significantly lower engagement of traffic violations e.g. speeding and not wearing my seatbelt - which before 2014 I was kind of notoriously guilty of, a record of numerous good behaviour terms against my licence showing I am not

shy regarding my abilities on the road. These fines are never associated with safety risks to other persons; my speeding fines predominantly involve open-road, clear-day speeding offences. The documentation, perjury regarding offenders, and my life being used and abused by police forces with a police certification would usually define the undercover cop role, hating every minute of investigating a cover-up for my own safety, recklessly endangered, so that this activity wouldn't repeat itself on someone else.

Thrust into a plot to try and literally force me into being a prostitute - something that I was determined NEVER to let happen. After years spent mostly severely recklessly endangered, I had undesirably investigated the sex industry. An investigation was conducted in 2015, apparently. David Newton Bradley (DOB 1981, Mount Gambier District, South Australia) told me the police were conducting it. An investigation turned into a cover-up, neglecting justice for victims of paedophilia. A cover-up involving Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy); *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) and a bunch of other official sex offenders and their merry protectors.

A cover-up that forced me to mentally and physically note all the gang activity that surrounded me, suffering life-threatening near homelessness, severely recklessly endangered, I had no choice but to role-play or be sucked into the corruption and malpractice I was

enduring to be made a prostitute. There was no way I was going to be forced into prostitution.

So, standing by the police certification I did not like was my only option. Not in literal application, but credibility of character and ability.

Reality is, I'd make a Great Police officer if it were my choice. I am highly honourable, have integrity, and am highly intelligent, yet I hate the idea of the job.

Investing much personal sacrifice between 2014 and 2025 into a Police Certificate III (3), I never really wanted. My Actual Reality, I am a Princess by title – another point of envy, mock it in your jealousy, and make yourself look pathetic and ugly. I really don't care about bitterness unless it affects my life. Better talking about me than someone else, I say – also saying 'Get a Life'.

Yes, a Real Princess, my Indian heritage holds the status of Royalty. God knows what that means these days, but my Indian family says it is my DNA.

A fact to which many involved in the extensive defamation campaign were not aware of, a fact I openly discuss as it demonstrates the level of defamation engaged and its impact further regarding compensable damages. Police forces in criminal negligence, using perjury against a victim with a royal heritage and NO history with the sex industry, escalating the detriment of the Australian Police Forces' character assassination and attempt to set me up as a sex worker to a global level of

defamation. A big mistake by all involved was to seek a cover-up via defamatory claims amounting to perjury, which is escalated by my societal status in court, a lot.

The police certification, once I was involved in the Gordon Tearonui Hamm homicide, and the police had committed unlawful and neglectful acts that almost caused grievous bodily harm against me, was a necessity for me and a resolution. No longer just a brain fart/bright idea from a police commissioner and an ex-cop. I literally only really had myself to rely on, even though I was surrounded by men (some women) - police, our apparent heroes who spend more time watching and listening to me getting raped, tortured, and tormenting me more than anything else. Imagine no option but to survive and role-play for your life, that was my life. I reported ALL the police misconduct I encountered along the way. Especially after 2019, when it was revealed that ICAC South Australia was party to the corruption.

For both my own resolution and the community of Mount Gambier to which I grew up, I dedicated myself to justice and integrity for years. Despite the literal psychological torture and torment of pathetic men and women within the police force and a dehumanising culture within most aspects of life, from social settings to the justice system. Utilizing police recordings, department and industry recorded phone calls, emails, and my voice - the truth, showed numerous government and government-linked departments caught in

institutional harassment. Outrageous lengths to achieve a Royal Commission directive within the police force of South Australia, let alone towards National Integrity. I was asked numerous times over these years, "Are you a police officer?" My answer was always "No" or something along the lines of 'that's a question for SAPOL.' I would never have voluntarily applied for a role within SAPOL, especially one that required me to tolerate the intolerable - paedophiles and rapists are unacceptable to me. With those results of the findings, I witnessed as a victim of the system, making this historical autobiography.

The writing of the statement against *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) is detailed in the next chapter. Chapter One - 'A Fairytale Compromise'. Katie Dalton (SAPOL ID 73538) falsely investigated a year of 2002 that I never reported regarding Kurt Slaven's (SAPOL, Australian Defence Force - Navy) sex offence on duty. The date gained when SAPOL revamped the computer system. Solid evidence of the extreme extent to which SAPOL stooped to cover up a paedophile rapist in their ranks. The creation of the false document, the PIMS Report, was presented in the courts in 2019, revealing the purpose of the system upgrade and the falsified data sourced by Katie Dalton (SAPOL ID 73538). SAPOL upgraded the system solely to cover up their criminal conduct.

In December 2019, *Kurt Gavan Slaven's (DOB 07NOV1958; SAPOL/ADF - Navy)* guilt was irrefutable in court. Months after the PIMS Report was called out as false in the Mount Gambier Magistrates' Court. The Department of Public Prosecution (DPP), even though Guilt was irrefutable, did not lay charges of Sexual Assault (rape) and Attempted Sexual Assault against Kurt Slaven (SAPOL & Australian Defence Force - Navy). Remember, SAPOL was directed to act on this statement in court by a magistrate; the fact that they did not is not only an intentional obstruction of justice but evidently throws the justice system into disrepute. The 22nd of July 2020 marked the start of a trial in a case that should not have commenced without SAPOL charging Kurt Slaven (SAPOL & Australian Defence Force - Navy).

Addressing the Seriousness of this failure of an officer or an authority required to perform a duty, I brought that duty before the High Courts - writ of mandamus. Despite numerous applications in writing, SAPOL has still failed to charge Kurt Slaven (SAPOL & Australian Defence Force - Navy). The High Court's use of font and style excuses to overlook their legal duties, even though High Court precedents regarding mandamus in this circumstance compel the courts to act.

The withholding of evidence by the DPP (both public and police prosecution) can be found in court records before July 2020. The facts continually being rejected by a police force protecting a guilty, serious sex

offender for approximately a decade were bad enough. Yet SAPOL pushed perjury, malicious and intentional false allegations, and defamation through the courts for years to cover up for a police officer who committed a serious, paedophile class, sex offence reported for his crimes is something out of control to watch as a just-minded person, a budding lawyer.

Drafting the UGLY HEROS manuscript took years of preparation with the public release of my story from October 14th, 2018, after spending the year of 2018 in Victoria in a forced relationship with sex offender and long-term VICPOL officer Damian Ferrari (DOB 1966, Beaufort, Victoria AUS) and him revealing the plot of my family and SAPOL to cover up for Kurt Slaven (SAPOL & Australian Defence Force - Navy) paedophilia. My family is a disgrace to our name for such engagements in such a vile cover-up.

By 2025, so many persons had tried to speak up against *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* sex crimes. I had been contacted by a door person employed at Hells Angels Crazy Horse nightclub in Adelaide, South Australia, who witnessed Kurt Slaven's (SAPOL, Australian Defence Force - Navy) sexual engagements and was involved with the married man for years, she claimed. The mechanic and felon 'Dick' – Richard Upton, who approached me ballsy to give evidence against Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy) in 2017 by 2019, with no action by the Australian police towards their

own corruption, had been scared out of speaking against the SAPOL rapist.

Many witnesses over the years, standing up against a criminally aligned paedophile police officer, were exhausted. As was I, yet I continued to find energy to kick and scream.

Prostitutes looking for immunity or decriminalization or both were the only persons coming forward to me against *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* in 2020 and beyond.

Excluding matters of VICPOL, where brave souls continue to stand against long-established corruption in that state.

Please make no mistake, immunity was not on the cards for anyone linked to attacking me, not even a card for my family members. No negotiations with terrorists (organised crime) linked to serious violence or sexual offending with victims were getting immunity where I was concerned. Not even my ex-fiancée, Travis Paul Enmon Jr (DOB: 16 JAN 1989, Texas, USA).

A police force adamant to hide *Kurt Gavan Slaven's (DOB 07NOV1958; SAPOL/ADF - Navy)* sex crimes and compromised career was out of control. I would not be playing into the momentary virtues of human resources for resolution where I was concerned if I were SAPOL. A disgusting procedure that prolonged serious sex offending in Australia.

Felon associated with the Monster cop, Dick (mechanic) and Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS) had confirmed *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) was not only a sex offender, but he was the detective in the automobile theft committed by Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS). *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) was the cop who compromised the major SAPOL investigation that led to Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS) sex offending in Adelaide, South AUS. I was told in 2010 about this corrupt cover-up of Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) automobile theft by Luke, where he stated the car yard in which it occurred, and insinuated insurance fraud was also committed in relation to the offence.

The car was said to be stolen from a different car yard than is recorded by SAPOL, according to Luke, the offender in the crime. An investigation so heavily distorted (confuse and conflate operation) by SAPOL police personnel involved with the Gypsy Jokers and Hans Scheidl's (H & L Scheidl Pty Ltd, Compton, South Australia, AUS), that not only were persons set up to have partaken in the crime, but the car yard where the offence occurred was extorted into silence. Luke Hubert Scheidl (DOB1981 Mount Gambier District, South AUS), claiming he stole the car from a Penola Road car yard and that an insurance claim was paid to another car yard run by a married man in a heterosexual relationship who is broadly known as an in-the-closet

homosexual associated with young men of the district. Hans Scheidl's (H & L Scheidl Pty Ltd, Compton, South Australia, AUS) purchasing numerous cars from the actual car yard his son stole from after this offence, purchases which well and truly outweigh the insurance payout they would have received regarding the crime. Mechanic 'Dick', aka Richard Upton, witnessed *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* step over the stolen motor in his property, which 'Dick' personally told me in 2017. An irrefutable perversion of the course of justice by SAPOL personnel, including Kurt Slaven (SAPOL & Australian Defence Force - Navy), whose distortions of the truth for organised crime and sex offender circles via neglectful investigations compromising law enforcement integrity, and his engagement in criminal offences are plentiful.

The evidence on record with SAPOL by 2020 against *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)*, which had been there for years, was sufficient evidence for Darryl Peter Wright (SAPOL, African Army - International, AF) involved with ICAC to act on the criminal charge and misconduct, which he did not as he's a venal cop.

In 2017, after my arm was nearly broken by Andrew David Lock (SAPOL ID 48985) in a targeted torts attack by SAPOL police forces, and the offending against myself was continuing and escalating it was irrefutable that Darryl Peter Wright (SAPOL, African Army - International, AF) was incapable of doing his job as an officer being utilised by ICAC SA.

The established integrity bodies, ICAC/IBAC, failed to address all the police misconduct I reported. Despite the ICAC SA Act stipulating penalties, including incarceration, for many of the offences I reported to ICAC during this period.

The illegal sex industry of Mount Gambier, South Australia, can be defined as elusive yet well known - an industry deliberately given the blind eye by law enforcement and courts alike, as SAPOL's whistleblower cop stipulated.

Disguising itself as a casual house visit or select owner accommodation services, providing rooms as if they were naïve. Hotels/pubs, the trusty Real Estate Agent, or the common backpacker are among the many places you can interact with sex workers.

Luke Hubert Scheidl (DOB 1981 Mount Gambier District, South Australia), during our relationship, disclosed to me that his father knew one of the well-known pimps in Mount Gambier, South Australia, called Gary. Luke said Gary worked for his dad.

Gary, a strong-built man with a kiwi-like face tattoo, was from Kings Cross, Sydney, New South Wales. Gary was a pimp in 2001/2002, by his own admission, and someone I personally had nothing to do with but knew of. Gary, in approximately 2004 – 2005, was part of helping the government run a cover-up campaign to

discredit me after I reported criminal negligence in the Disabilities Sector.

Why do I say this? Well, I say this in hindsight, remember it is another ten years, 2013, when the malicious accusations with no basis or facts of prostitution were revealed to me.

In the early 2000s, Gary did not have my phone number. I had nothing to do with Gary. I knew him through a Gypsy Joker link, a marijuana dealer Deb located on Sturt Street, close to Crouch Street, near the Auto parts shop in Mount Gambier. An old ex-prostitute under Tojo (Former president Gypsy Jokers, deceased), President of the Gypsy Jokers. Deb and Gary would often catch up and dine together at local pubs in Mount Gambier. Deb gave my phone number to Gary, without my knowledge or permission, in approximately 2004–2005. He called me and tried to pick me up for a drive, he stated. I refused to go with Gary; I had nothing to do with him, and I knew he was a pimp. I was not surprised when Luke Hubert Scheidl (DOB 1981 Mount Gambier District, South Australia) spoke of his Father providing Gary with work and payment with wood supplies in conversations in 2014. Hans Scheidl's (H & L Scheidl Pty Ltd, Compton, South Australia, AUS) name, no matter what circle or state, could be found with his finger in the sex industry pie. I certainly wasn't looking for the old creep's dirty laundry; it was literally unavoidable to hear his business as I outed Kurt Slaven's (SAPOL, Australian Defence Force - Navy) crimes in this cover-up. Evidently, because Hans

Scheidl (H & L Scheidl Pty Ltd, Compton, South Australia, AUS) was part of the paedophilia protection racket.

My Father told me the police had accused me of prostitution in 2016. I was in so deep trying to figure it all out, and how my property had been illegally acquisitioned. For the facts to reveal that Hans Scheidl (H & L Scheidl Pty Ltd, Compton, South Australia, AUS) had a part in this perjury, the Gypsy Joker should have been expecting nothing less than me chasing him to be long-term incarcerated with his son.

It really is unfathomable for a right-thinking person to understand why police engaged, continued, and condoned these cover-ups. The activity that was discussed when I reported Kurt Slaven (SAPOL, Australian Defence Force - Navy). I could NOT believe that when I finally got to report the horrific sexual offence I endured by this man as a minor. A man in power taking advantage of a child, underlining this offence, met with such a cover-up campaign, as opposed to simply just charging the police serious crimes offenders and gaining a legal, reasonable resolution – deeply fucked up. I bombarded the emails of politicians, police personnel, and the courts with irrefutable facts, undeniable perjury committed by the government in a cover-up, leaving records miles long of the crimes and corruption.

Not even killing me was going to stop the Truth from eventuating.

Both SAPOL Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) and Kurt Slaven (SAPOL & Australian Defence Force - Navy) were reported in 2014. By the year 2018, no resolution had been reached regarding the statement against *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* by SAPOL, the Department of Police Prosecution (DPP), or the anti-corruption body - ICAC South Australia. SAPOL Commissioner Grant Stevens and ICAC proved to be protecting SAPOL Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) with frivolous claims excusing life-threatening criminal conduct in writing by 2016. I had written to the governing Police Ministries (Labor and Liberal) and had addressed for resolution the Prime Minister's Office and many State Premiers by 2020. The year 2020 saw the Department of Public Prosecution (DPP) South AUS partake in the cover-up of sex crimes against disabled people, not just my case was being overlooked. The DPP (public) is allowing the character assassination campaign for the state Labor government to continue to cover up sex crimes against the disabled by not acting to charge Kurt Slaven (SAPOL, Australian Defence Force - Navy). Records show countless government officials failing to fulfill their official duties properly.

The Integrity Commission of South Australia (ICAC) was as rotten to the core as SAPOL. The policing sector was riddled with corrupt staff, and the hierarchy of compromise was so severe that ICAC and governing ministers could not even achieve a resolution to serious

sexual crimes and serious misconduct discrepancies within policing and governing departments.

The criminal offending and torts - targeted harassment stemming from my police complaints was the only outcome obtained by ICAC finalising this publication in 2023. An irrefutable agenda to silence reports against police offenders was the illegal approach to gain an intentionally wrong outcome, perverting the course of justice based on perjury for over a decade. The Integrity Commission kind of replaced the police ombudsman in 2014, and governing police ministers were all aware of me and the hideous cases of corruption and criminal activity that this autobiography outlines. The reports against unsavoury officers, SAPOL Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) and Kurt Slaven (SAPOL & Australian Defence Force - Navy), have been going unresolved for so many years, showing Serious Legal discrepancies throughout the institutional organisations of SAPOL and the governing of policing sectors.

This police cover-up plot was completely unravelled throughout 2019. The Severe need for a long-overdue Royal Commission into the department of SAPOL was undeniable. The rumours and suffering I endured will revolt you – if it hasn't already. This autobiography is not for the light-hearted, hence the mock (M) Mature Audience rating. The fabricated lies behind SAPOL withholding my Freedom of Information (FOI) request for years were deliberate. The police force allowed the

severe defamation to occur in hopes their link to the illegal industry would not come undone, though these facts are irrefutable. *The number of fabricated contents is supposed to be flatteringly excessive, and clearly, most of it is perjury, defamatory, inaccurate, and fabricated for a cover-up.* Writing this Autobiography, I had still not read the substantial falsifications about myself as my FOI is withheld from me – the police and government are more aware that their defamation will result in a hefty lawsuit.

Delving into the details of all of this you read of years of governments knowingly allowing numerous breaches to my Victims' Rights, Duty of Care regarding use of my persons - misuse and violations of State and Commonwealth laws, Constitutional rights, human rights, criminal negligence, and a string of rape crimes committed against myself in hopes I would commit suicide. Five months plus in AWP during 2024 nearly made me try.

Corruption has been hindering the Mount Gambier Community for at least thirty years, with the overall severe involvement of SAPOL in the illegal industry, intriguing, awful, and Irrefutable.

Definition: Irrefutable /,ɪrɪ'fju:təbl,ɪ'refjʊtəbl/ adjective impossible to deny or disprove. "Irrefutable evidence"

I detail for you, the reader, extensively the extent of the Character Assassinations and Governing Corruption engaged to hide such unfathomable compromises involving my Freedom of Information (FOI).

Government documents were falsified to cover up government crimes that were withheld from me for years. Endless perjury and acts of entrapment involving intervention orders and unfacilitated solicitation. The mass amount of false documentation and allegations was used as a weapon in the character assassination campaign to have me stalked and preyed on by seedy police officers and associated creeps. A dangerous game was played with my life by the police. The FOI defamatory documents were provided to media outlets and politicians, as well as my legal representation, but never to me. In 2018, I applied numerous times to view my FOI from SAPOL without success, through to at least 2025. I requested FOI documentation from SAPOL researching the periods from 2001-2005 and 2010–2017, as well as other relevant years, making numerous FOI applications. I was the Instructor in Charge (Aquatics Teacher) of the Government-supported Royal Lifesaving Society VACSWIM Swimming Programme in Millicent, Regional South Australia, in 2018.

Millicent is located approximately 50km from Mount Gambier. The program was printed in the local Southeastern Times, a front-page report on the Life Saving Swim Teaching program, written by a well-respected local journalist, Fred Smith. Fred” Luckhurst Smith would be among regional South Australia's longest-serving journalists. I featured in The Border Watch newspaper numerous times; it was my first

feature in the Millicent-based newspaper printed by The Border Watch of Mount Gambier. Blessed with the kind and invaluable advice to request my FOI when travelling to Millicent with this employment. The bright suggestion was made when I was discussing my concerns about police misconduct. The upstanding member of the local community, familiar with governing documents, recommended that I obtain my FOI.

Living in Victoria in 2018, for a short period which wasn't really living, you would think that would have changed my disposition suffering torts by SAPOL - Not the case.

The eventful and predatory relationship touched on, that I was drugged into, developed between me and a National Medal, Diligence and Ethics acknowledged, thirty-three years in the police force, Damian H Ferrari (DOB1966, Beaufort, Victoria, AUS - VICPOL), for better and worse, as brief as it was. A police officer, I found out after forcing a relationship with myself, who had a predatory history and Domestic Violence tendencies. He was honest regarding the police forces' misconduct and their operations, including investigations surrounding me. Upon the realisation that he could not force me to love him, his actions turned toxic and life-threatening.

Damian H Ferrari (DOB1966, Beaufort, Victoria, AUS - VICPOL) was someone who pursued a relationship with

me through illegally stalking me during the Gordon Tearonui Hamm investigation. A predator who arose from the false prostitute claims. I was left questioning why Damian told me of the illegal policing discrepancies my life had endured as the relationship travelled its course. Like Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia), he seemed to be enjoying telling me how I had been used as rape bait by police, enjoying psychologically hurting me. Sicko. Damian, upon my leaving him, deliberately tried to push me basically into homelessness immediately. Very much trying to leave me helpless, so I had to run back to him like he had told me I would have to. I'd rather die, which I have well and truly proven. When I left Damian after moving into his Victorian residence, he showed no care regarding my life or safety. Generating further costly defamation against myself and committing perjury like SAPOL regarding his offending and myself as a person. Damian seemingly abandoned all his revelations regarding police misconduct. He had distinctly told me my family was blaming me for what he said, "they had been doing," and that SAPOL and VICPOL knew of *Kurt Gavan Slaven's* (DOB 07NOV1958; SAPOL/ADF - Navy) guilt. I left the lonely, creepy old man to his criminal alliances, his aim to indulge in the illegal sex industry run by Brendan Constantine from Casterton, Victoria—a prostitute supply which included pimps of Bianca Rayner and Chloe Blair that I was aware of. Damian H Ferrari (DOB1966, Beaufort, Victoria AUS - VICPOL) is a career criminal with a police badge - a very manipulative man, his domestic violence, physical

and narcissistic, known amongst everyone who interacted with him. Damian H Ferrari (DOB1966, Beaufort, Victoria, AUS - VICPOL) committed sexual crimes across Victoria, AUS. He is a bully and not a well-liked police officer, according to many community members of Beaufort, Ararat, and Ballarat, who disclosed this to me as the public disclosure unfolded. Damian H Ferrari (DOB1966, Beaufort, Victoria, AUS - VICPOL) had revealed he had prostate cancer and implied he was severely ill at one of the times I was trying to leave our relationship. His manipulative ways from this revelation of disease led to him using Prostate Cancer as an excuse to have sex with me. Stating his doctor told him he needed to ejaculate regularly. It was disgusting not only to try to guilt me into this forced relationship but to expect me to sexually interact with a rapist because that's what he wanted was crazy. Especially when the Stockholm syndrome subsided. When I resided with Damian H Ferrari (DOB1966, Beaufort, Victoria, AUS - VICPOL), it revealed that he was obsessed, as with many other officers, with a video he should not have viewed. Detailed are these very emotionally distressing activities I suffered at the hands of a police force cover-up in Chapter 13, Damian H Ferrari (DOB1966, Beaufort, Victoria, AUS - VICPOL) desperately wanted me to perform oral sex on him during our relationship. A direct result of SAPOL and VICPOL facilitating the circulation of revenge porn is criminal negligence. Something I refused on the suspicion that he had an obsession with the private video illegally circulated of me. I was right, like Darryl Peter Wright (SAPOL, African Army - International,

AF) and many men within the Australian police force, Damian wanted to marry a human Hoover—disgusting Pig of a police officer and person.

It was apparent in 2019, after I left Damian H Ferrari (DOB1966, Beaufort, Victoria, AUS - VICPOL), that he was only trying to make things worse for me and wanted marriage to benefit himself. Both from my good standing status in his Council representative submission and also financially, as he discussed spending money, I was to be compensated, but was not yet paid. Fucked up greedy pig. As with every police officer who interacted with me.

I reported Damian H Ferrari (DOB1966, Beaufort, Victoria AUS - VICPOL) for a Domestic Violence incident at the Melbourne airport and detailed his predatory offending to gain a relationship with myself in November 2018 to a special unit of VICPOL – Taskforce Salus, Alyx Gray (VICPOL ID 37146), including Leeanne Clinton (VICPOL ID 33064). A report that led to an extreme level of torts – false incarceration, my statement being misused, severe sex offending, and threats to my life. Damian Ferrari's (DOB1966, Beaufort, Victoria, AUS - VICPOL) disgraceful conduct after I left him was something I had to endure while I faced court proceedings to charge the 'Biggest Ugly Hero' of this autobiography - Kurt Slaven (SAPOL, Australian Defence Force - Navy). Damian is not far behind for that award.

A pursuit for resolution and justice – legal and well justified, coupled with drawn-out neglectful investigations in a cover-up of sex crimes, Police Commissioners' false concerns, and endless torts against me, is a direct result of my constitutional right to a fair trial being violated. VICPOL and SAPOL working together to cover up sex crimes within their ranks extends as a practice of criminal negligence across Australia. SAPOL Commissioner Grant Stevens sent Detective Adam Brown (SAPOL ID 79623) to address my concerns regarding malpractice and corruption, as well as the *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* offence in 2017, which was the beginning of SAPOL and VICPOL combining in a torts agenda and raping me with police and human resources. I had written a letter directly to the Commissioner, Grant Stevens, who clearly never intended to charge *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* when he sent Adam Brown (SAPOL ID 79623) to address the issues.

The Police Commissioner did not address my concerns, instead the officers questioned myself regarding Matthew Jennings (SAPOL ID 73762), *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* and SAPOL Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) and then pursued an agenda of false investigations and defamation leading to perjury. Intentionally and maliciously pursuing a witch-hunt of false claims, trying to sling mud at me and save face for himself, his boys club mates, and the force.

An illegal interview for torts (harassment), an agenda to pervert the course of justice was recorded at Cheyne Michael Hobbs' (DOB: 09 MAY 1985) run-down rental property. A property used by the Gypsy Jokers to manufacture ICE before I resided there. SAPOL Police arrived unannounced and interviewed me at a time when I had been consuming alcohol. The fact that I was interviewed intoxicated shows the level of illegalities and opportunist approach police had regarding investigating the offence and offence I had reported - it was very clear that they had an agenda.

The SAPOL Police Commissioner Grant Stevens' actual plan was to target me to run a neglectful investigation, claiming policemen who had stalked me were being stalked. An offence I was found Not Guilty of. These frivolous claims allowed sexual crimes to be committed against myself under this investigation (2017 – 2020). SAPOL investigators involved are numerous, namely three that this book discusses in detail. Michelle Alexander (Detective Brevet Sergeant - Australasian Council of Women and Policing (ACWAP) 2018 whose body language and communication appeared to be slightly intimidated by my personal appearance, often making comments to feed her inner insecurities, reflecting suspicion and envy. Present with a video camera, Michelle Alexander (Detective Brevet Sergeant - Australasian Council of Women and Policing (ACWAP) 2018), evidently a victim blamer, implicated me in blame during interactions with her. Blamed me, a

sixteen-year-old girl, for *Kurt Gavan Slaven's* (DOB 07NOV1958; SAPOL/ADF - Navy) raping me. The insinuating parasite of a lady calling the POLICE vs *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) statement “**power**” against the police force. I was SO offended by Michelle Alexander's (Detective Brevet Sergeant - Australasian Council of Women and Policing (ACWAP) 2018) comment and also disgusted by her dismissive attitude to protect a paedophile colleague. Adam Brown (SAPOL ID 79623) is also part of a victim-blaming campaign with his ‘partner in crime’ - quoting these SAPOL officers referencing each other. All these events occurred as SAPOL locally across the district, and in Adelaide, ran a deliberately neglectful investigation. The unsubstantiated claim of Stalking police officers severely affecting my social prestige and was thrown out by the Magistrates Courts. Institutional harassment – torts acknowledged by the Magistrate Teresa Anderson. (Magistrates Court of South Australia) Regarding the malicious prosecution. Malicious prosecution is a tort or a civil wrong, which enables a person who is the subject of groundless and unjustified court proceedings to seek a civil claim for damages against their prosecutor. The facts were that these three male SAPOL members, the subject of this malicious prosecution directed at me, were actually guilty of stalking me, as with many police personnel named and unnamed here. I struggled to survive for years, barely able to keep my South Australian driver's licence from the police, making up false fines and reasons to take my South Australian driver's licence. I had no time to stalk anyone. The charge was rather

dramatically thrown out of court by the judge when police failed to provide evidence regarding the charge and treated the court with contempt. Proof of the character assassination agenda and deliberate false investigation.

Where shit gets real is when you apply Constitutional law and federal law to all of these incredibly outrageous ongoing, criminal negligence so engrossed within police departments that the obligations courts and government employees had regarding these matters revolving around me were legally obligated to report torts, malfeasance, and disclose crimes, they bore witness to in court.

Summarizing 2019 as we move quickly towards the end of this chapter and to the start of a series of chapters getting deep into this diabolical mess.

2019 was an enduring and uncomfortable year of inconvenient truths and ruthless accusations of prostitution.

I started writing the Conclusion Chapter, as real-time accounts of the criminal negligence, torts, sexual crimes, human resources offending, and overall corruption surrounding the sex industry I had been exposed to and exploited by, yet never involved in. Writing as it happened, my emotions are raw and honest when you're reading the conclusion, more so than this

genuinely raw take on my exploited life story. A conclusion authored in real time, summing up thirty years of police corruption, while I was very distressed after having to endure years of police, community, and family-provoked sex offences. A conclusion severely manipulated by sex offenders, law enforcement, and integrity bodies alike. Proofed in context, with details and irrefutable facts, read the conclusion before watching a comedy – some of the details of the ongoing include paedophile confessions and are seriously gross.

The realities of the character assassinations, false investigations, and this period of severe reckless endangerment and criminal negligence, assisted by police forces with SAPOL, claiming fabricated associations, really set in during 2019. '*Coercive power depends on fear, suppression of free will, and the use of punishment or threats (Raven, 1993).*' This quote sums up what police forces, especially STARForce, rely on to cover up their sex offending and the sex offending of SAPOL personnel overall. The use of coercive powers regarding my personality had an adverse effect. By 2019, the emotional distress, psychological warfare, and criminal negligence only led me to lash out verbally at SAPOL members irrefutably involved in malicious, neglectful, and life-threatening investigatory activity, recklessly endangering my life. I made it clear I would not endure this corruption and coercive power without pushing back; I was not going to be silenced by a bunch of bullying, abetting men.

Using recorded phone calls, extensive evidence from numerous government and company organisations, I solidified endless records of the corruption I endured. Evidence of irrefutable corruption and unconstitutional use of my life by SAPOL, VICPOL, the police force, and the governing bodies. The Institutional targeting was exposed for all to see, irrefutably.

This experience was so overwhelming and volatile - dangerous and incomprehensible that I bombarded the publisher with many emails and updates, writing an autobiography that could have turned into a biography any day at times. Scared, emotionally distressed, my life threatened, desperate and frantic for resolution - horrified regarding the ongoing allowed to occur by government, law enforcement, and towards my life.

As we conclude this introduction to decades of covering up government sexual exploits and crimes, I'll talk about Freemasonry a little bit more and the parts it plays in these power-driven ongoing. The Freemasons, to whom I joined in 2015, are a religious cult. Meeting the wrong one had the same effect as outing Victoria - Australia's cult family, 'The Family'.

The Family – also called the Santiniketan Park Association and the Great White Brotherhood – is an Australian New Age group formed in the mid-1960s under the leadership of yoga teacher Anne Hamilton-Byrne, who would drug members and experiment with LSD, putting members in a psychological ward after joining if they spoke against their illegal conduct and

brainwashing them. LSD, often supplied by the black market, outlaw motorcycle clubs.

This psychological warfare and brainwashing activity is what I witnessed and despise in Freemasonry. Note, I am still a member of this religious cult, I just don't buy into the idea that they are all good people these days.

Dave Kyriacou (SAPOL ID 40657) is a dodgy freemason. Aaron Roche (VICPOL ID 33388), which sparked further curiosity in me about the fraternity I joined. Dave Kyriacou (SAPOL ID 40657), who was venal in his career, said customs (freemasonry) ended up writing a false statement for paedophile Kurt Slaven (SAPOL & Australian Defence Force - Navy). Standing against myself, also a freemason, I believe Dave Kyriacou (SAPOL ID 40657) did this for petty gain amongst his boy's club friends. Testament to this fact that meeting the wrong Freemason can be detrimental, it can also be illegal and morally less, the opposite of what this group of people was supposed to stand for. After I called out Dave Kyriacou's (SAPOL ID 40657) associations with police misconduct and his pursuit of a relationship with me in 2015, a victim at this time, which is misconduct at the least under the Police Disciplinary Act. The scorned man (SAPOL/Freemasonry) went on a rampage, character assassinating me with claims regarding my mental stability, emotionally distressing claims that I wanted a date cops - like fuck no as a victim of the scum (WTF), and further damaging, defamatory claims of

methamphetamine/ICE drug use. I have never been a drug addict, not even with my favourite vice, marijuana. The desperation of Dave Kyriacou's (SAPOL ID 40657) actions to cover up paedophilia exposed his venal state and lack of moral integrity in his policing after twenty years in law enforcement irrefutably. Dave Kyriacou (SAPOL ID 40657) is putting his entire career on the line for a paedophile friend of his in the force, driven by the fact that he personally had at least indulged in viewing underage strippers in the sex industry for years, which I conclusively know of. The sick lows people will go to cover up their seedy, lesser-known secrets from society will never again surprise me after witnessing Dave Kyriacou's (SAPOL ID 40657) actions to cover up and take promotions to cover up paedophilia I knew he knew about.

The perjury Dave Kyriacou (SAPOL ID 40657) engaged in was in many forms, including a false statement written for Kurt Slaven (SAPOL & Australian Defence Force - Navy), which was written three years after Dave Kyriacou's (SAPOL ID 40657) interactions with me. A statement to which I was privy at the end of 2018, whilst I was in private interactions with metal drummer turned VICPOL cop Tim Young (VICPOL, former drummer of metal band ABREACT Bendigo, Victoria, AUS). These immoral and unethical choices made by my fellow freemasons, as well as the knowledge I gained from my membership, resulted in my leaving the Freemasons in 2019.

Like a modern Thomas Hobbes (DOB5APR1588, Malmesbury, United Kingdom - Died 4DEC1679, National Trust - Hardwick Hall, United Kingdom), I challenged the moral integrity of the cult religion to the point where I publicly outed the Freemasons' association with the Gypsy Joker-infiltrated Hells Angels of Australia and numerous other biker groups protecting paedophilia. The manipulation of governing bodies by freemasons, like the Catholic church was renowned for, was something I also witnessed. Corporate greed has many forms. For years, illegitimate freemasons worldwide had been telling themselves that females could not be freemasons. I am a co-freemasonry member, which was established in the 1700s and supported by Thomas Hobbes (DOB5APR1588, Malmesbury, United Kingdom - Died 4DEC1679, National Trust - Hardwick Hall, United Kingdom) who left the venal freemasons of England to refuge in France, finally residing in the USA where he contributed to the United States Constitution.

I endured so much malicious psychological chaos for years due to Dave Kyriacou (SAPOL ID 40657) and other Australian seedy freemason activities, negative commentary about my membership, not just that I was female. I called out some Freemasons as immoral, hiding behind a veil of moral belief. Like the paedophile priest hides his sins behind the trusting brethren he lies to with the bible, the brethren's naive trust in God and good faith keep them blind to his crimes. Dave

Kyriacou (SAPOL ID 40657), a scorned goat in freemason referencing, after numerous freemasons making efforts to recruit me into freemasonry, was a jerk. The actions of Dave Kyriacou (SAPOL ID 40657) never cease to astonish me after years of watching him float around this disgraceful police conduct.

My brand, Barbwire Noose®, was not only tarnished by SAPOL but also used by the Freemasons for years to counteract Nazi warfare – the Gypsy Jokers. In 2016, I was directed to tone down my advertising by my Adelaide lodge, to which I kindly replied with a “No” like response. Expressing my views, marketing directions, and that Barbwire Noose is MY brand and my business.

My family, my uncle Gregory Hobbs (DOB1956, South AUS), brother, and dad, having in 2016 also committed perjury, even on court records about my mental stability, to cover up their involvement in the use and misuse of my life by SAPOL.

The character assassination was malicious, intentional, and by choice, which I think is unforgivable. My family was involved in the plot to try to cover up that I was used as rape bait by SAPOL. As if you do allow severe reckless endangerment and criminal negligence to slide as parents, family involved, SAPOL family members, and even a younger brother I looked after for years and housed when we moved from the parents’ farm to independence. A cover-up which led to Numerous more

rape offences being committed against me to cover up Kurt Gavan Slaven's (DOB 07NOV1958; SAPOL/ADF - Navy) offending and my family's own criminal conduct, I have never been a part of. Cheyne Michael Hobbs (DOB9MAY1985), with a shared methamphetamine/ICE debt to felon Dick Upton - the Mechanic linked to Kurt Slaven (SAPOL & Australian Defence Force - Navy), with his friend Ben Chant (Mount Gambier District, South AUS). Cheyne Michael Hobbs (9 MAY 1985) suddenly moved to QLD without resolving his issues with Ben, who had even gone as low as lying to police sources about myself to cover his criminality – proceeds of crime and Methamphetamine/ICE debt. I, being used to resolving the situation where Cheyne Michael Hobbs (DOB: 9 May 1985) could not end the lease with his friend, who shared a drug debt with him, was living in my brother's property, free of rent due to the debt. Selfish decisions that left me in SAPOL criminal negligence while my family profited out of recklessly endangering my life, saying I was mentally unstable, amongst numerous other malicious, unsubstantiated allegations. A decades-long cover-up game, with freemasons, law enforcement, family, human resources, illegal sex industry associates, and government all involved to cover up sex crimes. Damian H Ferrari (DOB1966, Beaufort, Victoria AUS - VICPOL) was right. My family was behind the criminal negligence surrounding my life with SAPOL. Before Damian H Ferrari (DOB1966, Beaufort, Victoria AUS - VICPOL) stalking led to him interacting with me, I applied for intervention orders with SAPOL and the

courts against my family – 2017. I could not continue to look past my family's disregard for my life.

The fact that police were listening to numerous sex crimes committed against me after I assisted them and not charging the rapists was impossible for me to comprehend. Officers failing to speak out about rape offences they witnessed to hide their own misconduct was endless. Every police officer tasked with protecting me was guilty of misconduct and evidently compromised by the gangs that were targeting me. To make no arrests in over a decade and to be raped on record numerous times was impossible to happen without the Australian Police Force being severely compromised and deeply involved. The state of SAPOL and the extent to which the police force was being manipulated was utterly Crazy.

The fact that the police force was running an agenda with proven defamatory lies to cover up their crimes and allowed me to be criminally targeted in the end is something I will never forgive them for. Self-preservation by service members over a little girl's safety, a victim's life is utterly disgusting and inexcusable. Darryl Peter Wright (SAPOL, African Army - International, AF) is the main reason why I was used, abused, and raped over this decade after helping Aaron Roche (VICPOL ID 33388) with the Homicide case. A Monster, as I describe, like Kurt Slaven (SAPOL & Australian Defence Force - Navy), with a list of infidelity and sex industry crimes to hide, a man

with international links allowed to prey on my life, having devastatingly adverse effects on my safety and security as an Australian citizen. All this defamation, character assassination, abuse of process, abuse of power, criminal negligence, reckless endangerment, numerous accounts of criminal conduct, including trespass and property damage, sex crimes are impossible to price – these torts at a level where no amount of compensation could compensate my suffering.

Reputational damage - often called reputation risk; the potential loss to financial capital, social capital, and/or market share resulting from damage to a firm's reputation. This is often measured in lost revenue, increased operating, capital, or regulatory costs, or destruction of shareholder value, and was extremely extensive.

Writing and publicly disclosing this autobiography, *The Truth*, alleviated some of this reputational damage from 2019 to 2020, many years after the defamation began. Until In-House Publishing retracted the self-publication of this book. It was a blessing dressed as a curse, considering the amount of redress that the facts needed, which came about after the police force believed they had successfully covered up countless government department sexual crimes. I had paid for the publication's printing by the end of 2020. In 2021, the publishing house announced that the government was disrupting the publishing of this book. Corruption flourishes when we believe we must behave like sheep and obey illegalities. I strongly disagree with the disruptive behaviour of all of my publishers. The red

flag of tyranny is flying high for the VIP paedophile of Australia. The In-House Publishing proprietor, a female (wife and owner), stated they were unable to print the book due to the government stopping them. The Federal Australian government at this time was a Scumo Liberal Government - PM Scott Morrison (DOB 13 MAY 1968). The state of Queensland was governed under a Labor government led by Annastacia Palaszczuk (born 25 July 1969). In-House Publishing is located in the state of Queensland, and I am a South Australian Author. The statement that In-House publishing made that they could not self-publish Ugly Heroes, after causing much psychological damage with commentary made via this couple-owned, Christian family publication house, during the editing process, leading up to this decision, evidently involving police forces, was a devastating experience. Suspecting the agenda after viewing the publishing house's edit to my autobiography, trying to make it at least defamatory and worst, intentionally engaging with the cover-up – personally, I believe they engaged in the latter. So, I had already submitted this Autobiography to other publishers, for both self-publishing and contracted publication. Forwarding a highly modified and manipulated manuscript worldwide at the end of the year 2020 and ongoing until fully vigilantly proofed. The truth was not going to be disrupted on my watch. A blatant disregard for seeking justice and the truth, despite facts being bare for all to see in 2021. In-House Publishing claims a male was also publishing a whistleblowing book with them. I assumed it was a dodgy cop or biker book that had some incredible

stories, but called no one or nothing significant out, really. Steven Charles Williams, missing since 2005 from Willaston, South Australia, was a former president of the Gypsy Joker MC, with the only biker book at this time that was naming and shaming the paedophiles. It certainly wasn't his book of truths that In-House Publishing was talking about. I hoped it was a personal story, a public disclosure, or for resolution. Free speech is a thing, yet so is due process. Whistleblowing government requires official reporting, not just money-grabbing and opportunistic exposure by ex-police or ex-military personnel trying to rewrite history.

This book made pre-sales before its actual final publication. Some people have been patiently waiting years for its print. The first 500 pre-order copies to be personally signed by me – whenever the publication is printed (if I wasn't dead from reckless endangerment in criminal negligence). Purchases of this publication are guaranteed under my brand, Barbwire Noose®.

Do Not Conform is a motto of my brand, Barbwire Noose®. Conformity is a key to the communist totalitarian agenda, and the more willing you are to walk past indecency, immorality, and suffering, the better. Like the compliant Nazi's who we all know knew right from wrong. Fear Is The Root of All Weakness®, I love my brand name and its slogan.

ICAC South Australia, trying to be an inherent power with SAPOL as opposed to upholding constitutional

law, the full requirements of state criminal law, and failing to address torts, resulted in abuse of power that compares to famous Commonwealth cases. In *Ashby v Commonwealth* (No 4) [2012] FCA 1411, Rares J referred to examples of proceedings being an abuse of process if “they [the proceedings] are seriously or unfairly burdensome, prejudicial or damaging, or productive of serious and unjustified trouble and harassment.”

In *Walton v Gardiner* (1993) 177 CLR 378, Mason CJ and Deane and Dawson JJ relying on Lord Diplock in *Hunter and v Chief Constable of the West Midlands Police* (1982) AC 529, referred to the Court having “the inherent power...to prevent misuse of its procedure in a way which, although not inconsistent with the literal application of its procedural rules, would nevertheless be manifestly unfair to a party to a litigation before it, or would otherwise bring the administration of justice into disrepute among right-thinking people”.

Already mentioning that it was in October of 2020 that SAPOL announced they had successfully covered up their use of prostitutes (including children), just before this book’s publication was disrupted and blocked from publishing in Australia under a self-publication contract.

Unconstitutional - A breach of human rights; free speech, and a conclusive attempt to cover up the truth. I had been publicly disclosing the manuscript, which I thought would counteract the desperation I was seeing

to hide the truth in 2019. Government and police, with no shame, a bucket full of money for their sex crimes cover-up, and a vendetta to throw dirt at me until they buried me – so they hoped, sadly, public disclosure wasn't enough in 2019. Nor was the shit slung by governance to silence me.

By God even with public disclosure through the roof in 2023, with *The Story Behind the Brand Barbwire Noose* circulating the world in print (First Edition publishers Austin Macauley) the police force was still trying to throw malicious accusations with no basis, facts or evidence around via anyone (including migrants) in a desperate attempt of entrapment (SAPOL solicitation, unfacilitated by myself – leading to damages against my persons including grievous bodily harm.) to in their words ‘*cover up*’ police sex crimes. I had approached publishers formally to print Ugly Heros before making payment for self-publication in 2020. Austin Macauley was unwilling to publish Ugly Heros as my blunt Human Rights plight in their words was ‘not in accordance with the particular plans of this company’. I found this weird, as *The Story Behind the Brand Barbwire Noose®* is, in basic terms, a shorter version of this book. *The Story Behind the Brand Barbwire Noose®* is more focused on government negligence in disabilities, plus the establishment and achievements of my brand, than calling out government officials by name in their criminal corruption, but very much the same, without a real-time record of events and gross details. Gross details and events recorded in this Autobiography are like a diary at times.

The effects of the ongoing character assassinations and defamation measured for me throughout 2017 until 2020 (ongoing 2023) via personal interaction, government agencies, business conduct, and social media proved to be vast and severely detrimental. People treated me differently, interacted with me differently, spoke about me differently, and even respected me differently. The damages of years of defamation were evident in everyday life.

Disruptions engaged under the unconstitutional association laws, being illegally applied against me, yet not used regarding real organised crime figures, making the cover-up even more bizarre to continue and ever more irrefutable. Police investigations touching everything I was involved in showed the severity of reputational damage I endured - the perjury engaged for a sex crimes cover-up was undeniable, evidence of disruptions to my life, and defamation was in everything I touched. Social media, study, residence, charitable interactions, national travel, government databases, media, and political representatives.

When I say everything I touched, it is not an exaggeration.

Even attending church, I was met with insinuating commentary about prostitution involvement and insinuating commentary regarding my business operations. Rumours that were created upon a tiding

donation by international sex offender Peter Ottens (Felon AUS, USA, UK - DMT Institute International), amongst others.

The bald man, like Dave Kyriacou (SAPOL ID 40657), whom I had been investigating regarding his stalking of me as SAPOL, was irrefutably determined to push me into their sex industry. In contrast, I was determined not to be forced into any sex work. I'd rather die. I concluded after suffering sexual indiscretions and sex crimes that the pursuit of myself was SAPOL-motivated. The sex offender Peter Ottens (Felon AUS, USA, UK - DMT Institute International), unsavoury intentions, motivations, and international crimes he was also guilty of were all exposed by me. At the same time, SAPOL worked to deny their involvement in sex crimes and the sex industry. It was disappointing to see the church cater to a sex offender providing tidings as a priority over people, but not surprising to me. The donations were short-lived, like this sex offender's plot to stay in my life. Peter Ottens (Felon AUS, USA, UK - DMT Institute International) had a military son he bragged about, and he displayed Comanchero tendencies, which aligned with interactions he had with SAPOL and Dave Kyriacou (SAPOL ID 40657), as well as his Christian connections. I was not surprised at all by these ongoings.

After years of witnessing the games, this cover-up was playing, I finally knew how to play and win despite getting hurt. I had been hurt for years, and no one was saving me, so I saved myself. Reaching out to the FBI, I

started to provide intelligence regarding these internationally linked crimes and criminals. Also, regarding my government via organised crime and government agencies attacking my person, the government and police are trying to kill me to cover up sex crimes. The TRUTH is not a crime in every jurisdiction of the free world. Censorship only applies in dictatorships. Australia is a founding nation of the United Nations, with much international law legislated within our commonwealth laws.

92.11 Defence

It is a defence to a prosecution for an offence by a person against this Subdivision that the person engaged in the conduct:

(a) in accordance with a law of the Commonwealth; or (b) in accordance with an arrangement or agreement to which the Commonwealth is party; or (c) in the person's capacity as a public official.

Note: A defendant bears an evidential burden in relation to the matters in this section (see subsection 13.3(3)).

This autobiography is irrefutable evidence, as well as countless court records of perjury in Australia and internationally recorded, countless crimes against Australia's Crimes Act unaddressed, FOI demonstrating perjury, government officials, including law enforcement, are witnesses to the 'cover up(s)',

maladministration, and malpractice across countless government departments, etc.

I was thirty-five years old when I reached out to the USA. I lived alone and spent ample time with a lovely old lady who was my neighbour and a survivor of the Nazi war. God bless Kathy, love you to the moon and back. The fact that I was basically a hermit yet still being targeted by malicious accusations with no basis or facts in a cover-up reflects the nature and climate of government and law enforcement of this time. I'm sure you can now comprehend how Australian courts label persons as 'VIP' paedophiles and not criminals perpetrating against children, as it is. I had personally been involved in the Christian faith of the Anglican church and the Catholic church throughout my upbringing. Religion, seen as a virtue, is still our most significant source of hate and segregation. Seemingly, the Church of Latter-Day Saints (Mormons) did not invite all of God's children on both sides of the veil to come into their saviour, at least not this Chapel in the current climate and culture of our times. Members displaying a genuine lack of respect for what they thought was an ex-prostitute – me (never a prostitute)—witnessing this lack of humanity and a window into paedophilia stemming from Utah, USA, Mormons. I quickly lost respect for many of the elders I met during these services, and I refused to join the church.

A bemusing fact before the pre-gory details dive into detailing these incidents, and you read numerous sex offence statements that were overlooked for years, is that I was never asked personally EVER regarding any involvement in the sex industry.

Not by the police, nor my family, or Anyone. Just constant offensive insinuation, aspersions, commentary, and implications of sexually explicit involvement. Statements made in perjury, by felons, aka human resources and police, created perjury, yet no one ever asked me a question.

Personally, I am repulsed by the occupation of a 'prostitute'.

My judgment of the sex industry is not due to the house of God, nor an officer of the law's point of view.

I find uncontrollable sexual desire to the point where you're paying for sex wrong.

Believing in free choice and each to their own is why I stand up for prostitutes' right to operate in safety and security of employment without discrimination.

The excuse that sex workers provide a gratification that is necessary to stop rape is bullshit.

Rape is about power, rarely about sex.

Regarding my opinion on blatant judgmental insinuations about random persons who dress differently from you, well, that's just plain rude and stupid.

The implicit menial remarks I endured from police associated members of the public and church members only exacerbated the investigation, already elongated by the insidious corruption within SAPOL.

The Church was a new demographic and proved the extent to which society and I had been affected by these defamatory lies from within the police force. The public, misled entirely by a character assassination based on perjury in the service of a cover-up. After my second attendance at the Chapel, it was evident that members, after speaking about myself to others, were wondering about my occupation. SAPOL and STARForce had a plot to escalate a perception that I was interested in old men and using sexual predators known to law enforcement to do it. How low can you go! Well, as you continue to read, you can determine your own lowest point of the cover-up. That's tort crimes of incarceration engaged by VICPOL in 2022, and SAPOL in 2024. USA law enforcement dragged into Australia's paedophile cover-up.

I, a refugee, was sent back to a country trying to kill me. Australia.

I told Border Force that if they sent me back to Australia, I would not be able to just return to the USA – I was more than right.

Upon return to Australia, I was made aware that Mathew Olston (VICPOL ID 36324) issued approximately sixty illegal warrants against me to protect sex offender Damian H Ferrari (DOB1966,

Beaufort, Victoria, AUS - VICPOL). With an outstanding number - like fifty-one, dropped before trialling. Numerous police from NSWPOL, VICPOL, and the AFP engaged to commit these torts under AFP Commissioner Reece Kershaw (DOB 1966, AFP ID 4742), VICPOL Commissioner Shane Patton, SAPOL Commissioner Grant Stevens, and NSWPOL Commissioner Karen Leanne Webb (NSWPOL May 1987). Torts that were not only engaged for this sex offender cover-up but also torts that nearly led to violent crimes against me, falsely incarcerated and surrounded by ex-police, human resources, and drug-fuelled felons. As if the international links with criminals in this cover-up case were not enough, Peter Ottens (Felon AUS, USA, UK - DMT Institute International) confessed to me that he fled charges in the USA after the victim was tormented and dropped the charges. This predator sought haven with SAPOL-aligned Comanchero sex offenders and their aid abetting police mate, who were widely spread across Australia in association with the Gypsy Jokers and Bandidos. Providing back services directly to SAPOL STARForce personnel.

This culture and corruption nearly cost me my life countless times, and was witnessed globally by law enforcement.

Refugee /ˌrɛfjʊˈdʒiː/ noun: a person who has been forced to leave their country in order to escape war, persecution, or natural disaster.

The Anger and frustration you read of was not hidden in my police interactions over these years of torts, victimisation and injustice. So much of my suffering and emotional distress was captured in efforts to resolve this cover-up. Myself trying to engage, for resolution, communication with Dave Kyriacou (SAPOL ID 40657) who engaged in crimes with life incarceration penalties to assist in covering up this insidious culture and these sex crimes including against disabled persons. During 2019, while writing UGLY HEROS, I served the Mount Gambier community and knew the truth would prevail. However, years passed before it was too big to ignore.

Much respect and composure were displayed towards the fantastic community of Mount Gambier, and Many thanks to the many friends, strangers, and random supporters of justice. You're ALL Superstars!! Your kindness in reaching out; Those messages of encouragement and messages from those brave enough to share their stories, even stories like mine, were truly touching—power to the people who fight good over evil, forever immortalised in South Australia's history.

The severity and Clear need for Police to be Police, Gangsters to be Gangsters, is Real. Life-threateningly Real. There is no room for Unlawful Enforcement in the police force of Australia.

All the offenders I reported between 2017 and 2019 mentioned Darryl Peter Wright (SAPOL, African Army

- International, AF) during conversations. Sex offenders Craig Spence (DOB14DEC, Australian Defence – Army, Olympian, Manpower, Big Brother contestant), Damian H Ferrari (DOB1966, Beaufort, Victoria AUS - VICPOL), and Luke Ryan (Mount Gambier South AUS District, known Catholic Family) spoke of Darryl Peter Wright (SAPOL, African Army - International, AF). Damian H Ferrari (DOB1966, Beaufort, Victoria AUS - VICPOL) regarding wage comparisons, age comparisons, Luke Ryan (Mount Gambier South AUS District, known Catholic Family) relationship status details and Craig Spence (DOB14DEC, Australian Defence – Army, Olympian, Manpower, Big Brother contestant) investigative information regarding the South African SAPOL/ICAC employee, friends with my Hobbs family of SAPOL, were divulged. All offenders against me were also aware that SAPOL and STARForce had used and abused my life for years in investigations and operations. All the offenders from 2014 to 2019 were servicemen, police, and army, or trusted by the police force (human resources). Sex offences were committed almost every year from 2015 until 2023, with police running investigations and protection orders surrounding me at the same time as these sex offences occurred – irrefutably using me as rape bait. Over a decade, a substantial total of criminal reports and complaints had been made by me against sex offenders, all unaddressed, with no charges laid.

The DDP labelled me a serial complainant, and this allowed the police forces of Australia to further flounder regarding my welfare. Allowing myself to be assaulted time and time again, often by police, human resources, associates, employees, and offenders, law enforcement watching and listening to these sex crimes occurring for years. Never once stopping the offences from being committed, never charging, or addressing these predatory men until the truth was too big to ignore. The Royal Commission into SAPOL was vital. I collated extensive evidence of maladministration, physical evidence, and recorded evidence against the police force and governing bodies throughout Australia.

The facts needed for resolution to the POLICE VS *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) statement were written in this autobiography and completed within three months. A manuscript of ambiguity and lacking detail, which SAPOL began a chain of malicious and intentional obstructions of justice. I wrote the book as the cover-up was irrefutable when I read David Kyriacou's (SAPOL ID 40657) false statement. UGLY HEROS was first made public at the end of 2018. Despite the truth being public, SAPOL continued to breach my victims' rights, my constitutional rights, and human rights. My victims' rights were violated to the point where, in 2018, SAPOL failed to communicate their investigation (their neglectful and perjury-riddled investigations) and failed to disclose the apparent 'new' offender they made up in

an investigation of the wrong year. An outcome that was never going to be accurate, considering SAPOL investigated the wrong date they got from a PIMS report created for this cover-up. When SAPOL were discussing charges, stated in court, at the end of 2019, they disclosed they were in the pursuit of Former SAPOL Andrew James Cherry (Prestigious Jag Limousines, Cherrybomb Photographics ABN 51 248 364 916) as my offender from the fabricated 2002 date. I knew SAPOL was trying to blame someone else in 2018, as Damian H Ferrari (DOB1966, Beaufort, Victoria AUS - VICPOL) told me this was the case, stating the fall guy offender did not want to be blamed for the sexual crime committed against me.

SAPOL, stating they had numerous victims linked to this offender, yet half a decade later had not laid charges on behalf of any of these victims. The elongation of this obstruction of justice is detrimental to the judicial sector, not just the police force. Publication contracting was initiated for UGLY HEROS at the beginning of January 2019. This autobiography is registered with the National Library of Australia and leading bookstores nationally in 2019. UGLY HEROS - The Price of Unlawful Enforcement should have been released in the latter half of 2019, reducing damages and compensable torts.

The abuses of process and power by SAPOL and ICAC South Australia stemmed across the nation, breaches to my Rights – Constitutional, Victim, and Human Rights

unimaginable. The Liberal and Labor governments of South Australia, with a lack of public accountability and responsibility, exposed the severe injustices committed against me, revealing a perverse partisanship at this time, which disregarded Human Rights and Constitutional Law. The left and right wings belong to the same bird, in terms of Australia's political views on Human Rights and upholding the Constitution at this time. Human Rights - A Bill of Rights Australia, the final Just resolution I wanted to achieve coming out of these Injustices I had endured. Simply laying charges against sex offenders and police officers was not enough to change this culture. Public accountability and human rights protections are the only way to stop abuse of power in office. The National Integrity laws are toothless against politicians who were hiding behind suppression, allowing public accountability in tax-funded employment roles to fall at the wayside – all persons in public office should be subject to public hearings. Professor A.J. Brown, a corruption and integrity expert at Griffith University, says public hearings are perceived to be the most crucial weapon in the anti-corruption toolkit, even though more subtle means may yield equally valuable results. Subtle means exhausted. The South Australia Police Association rejected the 2016 police ombudsman report and the ICAC report of 2019. I read both reports and believe them to be accurate, based on what was publicly released. ICAC's oversight of serious criminal offences in investigations carried out by SAPOL members solidified that SAPOL had no active intention of

changing its insidious culture, criminal activity, and criminal alliances without public address.

A Bill of Rights not only protects the rights of the citizen but also protects our sovereignty from tyrannical, autocratic, and dictatorial regimes and gives the Western society we know and love Real hope for independence from an Australasian regime. Australia has legislation that the world has compared to the Nazi dictatorship. Australia was slowly heading away from the privileges of a free world Nation, being overrun by a Nazi aligned gang and a police force full of sex offending and power-tripping criminals. Let alone the threat of the autocratic dictatorship of China.

Law enforcement's inability to make arrests exposes a lack of Integrity that can be likened to how the Nazi regime rose to power, through police forces. No moral integrity was not the place I wanted to be bringing a family into.

A possible outstanding question answered before we get into some astounding details.

Some of you may be wondering why the FBI, why not the AFP?

Well, I had already witnessed in 2016 the destruction that stems from the AFP's involvement with state police operations, and it was a shambles of insidious lies and egos lacking integrity severely. Furthermore, I had

actually reported Kurt Slaven's (SAPOL, Australian Defence Force - Navy) sex offending and links to organised crime to the AFP around the time where my house was illegally acquisitioned – the AFP did not respond to the report.

In 2019, I had asked the SAPOL police force, SAPOL Police Commissioner Grant Stevens, and Darryl Peter Wright (SAPOL, African Army - International, AF) to put me into some form of witness protection. Nothing. Still, the police refused and continued to allow sex offenses against my person.

I refuse the evident agenda to be raped into submission to contribute to the police forces' disgusting sex industry, which is why the FBI. James Brien Comey Jr. (DOB 14 DEC 1960) is a good guy, based on my reading and general research. I thought they would be the same. The Mount Gambier CIB (2019) covering up running Former Hells Angels bikie Graham Daniel Young (DOB 15 MAR 1975) falsely as a Hells Angel, not only highly illegal, but severely recklessly endangered my life for a decade since this piece of scum tried to meet me physically, which I declined. Sexual violence towards me was irrefutably caused by SAPOL human resources and their alliance with the Gypsy Jokers in Mount Gambier. An alliance I told Dave Kyriacou (SAPOL ID 40657) of in 2014, clearly falling on deaf and dumb ears. I did not want to hide, I wanted to be away from harm's way, away from police force-driven rapists - this level of criminal negligence causing astronomical reckless endangerment, outrageous. To be

in my own property - security which I had needed for years after the illegal acquisition of my property on unjust terms (Section 51 (xxxi)) was unfathomable for SAPOL to be obstructing with perjury. SAPOL is failing to act regarding the Police vs Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy) and countless reports I have made directly caused sexual violence. SAPOL's criminal negligence directly resulted in Luke Ryan (Mount Gambier South AUS District, known Catholic Family)'s threat against my person, which played out as an act of sexual assault, a crime committed in Victoria. Quoting Luke Ryan (Mount Gambier South AUS District, known Catholic Family), saying he raped me for the SAPOL police gang "Taking one for the team," his words in this discussion about SAPOL and Former Hells Angels bikie Graham Daniel Young (DOB15MAR1975).

Numerous rapes committed against me are guaranteed not to have occurred if my property had not been illegally acquisitioned – Timely fact.

Quoting a statement about the revelations of paedophilia within the Catholic Church - “The truth does free you even if it is unpalatable Truth.”

As you read this somewhat unpalatable truth, it's hard to stay on the path that this is real, an autobiography. I, due to the South Australian Police Force, have endured some of the most disgusting and dehumanising treatment that could ever be endured within a public and government sector. I have been informing the Mount Gambier Police Station of threats and plots against myself for years, all reports going predominantly unaddressed under three separate leaders of the station. Nearly a decade spent by myself attempting to obtain a secure residence as the police were ignoring my cries for help in 2019, and having already been sexually assaulted (digital rape) in a property located at Beth Place, Mount Gambier before the further offending in Victoria by Luke Ryan (Mount Gambier South AUS District, known Catholic Family). All reported to SAPOL. The Mount Gambier police station, Sandra Mary Stokes (SAPOL ID 53080), had emails with records of the threats Luke Ryan (Mount Gambier South AUS District, known Catholic Family) made before his criminal sex offending against me. Strings of excessively irrefutable crimes that SAPOL has committed and allowed to be unlawfully committed against me. Severe and neglectful acts that caused repetitive grievous bodily harm against myself. SAPOL used me in their games and let these sex attacks play out against me for over fifteen years.

I would NEVER have needed witness protection, which was never engaged, if the police had not illegally used my home in a plot to cover up their involvement with prostitutes (including children). As a Public Figure, I

could never be hidden and was not asking for that level of protection. I was asking for my Constitutional rights and Human rights to be safe.

Years of police witnessed rape offences against my life and the sex crimes, offenders, and paedophilia driving this malicious and intentional agenda. Not one police officer I reported sex crimes and misconduct to over a decade period was capable of charging a rapist aligned with gang offending in South Australia, Victoria, New South Wales, and the Northern Territory. Offences recorded via privacy and security act breaches. Police forces have literally listened and allowed me to be consciously and unconsciously raped over two decades in Australia, and they irrefutably and evidently did NOTHING to charge these sex offenders.

The Australian police forces have been failing for decades to keep me safe from sex crimes, aligned with SAPOL in South Australia, putting the police force under the National Integrity microscope. STARForce, having been utilising me as a cop with no concerns about life-threatening offences being committed against my person, is blatant criminal negligence. It was evident that the decision to remove the police status contributed to the repeated sex offences. The police certification issued by SAPOL Police Commissioner Malcolm Hyde and STARForce/SAPOL Commissioner Gary Burns (STARForce; joined SAPOL 1972) followed by Commissioner Grant Stevens who is responsible for removing the status and asking me to be an informant after I reported against paedophile Kurt Slaven, SAPOL

Paul Arthur Griffiths (SAPOL 38683 & Australian Defence Force – Navy).

Note: In Australia, an informant may engage in criminality in order to establish credibility with the target of an investigation, or for the purpose of obtaining evidence for use in an eventual prosecution. They may commit perjury during the course of proceedings.

As the key witness and first person to provide Real intel that led to the incarceration of the murderers of Gordon Tearonui Hamm and many other arrests, to be discredited, targeted, and raped after assisting police in a federally overseen investigation, witnessing SAPOL that neck deep in bribes to the point they could not stop the turmoil that followed the severely fucked up Gordon Tearonui Hamm homicide, was devastating, not just disruptive to my life as I knew it. After a decade of damages and suffering passed reaching a level beyond compensable, I chased MANY due apologies from shitty police officers that should have known better and the millions plus compensation from the insidious corruption, which would be the foundations of deterring this activity in the future.

By 2020, it was conclusive that the call made by authorities to state a conflict of interest regarding my police certification was a significant contributing factor to the reason I was raped and targeted over and over again by persons known and in association with gangs, mainly the Comancheros, Bandidos, and Gypsy Jokers. But it was also conclusive that biker gangs in this

climate were working together with the police regarding the association laws. Human resourcing and undercover operations so deep that a known fact of bikers colluding against the association laws since 2012, when the gangs of Australia had a large gathering in Queensland, was now just a distorted plot for power over the sex industry. The targeting of me by petty police, minion bikers, and wannabes with a rape fetish and no morals was unfathomable. The only positive was the criminal conduct outed many false Hells Angels, rapist the police were trying to patch as Hells Angels, recruiting anyone to run their gang-aligned police agenda to be organised crime runners. 'The Big Boys', as many SAPOL police officers associated with running organised crime referred to themselves as. Many officers recruit unsavoury family members and their friends as wannabe Hells Angels. Such desperation from the police force to be the Hells Angels gang really did reveal many gang alliance myths during the ordeal and investigation.

Officers SAPOL Kurt Slaven, SAPOL Paul Arthur Griffiths (SAPOL 38683 & Australian Defence Force – Navy), Dave Kyriacou (SAPOL ID 40657), Darryl Peter Wright (SAPOL, African Army - International, AF), Tim Young (VICPOL, former drummer metal band ABREACT Bendigo, Victoria AUS), Damian H Ferrari (DOB1966, Beaufort, Victoria AUS - VICPOL) all Proven to be organised crime associated police personnel.

Tim Young (VICPOL, former drummer of metal band ABREACT Bendigo, Victoria, AUS), who apparently investigated me over these years, joined the police force, I was told by a South Australian police source, to become a criminally aligned Comanchero cop, and proved he was criminally aligned through our interactions. Tim Young (VICPOL, former drummer of metal band ABREACT Bendigo, Victoria, AUS) even asked for a bribe of a shooting range in 2019, one of the many embarrassing and illegal engagements he tried to have with me. Speaking of embarrassing, I could tell you a few embarrassing things I said, but I won't. Ask Timothy, haha.

What most didn't know about Tim Young (VICPOL, former drummer metal band ABREACT Bendigo, Victoria AUS); by 2019 I well and truly did, was the effort Tim Young (VICPOL, former drummer metal band ABREACT Bendigo, Victoria AUS) had put in to actually look out for myself, like Travis Paul Enmon Jr (DOB16JAN1989, Texas USA) from the metal scene.

Both men present via social media while I was being used by SAPOL as bait regarding Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia). The activities of SAPOL encouraged Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia) to extend his presence in my life, so my family and SAPOL could engage their Strategic narcissism plan. Since 2011, the boy from Bendigo, Victoria, and Travis Paul Enmon Jr (DOB 16 JAN 1989, Texas, USA) had been floating around listening to

defamation. Both metalheads, at times, are trying to avoid being harmed by men wanting to take advantage of me sexually and of the situation. Through their friends in heavy metal, they occasionally put in great efforts to support my One Love, Barbwire Noose®.

Misled about my life, past, and the actual threat of the Gypsy Jokers - the gang's now older members evolving into the street COA gang with numerous police officers involved in the government shit kicker gang, the Comancheros. I have no doubt Tim Young (VICPOL, former drummer of metal band ABREACT Bendigo, Victoria, AUS) and Travis Paul Enmon Jr (DOB 16 JAN 1989, Texas, USA) are linked to ADDISIAN, where I engaged with Barbwire Noose in Sponsorships. Unfortunately, the woman event organiser wanted fame, as I witnessed it, beginning work as a dancer in the lower levels of what we'll call, in this case, the exotic industry (lower-level dancer surrounding the sex industry) as the metal events dissolved. Through Tim Young's (VICPOL, former drummer of metal band ABREACT Bendigo, Victoria, AUS) acquaintances/friends, they warned of men trying to score (sexually engage) my person.

I assume this activity stemmed from defamation spread by associated persons, including my brother and family, in an effort to portray the slut shame image.

Which, firstly, is NO excuse for sexually assaulting a minor, and more importantly, not a label you can give me. Too many noes over yes's handed out by me to be that queen, sadly. Die trying?! Probably not.

Secondly was easy to refute with a long history of rejecting men, including Tim Young (VICPOL, former drummer metal band ABREACT Bendigo, Victoria AUS) proposal I'd catch up with him in Melbourne, as well as a consistent history of relationships until reporting *Kurt Gavan Slaven (DOB 07NOV1958; SAPOL/ADF - Navy)* sexual crimes.

The actions I knew of Tim made me comfortable with possibly moving and to maybe live with him in Melbourne in 2019 when he asked me to. So yes was sincerely my first thought, which I did not jump at saying when the proposal was made. Impulsive, yet not detrimentally so. His actions that followed made it impossible to forgive him for his decisions, which led to much suffering and contributed quite heavily to criminal negligence, reckless endangerment, and the decade of defamation I suffered through.

I've watched too much greed and career hunger take good people from doing great things to overlook a decision based on a job.

The Comanchero gang alliance is a known association of Tim Young's (VICPOL, former drummer of metal band ABREACT Bendigo, Victoria, AUS), known amongst colleagues, veterans, known to Travis Paul Enmon Jr (DOB 16 JAN 1989, Texas, USA), persons in the metal scene, and myself. Australia's bikers are notorious for trading minors (fourteen-year-olds) within the sex industry after recruiting sex offending veterans. A gang allowed to form and flourish with police force knowledge under both governments, with the facts

regarding Tim's police conduct stemming back to 2012. Tim Young (VICPOL, former drummer of metal band ABREACT Bendigo, Victoria, AUS) was not alone in being outed in his Comanchero alliances. The police force has a history of at least two decades of playing Comancheros with people's lives in South Australia, which I could prove peddled children as sex toys amongst the low standards of other biker clubs in Australia and globally; straight from members, nominees, and other associates' mouths who disapprove of this type of low within the motorcycle culture. Over two decades of police playing the Hells Angels in South Australia - Former Hells Angels bikie Graham Daniel Young (DOB 15 MAR 1975) portrayed falsely as a Hells Angel while he has run the Gypsy Jokers agenda, causing detrimental harm and deaths within the limestone coast region.

Starting to sum this introduction up, I am sure you are beginning to see that SAPOL and the Police Association put off a Royal Commission that compromised Australia's National Security, community safety standards, the safety of all persons involved, police personnel, and the public. The best protection from the police and criminal alliances was public accountability, especially regarding such dangerous mass corruption.

Royal Commission into SAPOL will, if performed with integrity, SAPOL police forces have conducted

themselves as organised crime for over a decade, spanning two decades researching links to organised crime via Kurt Slaven (SAPOL, Australian Defence Force - Navy). The intel regarding VICPOL and the Comancheros conduct is a fact – anybody in Australia not living under a rock with the TV turned off knows this. Tim Young (VICPOL, former drummer metal band ABREACT Bendigo, Victoria AUS) illegal disposition in 2018 combined with Darryl Peter Wright (SAPOL, African Army - International, AF) activity amounts to nothing less than attempts at bribe taking, sex industry involvement, infidelity, etc which creates a venal environment within the force - facts from police sourcing. Facts regarding the sex industry concluded in Australia, 60 - 80% percent of sex industry clients are police officers – these facts and figures are sourced directly from sex workers, active and no longer active within the industry. Facts were stated directly to me countless times.

Regarding sex industry research surrounding legality, a May 1990 Australian Institute of Criminology report recommended that prostitution not be a criminal offence, since the laws were ineffective and endangered sex workers. The industry being illegal certainly endangers sex workers, as stated, the biggest threat to a sex worker is not the occupation, but the police and their culture surrounding interactions with sex workers. Sex workers are used and abused by police, with law enforcement their biggest clients.

The fact that minors in the industry are being overlooked, and law enforcement is a job where the employee is obligated to serve and protect, the facts that over fifty percent of clients are police, show that the legal arm of the trade is the problem. Police who are supposed to uphold the law are the biggest threat to legalizing this industry, as they don't really care about sex workers, which is evident when they use children as sex toys and overlook children within the industry to benefit from it. Child exploitation within the sex industry will only be further ignored by law enforcement with decriminalisation, as it appears in the Northern Territory, Australia. Observing this industry from the outside and enduring the illegalities of police forces involved with sex workers proves that isolated legalisation, at best, is an avenue Australia can take to care for the welfare of all involved in this industry at this time. Clearly licenced brothels maintained by stringent safety procedures and not within a heavily indigenous population, as has been legalised in the Northern territory, is a less detrimental avenue towards decriminalisation. Police forces and bikers involved in the industry can be predicted to always be involved, so decriminalisation cannot lead to further powers amongst unsavoury criminal personalities and venal law enforcement just because politicians want a quick fix to the extortion. Especially where vulnerable indigenous children are concerned. The introduction of many white society standards has a negative effect on Australia's First Nations people. I feel, after witnessing what would be considered the better parts of the sex industries – not by choice and certainly not a desirable exposure to

forced prostitution, that sex industry operations in Australia, decriminalised only empower sex pests and sex offenders. The approach to legalisation needs to be transparent in communities with distinct age restrictions, which do not decide a person's fate within the sex industry, and all prostitutes should be registered with their HIV status recorded publicly, as with police personnel. The public should not be at risk from these high-risk industries, just like prostitutes should not be at risk in their line of occupation. Doctors, nurses, and firefighters should also be regularly documented regarding their STD status – treatment for STDs should become the norm, not hiding it. A vast number of people globally in this era have been affected by STDs, with most STDs completely treatable or manageable. With a high rate of police driven and police personnel sex offences against prostitutes, it can be concluded that these men and women involved in sex work are not the dirtiest or most diseased in the room. Law enforcement is a great source of STDs in Australia, as I have encountered countless police officers who engaged in sexual relations only later to disclose their STD status or concerns to their sexual interaction/partner. The highest number of unresolved rape offences committed against prostitutes I interacted with stemmed from police sex offenders. Legalisation is dangerous to sex workers and vulnerable young persons, women especially, within the volatile climate of biker VS police war, decades running, predominantly for the power and profit from the industry. A survey conducted in the early 2000s showed that 15.6% of Australian men aged 16–59 had paid for sex at least once in their lives, and 1.9% had

done so in the past year. Men who had paid for sex were more likely than other men to smoke, to drink more alcohol, to have had a sexually transmitted infection (STI) or been tested for HIV, to have had more sexual partners, to have first had vaginal intercourse before 16, and to have had heterosexual anal intercourse—80% of the worldwide adult population carrying the Human Papilloma virus.

Back to focusing on my life as a non-sex worker pursued by the industry. I protected my reputation in 2019, and my life, like you would not believe. Until I was pinned down by Peter Ottens (Felon AUS, USA, UK - DMT Institute International), and he said to my face as he held me down that he was going to rape me, raping me for SAPOL STARForce. I fought him off for hours as he told me I would get tired and give up. Half his size and aligned with a rapist police force, I was not going to be able to fight everyone. I needed a different approach, one that caught these illegal solicitations over my life. Desperate for a resolution to constitutional rights illegalities and my basic Human Rights to be respected, I not only became the whistleblower but a strong platform to advocate for a Bill of Rights Australia. The Greens had been endorsing the need for the bill for years. Resolution and Property Human rights of my own were violated. Australia was not a place I wanted to be without a Bill of Rights Australia, after the experiences outlined in this autobiography.

Recklessly endangered, with many corrupt police officers claiming conflict of interest about the police status applied by numerous SAPOL Commissioners - a claim with no factual basis. The false cries of conflict of interest were the main reason why these sex crimes over these years were committed against me. They actually believed that the corruption had won, and the untested claim no longer had me as a police officer. Something I would never let criminals achieve, the pathetic cry of conflict of interest made by the most corrupt persons in the police force, and a whimper of rapist criminals. Overqualified academically, as is unveiled throughout this autobiography, to be a police officer, and I am physically fit. The claim about a petty certificate three qualification was as bullshit as the qualification itself. The inappropriacy presented regarding the police certification was when I was met with Army-trained men, such as rising Comanchero Craig Spence (DOB 14 DEC, Australian Defence – Army, Olympian, Manpower, Big Brother contestant), Peter Ottens (Felon AUS, USA, UK - DMT Institute International), etc. The certification was initiated for Intel and MY safety, evidently at some point. Not for combating rapist, diseased police personnel, nor criminal human resources, nor was I volunteering for these parts.

Craig Spence (DOB 14 DEC, Australian Defence – Army, Olympian, Manpower, Big Brother contestant), the seemingly unlikely offender, was present before Gordon Tearonui Hamm was murdered and knew of Carl Andrew Brodie (DOB 08 FEB 1984). Craig, residing in New South Wales, Australia, showed further

commitment to unlawful acts and criminal negligence by police, with his admissions of knowledge of *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) and then stating that I was involved with the SAPOL sex offender. Malicious accusations with no basis or facts, which were in circulation, caused grievous bodily harm against me for seemingly two decades. Numerous veterans over a decade engaging in the crime of solicitation of me, including self-proclaimed whistleblower David McBride (DOB15DEC1963), who proved to me that he was heavily involved with veterans engaged in Comanchero activity and persons known to be involved with the sex industry. A man with his only connection with Carl Andrew Brodie (DOB08FEB1984) being the Australian Army and Comanchero insinuation showed the intel I provided via family against Carl Andrew Brodie (DOB08FEB1984) in 2013 was not appropriately handled, further compromising my safety and escalating veteran-associated criminal activity further. Craig Spence (DOB 14 DEC, Australian Defence – Army, Olympian, Manpower, Big Brother contestant) wanted to be seen as a hero and was overly friendly to me since the World Kindness Australia General Meeting, where we formally met in person as opposed to digital communication. I found him attractive at the time, in a professional, not intimate sense. I thought I could trust him in 2017, when he invited me to the NSW Business Award to which he was nominated. He paid for and used my Virgin frequent flyer points to arrange the date weekend. This weekend, the ex-Army serviceman committed sexual assault against me. He stated he was

competing with Darryl Peter Wright (SAPOL, African Army - International, AF) for my affection at this time in 2017. It was an alarming commentary. Especially after being drugged at the event, passing out from this drugging in the taxi returning to his residence, then to be carried upstairs, passed out, after consuming very little alcohol to wake up drugged, then raped, then mocked about a man I had fuck all to do with is a fucked up experience. Let alone for all this to stem from a SAPOL paedophile cover-up. Alerting myself to the fact that there was a serious plot going down that I did not know about. Random men wanting to marry me without really knowing me, wealthy and successful propositions from nowhere stemming from SAPOL, and revenge porn sold on Silk Road and circulating in Australia via DVD. Obsessed, greedy, and sickos accurately describe these men.

The uncanniness of how we see in suffering that less suffering is a form of saviour is the approach of these men. Damian H Ferrari (DOB1966, Beaufort, Victoria AUS - VICPOL), coming along after Craig Spence's (DOB14DEC, Australian Defence – Army, Olympian, Manpower, Big Brother contestant) offending and establishing our turbulent relationship is a prime example of this. Damian Ferrari's (DOB1966, Beaufort, Victoria, AUS - VICPOL) continued harassment and defamation towards me, continuing into 2020, VICPOL failing the Integrity test as SAPOL did. A paedophile sex industry prioritised over citizens' lives.

Craig Spence (DOB 14 DEC, Australian Defence – Army, Olympian, Manpower, Big Brother contestant) and Damian both believed they were trying to save me from something. Craig Spence (DOB 14 DEC, Australian Defence – Army, Olympian, Manpower, Big Brother contestant) felt something needed his address, after military service. I believe a damaged man, and in need of psychological treatment, as well as consequences for being a sex offender, from a psychological perspective. Both men need to be charged as the sex offenders they are. Craig, without knowing his sex offending, was sweet and lovable, which is clearly why he was able to convince many people that his World Kindness advocacy was genuine. I fell for all the good qualities of the man and trusted him after our communications transitioned from professional to non-professional in 2017. A charming personality with a resume that reads Stud from Manpower, Australian Army, Australian Olympic Water polo Champion, Corporate Director, and charitable organizations under his belt.

It was surreal, many of these men, as with dashing Darryl Peter Wright (SAPOL, African Army - International, AF) and tempting as Tim Young (VICPOL, former drummer metal band ABREACT Bendigo, Victoria AUS) Metal band Abreact in its early days - a band my brand Barbwire Noose promoted; Dave Kyriacou (SAPOL ID 40657), an unlikely crush developing after his bold pursuit of my attention, were piss weak in their convictions regarding my justice. Finding excuses and avenues to avoid accountability.

Pursuing justice, I worked hard to engage these men in resolution as opposed to allowing them to seep into the cracks of a cover-up. They were all under the belief that they were being heroic, whilst deep in corrupt police activity.

The exact police corruption that allowed me to be raped numerous times during police investigations. These men, in this autobiography, were unable to save themselves or me from the temptation of corruption, and only intervened on my behalf after I kicked ugly facts in their faces at their jobs.

Furthermore, these men were assigned to rescue-like operations, task forces, or to investigate me, and instead of fulfilling their job obligations, my safety and rights were compromised for petty sexual benefits and gang profits. Then these operations, investigations were abandoned, over, unsuccessful, with these men knowingly endangering my life, they walked away—countless times.

Men who expressed personal interest in me, instead of holding their friends to account within the police force, witnessed and watched me enduring years of emotional, psychological, and physical abuse. Resolution forced the writings of this autobiography, *Saving Myself*. The truth in the end was all that could stop this mass corruption within the police force.

Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia), having told me in 2014 I was

being used as bait, an example of not only corruption but also an insidious police brutality that engaged and excused sex crimes. SAPOL used me as rape bait (unknown to me) against the Gypsy Jokers in the early 2000s and against the Comancheros during and after the Gordon Tearonui Hamm investigation from 2014, the felon claims. Luke also stated that the police had deliberately leaked to the gang that I provided information against the jailed ex-army head of Comancheros in Victoria, which was actually Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia) speaking against “Leechy” as Luke referred to him, not me. I don't know anyone from Victoria like that. Luke was literally dealing with and for the Comancheros 2013/2014. My awareness of the endless lies and perjury being committed gave me a reasonable basis to hold in the back of my mind that I need to look out for myself during SAPOL and police forces' criminal negligence and reckless endangerment.

Reality is, if ICAC was productively operational, not with a flawed legislation for a political agenda, the STARForce members associated with the death of Gordon Tearonui Hamm would not have been overlooked and covered up regarding their accountability. The grossly negligent investigation not only caused grievous bodily harm but also resulted in death. Darryl Peter Wright (SAPOL, African Army - International, AF) is the person who overlooked ALL the conduct I reported from at least 2017. The most corrupt and dangerous officer I encountered was Darryl

Peter Wright (SAPOL, African Army - International, AF).

Brought to my attention in 2015, around the time I was told I was investigating the sex industry by David Newton Bradley (DOB1981, Mount Gambier District, South Australia). I, investigating an industry I had nothing to do with – a preposterous accusation that could not have been any further from the truth at this time. David Newton Bradley (DOB1981, Mount Gambier District, South Australia) stated that the allegation that I was investigating the sex industry came from my dad, who told him this when they went for a walk alone at my parents' farm. My dad is irrefutably involved with malicious and intentional reckless endangerment to my life. At this time, he was also said to be engaged in solicitation surrounding Darryl Peter Wright (SAPOL, African Army - International, AF), who was heavily involved with gangs with his use of the Comancheros, Gypsy Jokers, Bandidos, and Hells Angels, at the least. Proven by countless accusations followed by persons directly involved with the sex industry intel that Darryl Peter Wright (SAPOL, African Army - International, AF), Kurt Slaven (SAPOL, Australian Defence Force - Navy), Paul Arthur Griffiths (SAPOL ID 38683, Australian Defence Force - Navy) – many men in law enforcement were involved with STD carrying prostitutes and minors. Darryl Peter Wright (SAPOL, African Army - International, AF) and my

family were my greatest obstacle to exposing the truth about SAPOL.

Having provided information against Mark ‘Freddy’ Moreland (Mount Gambier District, South AUS 2013), David Newton Bradley (DOB1981, Mount Gambier District South AUS), and Timothy Stringer (Mount Gambier District resident - 2013) in 2014, is where police forces blurred the lines regarding the information I had provided. I exposed further offenders as the investigation progressed – offences against myself. The Australian Police Force is ignoring my intel and recruiting all of Gordon Tearonui Hamms' aggressors and offenders into the case instead of the little girl who they used, abused, and provided the vital intel which led to a string of arrests.

I was entitled to three million AUD in reward money after three murderers were jailed upon the conclusion of the Gordon Tearonui Hamm tragedy. Instead, I watched my parents, brother, and ALL gang members involved in his death flourish while I was attacked and raped for years until exposing the case in this Autobiography. If that doesn’t scream the police forces are heavily compromised beyond control, I don't know what does.

That money has nothing to do with torts or compensation due to this cover-up and criminal negligence. I am entitled to it.

Those millions of dollars are simply reward money, reward money that the government didn’t want me to

have, as I would have invested it in my brand in 2014. Investments that would have seen Barbwire Noose flourish and expose the SA Labor Government's criminal negligence. SAPOL is entirely complicit in covering up government sector criminal negligence and sex crimes motivated by their own sex crimes and the fact that they did not investigate the rape of disabled persons in Sharley House, Mount Gambier, South Australia, in 2004 or 2005 when I reported the sex crimes. After years of sex crimes and criminal negligence, I wanted EVERY cent, I was entitled to, and this practice with human resources (as stated) reformed so this activity could never eventuate again.

Before the Gordon Tearonui Hamm homicide, I had provided intel against four felons regarding the attack against my dad in 2012 and also against felon Carl Andrew Brodie (DOB08FEB1984). Carl Andrew Brodie (DOB08FEB1984) invested the money he rorted from the Australian Army in the ICE Industry, Victoria, AUS, he stated. Carl Andrew Brodie (DOB08FEB1984), conspiring to defraud the Federal Government, obtained a payout from the government by lying about injuries (injuries he did not obtain). Carl confided in me and David Newton Bradley (DOB 1981, Mount Gambier District, South Australia) that he made up the details of the claim. Carl Andrew Brodie (DOB08FEB1984) was reported to my cousin Sean Hobbs (SAPOL) for trafficking ICE from Victoria to South Australia in 2013.

The leaks from police forces regarding specific human resources to me appeared deliberate and recklessly endangered lives. Not just the lives of human resources. I witnessed police displaying documents that compromised investigations when Darryl Peter Wright (SAPOL, African Army - International, AF) left paperwork on an interview table on purpose. A deliberate attempt to not only expose a person's interactions with police, but this action to me were engaged in hopes it would break association between persons. A dangerous disruption tactic endangering lives for police and political gain under the unconstitutional association laws. Personally, I had already reported against David Newton Bradley (DOB1981, Mount Gambier District, South Australia), for whom the documentation contained scripture regarding. Luke Hubert Scheidl (DOB 1981, Mount Gambier District, South Australia) told me I was being set up as an informant during the Gordon Tearonui Hamm investigation, involving the practice of leaking documents. Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) was telling the truth when he shared this information about this practice with me, as I later witnessed it myself. This deliberate conduct engaged by corrupt SAPOL personnel, with the hopes that felons would hurt me for helping the police, demonstrates the irrefutable level of police pursuit to endanger me and have my life threatened recklessly.

The Mount Gambier Police station CIB (South Australia) apparently prepared a statement against persons - I am not aware of who- with my name on it,

and put this life-threatening maladministration (perjury) on the table in interviews for felons to read during the federally overseen homicide investigation.

I did not provide one formal statement regarding the murder of Gordon Tearonui Hamm to Aaron Roche (VICPOL ID 33388), and certainly did not provide anything to the Mount Gambier CIB.

I was never asked to write any statements regarding the investigation (2014/2015).

In approximately 2016/2017, Darryl Peter Wright (SAPOL, African Army - International, AF) engaged in this type of behaviour, which I witnessed. This intentional criminal negligence is the exact reckless endangerment of my life that Luke Hubert Scheidl (DOB1981 Mount Gambier District, South Australia) described.

The Australian Federal police, overseeing this investigation, should have addressed this conduct and laid charges of neglectful investigation leading to grievous bodily harm. Had law enforcement or ICAC SA acted on this illegal practice, it would have stopped the sex offences that occurred in 2015 at Clipsal 500 Adelaide (motorcar race event) and ongoing.

To gain resolution after having called out and upon all police officers involved in the Gordon Tearonui Hamm investigation and investigating *Kurt Gavan Slaven*

(DOB 07NOV1958; SAPOL/ADF - Navy) sex crimes, I have appealed to the Supreme Court of South Australia, also writing with legal representation to the High Court of Australia. The disruption of applications by the police and government proves that our justice system lacked separation of powers and was in disrepute. Evident when the High Court of Australia let George Pell (Ballarat, Victoria, AUS - Australian Catholic Church Cardinal, DOB8JUN1941 – Died 10JAN2023) out of jail based on a mocked up map which proved very little when there were numerous victims and the offender in question had been proven to be guilty regarding complicitly covering up Catholic Church sex offences.

After such high-level obstructions to justice, witnessing an irrefutable level of a lack in separation of powers and knowing the justice system of Australia was rife with sex industry associations and in disrepute, it was challenging to call out these men. More so, to address this systematic abuse of power and process, a Royal Commission into SAPOL issues. I did not stop pushing for the appropriate charges to be applied to sex offenders and police criminal conduct.

The attachments to persons generated through trust and trauma, which can be drawn from these events and reading this autobiography, are real between victims and police officers more often than not. This is one of the

countless reasons why police are not allowed to pursue victims.

A trauma bond typically follows a cycle and rests on an imbalance of power. After such traumatic experiences were shared with obsessed police officers, it seems like it's been a mash of fucked up movie scripts over these years. The Stockholm style love.

They say, all is fair in Love and War. I disagree. After such barbarism against my life, the toleration of such procedures, corruption, and criminal activity is unacceptable.

The unconstitutional and illegal ongoing, no matter what feelings I had developed over this time, were of no concern in the wake of the Royal Commission, with everything out in the open to the public. I would never have a relationship with a person whom I knew had used a prostitute, asking all my partners this question. Damian H Ferrari (DOB1966, Beaufort, Victoria, AUS - VICPOL), whom I did not choose to have a relationship with, is the only relationship I have had in which his exploitation of human life was not addressed when I asked. Damian H Ferrari (DOB1966, Beaufort, Victoria, AUS - VICPOL) is insinuating his involvement in the sex industry a lot. Darryl Peter Wright (SAPOL, African Army - International, AF) was disqualified in 2016 as Travis Paul Enmon (DOB16JAN1989), his short-lived upstanding against police harassment to start with, then floating around inappropriately as a married man was world-shattering. As if you do that. And he certainly was not Travis Paul Enmon Jr (DOB: 16 JAN 1989).

Over this decade, Travis Paul Enmon Jr (DOB16JAN1989) was all I was looking for, the Only man I really wanted.

I had told many friends, family, and others out of courtesy, including legal services, my publishers, etc, of the ongoing situation surrounding these men. Even the mistaken identities had been shared in conversation. Why these men were pretending to be Travis Paul Enmon Jr (DOB16JAN1985) is beyond words, outrageous, and caused much emotional distress as well as psychological suffering, not to mention the intentional embarrassment that was caused along with defamation and criminal offences committed against my person. I should never have had to work out or wonder who was who and what was what.

My life is being manipulated vilely by breaches to my privacy based on no legal grounds. By men obsessed with revenge porn, circulated most dangerously by police associated felons. I felt so helpless during these years to find a resolution. I could do more for others with my outspoken activism for humanity and human rights than I thought I could do for myself.

Many brave members of the community had emerged by 2020. Community members who stood up mainly against Kurt Slaven's (SAPOL, Australian Defence Force - Navy) criminal behaviour, corruption, malpractice, and infidelity within the police force,

which was costing our South Australian communities dearly.

Resolution was detrimentally and intentionally slow. Recorded phone calls in 2019/2020, providing much evidence against *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy), which remained unacted upon by SAPOL and the State Government. Darryl Peter Wright (SAPOL, African Army - International, AF), in his own corruption, whose job as ICAC SA was to stop the corruption which led to serious grievous bodily harm in 2012 - ongoing authoring this autobiography. Darryl Peter Wright (SAPOL, African Army - International, AF) floundering SO severely in his job is his legacy, the Monster that did the most damage—followed by Damian H Ferrari (DOB1966, Beaufort, Victoria AUS - VICPOL) under VICPOL Commissioner Shane Patton (Chief VICPOL 2020) and VICPOL Commissioner Graham Leonard Ashton (DOB1962) alongside Dave Kyriacou (SAPOL ID 40657) under SAPOL Commissioner Grant Stevens and SAPOL Commissioner Gary Burns (STARForce; joined SAPOL 1972). These men are the driving force behind this insidious cover-up. A police force rotten to the core, it covers up and overlooks severe sex crimes (paedophilia), rape crimes, and even murders. Police investigating police is a prominent problem. To know, witness, and endure all this made life SO unbearable and deeply traumatic. Telling the truth, pursuing the Royal Commission into SAPOL to be called. The

horrendous ongoings - operations, corruption, investigations I had endured, seen, heard, and witnessed regarding the criminal conduct of our police force, outlined for the Royal Commission into SAPOL in this autobiography, disgustingly astonishing.

More outrageously astonishing is that the courts and basically a dozen judges (both male and female) involved did not call for a Royal Commission themselves. Politicians and/or judges can call Royal Commissions. The constant abuse of power by police, bribery, and gang alliances are blatantly obvious. After all my reports to the police ombudsman and ICAC SA-NT, IBAC, and the newly introduced NACC between 2014 and 2023 were met with no resolution. For over half a decade, instead of resolution and being respected as a victim, the lack of separation of powers and the deterioration of our democracy via unconstitutional law is irrefutable.

I was whistleblowing on police and disability sector corruption of a criminal nature. Instead of resolution and justice, reform and progress, I was met with torts, life-threatening harassment, and blatant targeting by police and associated persons, which was more acceptable than correcting criminal behaviour. Investigating, witnessing, and recording many criminal actions of police personnel, which were engaged with intent and maliciously motivated criminal negligence, a chain of causation of associated crimes and government authority, the oversights were too Big to deny.

Irrefutable. The recommendations proposed in this book are paramount to change within the sector.

In 2020, when police announced a successful cover-up of their involvement with the sex industry, including children, it was six years since I had reported Kurt Slaven's (SAPOL, Australian Defence Force - Navy) paedophile crime, along with numerous sex offenders associated with SAPOL. The disgusting culture within the Australian Police Force towards women protruded denial. The Law Enforcement Conduct Commission (LECC) transcript regarding the NSW Police WhatsApp group chat included messages about whether a woman was "r*#table" (rootable) and "worth the rape charge" was revealed. Rhetoric so appalling I felt physically nauseous reading as a victim.

I, a police force, made a victim living through such a disgusting period of policing culture in Australia.

The courts are another source of police influenced bias, misconduct, maladministration, and other detrimental discrimination due to prostitute defamation.

Serving in the Mount Gambier District Courts, Magistrate Maria Panagiotidis (South AUS courts, appointed to the bench in 2003) twice falsely claimed I entered No Plea in court records, which is maladministration at the least, perjury at its utmost

definition. My plea of NOT GUILTY was entered, and I was found Not Guilty. Very questionable actions and much abuse of power, seemingly by Magistrate Maria Panagiotidis (South AUS courts, appointed to the bench in 2003).

By 2021, police ignorance towards sex offender reports I made, sex crimes against myself, etc, is on record with both law enforcement departments and judicial bodies. Evidence in the forms of recorded phone calls via government departments, administrative records - emails which resulted in some blocking my pursuit of resolution via email, claims I was a serial complainant via the DPP (public and prosecution) and ICAC at times, the blatant disregard of my welfare, constitutional right, Human Rights, and the Victims' Rights violations all reflect the gaslighting activities, cover up agenda, severe criminal negligence, and irrefutable torts. Many accountable officers are displaying a blatant ignorance towards rectifying their disgraceful cover-ups.

International intelligence, judicial disrepute, and tyrannical applications of law create the basis of criminal negligence and cover-up turmoil. Proof of the destruction this cover-up has caused not only stems from our close ally, the USA, as touched on, but also heavily regarding New Zealand after deportations from the Australian Federal Police overseen by Gordon

Tearonui Hamm's investigation, reporting a staggering 9000 offences in total linked to persons deported from Australia back to their home country. A trade-off to cover up the police forces' heavy involvement with the sex industry, leaving the small nation with a distinct increase in crimes bred by Australia.

2000 of the 9000 accounts of crimes committed by deportation were of a deceptive, theft nature. Replicating crimes that had these persons deported in the first place, the offences also included assaults and child sex crimes. The state of corruption within the Australian Police Force not only allowed New Zealander Gordon Tearonui Hamm to be murdered, but the insidious misconduct, malpractice, and criminal activity by Australian police have had detrimental outcomes overseas.

Child sex crimes have often been a trade-off when police were confronted with their own sex crimes, especially regarding their involvement with the sex industry. Called out for years by me, Dave Kyriacou (SAPOL ID 40657) who was involved initially in the investigation of the murder of Gordon Tearonui Hamm, proved that he was heavily involved with misconduct he could not charge child abuse and sex crimes like Luke Ryan (Mount Gambier South AUS District, known Catholic Family) or retired Kurt Slaven.

If *Kurt Gavan Slaven* (DOB 07NOV1958; SAPOL/ADF - Navy) had been spoken to about his irrefutable sex offending in a timely manner, it would have avoided numerous civilians facing National Integrity summons under introduced laws compelling persons and evidence with no right to silence. A devastating outcome developed out of malicious accusations with no basis or facts, which Dave Kyriacou (SAPOL ID 40657) could have and should have corrected, not only as a police officer but as a Freemason.

As my case mounted against the unconstitutional and not fit for purpose Association Laws, the Police Force in pathetic glory used and abused this law to no end, trying to silence the truth, UGLY HEROS The Price of Unlawful Enforcement being told. The fact that a Victim, an innocent and un-associated person, was getting more focus than known patched bikers not only proves the laws were written to target persons reporting police misconduct, but that the use of these laws for their entire legislative period had been applied for political gain. Utilised in ways that are illegal in militarized policing. Actions that can be likened to a quote: 'Russian New Generation Warfare (RNGW) combined Disinformation, denial and disruptive technologies for psychological as well as physical effect.' *Battlegrounds: The Fight to Defend the Free World*, a Book by H. R. McMaster. H. R. McMaster's writing is Legendary literature.

Freedom of Information and censorship based on interpretive facts, not always facts – this is a now issue to me. Disinformation is a fickle word in definition and, for the most part, assumes that the human population, though we have evolved and existed through many a right and wrong theory over centuries, is, these days, too stupid to decide what to believe and what not to believe. The Australian Labor government, with the support of Dictator Peter Craig Dutton (DOB 18 NOV 1970), who was leading the Liberal government, introduced further unconstitutional laws. This opinion piece by Human Rights Commissioner Lorraine Finlay appeared in The Australian on Thursday, 24 August 2023.

“Despite being labelled the 'word of the decade' in 2021, fake news is not a modern phenomenon. Misinformation has been spread for political gain since Octavian used fake news to discredit Mark Antony in ancient Rome.

What is different today is the way modern technology makes it easier to spread fake news around the world, but harder to distinguish fact from fiction. Misinformation and disinformation can have devastating effects on human rights, social cohesion, and democratic processes.

Australia needs to address these risks. But this needs to be balanced with ensuring we don't unduly affect freedom of expression.

This is the key problem with the federal government's proposed Communications Legislation Amendment (Combating Misinformation and Disinformation) Bill. The draft bill aims to give the Australian Communications and Media Authority increased powers to combat online misinformation and disinformation, but in a way that does not find equilibrium between censorship of objectively untrue content and protection for freedom of expression.

Concerns about whether the draft bill strikes the right balance have been expressed by a range of groups, including social media companies such as Meta, legal experts such as the Victorian Bar Council, and the Media, Entertainment and Arts Alliance (which represents more than 15,000 workers in media and cultural sectors). The full extent of feedback about the draft bill is not yet known, with public submissions to the government's consultation process closing last week but publication of those submissions being delayed until next month.

The Australian Human Rights Commission submission, which has already been made public, highlights four key concerns about the draft bill.

The first issue is the overly broad and vague way key terms – such as misinformation, disinformation, and harm – are defined. Laws targeting misinformation and disinformation require clear and precise definitions.

Drawing a clear line between truth and falsehood is not always simple, and there may be legitimate differences

in opinion as to how content should be characterised. The broad definitions used here risk enabling unpopular or controversial opinions or beliefs to be subjectively labelled as misinformation or disinformation, and censored as a result.

The second key problem is the low harm threshold established by the proposed law. Content that is “reasonably likely to cause or contribute to serious harm” risks being labelled as misinformation or disinformation. The categories of harm are themselves extremely broad, including things like “harm to the health of Australians” and “harm to the Australian environment”. Reasonable people may have very different views about what constitutes harm under these categories. The definitions also provide no guidance about how harm is meant to be judged.

It is true that what is required under the bill is not just harm but serious harm. The effect of this, however, is uncertain, given that the proposed law does not go on to define serious harm. It further requires only that the content has to be “reasonably likely to cause or contribute to serious harm”. Content can be labelled as misinformation even if it does not actually cause harm – it only has to be “reasonably likely to do so”.

Further, the harm threshold is not limited to causation but requires only contribution, and no minimum level of contribution is stated. This leaves open the possibility that even a minor or tangential contribution will be sufficient. The harm threshold established under this draft bill is extremely low, which risks allowing an

extremely broad range of content to potentially be restricted.

The third concern highlighted by the commission is the way the proposed law defines excluded content, which is content that is protected from being labelled as misinformation or disinformation.

One key example here is that the draft bill defines any content that is authorised by the government as being excluded content. This means government information cannot, by definition, be misinformation or disinformation under the law.

This fails to acknowledge the reality that misinformation and disinformation can come from the government. Indeed, government misinformation and disinformation raise particular concerns given the enhanced legitimacy and authority that many people attach to information received from official government sources.

This specific exclusion privileges government content but fails to accord the same status to content authorised by the opposition, minor parties, or independents.

The result is that government content can never be misinformation, but content critical of the government produced by political opponents might be. Any law censoring online information to counter misinformation and disinformation must be scrupulously impartial and apolitical.

The fourth concern relates to the powers to regulate digital content that are granted under the draft bill to digital platform providers and (indirectly) the ACMA.

There are inherent dangers in allowing any one body – whether it be a government department or social media platform – to determine what constitutes censored content. The risk here is that efforts to combat misinformation and disinformation could be used to legitimise attempts to restrict public debate and censor unpopular opinions.

Striking the right balance between combating misinformation or disinformation and protecting freedom of expression is a challenge with no easy answer.

While we need to respond to the risks posed by misinformation and disinformation (which realistically will involve some degree of proscription about what kind of content can appear online), this draft bill does not strike the right balance. Regardless of how future efforts to combat misinformation and disinformation may better find equilibrium between these competing tensions, there needs to be strong transparency and scrutiny safeguards to protect freedom of expression. It is these mechanisms that are sorely missed in the draft bill's current form.

If we fail to ensure robust safeguards for freedom of expression online, then the measures taken to combat misinformation and disinformation could themselves risk undermining Australia's democracy and freedoms.”

In My Opinion:

Freedom of Speech, our right, should be protected from the clutches of government at all costs. Use your brain and Google if you're unsure – who is this so-called fact checker! Unconstitutional law should be struck out at the least by our High Courts. We should not have High Court representatives appointed by Parliament. These people should be voted on by the people based on a public resume submission.

Unconstitutional laws allowing governments to pursue avenues of entrapment and for Australian Police members to stalk me with my personal device to continue their torts and character assassination spanning over a decade, with *no grounds*, shows that the government will take any liberty you let them.

Lastly, for this introduction, a glance over the events of 2023 before SAPOL incarceration torts lasting nearly six months.

On the 28th of December 2023, I travelled to Victoria, unplanned and not even plotted on Google Maps until three hours before I arrived in Shepparton, Victoria, AUS. Instantly, it was brought to my attention by a

VICPOL paddy wagon that VICPOL was stalking me. A highly distressing and highly illegal revelation, I instantly emailed the AFP commissioner regarding VICPOL torts, including a lawyer and substantial facts surrounding torts in this email. No one knew where I was. God knows I didn't even have my rock-climbing destination for New Year's set in stone when I decided to stay in Shepparton. I could have ended up in the Blue Mountains, not the Arapiles. VICPOL were out of control regarding torts, efforts to protect police sex offenders, and stalking me. I stayed at the renowned Rock-Climbing destination and witnessed the same psychological warfare activity as was engaged during the Gordon Tearonui Hamm homicide investigation in 2014. VICPOL and associated personnel using green, red, and smaller than head torch lights to try and scare me – the use of propaganda to terrorise is an effort of psychological warfare. Highly illegal activity and torts in the state (Victoria, AUS), where persons staying at the location are linked to police engaging in sexual harassment. A man located at the Arapiles campground with a dishevelled appearance and shoulder-length grey hair was watching me for days. He would literally put his camp chair in my line of sight, which was contrary to his own tents. On the 3rd of January 2024, this man sat in his chair with his pipe, harassing me, well knowing I get undressed to dress in climbing gear to climb each morning. Trying to change my clothes in peace and privacy, including underwear discreetly as we all do at the shared campsite, which he and his wife had witnessed everyone doing, yet he did not set up his chair to stare at everyone, just me, for a week. This disgusting

family felt so comfortable in their harassment and position that they would urinate all over the campgrounds instead of walking approximately fifty meters to the toilet facility provided at this prominent location. A location that always had many people at the campgrounds year-round. I was encouraged by Parks Victoria to report this activity to VICPOL when I reported the vile family who were stealing toilet paper from the toilets to use all over the campgrounds instead of walking to the toilet.

VICPOL's torts are irrefutable and blatantly obvious.

The Bandidos and CIA-aligned state police force in 2022, speaking on behalf of the FBI – Federal Bureau of Investigation, put in writing that the FBI would never hire me. Considering I was the most honest person in the room with Australian law enforcement irrefutably covering up sex offences and the FBI witnessing this, personally, I thought VICPOL's defamatory employment determination was a bit rich. A bunch of sex offender protectors speaking for the FBI in writing, I certainly wanted to obtain this tort-based outcome for myself.

Which I literally felt I could with my Consulate Green Card status, allowing me to work in the USA. If it was withdrawn, I would have known the FBI was futile in this plot, and I suppose VICPOL would be right. I have been audio recording events and interactions with police forces for years. I was located at Mt Arapiles at 15:00

on 13th January 2024 when VICPOL pulled up in a patrol wagon. The highway patrol wagon reversed and parked in front of my vehicle on the right. VICPOL sat in the car staring at me while I was on the phone to Clear Ads regarding an advertising campaign in the works with Channel 9 (AUS). Two creepy blokes claiming they were checking on everyone as I recorded the incident. I was flashed the 'okay' aka 'nazi' hand gesture known about VICPOL and used by their idiots in protests. Following this encounter, I emailed lawyers and the AFP commissioner's office stating as follows:

"Why did VICPOL just stop and stare at me until I talked to them??"

I am here trying to rock climb and engage Barbwire Noose advertising plans with Channel 9 as discussed. Remaining in Australia is not an opportunity for the police to harass me, Mr. Kershaw?! If I'm such a big criminal, why aren't you hunting around me?

Seriously, it's scary to be approached by two dodgy VICPOL male cops in remote Australia, and that check-up has caused me much emotional distress right now.

Why can I not go anywhere in Australia without police torts or actions stemming from criminal negligence playing out?

The extent police will go in a sex offender cover up is Gross."

By this stage, VICPOL Natimuk had stolen advertising material from the brand Barbwire Noose® about the

publication of the Autobiography printed by Austin Macauley, October 2023. Torts spanning a decade involving VICPOL and SAPOL, with Aussie Lawyers suing VICPOL, Horsham (Victoria, AUS), for torts, nearly two years ago. Aussie Lawyers' withdrawal letter regarding torts representation, received shortly after these further torts (stalking) from VICPOL.

Stalking and a continuance of intentionally malicious life-threatening torts. Aussie Lawyers are withdrawing from representation at this time.

If VICPOL had have continued the torts, Aussie Lawyers' position is that I, as a client, could experience damages due to negligence. Which the legal service (Aussie Lawyers) was aware of, on 19 January 2024; Ref: 221002

Dear Marcia,

Re: Your Potential Civil Claim against Police for Intentional Torts

We hope this written correspondence finds you well.

We write to you with reference to your instructions provided to our office regarding the incident you experienced with the Victoria police. It is with deep regret that we inform you that we are presently unable to continue offering our legal representation services in connection with this matter.

Due to constraints on our available resources at the moment, our office has reluctantly decided to cease accepting instructions for cases occurring within

Victoria. This regrettable decision has been necessitated by a need to judiciously allocate our limited resources to areas where we can provide the most effective assistance to our clients.

In accordance with this decision, please be advised that we will not be able to further assist you with your matter pertaining to the Victoria police incident. Consequently, we have taken steps to close your file in our system. We would like to assure you that this action has been taken without accruing any costs with our firm, on your part.

It is imperative to bring to your attention that your potential claim arising from this incident is governed by stringent statutory limitation periods. Depending on the specific circumstances of your case, the limitation period may range between three (3) to six (6) years from the date of the incident, or from the date upon which a discoverable cause of action arises. This essentially means that any legal claims related to this incident must be initiated within this timeframe, failing which you might lose the right to pursue your claim.

Given this time-sensitive nature of your potential claim, we strongly urge you to promptly seek alternative legal representation without delay if you intend to pursue this matter further.

Immediate action is crucial as failure to initiate legal proceedings within the stipulated limitation periods might result in the forfeiture of your right to legal recourse related to this incident.

While we are unable to continue representing you, we want to extend our sincere gratitude for entrusting us with your instructions thus far. It has been our privilege to serve you, and it is with a sense of disappointment that we cannot see your case through to its conclusion.

In closing, we advise you again to swiftly engage the services of another competent legal professional to ensure that your rights are adequately protected and pursued in light of the impending limitation deadlines. We wish you the very best in your future endeavours and hope for a favourable resolution to your legal matter.

Should you have any questions or need clarification on any issue raised in this letter, please do not hesitate to get in touch with our office at your earliest convenience.

Thank you for your understanding and cooperation.

Kind regards

Aussie Lawyers

Adam Canceri

Principal

Withdrawing after over a year since torts were acknowledged by a judge on record in the Victoria Courts. The decision to leave a person of petite stature and female socially vulnerable, at the whim of hostile police and persons without legal representation. I was

now stalked, defamation of a damaging nature was spread, and I was vulnerable camping.

Social vulnerability is statistically proven to be associated with greater fear of crime. Meaning you're vulnerable to becoming a missing person, harm, etc. Harm we know is caused when defamation of prostitution is spread and people's respect levels drop.

Clearly, what this activity was trying to induce was vulnerable situations, and facing many situations where the police failed to protect me, I was often forced into actions of self-defence. The malicious accusations with no basis or facts were so out of control that I found myself having to countlessly protect my reputation and livelihood, which I was more than willing to do for myself. Self-defence of my life from persons stemming from South Australia, Victoria, and even during Reckless Endangerment to the Northern Territory.

Self-defence against this activity is a defence in court. My Human Rights = nonexistent. I spent much time calling out compromising actions. Even sleeping with a weapon was an action I had taken to keep myself safe. At best, half of the police force was looking out for my welfare, insufficiently against an unprecedented level of corruption within the Australian Police Force.

And that is where I will leave the Introduction, enjoy!

Truth, Justice, and Altruism. Irrefutable need for a Royal Commission into SAPOL, Advocacy for a Bill of Rights Australia, and proof that Freemasonry, like the reverend Catholic Church, has its flaws.

Quote: “The most dangerous people in the world are not the tiny minority instigating evil acts, but those who do the acts for them.” - Suzy Kassem (DOB1DEC1975 American writer, poet, philosopher, and multi-faceted artist of Egyptian origin).

NOTE: *This scripture is biblical and not my own, yet it has a beautiful message if you are interested.*

program - 'Most people have not been inside a jail. It's not a place that anyone in their right mind wants to be. Yet, jails are filling up and new ones can't be built fast enough. Local, state, and federal penal systems are strained beyond capacity, and they struggle for budget increases to meet the demands placed upon their institutions.

Having a prison record and the stigma that goes with being tagged a “jailbird” makes it very difficult after one's release to assimilate by becoming employed, obtaining housing, and being involved in productive, gainful activities. When these difficulties come up (as they almost inevitably will), many newly released

prisoners end up back in prison. Some repeat this cycle multiple times. On the other hand, some individuals with a prison record do learn their lesson and successfully re-enter society, going on to have successful, law-abiding lives.

Another aspect of the prison scene is that sometimes innocent people who are not guilty of a crime end up behind bars. There are many reasons that the system can fail to properly mete out justice. Sometimes a person is falsely accused. Anciently, in the Bible, we have the example of Joseph, the favored son of Jacob, also known as Israel. Joseph's brothers resented him and were jealous of the partiality shown to him by their father. In a rage, they seized an opportunity and cruelly sold Joseph into slavery. Despite this grim fate, Joseph showed godly behavior, and his Egyptian master came to greatly value his service, giving him much responsibility. Sadly, the master's wife did not have good character and tried to seduce Joseph. He refused her advances, so she falsely accused him of assaulting her. He was imprisoned for years. Yet, even there, his abilities were recognized, and he was given a lot of responsibility. Through a series of events brought about by God, Joseph was brought before the Pharaoh to interpret a troubling dream. The king was so impressed that he put Joseph in charge of the country's food production and storage in preparation for a great famine. Joseph was a "jailbird" whom God used in a special way.

In the New Testament, we see that the religious establishment was very upset by the teachings of Jesus Christ and the activities of His apostles. A great stir occurred after the Day of Pentecost in 31 AD, as Peter preached powerful messages of repentance and the role of Jesus Christ. After he publicly healed a man who had been crippled from birth, the authorities had Peter and the other apostles thrown in jail. God miraculously released them, and they continued to actively carry out the commission that they had been given by Jesus. No doubt their detractors referred to them as some sort of “jailbirds.”

Paul, a Pharisee who was a persecutor of the followers of Jesus Christ, became the “Apostle to the Gentiles” after his conversion. He was a scholarly man, zealous for the Holy Scriptures. He traveled widely and preached boldly, for which he was imprisoned—sometimes for years—on more than one occasion. He did some of his greatest work while in prison, including writing what are known as the Prison Epistles (that is, the letters to the Ephesians, Philippians, Colossians, and Philemon). Not bad for someone whom many would call a “jailbird.”

Jesus, in his sermon on the Mount, addressed those who suffer for their beliefs and practices when He said, “Blessed are those who are persecuted for righteousness’ sake, for theirs is the kingdom of heaven” (Matthew 5:10).'

MOUNT GAMBER SA 5290

Dear Ms Hobbs

Re Your complaint about South Australia Police (SAPOL)

Thank you for your complaint to the Office for Public Integrity (OPI) in relation to SAPOL.

This letter outlines some of the functions of the OPI and how your complaint has been addressed.

OPI Process

A complaint or report that relates to SAPOL will be dealt with under the *Police Complaints and Discipline Act 2018* (The Police Complaints Act) which places the primary responsibility for the management of complaints about the conduct of police with the Internal Investigations Section (IIS) of SAPOL.

The OPI having received a complaint or report about police conduct will refer the matter to IIS unless the OPI decides to refer the matter to the Independent Commissioner Against Corruption (ICAC). Matters that may be referred to ICAC would include conduct that raises a potential issue of corruption or serious or systemic misconduct or maladministration.

If a complaint or report is referred to IIS, they will be responsible for keeping you informed on the status and progress of your matter.

The OPI will oversee the manner in which complaints and reports about the police are managed.

The OPI is able to reassess a matter already assessed by SAPOL and is able to issue directions to SAPOL regarding their investigation of complaints or reports.

Your Complaint

Your complaint has been reviewed by the OPI and referred to the Internal Investigation Section (IIS) of SAPOL.

Dear Madam,

APPLICATION FOR INTERNAL REVIEW – FREEDOM OF INFORMATION ACT 1991

I refer to your application for an internal review received by South Australia Police (SAPOL) on 19 February 2018.

I refer to the determination made by the Manager, Freedom of Information Unit on 17 January 2018. In this determination you requested the following:

"I request records/claims held against my persons regarding charges, accusations or any documentation from this department between 2001-2005, 2011-2015"

You further refined your request in a telephone conversation you had with Sergeant Friend on 15 January, 2018. You clarified your request and stated you are seeking a police report where you are listed as a suspect and the report relates to a local police officer during the time period of 2012 to 2017.

In SAPOL's letter of determination dated 17 January 2018, it stated:

It is determined to **refuse access** to a document that falls within the scope of your above request pursuant to clause 4(1) (b) of Schedule 1 of the FOI Act which states:

"A document is an exempt document if it contains matter the disclosure of which could reasonably be expected to prejudice the fair trial of any person or the impartial adjudication of any case."

and

Clause 4(2) (a) (i) of Schedule 1 of the FOI Act which states:

"A document is an exempt document if it contains matter the disclosure of which could reasonably be expected to prejudice the investigation of any contravention or possible contravention of the law (including any revenue law) whether generally or in a particular case."

Dear Madam

Re: Freedom of Information Act application

In reference to your application made pursuant to the Freedom of Information (FOI) Act 1997, access was sought to the following information:

I request records/receipts held against my persons regarding charges, accusations or any documentation from this department between 2001-2005, 2011-2015"

I refer to a telephone conversation you had with Sergeant Friend on 15 January, 2018. You clarified your request and stated you are seeking a police report where you are listed as a suspect and the report relates to a local police officer during the time period of 2012 to 2017.

It is determined to **refuse access** to a document that falls within the scope of your above request pursuant to clause 4(1)(b) of Schedule 1 of the FOI Act which states:

"A document is an exempt document if it contains matter the disclosure of which could reasonably be expected to prejudice the fair trial of any person or the impartial adjudication of any case."

and

Clause 4(2)(a)(i) of Schedule 1 of the FOI Act which states:

¹⁴ "A document is an exempt document if it contains matter the disclosure of which could reasonably be expected to prejudice the investigation of any contravention or possible contravention of the law (including any revenue law) whether generally or in a particular case."

2002

Continuation of AFFIDAVIT of Kate DALTON

2017 and March 2018 I was able to demonstrate SLAVEN was not the person responsible for the allegations made by HOBBS.

5. In a statement provided by HOBBS (dated 5 February 2018) she advised she was involved in a motor vehicle accident in Mount Gambier on the 8th of October 2002 resulting in her vehicle being stolen from the accident scene overnight. These events were reported to Mount Gambier Police at the time by HOBBS. SAPOL records, by way of a police incident report (PIR) and a vehicle collision report (VCR), confirmed the date as being the 8th of October 2002.
6. HOBBS further advised she was picked up by a Mount Gambier police officer in a Blue Suttan WRX bearing SA Defence Force registration plates 'WRX-235'.
7. Whilst in this vehicle, HOBBS was driven out of town via Grant Ave and taken to a pine plantation where the sexual assault is alleged to have occurred. HOBBS advised the accused was pulled over for speeding whilst driving the WRX along Grant Avenue.
8. In an addendum statement provided by HOBBS (dated 27 September 2016) HOBBS amended the date of the vehicle accident from 2002 to 2001. There are no SAPOL records to corroborate the 2001 date.
9. With reference to the aforementioned details provided by HOBBS relating to the allegations I ascertained SLAVEN transferred out of the Mount Gambier CIB on 21

Continuance of AFFIDAVIT re: Michelle Alexander

6. In relation to that statement I supply the following details of conversation relative to Senior Sergeant Kurt Slaven (Slaven):

7. On 5 May 2016, I spoke with Marcia Hobbs, at her home address, and provided her information on behalf of Detective Brivet Sergeant Katie Dalton (Dalton).

8. I informed Hobbs that Dalton had investigated the matter and found that Slaven was not working in Mount Gambier at the time of the alleged sexual assault, he had not accessed her police report and that Dalton had a person of interest in the matter. I further advised Marcia Hobbs, that Dalton wanted to contact her in order discuss the investigation further and possible carry out an identification procedure with her.

9. Hobbs advised she would take the social media post down and whilst she did not believe it could be any other person, she was open to meet with Dalton to assist with the investigation.

10. On 24 May 2016, I again spoke with Marcia Hobbs, at the Mount Gambier Police station, and provided her with information on behalf of Dalton.

11. I advised Marcia Hobbs that Slaven was not present in Mount Gambier from 2002, audits on the report relating to her car had not been accessed by Slaven, he had never been recorded to owning a blue Subaru, and he had never been issued a fine at that time of the alleged offence or stopped by police on that date.

Revised Jurament

Continuance of AFFIDAVIT of: Matthew JENNINGS

5. A short time later became aware of a false allegation being spread that I had sex with HOBBS. — You wish creep.
6. On 31 January 2016, I provided a statement regarding that allegation, which is attached as an Annexure to this statement, marked MJ.1. I stress now as I did then that the allegation is false and I do not know where it started, whether it was by HOBBS or someone else.
7. I have since been made aware HOBBS has made other spurious allegations against me on her social media pages. I cannot recall who made me aware of the posts initially but was questioned about the allegations by multiple friends and other people.
8. 15 social media posts dated between 20 July 2017 and 19 April 2018 have been brought to my attention and are referenced / Annexured below. The only time I have ever accessed HOBBS public Facebook profile was when my ex-partner accused me of sleeping with HOBBS. When she made the allegations I actually had no idea who HOBBS was and couldn't recall the name from processing in the cells. I did a search on the name brought up by my partner at the time and that's when I realised it was the female I had processed in the Mount Gambier Cells. I have not accessed any further social media regarding HOBBS since that time that I can recall.
9. MJ.2 was posted on 20 July 2017 on facebook.com/marcialnoose. It names me as a police officer and indicates I failed to act upon a breach of intervention order.

Revised: 20120217

Continuance of AFFIDAVIT of: Kurt SLAVEN

5. On Monday the 11 December 2017, I received correspondence in the form of an email from Detective Brevet Sergeant Adam BROWN ('BROWN') from the Internal Investigation Section. This email referenced a female by the name of Marcie HOBBS ('HOBBS'). When I read the contents of the email and addressed the request in my mind, it was clear to me that I had no knowledge of HOBBS and that to the best of my recollection I had never met her.
6. I rang BROWN and spoke with him further about his request. Further into our conversation I still had no knowledge of HOBBS and advised BROWN of that. It was at that time BROWN informed me HOBBS had made allegations on social network forums that I had raped her back in 2001; and that Detective Brevet Sergeant DALTON from the Special Crime Investigation Branch was handling the matter.
7. This conversation was a surprise to me. It made me very unsettled in regards to the allegations, and the fact that an investigation was being carried out. My response to the information was strong and direct back to BROWN, informing him that I had no knowledge of HOBBS and to the best of my recollection had never met her. I added a very strong denial in regards to HOBBS' allegations of rape.
8. BROWN later emailed me numerous references from various Facebook, Instagram and Twitter accounts. These social media accounts appeared to be in the name of HOBBS. I have attached these posts as annexures to this statement marked KS.1 to KS.15 respectively.

Letter of Offer of Employment – Instructor in Charge (Casual)

VACSWIM 2018/2019 program

Royal Life Saving Society are pleased to offer you Casual Employment in the position of Instructor in Charge of Millicent. Your employment is governed by the Fitness Industry Award 2010 and relevant legislation.

Your applicable rate of pay for this classification is above the Award rate and is set at \$34.00 per hour. After completion of the program, you will be paid by Electronic Funds Transfer. If applicable to the hours of employment, Superannuation may be paid at the current legislative rate. The terms and conditions of your casual employment are also subject to specific organisational policies and procedures, as varied and notified to you from time to time.

In order to terminate this Contract of Employment prior to its nominated termination date or task completion, there must have been an act of serious misconduct, a failure to meet a satisfactory level of performance or a mutually agreed termination date, in which case an appropriate notice period of 1 day is required to be given by either party. We may choose to make a payment to you in lieu of providing the required notice period.

Please complete the details below, sign and return this letter to indicate your acceptance of its terms and conditions. We recommend that you have a copy of this letter for your reference.

We look forward to your acceptance of this offer and to you joining our Casual Pool of Swimming Instructors at Royal Life Saving Society.

Yours sincerely

Jayne Miner
CEO

Location: **Millicent**

I, Marcia Hobbs, hereby accept the offer of employment made by Royal Life Saving Society on the terms and conditions set out above.

JOHNSTON WITHERS
LAWYERS

Retainer Agreement

Between: Johnston Withers (we/us/our);
and: Marda Anita Hobbs (you/your)
Date: 13 December 2018

YOUR MATTER

You authorise us to act on your behalf and undertake the scope of legal work as described in this Agreement and in our correspondence to you, in relation to the following matter:

Investigation into Negligence and Malicious Prosecution

INITIAL WORK INVOLVED

You would like us to undertake the following initial work: Review the documents from the Ombudsman and Prosecution and advise you of a potential claim.

ESTIMATE OF FEES AND DISBURSEMENTS FOR INITIAL WORK

We estimate the fees and disbursements involved in undertaking the Initial Work to be:

Fees:	\$2,000.00	plus GST
Disbursements:	\$0.00	plus GST
Total (Initial Work Estimate)	\$2,000.00	plus GST

INITIAL ADVANCE REQUIRED

You will be required to place the following sum of money \$2,000.00 (Initial Advance) into our trust account and sign one copy of this Agreement and return it to us before we start work on your matter.

Once the initial advance has been billed, we may require further advances from you to complete your matter (Refer Clause 5). We may cease acting in your matter if there are insufficient funds in trust to cover our anticipated further costs and disbursements.

We will accept payment in the following formats:

- Cash
- Cheque
- Direct Credit to our bank account:
Johnston Withers Trust Account
BSB: 033-016 Account No: 100728
Westpac Banking Corporation
Please quote your reference number: 102746
- Credit Card payments either with the card present or by phone payment.
Other than payments of up to \$2,000 for the initial payment, payments by credit card will incur an administration expense (to cover the bank surcharge) of 2% of the total bill.

Dear Ms Hobbs

Your Complaint about Mr Stephen Ey (Practitioner) - Commissioner's Determination

I refer to previous correspondence in relation to your Complaint about the Practitioner.

The Commissioner is satisfied that, in accordance with section 77C of the *Legal Practitioners Act (Act)*, your Complaint should be closed. I have *enclosed a copy of the Determination, which sets out the reasons for the Commissioner's decision.

While section 77K of the Act provides the right to appeal to the Legal Practitioners Disciplinary Tribunal against some types of decisions by the Commissioner, the Act does not provide any right of appeal against a determination by the Commissioner to close a complaint under section 77C. The Tribunal has previously decided that it does not have any jurisdiction to hear such an appeal.

Even if you are dissatisfied with the Commissioner's Determination, there is no further assistance that the Commissioner or his office can provide to you.

It may be that there are other avenues of review or complaint that you can pursue. As a matter of policy, the Commissioner considers that it is inappropriate for his office to give any advice about any other rights a complainant may have, whether under the Act or otherwise. You can of course seek your own advice about what other steps you might be able to take.

We will now be closing our file.

Yours sincerely

A handwritten signature in dark ink, appearing to read "Nadine Lambert".

AFFIDAVIT

IN THE MAGISTRATES COURT
OF SOUTH AUSTRALIA AT
MOUNT GAMBIER

BETWEEN
POLICEPOLICEPOLICEPOLICE
(NAME OF INFORMANT)
AND
Kurt SLAVEN
(DEFENDANT)

I, **Marcia HOBBS** of **CI- AN ADDRESS KNOWN TO POLICE**, in the State of South Australia, make oath and say / affirm and declare* as follows:

1. I am providing this statement to Detective Brevet Sergeant DALTON on 9 February 2018 at MOUNT GAMBIER. This statement was commenced via email and telephone communication on Tuesday 5 December 2017.
2. I have lived in Mount Gambier for twenty seven years (27) since moving from Port Augusta when I was approximately six (6) years old. I was born on the 25th of April 1984. I am currently thirty three (33) years old.
3. On the 8th of October 2002 I was involved in a car accident at the intersection of Keegan Street and Percy Street, Mount Gambier. I was on my way to work at the YMCA at the time, which was near where the accident occurred. My damaged vehicle was left within a private parking area at the YMCA premises whilst I went to work.
4. On the 9th of October 2002 I received a telephone call from a male police officer telling me my vehicle had been stolen and subsequently located in the Spotlight carpark on

Continuance of AFFIDAVIT of: Marcia HOBBS

Sturt Street, Mount Gambier. I went to my car, at the back of the Spotlight carpark and saw that the key was in the car. I smashed the driver's side window and then drove my car from the Spotlight carpark to my home address, which was a flat on Margaret St, Mount Gambier. I then went to work at 'The Waterhole' pool. While I was working on this day during the afternoon I had a telephone conversation with a male police officer. My phone number at this time was 0404 174 159. I can't remember whether I made the call to the police officer, or whether I received the phone call at work, but I distinctly remember it was at the Waterhole reception telephone. The male police officer wanted to organise a statement from me about my car being stolen. At some point, within the week from the 9th of October 2002, I was picked up by a male police officer, I think this was from my work, but I can't be certain. I was picked up by this male officer in a light (baby) Blue Subaru WRX. I have found an image of a vehicle of similar style and colour to the vehicle I have described. This image is annexed to the rear of this statement, labelled MH1 for identification. The car had defence force plates and the registration plates were customised and started with WRX. I know the plates were defence force plates because I saw a defence slogan written across the top (I think) of the number plate. It had boats across the plate and the defence writing was black. I thought the vehicle was an undercover police car being driven by SLAVEN. I sat in the front passenger side of the car, SLAVEN was driving. There was no other person in the vehicle. I can't exactly remember the time of the day, but it was daylight and not morning.

Continuance of AFFIDAVIT of: Marcia HOBBS

5. Me being picked up had been arranged on the telephone prior to me being collected. This police officer didn't introduce himself by name when he picked me up. He was wearing plain casual clothes at the time, not a suit or a police uniform. He told me that he was a Detective and he wanted to speak to me about my stolen car and get a statement from me. I had not met him prior to this date. I had never even seen this police officer. I would describe SLAVEN as being short in height with dark hair and a beer gut. SLAVEN told me that he was 32 years old. I am not sure how this came up in the conversation, but was discussed in general conversation while he was driving. I thought SLAVEN was older than 32 years old. To me he looked to be in his late 30's or early 40's.
6. SLAVEN drove me out past the Blue Lake Holiday Park and past a lookout on Davidson Drive and then down past Valley Lake, which is a lake in Mount Gambier. I thought that this was a bit weird, but I thought that maybe he just wanted to talk. After this SLAVEN took me out of town. We exited town past the Blue Lake Golf Club on Grant Ave and then right onto White Ave, left onto Tollner Road and the left onto the Princes Highway. We ended up at a pine plantation on the left hand side of the Princes Highway. The pine plantation was raised off to the left hand side of the Highway.
7. On Grant Ave, Mount Gambier, near the Mount Gambier cemetery, SLAVEN asked me if I knew the speed on that stretch of road. I told him it was 100km/h. It was actually an 80km/h zone, which I knew at the time, but I thought SLAVEN had asked a stupid question, so I was giving him a stupid answer. Whist driving, SLAVEN was pulled over at

Deponent's Signature: Witnessed By: Date: 9/2/2018

Revised: 3/10/2017

Continuance of AFFIDAVIT of: Marcia HOBBS

on Grant Ave near the Cemetery, by a manned speed camera. By this I mean a police officer with a radar gun issuing written fines. This police officer a male officer was in uniform and had a marked police car. He was working alone. When SLAVEN pulled over the police officer instructed SLAVEN to wait for the person he was fining to be processed. I think this car that was already being fined was a white ute, but I can't be certain. There was only one single male police officer using the laser gun. This male police officer then came back to the car we were in and it was clear to me he recognised SLAVEN straight away as a police officer. The reason I state that I think this police officer recognised SLAVEN is because of the way that the male police officer interacted with SLAVEN. He let SLAVEN go without issuing a fine. I recall there was some conversation between SLAVEN and this male uniformed police officer, but I can't remember the details. Whilst we drove on SLAVEN had a conversation with me about getting away with the fine, but I cannot remember the details of this conversation, only that this was the context. I have identified the route we took out of town and the location of the pine plantation on a map. I have attached this map to the rear of this statement marked annexure MH2 for identification.

8. We arrived and parked in front of a pine plantation, as identified in annexure MH2. SLAVEN turned the car around so that the passenger side was facing the pine plantation. I do not recall the explanation given as to why we were there and I can't recall any conversation we had whilst we were there. SLAVEN got out of the car and walked around from the driver's seat to the passenger door. He was wearing pants at the time and I remember him pulling them down to expose his penis. At some stage SLAVEN put

on a condom. He must have had this condom with him because I didn't see where the condom came from, him pull it out or put it on. I do not recall if SLAVEN was circumcised or not because his penis was already hard.

9. SLAVEN then forced himself on me. In saying this I mean he inserted his penis into my vagina without my consent. I have tried not to think about this for such a long time now, I have trouble recalling exactly what happened other than the fact that I was in the front passenger seat of the car and he was on top of me. At the time I was very small and did not weigh much, which made it easy for SLAVEN to overpower me. I can't remember if I said anything or not at the time. I recall that he had sex with me for about 2 minutes, maybe less, before he ejaculated. I did not say anything to him about what he was doing. I remember feeling shocked at the time. I felt like I could not say anything, I was paralysed.
10. SLAVEN, once finished, pulled his penis out of my vagina and then took off the condom and buried it in the ground near the car, right outside the door.
11. SLAVEN then looked at me and said 'You can't tell anyone'. I did not speak back to him.
12. SLAVEN then drove me back into town and dropped me off somewhere. I cannot remember where. I was in shock.

13. In October 2002 I was eighteen (18) years and six (6) months old. I had a boyfriend at the time, his name Tim ARGENT. I lived with Tim at the time in Margaret Street. His family owns the property that Tim and I rented.
14. I did not seek medical attention after this rape. I did not tell anyone about this rape.
15. At around 6 months after the pine plantation rape, SLAVEN had organised a taxi to pick me up from my home address, which was a flat (I can't remember whether it was flat 4 or 6) Doughty St, Mt Gambier. It was the ends flat in the brown brick block. At the time I thought SLAVEN had organised the taxi to pick me up to follow up the investigation of my stolen car. I thought it was odd that the police had organised a taxi to come and collect me, but I was young and naive and I went. At this time I had 3 cars available that I could have used to drive myself, so there was no reason that I would need a taxi. I must have thought that there was a legitimate reason for me to have actually gone in the taxi. The taxi drove me to a house at Conroe Heights; I do not know the address. I had never been to this house before. I can't remember the colour of the house, but it was brick with a flat front. It had a driveway on the left hand side of the house. I would not be able to identify this house from the street again, but I could identify the interior of the house. I have drawn a map of the interior of the house. I have attached this map to the rear of this statement marked annexure MH3 for identification. I got out of the taxi and the front door was open. I heard SLAVEN call out something to me, I can't remember the words. I followed the voice from the front door, through a front entry, through a lounge-room; to the left was a bedroom. SLAVEN was in this room. The bedhead was on the left of the

room and there bedside tables. The bed did not have a bed end, I can't remember if there was a bed head or not on the bed. SLAVEN was naked lying on the bed. SLAVEN was lying on his side with his elbow propping his head up and his other arm on his side. SLAVEN already had a hard penis. I did not see any tattoos or scars at all on him. SLAVEN did not say anything to me. I stood in the doorway and did not enter the room. I felt terrified by seeing SLAVEN laying there naked. I felt frozen with fear. I turned around and walked back out through the house to the front door. SLAVEN got dressed and then followed me back out to the front door. SLAVEN must have told me that he would take me home. SLAVEN then took me to McDonald's in MOUNT GAMBIER. I told SLAVEN to drop me off at McDonald's because I did not want him anywhere near my home address.

16. I felt that I was a young person and I trusted the police. I have family in the police force and I did not expect any police officer to do this to me.
17. Around the middle or towards the end of the year in 2003 I started seeing a guy by the name of Jason PARKER. Towards the tail end of 2003 I told my boyfriend Jason PARKER about the Pine Plantation incident and what happened to me at CONROE HEIGHTS. We were living together at in a flat at Lake Terrace, Mount Gambier. Both incidents had occurred by this stage. I had only known Jason for about six months when I told him about the two incidents that had happened to me by SLAVEN.

AFFIDAVIT

IN THE MAGISTRATES COURT
OF SOUTH AUSTRALIA AT
GEELONG

BETWEEN
POLICE
(NAME OF INFORMANT)
AND
Luke RYAN
(DEFENDANT/S)

I, **Marcia HOBBS** of **MOUNT GAMBIER**, in the State of South Australia, affirm and declare as follows:

1. I provide this statement to Constable MCKINNON ID No 77000 at about ... on Monday the 8th of June, 2020, in MOUNT GAMBIER.
2. During the year 2002 I met a man named Luke RYAN whilst I was in a relationship with his friend, Jason PARKER.
3. In 2017 I was no longer dating Jason, and Luke asked me out on a date. For this date, we went out to a pub for a meal. This was one of many times that Luke expressed he was interested in dating me. At this time I told Luke that I do not have the same feelings and did not want to commence a relationship with him.
4. In ~~approximately~~ December, 2018 ~~or January 2019~~ I was looking for a new residential address. Luke told me that he was also looking to move into a new place so I moved in with Luke in early 2019. We lived at 5 Beth Place, MOUNT GAMBIER together. This was a three (3) bedroom house. Luke had the main bedroom with an ensuite and I had a bedroom up the other end of the house with a separate bathroom. I was happy with this

arrangement as we were able to live together but have space between us within the house.

5. In about January 2019, I was in the shed at 5 Beth place, MOUNT GAMBIER when Luke told me that he had punched his stepchild, I cannot remember her first name but her surname is NISBET. Luke's friends also told me that he had punched this 16 year old girl whilst intoxicated at a party. This made me feel unsafe and I worried that he might also harm me if I didn't behave in a certain way. ~~and under the influence of ice.~~
6. On a day I can't remember, I was at 5 Beth Place, MOUNT GAMBIER. I was lying next to Luke on the floor watching television. As I began to nod off, Luke brought his arm under the blanket and moved his hand to my vagina. I said "No" and attempted to push his hand away from me. Luke continued to put his fingers under my shorts and into my vagina. I tried to push him away and remove his hand from between my legs but this didn't work and he continued to penetrate my vagina with his fingers harder as I attempted to get free of his grip. I struggled with Luke for a few seconds before I was able to get up and ran out to my bedroom. This was non-consensual and I made this clear before he put his fingers past my shorts.
7. I reported this instance to the Mount Gambier Police Station in writing through an email.

8. Either later that night or earlier the next morning I spoke to Luke and called him out. Luke told me that he thought that what he did 'naughty', but did not make any apologies. This made me feel quite uncomfortable.
9. On Friday the 3rd of May, 2019, Luke and I travelled to Geelong to attend a football match.
10. We arrived in Geelong quite late in the night. We both had been consuming alcohol during the trip. Luke was driving for the duration of the trip. I had consumed approximately 10 cans of SOMERSBY cider and Luke had consumed approximately 5 ^{a burbon premix} cans of ~~SOMERSBY~~ cider during the trip.
11. We arrived at the Geelong Holiday Park and entered our shared cabin. The cabin contained four (4) single beds in one (1) room and one (1) double bed in another room. I slept in the room with the double bed and Luke slept in the room with the single beds.
12. Early in the morning on the 4th of May, 2019 I woke up and saw that my bed sheets had blood on them and I could smell semen. I had my period and was distressed at the sight of blood on my sheets. I immediately asked Luke if he had sex with me whilst I was passed out. Luke denied having had sexual intercourse with me and stated that he had put his fingers into my vagina.

13. I sleep with underpants on and woke with my underpants not on me properly. I found Luke's pants on the floor and saw that there was blood on them.
14. I took the sheets off of the bed, bundled them up and put them into walk in wardrobe in the room with the double bed.
15. I heard through one of Luke's friends that this instance was reported to the police and that they had collected the sheets. I do not know who would have reported this but I think it may have been the male who owns the caravan park.
16. This incident was reported in writing to the Mount Gambier Police Station via email and Tim YOUNG of Victoria Police in writing via a text message in 2019.
17. I at no time ever gave Luke permission to have sexual intercourse with me in any way.
18. I am willing to attend court in relation to this matter.

STATEMENT

Name: Marcia HOBBS

STATES:

1. My name is Marcia Anita Hobbs and I am thirty-four years old. I currently live in Yahl South Australia.
2. I first met Damian Ferrari on 12 November 2017 when John Parkinson introduced us whilst I was working for Classic Bet, at the Classic Bet tent at the Ararat races. John, myself and one other girl were working at the Classic Bet tent that day - I don't remember the other girl's name. I have given Alyx Gray a copy of a photo taken that day of me, John and the other promo girl. I didn't want to talk to the other girl or have anything to do with her because I had figured out she was involved in illegal industry. I don't have anything against prostitutes, as far as I'm concerned it's an illegal industry, but in the past I've known information about them and it's made my life complicated. Damian came to our stand and was introduced to both us girls. John introduced him as a police officer - I didn't pay much attention, as soon as I heard that he was a police officer I walked off. The other girl might've spoken to Damian but I didn't.
3. When the races finished, John insisted that we meet Damian - the chief of police. I was then uncomfortable knowing that Damian was a police officer. John, the other girl and myself waited out the back of the Turf Club but Damian didn't come. John went off to find him Damian. John came back and took us into the Turf Club, Damian was in there.
4. Both myself and the other promo girl sat beside Damian in the Ararat Turf Club to have drinks after the race - this was insisted by John. One of us sat on either side of Damian. I was to Damian's right, with William (Billy) Dickson to my left. John was standing, he didn't sit with us, he was more talking to other people. Sitting down was the other girl, Damian, me, then Billy in that order. The conversation was social, the other promotional girl took her hair down as if to finish the shift, so did I. I was sitting beside my friend Billy who drove me over to the race. Billy has photos of him being there as well. Billy took us, me and himself, home. Billy's a family friend and I live with him now.

Statement of HOBBS, Marcia

Page 1 of 11

Revised 10/13

5. We would've been at the Turf Club for at least an hour. I sat there at the table talking to Damian because I had to – John hadn't paid me yet. John always pays us on the day and I was waiting to get paid before I left. As soon as I got paid I left – I got paid in front of Billy. The other girl hadn't been paid when I left, she was still there talking to Damian.
6. Following this, whilst I was in Mt Gambier, John rang whilst I was at work at the Swimskool Keegan Street complex. This would've been around December 2017. I spoke to him in the foyer area. He asked if Damian could have my number, I said 'No.' John said 'Why?'. I said that I didn't want to go out with a policeman. I also said 'No, he's too old.' Somewhere in that conversation the age came out but I can't remember where.
7. John seemed surprised at my rejection of this phone number. When I first said no John tried to sell me on what a good bloke Damian was and that he was a high ranking police officer. When I said no again because Damian was a police officer John seemed even more surprised.
8. There was a second discussion another time when John asked me if Damian could have my phone number. We would have spoken on the phone. Looking back through my text messages with John I think we had this second phone call around March. I have sent a copy of my texts with John from this time to Alyx Gray.
9. John rang again, he wanted me to work Stawell Races. At this point a South Australian police officer had harassed myself and cancelled my licence. John rang Damian and made him aware of this. Damian offered to pick me up for the work or John asked him to pick me up I'm not sure. John arranged for Damian to pick me up – I didn't have this conversation. The Stawell Races was 1 April 2018.
10. I was uncomfortable, but needing the work, I agreed to take the ride with the police officer. The arrangement was that Damian would pick me up on the Sunday before the races, I would stay at his house on Sunday night and he would drop me home on the Monday.
11. During the week the promotion was cancelled. The Races were still going ahead but the Classic Bet Promo was cancelled. There was then some conversation between Damian and I - Damian wanted a date, which he had already been rejected twice for. I agreed to the date which was to be at the Stawell Races.

Statement of HOBBS, Marcia

Page 2 of 11

Revised 10/13

VP Form 287A

We arranged for Damian to pick me up on the Saturday. My understanding was that John was still going to be at the races.

12. Either Saturday 31 March or Sunday 1 April 2018 Damian picked me up from Mount Gambier. It was either on the Saturday after I finished work at the pool or the following morning. We drove to Damian's property first, my belongings were placed in the spare bedroom where it was discussed that I stay.
13. We proceeded to the races where we spent the whole day in the Turf Club. I sat with two of Damian's friends - one is a shearer in town, another a farmer, I can't remember their names. Damian had track duties this day, of opening the gate. As members of the Turf Club they get allocated duties as volunteers to keep the track running. Damian had to open the gate a few times that day to let the horses on to the track.
14. A young group of boys were present having a celebration in the Turf Club, one of them was dressed as a chicken. I took a photo with them, Damian got upset. It was at this point where us hanging out seemed to be progressing faster than I desired - it was a first date, we weren't in a relationship. I had agreed to the date as Damian had presented to be a decent person, despite the age gap and despite myself not wanting a relationship at the time.
15. Damian seen me having a photo with chicken boy, he expressed that he wouldn't do that and that we were different. He said it was something that he wouldn't do and it wasn't acceptable in a relationship. Damian got offended straight away. I didn't do anything wrong. It was a bit possessive.
16. I drank at a casual pace at the races. We proceeded to a sporting club near Damian's home - it's in a town between Beaufort and Ararat called Buangor. Damian drove myself, the farmer and Damian to the sporting club. When we arrived at the sporting club I was introduced to two police officers, they were both bigger than me. About six foot, not fit but not unfit. They appeared fit but didn't have bulging muscles, they appeared forties in age. They were introduced as Damian's colleagues - one winked and said hello and the other one said hello. Jodie is the waiter behind the bar - she was working that night. I had a few drinks here, Damian continued to offer me more but I felt I had consumed enough alcohol. I possibly had two drinks there, I didn't have many. The farmer was picked up by his wife and daughter. Damian then drove us home.
17. When we got back to Damian's we've gone to the loungeroom, Damian continued to drink. He poured a wine, brang that to myself and I drank that

Statement of HOBBS, Marcia

Page 3 of 11

Revised 10/13

VP Form 287A

- wine. I didn't see him prepare that drink so there could've been anything in it. I started to feel drowsy and was starting to fall asleep on the couch. It had been a long day and I had been drinking so I could've just passed out of my own accord – I can't say whether there was something in my drink or not.
18. What I wore to the races was a teddy, a jumpsuit. When we got back to Damian's I believe I changed my clothes – I can't remember what I put on.
19. Damian got up to get another wine, I can't remember whether he offered to get me one or not when he got up. He come back with the wine and brought one for me, I was nearly asleep on the couch. I didn't want a second drink.
20. I remember opening my eyes to see him standing there with the two glasses. It looked like he was leaning down to put the glasses next to the couch. Damian proceeded to make sexual advances which led to oral sex. I don't remember if he removed any of my clothing. I was not in a position to refuse and at this stage and I realised if I did so I was going to get hurt. Damian put his head between my legs and commenced oral sex. He was using his tongue and mouth to do this. He touched my clitoris, inside my vagina and outside my vagina. I don't know how long it went on for – not very long I suppose.
21. He then stood up, undid his belt, pulled his pants down. I don't reckon he took them off but I'm not sure. He took his dick out and stuck it in. The oral sex led to sexual intercourse, penis vagina. He didn't use a condom. The sexual intercourse didn't last very long. He ejaculated inside of me.
22. At this point there was no point in sleeping in separate beds. We both went to his room and slept in his bed. The next morning when we got up he made a cup of tea and was talking to me like we were in a relationship. He kept saying to me 'I'm just trying to help you.' He had said this numerous times in the lead up to and after.
23. Damian and I had conversed numerous times regarding my situation with the police. It is a three hours trip each way between Ararat and Mt Gambier and he drove me over and back. When he picked me up this weekend we spoke about my situation with the police and Damian mentioned that he had followed the Gordon Hamm investigation. I was a witness in the case of Gordon Hamm's murder. It was public knowledge that I was involved in the case in Mt Gambier where I lived but it shouldn't have been public knowledge in Victoria. It rang alarm bells for me that Damian knew about this.

Statement of HOBBS, Marcia

Page 4 of 11

Revised 10/13

VP Form 287A

24. Damian tried to tell me he loved me that weekend. He was rather adamant about this. This was after he'd done what he'd done.
25. Damian had introduced me to half his friends and I had felt very pressured about the relationship. The next day (Monday) we did a wine tour, I was further introduced to his friends as his partner. We discussed, as we drove, 'cause we drove around to a few different wineries. The last one we finished at was his friends, he had helped make the front fence to this establishment. During this period, most of the discussion was regarding police misconduct, my experiences with the police and a recent homicide, the Gordon Hamm investigation. I felt comfortable as Damian understood what I was saying, the corruption that I've witnessed being common within the ranks of police but not commonly witnessed by the public. Again, Damian reassured myself that his interests and the knowledge that he had were in my best interest, not things that he was manipulating.
26. Damian dropped me home – I can't remember if it was the Monday or Tuesday – and we were in a relationship. He dropped me off and went home – he was on leave but he had things to do at home so he didn't stay with me in Mt Gambier. The relationship continued, I expressed my discomfort about Damian being a policeman. I also talked about Damian's approach towards our relationship. I wouldn't usually engage in a relationship with somebody who takes advantage of somebody whilst drunk.
27. I wouldn't generally go out with someone in that circumstance. He expressed that he had my best interests at heart and I do understand, but not approve, of a person's infatuation with another.
28. The relationship proceeded. Damian presented that he drank every day. I don't drink every day. This proved to be an issue. Damian after drunk arguments would demand I take my pants off and engage in sexual intercourse, penis vagina. I effectively consented because I knew I would be violated if I didn't.
29. One day we had an argument at the pub, Damian was being a creep at the TV and I wanted to leave. This was in the Buangor pub. Murph was standing there and the conversation was had at Murph – Murph didn't engage with this, he didn't respond. Damian was saying derogatory things against the woman on the television. We left and I voiced my opinion in the privacy of the car as we left. Damian rang Murph up later and questioned him about the conversation. Damian continued to bully Murph with conversations stating he wasn't being

Dear Ms HOBBS,

On the 12th of September 2022, you provided correspondence to G4S detailing a list of property items you alleged were missing from or damaged during your time at the Melbourne Custody Centre (MCC) from 18-Aug-2022 to 20-Aug-2022, before your transfer to Dame Phyllis Frost Centre (DPFC).

During your formal search and upon recording your property on admission to the MCC, custody officers identified items that were not authorized within a Police Gaol in your property. These non-authorized items were removed for disposal. This included:

- Flammable liquids (e.g. perfume, alcohol, petroleum-based products, etc.)
- Sharps (needles, pins, nail clippers, tweezers, scissors, edged weapons, tools, etc.)

Based on your letter on 12 September 2022, which containing a list of items, the following items were retrieved from the disposal bins:

- 1 x pair of orange-handled dressmaking shears
- 1 x nail care set in a black pouch
- 3 x round sewing needle sets
- 1 x dressmaking pin set
- 1 x rectangular sewing needle set

If calling please ask for: Ms Noack

IN THE HIGH COURT OF AUSTRALIA
[] REGISTRY

BETWEEN:

Marcia Anita Hobbs
Appellant/Plaintiff/Applicant

and

SAPOL
Respondent/Defendant

NOTICE OF CONSTITUTIONAL MATTER

1. The *plaintiff* gives notice that this proceeding involves a matter arising out of the Constitution or involving its interpretation within the meaning of Section 78B of the *Judiciary Act* 1903.
2. Section 75(v) of the Constitution provides that the High Court shall have original jurisdiction in all matters 'in which a writ of mandamus is sought against an officer of the Commonwealth SAPOL Commissioner Grant Stevens.
3. POLICE VS Kurt Slaven Statement finalised 2018 with Kylie Hammond of SAPOL is yet to be heard in court of the state of South Australia, the sexual offence committed by SAPOL member against a minor involves matters arising under the Constitution whereby the inferior court lead by SAPOL and other police force officers has not performed its public duty involving interpretation. Under Constitutional Writ mandamus, extending to procedural fairness, it is the duty of the court not to proceed with hearings against Marcia Anita Hobbs in Any outstanding cases unless and until the court is satisfied that notice of the cause specifying the nature of the matter has been given to the Attorneys-General of the Commonwealth and of the States, and a reasonable time has elapsed since the giving of the notice for consideration by the Attorneys-General, of the question of intervention in the proceedings or removal of the cause to the High Court.

Dated 18 November 2021

make the following declaration under the *Statutory Declarations Act 1959*:

2. Set out matter declared to in numbered paragraphs

2

Rehearing AMC-21-10585

Defamatory, false statement submitted under oath 19/04/2022 by SAPOL and Constantinos David Kyriacou – ID40657 dated 20/10/2021.

{ CRIMINAL LAW CONSOLIDATION ACT 1935 - SECT 242

242—Perjury and subornation

(1) A person who makes a false statement under oath is guilty of perjury.

Maximum penalty: Imprisonment for 7 years.

(2) A person who counsels, procures, induces, aids or abets another to make a false statement under oath is guilty of subornation of perjury.

Maximum penalty: Imprisonment for 7 years.

(3) In proceedings on a charge of perjury or subornation of perjury, an apparently genuine document that appears to be a transcript of evidence given in other judicial proceedings is to be accepted as evidence—

(a) of the evidence given in those other proceedings, and

(b) where evidence appears from the transcripts to have been given by a particular person—that it was so given, and

(c) where evidence appears from the transcript to have been given under oath—that it was so given.

(4) It is not necessary for the conviction of a person for perjury or subornation of perjury that evidence of the perjury be corroborated.

(5) For the purposes of this section—

(a) "oath" includes an affirmation,

"statement" includes an interpretation by an interpreter; and

(b) a statement will be taken to be false if it is false in a material particular and—

(i) in the case of perjury—the person by whom it was made knew it to be false or did not believe it to be true, or

(ii) in the case of subornation of perjury—the person who counselled, procured, induced, aided or abetted the other person to make the statement knew it to be false or did not believe it to be true.)

Constantinos David Kyriacou initial application was emailed to myself via: marciabnoose@gmail.com on the 4th of February 2022.

From August 2021 I have been staying and residing in the Northern Territory.

The email caused me much emotional distress and I immediately forwarded to persons aware of KYRIACOU stalking myself for years while stationed in the Mount Gambier Police Station. After being Recklessly Endangered by KYRIACOU after interactions with him in 2014, I also sent much (further) information to ICAC, the courts and media regarding the conduct KYRIACOU had engaged surrounding myself since 2014 when he was stationed in Mount Gambier, Sth Aust. In communications I including information of a recent report I had made to ICAC SA against KYRIACOU – C2022-0881 regarding his 'obsession' with myself.

Constantinos David Kyriacou (known commonly as Dave amongst his peers) was involved with SAPOL police in an investigation overseen by the AFP into the homicide of Gordon Hamm. I was assisting Aaron Roche of VICPOL the lead detective in the homicide case.

I note that the false and defamatory statement submitted under oath on the 19/04/2022 states he met myself in 2015.

I have reported Constantinos David Kyriacou to ICAC and numerous other police officers including VICPOL Tim Young for inappropriate and criminal conduct since 2015.

I find KYRIACOU statement malicious and contested the order with a rehearing immediately. Relevant communication forwarded/attached.

Adjournment was granted and I was under the impression the phone appearance was granted also.

On the 19th April 2022 I was rostered a shift starting 19th April 2022 at 18:00(pm) until 20th April 2022 at 02:30(am). I find these shifts and the day to night roster very draining and I sleep most of the day preparing for night shift, waking only to answer my phone - I have a clothing retail business which also consumes my time and volunteer with various organisations.

I requested the rehearing as discussed in court 19 May 2022 due to phone, email communication misunderstanding, my location and work commitments. Seeking also as discussed in court 19 May 2022 an intervention order against Constantinos David Kyriacou.

Dear Rhys

CONDITION OF EMPLOYMENT

I am writing on behalf of your Manager, Matt Maude, as a follow-up to his recent conversation with you.

As you are now aware, your domestic partner has contacted Matt on a number of occasions and more recently contacted one of the accommodation venues Matt had booked for you and the team to reside in whilst working in and around Tumbly Bay. The communications with Matt and the accommodation venue were unfavourable, and potentially damaging to the reputation of Matt, MFT Rural, and yourself.

Rhys, in light of these events, and the potential for such events to have a negative impact on the business, you are now requested to ensure your domestic partner, Ms Marcia Hobbs must:

- 1) not visit, for any reason, the MFT Rural property at 212 Seed Shed Road, Hart;
 - 2) not stay (ie overnight, or during the day) in any accommodation premises provided (ie paid for) by Matt/MFT Rural;
 - 3) not visit any site on which Matt, you or the MFT Rural team:
 - a. is working on / operating from, or
 - b. have been working on / operating from, or
 - c. plan to be working on / operating from...
- for clarity any site working on or from includes work sites and accommodation venues.

Rhys, whilst I appreciate this may be a difficult situation for you, I do need you to understand that if such behaviours continue MFT Rural will be left with no choice but to take legal action to ensure Ms Hobbs is prevented from damaging the reputation of the business or Matt personally.

Would you please return a signed copy of this letter to confirm your understanding of the above, and that you have communicated the message to Ms Hobbs.

Yours sincerely

Signed by Trish Reaburn on behalf of
MATT MAUDE
Manager

I have read and sign below to acknowledge my understanding of the change to my conditions of employment as noted above, and that I have communicated these conditions to Ms Hobbs.

Dear Ms Hobbs

The Prime Minister, the Hon Scott Morrison MP, has asked me to thank you for your letter dated 20 March 2020 regarding a Royal Commission into SAPOL.

Looking at the issues you raise in your letter, the South Australian Government would be best placed to respond to you. To assist with that, we have referred your letter to the South Australian Premier's Office for their consideration. You can contact the Premier's Office regarding the progress of your correspondence by calling (08) 8429 3232 or emailing premier@sa.gov.au.

The Prime Minister appreciates you taking the time to write to him.

Yours sincerely

A handwritten signature in black ink, appearing to be 'M. ...', written over a horizontal line.

Ms Marcia Hobbs
Unit 7 1A Hart Street
MOUNT GAMBIER SA 5290

Dear Ms Hobbs

Cease and desist

We act for Mr Shaun McDonnell a director of McDonnell Industries Pty Ltd and McDonnell Industries Pty Ltd trading as N F McDonnell & Sons.

Mr McDonnell has provided us with a copy of the enclosed post which you posted to your Facebook page on 18 August 2020 (**Post**).

We are instructed that you have been in contact with Mr McDonnell in person and by text messages in which you have made false references to Mr McDonnell in a manuscript you have authored and published part on line called "Ugly Hero's The price of unlawful enforcement" (**Manuscript**).

McDonnell Industries Pty Ltd and Mr McDonnell vehemently deny the false statements that you have made in the post that McDonnell Industries Pty Ltd and Mr McDonnell and all directors and officers and employees of McDonnell Industries refuse to allow union officials on site to protect workers' rights, deal the drug ice to staff and were involved in the murder of Gordon Hamm.

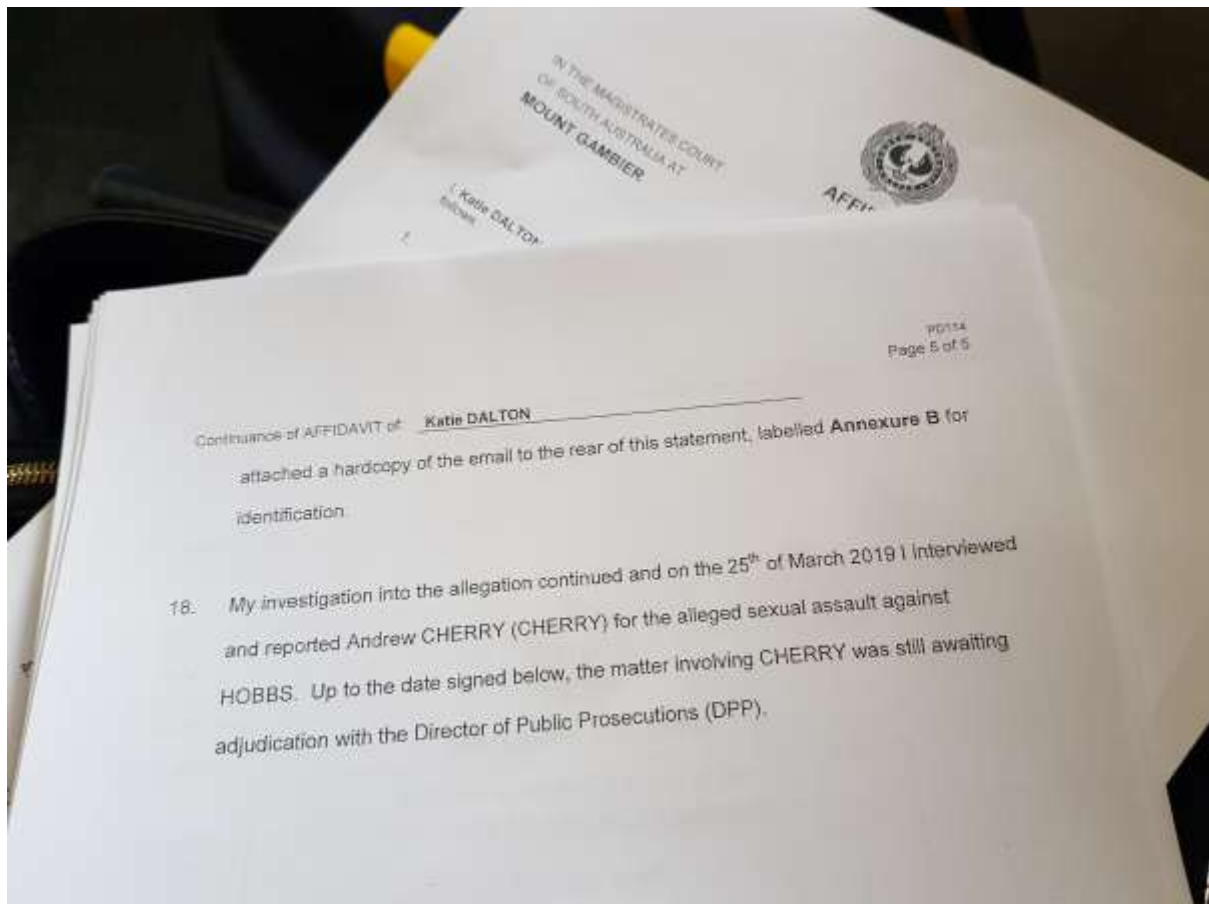

These false statements contained in the Post and the Manuscript convey defamatory imputations which have the effect of damaging the reputation of McDonnell Industries Pty Ltd and Mr McDonnell

We are instructed to demand that you cease and desist from publishing any false statements about Mr McDonnell and McDonnell Industries Pty Ltd to any person and in any media and do the following by 5pm on Friday 18 September 2020:

1. Delete the Post from your Facebook page and any other social media platforms and internet sites where it has been posted; and
2. Delete all references to Mr McDonnell in the Manuscript and on your website www.marciahobbs.com.au and any other websites controlled by you.

We put you on notice that if you fail to do the above and fail to cease and desist from publishing false statements about McDonnell Industries Pty Ltd and Mr McDonnell that we will seek out

Original report - *2014 - 33756*

This person is speaking out on behalf of justice and All Mt Gambier residents whom believe in a community of care - NOT bullying and blackmail/compromise.

Date: 10/26/2015 Time: 15:06:28 "I am a little girl - he is a trained professional dealing in criminal conduct and corruption."

HUMAN RIGHTS MATTER

JESUS' STATEMENT: "DO NOT JUDGE, OR YOU TOO WILL BE JUDGED" (MATTHEW 7:1).

As a Human Rights Activist regarding sexual violence the most disappointing fact of the matter is victims are used, abused and violated AND THEN FURTHERMORE blamed for the sex offence taking place by society. 'It is how you dress', etc. Sexual violence has very little to do with the victim and everything to do with the perpetrator.

"If you find the naked body so confronting, why are you not mortified by sexual violence?"
